Note: This presentation was presented prior to Board action and does not reflect Board approval of the final budget and charges that support the action to reduce the water average system charges to 5.9%

# Public Hearing and Review of Revised, Proposed Budget and Charges

Board Meeting February 26, 2025

# Developing **Annual** Charges and Biennial Budget is a **Public Process that Spans Six Months**

#### **Overall Budget & Charges Timing**

- ♦ Tuesday, September 10, 2024 Capital Planning Committee –CIP Spend Update
- Monday, September 30, 2024 Internal Deadline for Operations & Maintenance Cost Center Budget Request
- ♦ Wednesday, October 9, 2024 Board of Directors Workshop Meeting
  - Economic Outlook Task Force Update
  - Budget and Charges Briefing
- Tuesday, October 15, 2024 Capital Planning Committee CIP Version 1.0
- ♦ Thursday, October 17, 2024 Charges Rollout #1 CIP Version 1.0
- Tuesday, November 12, 2024 Charges Rollout #2 Units of Service
- Thursday, November 30, 2024 Pencils Down to Compile Proposed Materials
- Tuesday, December 10, 2024 Capital Planning Committee CIP Version 2.0
  - Monday, January 6, 2025 Audit Committee Proposed Budget and Charges Strategy
  - Thursday, January 9, 2025 Charges Rollout #3 Proposed Charges and Introduction of Proposed Budget
  - Monday, January 13, 2025 through Wednesday, January 15, 2025 Member Partner One-on-One Meetings
  - ♦ Thursday, January 16, 2025 Charges Rollout #4 Feedback on Charges and Further Review of Proposed Budget
  - ♦ Wednesday, January 22, 2025 Board Meeting Presentations
    - ♦ Proposed FY 2026 and 2027 Biennial Budget (Revenue Requirement) and Five-Year
- Friday, January 24, 2025 (date may change) Audit Committee Continued Review of Proposed Budget and Charges
- Based on Contract, Monday, January 27, 2025 Mail Notice to Member Partners of Public Hearing to be held on February 26, 2025
- ♦ Wednesday, February 26, 2025 Board Meeting
  - ♦ Public Hearing FY 2026 & FY 2027 Biennial Budget
  - ♦ Public Hearing FY 2026 Schedule of Revenues and Charges
  - Proposed Adoption of FY 2026 & FY 2027 Biennial Budget (subject to public comment)
  - Proposed Approval of the FY 2026 Schedule of Revenues and Charges (subject to public comment)
  - ♦ Proposed Approval of FY 2026–2030 Capital Improvement Plan
- Monday, July 1, 2025 Effective date of budget, charges, and capital plan

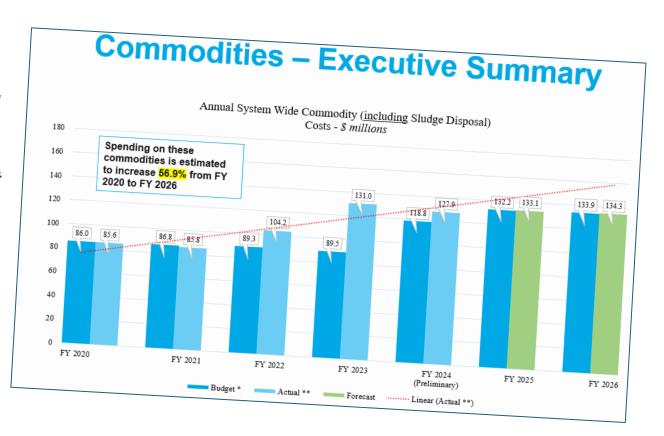

οn

### FY 2026 - A Year of Rebalancing

The 4% promise, ending with FY 2025, required that annual budget increase be no more than 4%.

| Average System Ch | arge Adj      | ustn     | nents |
|-------------------|---------------|----------|-------|
| Average System Cr | Metor         | Se       | ewer  |
| Year              | Water<br>1.8% | -(       | ).7%  |
| 2018              | 1.8%          | 1        | ).1%  |
| 2019              | 0.6%          | +        | 0.8%  |
| 2020              | 3.2%          | +        | 2.0%  |
| 2021              | 1.5%          | $\top$   | -0.6% |
| 2022              | 3.7%          | $\top$   | 2.4%  |
| 2023              | 2.75%         |          | 2.75% |
| 2024              | 3.25%         | 1        | 3.0%  |
| 2025              | _             |          | 4.5%  |
| 2026 Final        | 6.5%          | <b>6</b> |       |
| Proposed          | 2.8           | %        | 1.6%  |
| 9-Year Average    | ge            |          |       |

