mediate what?

Leave personalities behind.
Focus on achieving justice
and a win-win situation.
we must honor our duty to the global
environment at all
living things.
we as a people and as a government
must keep our word & honor our
agreements.
sets a good example too

We cant afford this

Our resources should not be
transferred to a war machine.

We must focus on crafting attempted
solutions and eventually solutions to
the global warming global THREAT.

We need to ~~learn~~ try to cooperate
instead of looking to make the
so called other side wrong, while
"proving" ~~you're~~ ^{we are} right. We do this
as individuals to each other, but our
national policies toward the outside world
is based only on competition, without cooperation.

Both are desirable
(competition & cooperation)

It takes 2 to Tango
& (two) wrongs don't make a right

Dirty Bad, Do NOT subvert voices of ^{the} People
The legislature can Intercept
an initiative petition, which would
otherwise go to the Vote of the People,
but dilute the meaning of the Ask,
e.g. #15 by ^{Jan.} 2023 could be changed
to 2033.

My dream as with my fingerprint I
can touch my touch screen TV and
votes thumbs Down on disagreeable legislation,
Detroit Budget.

How much would it cost to put

at Inception Junction

Allowing Legislature to avoid the
~~for~~ threat of a governor's veto by
gathering the number signatures
~~to~~ required to be placed as a
state wide initiative, but the
legislature passes it and though
initiative votes by the electors
cannot be vetoed by the governor;
but the peoples interest
has been subverted by people who
gather initiative signatures with
no intention of bringing this to a
vote of the people, then they can put it
to the legislature as an initiative so it
vetoproof.

BAN WAR

This country is bankrupting itself
by this war involvement!

Saul, look at the archived

City Council Planning Committee this
last Thursday. They had a presentation

from DUSD about a new ~~ext~~ bypass extension
on an intercept junction. Citizens in the low land below

complain about sewage floods into the ^{basements}, so the suburbs are
shitting on us. Let the feds pay flood relief and instead of us paying fines to feds
for sending this shit into the River.

Solution:

Install ozonation equipment, before the proposed bypass junction, and clean the water (thru ~~the~~ ozidation furthered

When they fine us 4 putting our pherous shit into the river, do we ~~fine for suburban shit?~~ ~~of bacteria & viruses~~ We are the only animal that shits in their waste.
