# **Financial Services**

**Date:** June 22, 2022

To: Great Lakes Water Authority Audit Committee

From: Lisa L. Mancini, Financial Planning & Analysis Manager

**Re:** FY 2022 Fourth Quarter Budget Amendments through June 30, 2022, and Proposed Budget Amendment Resolution

**Background:** In accordance with the budget amendment policy, articles, and by-laws for the Great Lakes Water Authority, a quarterly budget amendment report is presented for review by the Audit Committee. When budget amendments are required at the appropriation level as defined by the corresponding fiscal year budget adoption resolution, the Audit Committee generally reviews the proposed budget amendments and forward to the Board of Directors with a recommendation. Given the timing of fourth quarter budget amendments for FY 2022, the matter is being brought to the full Board for consideration.

**Analysis:** Highlights of the FY 2022 fourth quarter budget amendments include the following.

- A. Net decrease to the Water System revenues of \$3.8 million (Table 1A)
  - \$2.5 million revenue decrease The decrease in water demand usage through the fourth quarter of FY 2022 (combined with the first quarter decrease of \$2.4 million brings the total decrease to \$4.9 million).
  - \$1.2 million revenue decrease Increase to Dearborn bad debt (combined with the amount included in the FY 2022 approved budget of \$1.2 million brings the total FY 2022 bad debt to \$2.4 million). This line item is an offset to revenue.
  - \$97,600 revenue decrease Other revenues adjustment for lead and copper testing fees and lease revenues (radio towers and easements).
  - The total revenue decrease was offset by a corresponding decrease in the Improvement & Extension Fund contribution budgeted for FY 2022.

- B. Net increase to the Sewer System revenues of \$2.3 million (Table 1B)
  - \$1.4 million revenue increase Decrease to Highland Park bad debt. This expense was originally budgeted at zero and was subsequently increased to \$5.4 million with the first and second quarter budget amendments due to nonpayment. Recently, Highland Park began making payments, which has resulted in this fourth quarter budget amendment to reduce the bad debt expense to \$4.0 million for FY 2022. This item is an offset to revenue.
  - ▶ \$0.9 million revenue increase increase to activity for pollutant surcharge.
  - \$25,000 revenue increase Other revenues adjustment for septic tank disposal fees.
  - The total revenue increase was offset by a corresponding increase in the Improvement & Extension Fund contribution budgeted for FY 2022.
- C. Construction Funds Grant Revenues (SRF Loans) (Tables 4A and 4B) The amount budgeted for the State Revolving Fund (SRF) Loans for both the water (\$9.5 million decrease) and sewer (\$4.1 million decrease) construction funds have been adjusted to reflect the timing of project design and construction activity. The result is that the close on the related SRF loans has shifted to FY 2023.
- D. Construction Funds Capital Spend Rate Adjustment (Tables 4A and 4B) The Capital Spending Ratio for the water capital improvement plan is forecasted to decrease from 100.6% to 95.0% which equates to \$10.0 million. The Capital Spending Ratio for the sewer capital improvement plan was decreased from 79.2% to 69.8% which equates to \$10.0 million. These adjustments were based on a review of the actual spend in FY 2022 based on financial records and discussion with project personnel.

The attached budget amendment report is organized in the following manner.

## 1. Appropriation Level - Revenue Requirement - Water and Sewer Systems

- A. Water System General Operating Fund
- B. Sewer System General Operating Fund
- C. Total Operating Fund Level Water System and Sewer System (Supplemental Information)
- D. Enterprise-wide Core Groups (Supplemental Information)
- E. Enterprise-wide Operations & Maintenance Account Type (Supplemental Information)

F. Unallocated Reserve by Core Group (Supplemental Information)

# 2. Appropriation Level – Debt Service – Water and Sewer Systems

- A. Water System Debt Service Coverage Calculation
- B. Sewer System Debt Service Coverage Calculation

# 3. Appropriation Level – Improvement & Extension Fund – Water and Sewer Systems

- A. Water System Improvement & Extension Fund
- B. Sewer System Improvement & Extension Fund

## 4. Appropriation Level - Construction Fund - Water and Sewer Systems

- A. Water System Construction Fund
- B. Sewer System Construction Fund

A budget amendment resolution reflecting the budget amendments is attached.