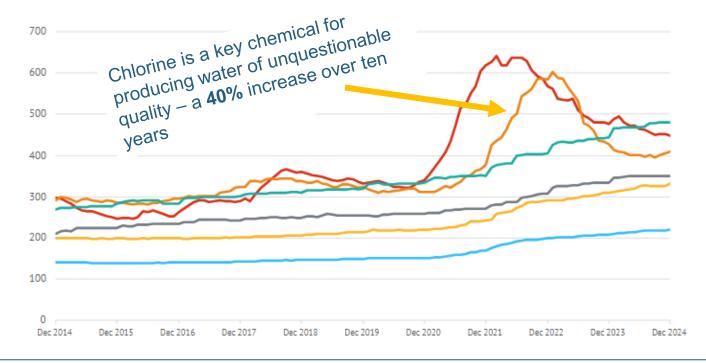

Good intentions, but no one could have foreseen extreme economic impact of a worldwide pandemic.

# Increases Slowing, But Impact is Long Lasting

| Percent Change                  | 10YR | 5YR | 1YR |
|---------------------------------|------|-----|-----|
| Iron and Steel Pipes and Tubes  | 51%  | 35% | -6% |
| Chlorine                        | 40%  | 27% | -4% |
| Aggregates                      | 78%  | 51% | 8%  |
| Cement                          | 66%  | 37% | 4%  |
| Electrical Switch<br>Gear/Board | 67%  | 55% | 7%  |
| Elect Equipment                 | 56%  | 47% | 5%  |

#### **Budget & Charges – Recent Updates**

Significant decrease in proposed charge increase despite material increase in cost pressure – by smoothing out (lowering) economic impact over time.

## Water Updated Preliminary Ten-Year Forecast

- The updated forecast smooths out the budget adjustment in future years.
- ◆ The change to yearly new money bonds results in decreased interest expense which allowed the decrease in the reduction of future budget adjustments and provides funds for increased paygo financing.
- Although not at our preferred target of a 1.80 DSC by FY 2035 it does result in a DSC of 1.60.

## Why the Long-Term Lens is So Important

August 2022 120-inch Water Transmission Main Break

November 2021 14 Mile Main Break

The region's infrastructure is aging and, unfortunately, dependent on fees paid by the end consumer (not taxes and almost no grants)

Proactive options are available, but also costly - so progress is slower to keep charges lower

February 2025

54-inch Water Transmission Main in Southwest Detroit

August 2023
GLWA 96-inch Water Main
Relocation Project

#### Historical Average System Charge Adjustments

- GLWA's charge adjustments though 2025 have lagged behind inflation.
- GLWA has had significant cost increases in utilities and chemicals since 2022.
- ♦ A tight labor market and regional economy resulted in increased personnel costs in 2024 and 2025 to attract and retain team members.
- The bond refunding tranactions have significantly helped in keeping charges lower.
- ◆ Investment earnings offset increasing O&M expenses in 2023 and 2024. Charge increases will need to offset the reduction of investment income in 2026 due to changing market conditions.

# **End of Public Hearing Presentation**

# Review and Updated of Proposed Budget and Charges

Board Meeting February 26, 2025

#### **Report Order**

- **♦** Updates Since January 6, 2025 Draft
- ◆ Trend Analysis Past, Present, Future
  - Revenue Requirement Categories
  - 0&M Categories
- ◆ Economic Outlook Task Force Report– Quarter ended December 2024
- Debt Management
  - Annual Review of Credit Metrics in Alignment with Long-Term Plan
- Other Key Charts, Analysis, & Commentary

