BACKGROUND

Pursuant to the water system and sewer system leases signed between the Great Lakes Water Authority (GLWA/Authority) and the City of Detroit, the GLWA began operations of the regional water supply and sewage disposal system on January 1, 2016. Consistent with the terms of those leases, the Authority shall, for each fiscal year fix and approve rates and charges to its customers in an amount that is expected to produce revenues sufficient to satisfy the Authority revenue requirement. The attached, proposed schedule of charges meets that requirement.

Leading up to this charge recommendation, staff presented the proposed FY 2024 and 2025 Biennial Budget and five-year financial plan for FY 2024 through 2028 and an analysis of proposed water and sewer system charges at its January 25, 2023 Board meeting. A Public Hearing was opened for the FY 2024 Water Service Charges and Sewer Service Charges on February 22, 2023.

JUSTIFICATION

Great Lakes Water Authority ("GLWA") management and its consultant, The Foster Group, developed a Schedule of Water Service Charges and Sewer Service Charges for FY 2024 including the City of Detroit Revenue Requirement for the water and sewer systems. These charges support the proposed FY 2024 water system revenue requirements budget and the proposed FY 2024 sewer system revenue requirements, respectively. The FY 2024 water and sewer revenue requirements reflect GLWA's commitment to work within the four percent revenue requirement budget limitation outlined in the September 9, 2014 Memorandum of Understanding that resulted in the establishment of the Great Lakes Water Authority. The proposed wholesale customer charges and revenue requirements for the City of Detroit are the result of significant customer engagement in the charge setting process to evaluate the appropriate allocation of revenue requirements.

Proposed FY 2024 Water Charges

The proposed FY 2024 water service charges reflect a proposed FY 2024 Water budget increase of 4.0 percent along with increased investment earnings and increased estimated sales volumes. **Therefore, the average water system charges increase will be 2.75 percent.**

Proposed FY 2024 Sewer Charges

The proposed FY 2024 sewer service charges reflect a proposed FY 2024 Sewer budget increase of 4.0 percent along with the increased investment earnings and increased estimated industrial charges. **Therefore, the average sewer system charges increase will be 2.75 percent.**

A Notice of Public Hearing was published in the Detroit Legal News on January 30, 2023. That notice, along with related supporting materials throughout the budget and charges development process, is available online at www.glwater.org/financials.

BUDGET IMPACT

The recommended FY 2024 Schedule of Water Service Charges and Sewer Service Charges as presented produces the necessary revenues to fund the FY 2024 Water System and Sewer System Budget.

Coordination with DWSD's Budget - Under the terms of the lease agreements and related financial commitments, key inputs are required from DWSD. An analysis of the DWSD budget inputs and related reconciliation based upon some of the changes above is reflected in the attached schedules.