Appropriation Level – Revenue Rec	uirement – Water System General Operating Budget Amendment Explanation
Revenues	
Suburban Wholesale Customer	The change to this category is due to the decrease in water demand usage through the
Charges	fourth quarter of FY 2022.
Bad Debt	The change to this category is the result of an adjustment (increase) to the allowance for
	bad debt expense for Dearborn.
Retail Services Charges	No budget amendment is required.
Investment Earnings	No budget amendment is required.
Other Revenues	The budget amendment proposed is based on activity to date for lead and copper testing
	fees and lease payments received (radio towers and easements). This source of revenue
	fluctuates from year to year.
Revenue Requirements (Expenditur	es)
<b>Operations &amp; Maintenance Expense</b>	No budget amendment is required.
General Retirement System Legacy	No budget amendment is required. Budget and funding are on a fixed schedule.
Pension	
Debt Service	No budget amendment is required.
General Retirement System Legacy	No budget amendment is required. Budget and funding are on a fixed schedule.
Pension – Accelerated Payment	
Extraordinary Repair &	No budget amendment is required. This is a formulaic requirement in the Master Bond
Replacement Deposit	Ordinance. Based on adopted and amended budget, no adjustment is required.
Water Residential Assistance	No budget amendment is required. Budget is fixed at time of budget adoption.
Program Contribution	
Regional System Lease	No budget amendment is required. Lease payment is established in accordance with terms
	of the lease.
DWSD Budget Shortfall Pending	No budget amendment is proposed at this time.

Appropriation Level – Revenue Requirement – Water System General Operating Budget Amendment Explanation												
Improvement & Exter	ision Fund	Represents annual funding for pay-as-you-go capital improvement program. Budget										
Transfer Pending		amendments to revenues, bad debt, investment earnings, debt service, and DWSD budget										
		shortfall affect this line item.

Appropriation Level – Revenue Rec	quirement – Sewer System General Operating Budget Amendment Explanation
Revenues	
Suburban Wholesale Customer	No budget amendment is required.
Charges	
Bad Debt	The change to this category is the result of an adjustment (decrease) to the allowance for
	bad debt expense for Highland Park.
Retail Services Charges	No budget amendment is required.
Industrial Waste Control Charges	No budget amendment is required.
Pollutant Surcharges	The budget amendment proposed is for the increase to FY 2022 activity for pollutant
	surcharges.
Investment Earnings	No budget amendment is required.
Other Revenues	The budget amendment proposed is based on activity to date for septic tank disposal fees.
	This source of revenue fluctuates from year to year.
Revenue Requirements (Expenditur	es)
Operations & Maintenance Expense	No budget amendment is required.
General Retirement System Legacy	No budget amendment is required. Budget and funding are on a fixed schedule.
Pension	
Debt Service	No budget amendment is required.
General Retirement System Legacy	No budget amendment is required. Budget and funding are on a fixed schedule.
Pension – Accelerated Payment	
Extraordinary Repair &	No budget amendment is required. This is a formulaic requirement in the Master Bond
Replacement Deposit	Ordinance. Based on adopted and amended budget, no adjustment is required.
Water Residential Assistance	No budget amendment is required. Budget is fixed at time of budget adoption.
Program Contribution	

Appropriation Level – Revenue Rec	uirement – Sewer System General Operating Budget Amendment Explanation
Regional System Lease	No budget amendment is required. Lease payment is established in accordance with terms
	of the lease.
DWSD Budget Shortfall Pending	No budget amendment is proposed at this time. The 2018 Memorandum of Understanding provides guidance related to repayment to the extent that the shortfall is not cured by other means before June 30 <sup>th</sup> of the subsequent year. Communication with DWSD Management indicates that plans are cautiously optimistic that the shortfall will be cured by year-end.
Improvement & Extension Fund	Represents annual funding for pay-as-you-go capital improvement program. Budget
Transfer Pending	amendments to revenues, bad debt, investment earnings, debt service, and DWSD budget
	shortfall affect this line item.