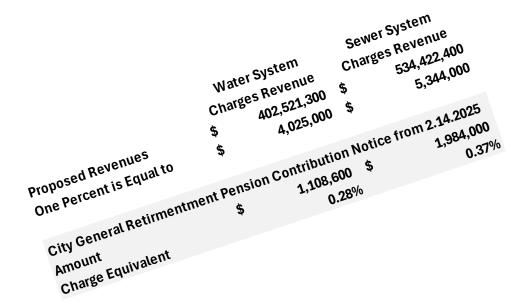

# **Updates Since January 6, 2025 Budget & Charges Propsals**

#### Alternative Budget / Charge Scenario

- Water System Charges
  - Decrease **average system charge** from 7.73% to <u>6.50%</u>
  - **♦** Decrease **across the board charge adjustment** for most from 7.38% to 6.24%
  - Decrease in total **revenue requirements** from 7.5% to 6.72%
- Sewer System Charges
  - Decrease **average system charge** from 5.39% to <u>4.5%</u>
  - Decrease **across the board adjustment** for most from 5.34% to 4.3%
  - Decrease in total **revenue requirements** from 5.5% to 4.67%

# 2.14.2025 Unexpected Pension Payment Increase

FY 2026 Preliminary Update of Pension Payment

Budget Impact

<u>Proposed Budget Today:</u> Preliminary Based on 6/30/2023 Actuarial (\$2.3 million contribution funded from administrative costs credit)

\$0

<u>TBD:</u> Preliminary Update, 6/30/2024 as of 2.14.2025 (after utilizing full administrative costs credit to reduce material increase in liability)

4,399,100

#### **How Was This Accomplished?**

- Water System
  - Debt Service Assumptions-Reduction of Interest Expense
    - ♦ Changed bond issue date from April 1<sup>st</sup> to June 1<sup>st</sup> for expected 2026 new money bonds resulting in 2 months less interest expense
    - ♠ Reduced size of FY 2025 new money bond issue based on projected Capital Improvement Plan (CIP) spending for FY 2025
    - Reduced size of FY 2026 new money bond issue with new debt strategy of annual debt issues rather than every other year
  - GRS pension payment increased \$1.1 million based on recent actuarial report
  - ♦ Investment earnings, WRAP, ER&R deposit, working capital requirement and I&E transfers are formula driven and changed as a result of the changes noted above

#### **How Was This Accomplished?**

- Sewer System
  - Debt Service Assumptions-Reduction of Interest Expense
    - ♦ Changed issue date from April 1<sup>st</sup> to June 1<sup>st</sup> for expected 2026 new money bonds resulting in 2 months less interest expense
    - Reduced size of FY 2026 new money bond issue with new debt strategy of annual debt issues
  - Cost Reductions and Realignment Operations and maintenance cost reductions of \$6 million
  - ♦ GRS pension payment increased \$1.5 million based on recent actuarial report
  - ◆ Investment earnings, WRAP, ER&R deposit and I&E transfers are formula driven and changed as a result of the changes noted above

### Water Updated Preliminary Ten-Year Forecast

- The updated forecast smooths out the budget adjustment in future years.
- ◆ The change to yearly new money bonds results in decreased interest expense which allowed the decrease in the reduction of future budget adjustments and provides funds for increased paygo financing.
- Although not at our preferred target of a 1.80 DSC by FY 2035 it does result in a DSC of 1.60.

Chart includes DWSD financial data to compute the debt service coverage rating agencies look at when assigning credit ratings

### **Sewer Updated Preliminary Ten-Year Forecast**

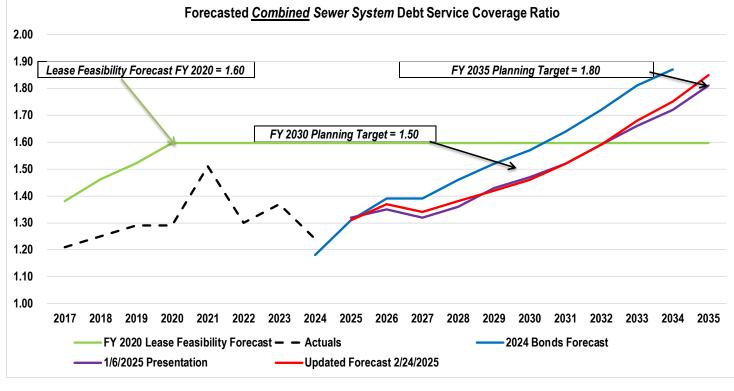

- The updated forecast smooths out the budget adjustment in future years.
- The change to yearly new money bonds results in decreased interest expense which allowed the decrease in the reduction of future budget adjustments and provides funds for increased paygo financing.
- Reaches our target of a 1.80 DSC by FY 2035.

