sovereigns "the creditors" credit and all services restored immediately with all full benefits without interruption.

notice and warning to utility companies

notice & warning to all/every utility companies for embezzlement, theft by deception &
extortion failing to discharge all debts pursuant to 73rd congress. sess 1. chs. 48
49. june 5, 6, 1933 hjr 192, hr 1491, public law 1 48, stat 1 public law 10 chapter 48, stat
112 public law 73-10 40, stat 411 trading with the enemy act (twea) oct 6, 1917 but not
limited to: since house joint resolution 192 (hjr 192) (public law 7310) was passed in 1933
we have only had debt, because all property and gold was seized by the government as
collateral in the bankruptcy of the united states. **in 1863 the first bank act was passed.**
the office of the comptroller of the currency (or occ) is a us federal agency established
by the national currency act of 1863 and serves to charter, regulate, and supervise
all national banks and federal branches and agencies of foreign banks in the united
states. the occ was created by abraham lincoln to fund the american civil war but was later
transformed into a regulatory agency to instill confidence in the national banking system
and protect consumers from misleading business practices. the lieber code or general order
100 was also created by abraham lincoln in 1863. the national bank act (ch. 58, 12 stat.
665, february 25, 1863) was a united states federal law that established a system of
national charters for banks, the united states national banks. it encouraged the
development of a national currency based on bank holdings of u.s. treasury securities, the
so-called national bank notes. it also established the office of the comptroller of the
currency (occ) as part of the department of the treasury. this was to establish a national
security holding body for the existence of the monetary policy of the state. the act, together
with abraham lincoln's issuance of "greenbacks", raised money for the federal
government in the american civil war by enticing banks to buy federal bonds and taxing
state bank issued currency out of existence. the law proved defective and was replaced by
the national bank act of 1864. the money was used to fund the union army in the fight
against the confederacy. this authorized the occ to examine and regulate nationally-
chartered banks. **the above only partially begins to include the historical records and**
other acts of congress that proves the us bankruptcy of 1933 and that there is no

money, only credit that the american people are the creditors. all utility companies knowingly have been sending their (customers) dividends but, in fact, making each recipient believe that dividend was an invoice for services provided by the utility companies. also, the executives/owners of the utility company print the first invoice/dividend statement to modify for themselves. the utilities companies have mailed through the us mail an intentional misrepresentation of facts, unfair business practices, and each utility company and agents thereof have knowingly with forethought and malice created a fraudulent debt, defrauding the creditor, that is the recipient of said dividends, that the utility companies lead the recipient to believe through deception is an invoice. the utility companies in turn then extract through extortionate measures payment from the customers instead of the utility companies informing those same recipients that this dividend is in actuality payment to the recipient as a charged-off debt pursuant to the incorporated in entirety documented evidence provided herein. **all utility companies have thus created a convertible and fraudulent debt.** (see analysis of a country embezzled). every/all utility company have failed to pay off any of the public debt but rather unlawfully redirected ill-gotten gains into private corporate accounts through embezzlement, theft by deception, fraudulent conversion, and in violation to each all incorporated in entirety laws established through and as a result of the us bankruptcy of 1933, wherein there is no money, only "bank notes" which are but only a promise to pay. thus all debts are to be discharged as agreed, but the utilities companies (and banks) through their greed have not discharged any debt, fraudulently making the utility customer deeper in debt by companies use of "bank notes" or "promissory notes" that the utility companies add to the public debt side of the books rather than discharging the debts as stipulated in public laws, house resolutions, and house joint resolutions.

additionally, the alleged invoices sent to every recipient is a dividend an/or a coupon to the recipient. the utility companies all know this to be a fact. the comptroller of the currency also knows all of the above to be irrefutable facts but is acting as a money laundering agency by/for/through the privately owned federal reserve, in all (50) fifty states of the unions, et al. the comptroller of the currency at county, state, and federal level all know the incorporated documents and testimony to be true, but have yet to discharge any of the public debt, therefore have misappropriated funds through embezzlement, theft by deception, obtaining money through false pretenses, extortion and other predicate acts since the date of comptroller of the currency inception of 1863. all utility companies, which are private for-profit corporations, regardless of location, are knowingly participating in the fraud and ponzi scheme with the intent to fraudulently convert this and every other country's wealth into private industry accounts by fraudulent conveyance, embezzlement, theft by deception, creating fraudulent debts, ponzi scheme and fraud through the us mail, just for starters. every judge and every attorney in america, especially those who hold positions with several direct connections into the utilities companies bank accounts and acting as attorneys for the banks, most presumably in all other countries as well, since they all get their instructions from england the same place that all the banks get their instructions through the comptroller of the currency headquarters in london england, each knowing the above and incorporated to be true, since they are well versed on the us bankruptcy of 1933 and that america still remains to date in a state of emergency and operates under english law, though that also is supposed to be a well-kept secret. this means there "is no money." it further means that since there is no money american's signatures are used as the credit to run this country. that, in turn, means that it is the american people who are the creditors, not the debtors, as the banks and utility companies would like everyone to believe. the utility companies have been operating with this knowledge with intent, forethought, and malice to commit the crimes mentioned herein but not limited to. due to the facts incorporated herein in entirety, all debts are to be charged off, including but not limited to every alleged

utilities invoice, which each/all have actually been a dividend, for which every utility company embezzled payment through fraud, using extortion and other threats to discontinue service if "payment is not made." these alleged invoices were dividends that every utility company using deceptive business practice lead the public to believe were debts owed, when it is a fact that it is the utility companies who owe the american public all those fraudulently received ill-gotten gains plus the interest, stocks, bonds and other proceeds derived therefrom. all utility companies are now put on notice that all debts are to be charged off pursuant to the stipulated and incorporated herein acts et al.