#### Table 1C - Supplemental Information - Operating Fund Level - Water System and Sewer System

Totals may be off due to rounding.

As shown in the table above, there are no budget amendments for transfers of resources between the water and sewer funds. It is unforeseen that such an amendment would occur as each system is accounted for as a stand-alone entity. The purpose of this table is to transparently report that funds from one system do not provide budget support to the other system.

#### Table 1D - Supplemental Information - Enterprise-wide Core Groups

Totals may be off due to rounding.

A subset of the operating funds are core groups that account for A) direct cost of water operations, B) direct cost of sewer operations, C) centralized services (E.g., field services, security, information technology, facilities, and fleet), D) administrative services (E.g., finance, public affairs, general counsel, and organizational development). The costs of the latter two categories are allocated to the water and sewer systems based upon an internal cost allocation plan that is performed on an annual basis.

Through the fourth quarter FY 2022, there are no amendments that cross the core groups. For more activity within these groups, see *Supplemental Information - Enterprise-wide Operations & Maintenance Department and Account Level Amendments (Addendum 1).*

Totals may be off due to rounding.

An Unallocated Reserve account is established for each of the four core groups. Budget is assigned to these accounts to cover expenditures not known at the time the budget is developed (merit increases, fluctuations within maintenance contracts and usage of utilities and chemicals, projects and initiatives not planned at the time the initial budget was developed, etc.). It is GLWA's internal budget directive for each area, group, and team to manage their needs to an amount within the initial budget. If required, an amendment is made from the unallocated reserve. If an area does not require as much funding as was established in the original budget, that department's budgeted expenses are reduced, and the unallocated reserve is increased.

For additional information on the FY 2022 changes to the unallocated reserve, see *Supplemental Information - Enterprise-wide Operations & Maintenance Department and Account Level Amendments (Addendum 1).*

Appropriation Level - Debt Ser	vice - Water System Debt Service Coverage Calculation Budget Amendment
Explanation	
Total Debt Service	For purposes of Debt Service coverage, we look at the combined Regional and Local (DWSD) revenue less operations & maintenance (O&M) expense to determine net revenues to calculate the Debt Service Coverage. The Board adopts the Debt Service amount shown on line 15 of the Water System Debt Service Coverage Calculation table on the previous page. This is the amount necessary to pay the principal of and interest on all Regional Water System bonds and to restore any reserves therefore established in the Master Bond Ordinance.

Appropriation Level - Debt Ser	vice – Sewer System Debt Service Coverage Calculation Budget Amendment
Explanation	
Total Debt Service	For purposes of Debt Service coverage, we look at the combined Regional and Local (DWSD) revenue less operations & maintenance (O&M) expense to determine net revenues to calculate the Debt Service Coverage. The Board adopts the Debt Service amount shown on line 15 of the Sewer System Debt Service Coverage Calculation table on the previous page. This is the amount necessary to pay the principal of and interest on all Regional Sewer System bonds and to restore any reserves therefore established in the Master Bond Ordinance.

(b) Note: As outlined in the Master Bond Ordinance, the investment earnings in the I&E Fund are transferred to the Receiving Fund. The impact is to reduce revenue required from charges when calculating the annual Revenue Requirement budget.