## **Debt Management**

### CIP DELIVERY: CIP PLAN PAST PERFORMANCE HIGHLIGHTS

**Technical Commentary on FY 2024 CIP vs. Actual Spend -** The primary reason for the underspending in FY 2024 was to achieve a cost savings in for the CIP # 122004 – 96" Water Main Relocation. In September 2023, the Board of Directors approved the termination of a Construction Manager at Risk (CMAR) contract to pivot to a significantly more cost-effective Design-Bid-Build delivery methods. The impact of negotiating and implementing this approach was a deferral of spend from FY 2024 to FY 2025.

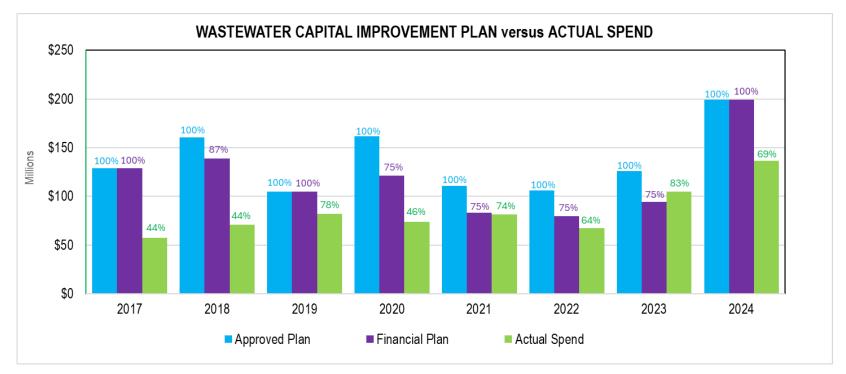

#### FY 2017 thru FY 2024 Budget Analysis

- Actual Spend exceeded the Financial Plan three out of the past five years since introduction AECOM and expanded CIP delivery team
- Improvement & Extension Funds (a/k/a paygo funding) is one resource that is leveraged to continue capital delivery progress when the actual spend approaches the financial plan ceiling
- Engagement of AECOM in 2019 provided engineering services and retooled capital delivery to increase spending – the progress shown in this chart demonstrates that desired outcome
- Due to significantly increased financial constraints, the I&E Funding has been scaled back; the CIP delivery team will provide increased controls on spending to in the future to ensure that spending stays within the financial plan
- The CIP and Financial Plan are dynamic; under- and over-spend are rolled forward and impact future years' budget and charges

#### WASTEWATER CIP DELIVERY: CSR-PAST PERFORMANCE

**Technical Commentary on FY 2024 CIP vs. Actual Spend –** examples for reasons for the underspending in FY 2024: **1)** CIP # 232002 – Connor Creek Pump Station Improvements. The Board of Directors awarded a contract for approximately \$139 million on February 28, 2024. Due to the magnitude of this project, additional time was incurred in bid evaluation and contract negotiation. **2)** CIP #212008 WRRF Aeration Improvements 1 and 2 bids were \$125 million higher than engineers estimate. Value engineering took about nine months, and the award was delayed. No significant spending was realized in FY 24. **3)** CIP #211006-WRRF PS 1 - Project was delayed by SRF funding being provided for the project and thus the original start date and all associated elements were delayed by approximately 7 months. SRF funding provided access to low interest loan and approximately \$10M in principle forgiveness. The underspending in FY 2024 results in a deferral of spending to subsequent years.

