

July 2021 Member Outreach Requests

There were no requests to the GLWA Administration for the month of July. Attached is the executive summary from each work group meeting held in June that highlight the topics covered and the action items that stemmed from the meeting.

EXECUTIVE SUMMARY

Regional Collaboration Group

16 Participants

July 8, 2021

MEETING TOPICS:

- Long Term Control Plan (LTCP)
 - Green stormwater infrastructure (GSI) design conditions
 - Deep dive into neural network/CHRS nodes approach for model
 - ***In light of the June 25-26 rain event, the topic of climate change design conditions was tabled for discussion at a later date.*

REQUESTS TO GLWA ADMINISTRATION:

- None.

DECISIONS:

- None.

ACTION ITEMS:

- LimnoTech will share the list of parameters that will be used to cluster data for the neural network model calibration with members.

EXECUTIVE SUMMARY

Watershed Hub Work Group

13 Participants

July 13, 2021

MEETING TOPICS:

- Michigan Department of Environment, Great Lakes, and Energy's (EGLE) new collection system permit and other updates
- Early stakeholder communication regarding the investigational grab sampling program that is under development
- Planning for August 26, 2021, Stakeholder Webinar
- 2022 vision for Watershed Hub Work Group Meetings

REQUESTS TO GLWA ADMINISTRATION:

- None.

DECISIONS:

- High-level regional efforts and next steps related to flooding should be a central topic for the Stakeholder Webinar.
- Based on Work Group feedback, in 2022 there is a preference for approximately 50-75% of Work Group meetings to take place virtual-only, with no in-person component.
- Participation in the Work Group will not be expanded for at least another year to allow the group focused time to fulfill its Year 2 goals; stakeholder webinars may be held more frequently to ensure adequate opportunity for broader engagement.

ACTION ITEMS:

- Phil will email the draft permit to the Work Group for feedback.
- Phil will have a map created of the 500 systems that will be covered by the new permit, which will indicate what regional plant each system is tributary to.
- Jeff will email to the Work Group the Regional Stormwater Standards Coordination Committee's (RSSCC) presentation on extreme flood conveyance standards to consider sharing at the Stakeholder Webinar.
- Brittany will revise the draft Stakeholder Webinar agenda to reflect the feedback provided by the Work Group.

EXECUTIVE SUMMARY

Water Analytical Work Group (AWG)

60 Participants

July 20, 2021

MEETING TOPIC:

- Updates and Announcements:
 - Satellite Leak Detection Pilot
 - AURA GIS-based Smart Water Tool Webinar
 - Non-Revenue Water Benchmarking Workshop on August 18, 2021
- Units of Service & System Water Audit Update
 - Retail vs. Wholesale Comparison Analysis Results
 - Master Metering of Non-Master Metered Communities
 - Virtual Zones Update
- Spotlight on Energy from GLWA's Energy Manager

REQUESTS TO GLWA ADMINISTRATION:

- None.

DECISIONS:

- None.

ACTION ITEMS:

- None.

EXECUTIVE SUMMARY

Capital Improvement Plan (CIP) Work Group

45 Participants

July 27, 2021

MEETING TOPIC:

- Introduction of Dima El-Gamal, PE, PhD, LEED AP, New CIP Director
- FY2023-FY2027 CIP Development, Capital Improvement Program Updates and Impacts
- Annual Procurement Report and Business Inclusion and Diversity (B.I.D.) Program Updates
- Vendor Outreach Updates

REQUESTS TO GLWA ADMINISTRATION:

- None.

DECISIONS:

- None.

ACTION ITEMS:

- None.