Appropriation Level – Improvement & Extension Fund – Water System Budget Amendment Explanation								
Revenues								
Transfers In from General Operating	The proposed budget amendment is to match the amount available for transfer from the FY 2022 revenue requirement based upon general operating fund performance. (see I&E Fund Transfer Pending line on the Appropriation Level-Revenue Requirement-Water System General Operating table).							
Earnings on Investments	Had not been originally budgeted as there is a corresponding transfer of earnings back to the general operating fund as allowed by the Master Bond Ordinance. The net effect on the I&E Fund is zero as the earnings are budgeted and accounted for in the operating fund to lower revenue requirement for charges. No budget amendment is required.							
Net Use (Source) of Reserves	This amount represents the net amount of revenues less expenses. A negative amount represents an increase in reserves from current year activity rather than a use of reserves.							
Expenditures								
Water System Revenue Transfers Out (Earnings on Investments)	Had not been originally budgeted as there is a corresponding transfer of earnings back to the general operating fund as allowed by the Master Bond Ordinance (so the net effect on the I&E Fund is zero). This line offsets Earnings on Investments and represents the transfer of earnings back to the general operating fund as allowed by the Master Bond Ordinance. Any variance between the two lines represents a timing difference. No budget amendment is required.							
Capital Spending - Other	No budget amendment is required. This line represents an adjustment to the projects in the Board adopted capital improvement plan (CIP) that do not meet the criteria for debt financing.							
Capital Outlay	The proposed budget amendment reflects the decrease in spending which is primarily driven by the change in project start dates and project scope.							

Appropriation Level - Improvement & Extension Fund - Water System Budget Amendment Explanation									
Revenue Financed Capital – Transfer	The proposed budget amendment reflects the funding that is anticipated to be needed for								
to Construction Fund	Capital Projects that will be completed in FY 2022 that rely on I&E funds rather than SRF								
	funds.

Appropriation Level – Improvement & Extension Fund – Sewer System Budget Amendment Explanations										
Revenues										
Transfers In from General Operating	The proposed budget amendment is to match the amount available for transfer from th									
	FY 2022 revenue requirement based upon general operating fund performance. (see I&E									
	Fund Transfer Pending line on the Appropriation Level-Revenue Requirement-Sewer									
	System General Operating table).									
Receipt of DWSD Shortfall Loan	No budget amendment is required. This represents the interest earnings on the Note									
Interest	Receivable for the FY 2018 DWSD Sewer System Shortfall to the payment schedule. This									
	note is scheduled to be paid off by June 30, 2022.									
Earnings on Investments	Had not been originally budgeted as there is a corresponding transfer of earnings back									
	to the general operating fund as allowed by the Master Bond Ordinance. The net effect									
	on the I&E Fund is zero as the earnings are budgeted and accounted for in the operating									
	fund to lower revenue requirement for charges. No budget amendment is required.									
Net Use (Source) of Reserves	This amount represents the net amount of revenues less expenditures. A negative amount									
	represents an increase in reserves from current year activity rather than a use of reserves.									
Expenditures										
Sewer System Revenue Transfers	Had not been originally budgeted as there is a corresponding transfer of earnings back									
Out (Earnings on Investments)	to the general operating fund as allowed by the Master Bond Ordinance (so the net effect									
	on the I&E Fund is zero). This line offsets Earnings on Investments and represents the									
	transfer of earnings back to the general operating fund as allowed by the Master Bond									
	Ordinance. Any variance between the two lines represents a timing difference. No budget									
	amendment is required.									
Capital Spending – Other	No budget amendment is required. This line represents an adjustment to the projects in									
	the Board adopted capital improvement plan (CIP) that do not meet the criteria for debt									
	financing.									

Appropriation Level – Improvement & Extension Fund – Sewer System Budget Amendment Explanations									
Capital Outlay	The proposed budget amendment reflects the decrease in spending which is primarily								
	driven by the change in project start dates and project scope.								
Revenue Financed Capital – Transfer	The proposed budget amendment reflects the funding that is anticipated to be needed for								
to Construction Fund	Capital Projects that will be completed in FY 2022 that rely on I&E funds rather than SRF								
	funds.