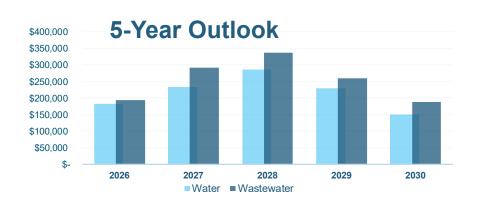

#### FY 2017 thru FY 2024 Budget Analysis

- Actual Spend equaled or exceeded the Financial Plan two out of the past five years since introduction AECOM and expanded CIP delivery team
- Improvement & Extension Funds (a/k/a paygo funding) is one resource that is leveraged to continue capital delivery progress when the actual spend approaches the financial plan ceiling
- Engagement of AECOM in 2019 provided engineering services and retooled capital delivery to increase spending – the progress shown in this chart demonstrates that desired outcome
- Due to significantly increased financial constraints, the I&E Funding has been scaled back; the CIP delivery team will provide increased controls on spending to in the future to ensure that spending stays within the financial plan
- The CIP and Financial Plan are dynamic; under- and over-spend are rolled forward and impact future years' budget and charges

### FY 2026 - 2030 DISCUSSION DRAFT 2 - CIP AT A GLANCE

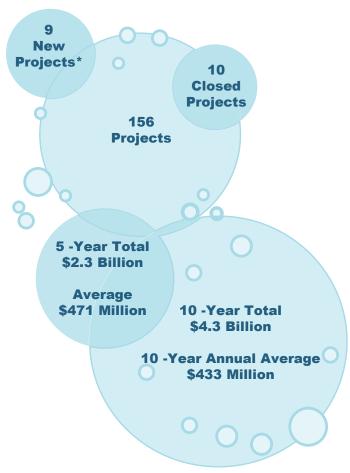

Financial figures in \$1,000s and rounded

| WATER           |             |
|-----------------|-------------|
| 5-Year Total    | \$1,083,229 |
| 5-Year Average  | \$216,646   |
| 10-Year Total   | \$2,216,920 |
| 10-Year Average | \$221,692,  |

| WASTEWATER      |             |
|-----------------|-------------|
| E Voor Total    | ¢4 274 602  |
| 5-Year Total    | \$1,271,603 |
| 5-Year Average  | \$254,321   |
| 10-Year Total   | \$2,112,834 |
|                 |             |
| 10-Year Average | \$211,283   |

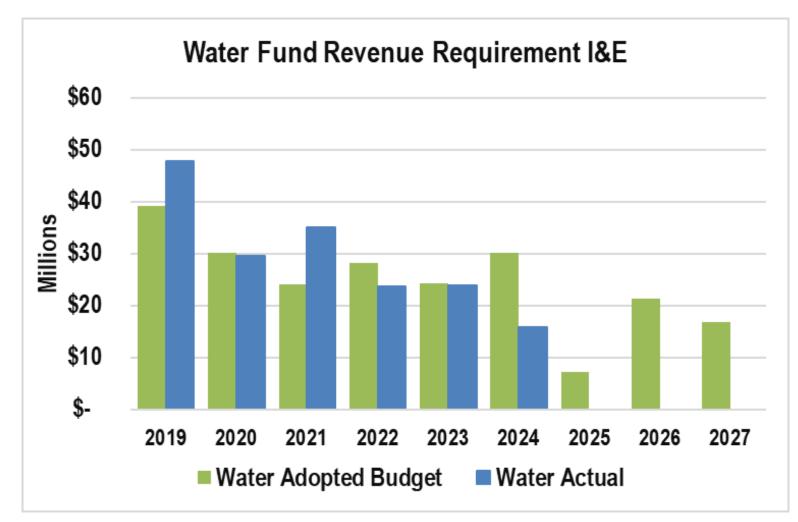

<sup>\*</sup> Based on Sep 30, 2024, actuals and PM cost and schedule updates as of Nov 15, 2024

