Good afternoon . I just read in a article in news herald downriver that melvindale water has toxic chemicals running through it . Our ground dirt is toxic . Marathon and steel plants dirty our city . We are not rich but are the ants in a rich surrounding . No one cares about us . We need some relief please help us with at least something that we might be able to control OUR HIGH WATER BILLS ARE SAD . we feel like the red headed step child . Please consider a change . Thank you DELILAH HADDOX 17840 wall melvindale. 3133196721