Capital Spending Ratio	75.0%								95.0%	

Appropriation Level – Construction Fund – Water System Budget Amendment Explanations							
Revenues							
Transfers from Improvement	The proposed budget amendment is to match the amount available for transfer from the FY 2022						
& Extension Fund	Improvement & Extension Fund (see Revenue Financed Capital-Operating Transfer to						
	Construction Fund line on the Appropriation Level-Improvement & Extension Fund-Water						
	System table). The amount is primarily based on the increase in the Capital spend rate.						
Bond Proceeds	No budget amendment is required.						
Earnings on Investments	No budget amendment is required.						
Grant Revenues	State Revolving Fund (SRF) loan disbursements are on a reimbursement basis. The amount and						
(State Revolving Fund Loans)	timing of revenues fluctuates with project expenditures incurred. The proposed amendment						
	reflects the timing of project design and construction activity that shifts SRF loan closings into						
	FY 2023. Details related to the SRF projects are presented in the quarterly debt report. The most						
	recent quarterly debt report is presented in the March 2022 Audit Committee binder which						
	provides details related to the SRF funding and associated projects.						
Net Use (Source) of Reserves	No budget amendment is required. This amount represents the net amount of revenues less						
	expenditures. A "use of reserves" indicates a spend down of prior year reserves. For FY 2022						
	there are no reserves as all bond proceeds were expended during the previous year. All Capital						
	Projects are being funded either through SRF loans or I&E funds.						
Expenditures							
Capital Improvement Plan	This line represents an adjustment to the projects in the Board adopted capital improvement						
	plan (CIP) that do not meet the criteria for debt financing. This amount is reflected on the						
	'Capital Spending – Other' line on the Water Improvement & Extension Fund table.						

Appropriation Level – Construction Fund – Water System Budget Amendment Explanations										
Capital Spend Rate	The proposed budget amendment represents the decrease in the projected Capital Spend Rate									
Assumption Adjustment	for the Water CIP from 100.6% (third quarter budget amendment projection) to 95.0% (based									
	on review of actual spend for FY 2022). The Board of Directors adopts a capital spending ratio									
	assumption (SRA) which allows the realities of capital program delivery to align with the									
	financial plan. The SRA is an analytical approach to bridge the total dollar amount of projects									
	in the CIP with what can realistically be spent due to limitations beyond GLWA's control and/or									
	delayed for nonbudgetary reasons. Those limitations, whether financial or non-financial,									
	necessitate the SRA for budgetary purposes, despite the prioritization established. Amendments									
	to the spend rate assumption are made to align the projected financial use of resources with									
	revised capital improvement plan spending forecasts. The Capital Spend Rate for the Water CIP									
	was amended for the first quarter from 75.0% (projection at time of the FY 2022 budget									
	adoption) to 80.4%. No amendment was made for the second quarter. The third quarter									
	amendment increased the Capital Spend Rate to 100.6%. The most recent quarterly construction									
	work-in-progress (CWIP) report is presented in the <u>April 2022 Audit Committee binder</u> .