\*5 NEW PROJECTS FROM PROGRAMS

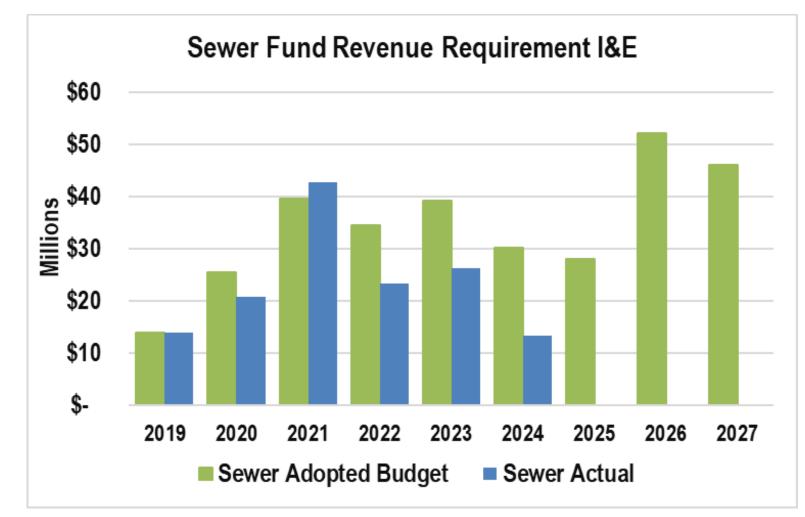

### Water Fund PAYGO Capital Financing

- ♦ Average annual CIP forecast = \$221 million over 10 years
- Minimum annual Paygo set aside for large utility= 20% of CIP
- ◆ Annual I&E (Paygo) Contribution should be \$44 million for GLWA
- ♦ GLWA FY 2026 Budget = \$21.3 million

### Sewer Fund PAYGO Capital Financing

- ♦ Average annual CIP forecast = \$211 million over 10 years
- Minimum annual Paygo set aside for large utility = 20% of CIP
- Annual I&E (Paygo)
   Contribution should be \$42.2 million for GLWA
- GLWA FY 2026 Budget = \$52 million
  - Recent five year average of \$25 million (FY 2020 – FY2024)

## **Special Charges Topics**

### **Charges Topics**

◆Methodology: No methodology changes or shares updates this year. Changes in charges are driven by economic reality.

◆ Across-the-Board Adjustments: Since there was no methodology change this year, nearly every Member Partner received the same charge adjustment.

- ◆ The increase in O&M expense has reduced the amount of funds available for PAYGO capital financing resulting in increased debt financing to fund capital improvements.
- This is the main reason for the increase in debt service.

- ◆ The increase in 0&M expense has reduced the amount of funds available for PAYGO capital financing resulting in increased debt financing to fund capital improvements.
- ◆ The large increase in FY 2027 in debt service is a combination of an increase in the principal payment requirement on existing debt as well as and increase in the debt balance

### **Trend Analysis – O&M Personnel**

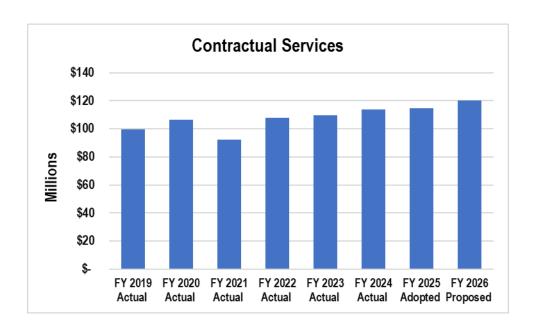

FY 2025 Positions filled at year end as of 1/24/2025.

- Budget is based on full-time equivalents (FTEs).
- See supplemental analysis in PDF Files
  - Personnel Rollforward with Notes (landscape)
  - ◆ Personnel by Cost Center (landscape 11 x 17)

### **Trend Analysis – O&M Contractual Services**

- ◆ The contract with the New England Fertilizer Company (NEFCO) to operate the Biosolids Dryer Facility is subject to adjustments annually based on the Consumer Price Index for Detroit
- Water plants require removal of accumulated sludge, which is a byproduct of the treatment process on a regular basis
  - ◆ The cost per ton removed has increased significantly due to inflation and enhanced processes

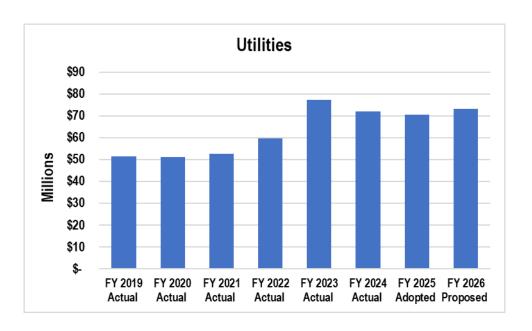

# Trend Analysis – O&M Contractual Services (continued)

- ♦ Safeguarding of the Information Technology infrastructure through remote storage and backup protecting against external threats and interruptions
- ◆ Staff augmentation in various technical and operational areas to supplement our team members to achieve targeted goals in maintenance and infrastructure support
- ♦ In FY 2026 sewer linear asset integrity was increased as part of wastewater conveyance
- ♠ Risk Management insurance premiums increased to reflect the estimated annual change in policy agreements