Appropriation Level – Construction Fund – Sewer System Budget Amendment Explanations			
Revenues			
Transfers from Improvement &	The proposed budget amendment is to match the amount available for transfer from the		
Extension Fund	FY 2022 Improvement & Extension Fund (see Revenue Financed Capital-Operating		
	Transfer to Construction Fund line on the Appropriation Level-Improvement & Extension		
	Fund-Water System table). The amount is primarily based on the increase in the Capital		
	spend rate.		
Bond Proceeds	No budget amendment is required.		
Earnings on Investments	No budget amendment is required.		
Grant Revenues	State Revolving Fund (SRF) loan disbursements are on a reimbursement basis. The		
(State Revolving Fund Loans)	amount and timing of funds fluctuates with project expenditures incurred. The proposed		
	amendment reflects the timing of project design and construction activity that shifts SRF		
	loan closings into FY 2023. Details related to the SRF projects are presented in the		
	quarterly debt report. The most recent quarterly debt report is presented in the <u>March</u>		
	2022 Audit Committee binder which provides details related to the SRF funding and		
	associated projects.		
Net Use (Source) of Reserves	No budget amendment is required. This amount represents the net amount of revenues		
	less expenditures. A "use of reserves" indicates a spend down of prior year reserves. For		
	FY 2022 there are no reserves as all bond proceeds were expended during the previous		
	year. All Capital Projects are being funded either through SRF loans or I&E funds.		
Expenditures			
Capital Improvement Plan	No budget amendment is required. This line represents an adjustment to the projects in		
	the Board adopted capital improvement plan (CIP) that do not meet the criteria for debt		
	financing. This amount is reflected on the 'Capital Spending – Other' line on the Water		
	Improvement & Extension Fund table.		

Appropriation Level – Constructio	n Fund – Sewer System Budget Amendment Explanations
Capital Spend Rate Adjustment	The proposed budget amendment represents the decrease in the projected Capital Spend
	Rate for the Sewer CIP from 79.2% (third quarter budget amendment projection) to
	69.8% (based on review of actual spend for FY 2022). The Board of Directors adopts a
	capital spending ratio assumption (SRA) which allows the realities of capital program
	delivery to align with the financial plan. The SRA is an analytical approach to bridge the
	total dollar amount of projects in the CIP with what can realistically be spent due to
	limitations beyond GLWA's control and/or delayed for nonbudgetary reasons. Those
	limitations, whether financial or non-financial, necessitate the SRA for budgetary
	purposes, despite the prioritization established. Amendments to the spend rate
	assumption are made to align the projected financial use of resources with revised capital
	improvement plan spending forecasts. The Capital Spend Rate for the Sewer CIP was
	amended for the first quarter from 75.0% (projection at time of the FY 2022 budget
	adoption) to 77.0%. The Capital Spend Rate was further adjusted to 78.0% for the second
	quarter and 79.2% for the third quarter. The most recent quarterly construction work-
	in-progress (CWIP) report is presented in the <u>April 2022 Audit Committee binder</u> .

Supplemental Information -

Enterprise-wide Operations & Maintenance Department and Account Level Amendments

The summary of budget amendments for operations & maintenance (department and account level amendments) are organized by the four core groups. The FY 2022 fourth quarter budget amendments result in a net zero change to all categories: A - Water System Operations, B - Sewer System Operations, C – Centralized Services, and D – Administrative & Other Services.

GLWA's internal budget directive is for each area, group, and team to manage their needs to an amount within the initial budget. To the extent that is not possible, an amendment is made from the unallocated reserve. If savings are incurred, or an area appears to not require as much funding as established in the original budget, that department's budgeted expenses are reduced, and the unallocated reserve is increased. In administering the budget, there are several refinements to departments and account categories. An explanation of key items is included in the table in Addendum 1.

Items greater than \$500,000 include the following (see the table on the following page).

- A Water System Operations
  - Chemicals Increase of \$0.7 million Adjustment for increase in chemical costs and estimated usage in FY 2022.
  - Personnel Decrease of \$0.5 million Adjustment of salaries & wages due to timing of filling positions.
  - Utilities Increase of \$1.2 million Adjustment of electrical and gas usage based on review of historical spend and projected FY 2022 utilization.
  - Unallocated Reserve Decrease of \$1.4 million Utilized to offset the increases primarily in chemicals and utilities.
- C Centralized Services Contractual Services Increase of \$0.7 million
  - Asset Master Plan (increase of \$0.3 million) is due to work performed in FY 2022, by CH2M Hill Engineers, which was budgeted in FY 2023. The change is due to project timing, not an increase to the scope or amount of the contract.
  - Linear System Integrity Project (LSIP) (increase of \$0.4 million) is due to further refinement of the budget based on the project timeline and scope (an adjustment was initially made during the 3<sup>rd</sup> quarter of FY 2022). This project was finalized after the FY 2022 budget had been developed.

Supplemental Information –

Enterprise-wide Operations & Maintenance Department and Account Level Amendments

The table below shows the adjustment per Expense Category for the four core groups.

Major Budget Categories and Expense Categories	Total 4th Quarter FY 2022 Amendments
A Water System Operations	-
Capital Program Allocation	482,400
Chemicals	746,800
Contractual Services	(430,800)
Personnel	(538,200)
Supplies & Other	(18,500)

#### Supplemental Information Enterprise-wide Operations & Maintenance Account Type and Department Level Amendments

Expanse Categories and Departmental Level	Total 4th Quarter	
Expense Categories and Departmental Level Amendments	FY 2022	Explanation of Key Items
Water Director	(95,900)	
Water Engineering	(375,000)	
Water Works Park	(255,800)	
Supplies & Other	(62,400)	
Adams Road Pumping Station	4,000	
CFO Services	(3,000)	
Conner Creek Combined Sewer Overflow	(115,000)	
COO - Water Operations & Field Services	215,400	
Energy, Research & Innovation	8,000	
Facility Operations	6,000	
Field Service Operations	2,000	
Fleet Operations	2,000	
Haggerty Road Pumping Station	10,000	
Hubble Southfield CSO	50,000	
Imlay Pumping Station	(20,000)	
Info Tech Business Productivity Systems	700	
Info Tech Enterprise Asset Mgmt Systems	(200,000)	
Info Technology Security & Risk	75,000	
Lake Huron Water Plant	98,700	
Leib Combined Sewer Overflow	(65,000)	
Michigan Ave Pumping Station	(5,000)	
North Service Center Pumping Station Northeast Pumping Station	(10,000) 3,000	
Northeast Water Plant	51,800	
Northwest Pumping Station	4,000	
Oakwood Pumping Station	12,000	
OD Talent Management	1,000	
Office of the CIO	33,500	
Procurement Director	1,400	
Public Affairs	(60,000)	
Puritan Fenkell Combined Sewer Overflow	(10,000)	
Southwest Water Plant	(144,900)	
Springwells Water Plant	(33,800)	
Systems Operations Control	74,500	
Wastewater Dewatering Process	(35,000)	
Wastewater Incineration Process	(35,000)	
Wastewater Primary Process	220,000	
Wastewater Process Control	(10,000)	
Water Director	(25,500)	
Water Engineering	12,400	
Water Quality	(19,400)	
Water Works Park	(116,200)	
West Service Center Pumping Station	(30,000)	
Wick Road Pumping Station	(10,000)	
Unallocated Reserve	(1,920,700)	
Administrative Services Unallocated Reserves Centralized Services Unallocated Reserves	(241,700) (282,000)	
Water System Operations Unallocated Reserves		Unallocated Reserve was used for the refinement of various account categories within the Water Operations
water system Operations Unallocated Reserves	(1,397,000)	area, primarily Chemicals and Utilities.
Utilities	1,138,800	
Conner Pumping Station	(83,500)	
Fairview Pumping Station	3,000	
Freud Pumping Station	64,000	
Haggerty Road Pumping Station	2,000	
Joy Road Pumping Station	142,000	
Lake Huron Water Plant	38,300	
Northeast Water Plant	(263,400)	
Rochester Pumping Station	4,000	
Schoolcraft Pumping Station Southwest Water Plant	4,000 362,900	
	809,900	
Springwells Water Plant	809,900	Budget added for electrical and gas usage based on review of historical spend and projected FY 2022 utilization.
Water Works Park	50,600	
West Service Center Pumping Station	1,000	
Wick Road Pumping Station	2,000	
Ypsilanti Pumping Station	2,000