### **Trend Analysis – O&M Utilities**

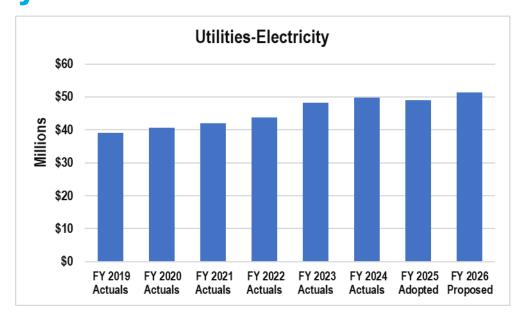

- ◆The following slides provide analysis by category of utilities
  - Electricity
  - Natural Gas
  - Water
  - Sewage
- Like many other cost categories, utilities are non-discretionary.

## Trend Analysis – O&M Utilities Electricity

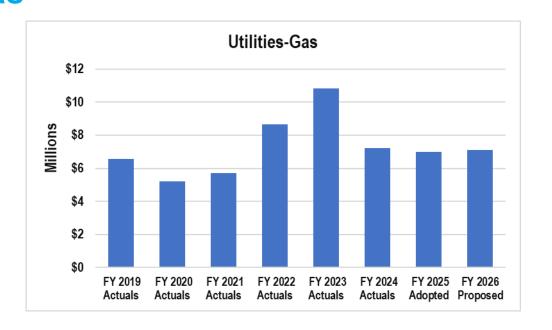

- ♦ Water Operations electrical usage is primarily associated with water distribution
- ◆ Peak production season (summer) results in higher electrical usage at the Water Treatment Plants (WTPs) and Pump Stations (Treated Water Transmission System)
- ♦ Wastewater electrical usage is more consistent than the water system
- ♦ Cost per kWh has steadily increased since FY 2020

## Trend Analysis – O&M Utilities Natural Gas

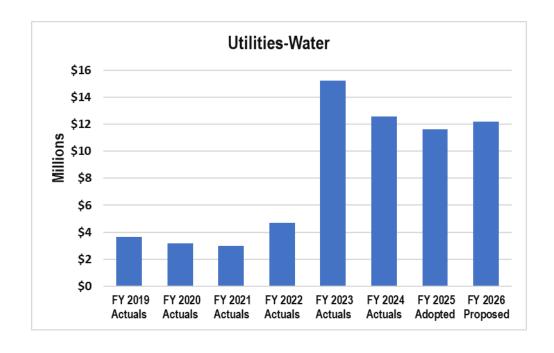

- ♦ GLWA has negotiated and locked in gas pricing for fixed periods (1 – 2 years), minimizing the effect of market volatility
- ♦ 80% of anticipated volume for FY 2025 has been locked in at an average rate of \$3.00 per mmBTU, \$.04 lower than the rate locked in for FY 2024
- ♠ GLWA can effectively estimate anticipated annual volume due to the majority of usage being process driven and consistent year over year

## Trend Analysis – O&M Utilities Water

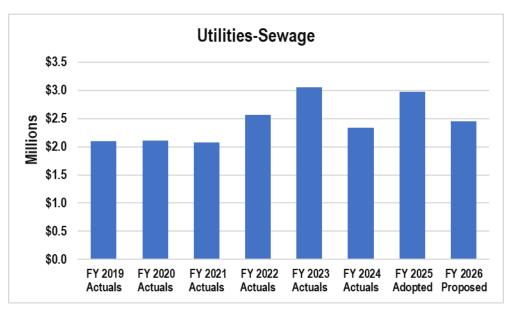

- ♠ Meters have been replaced at the Chlorination/De-chlorination facility and WRRF to ensure correct reads and billing working with DWSD to resolve metering issues for all facilities serviced
- ◆ The meter replacement resulted in more accurate readings & billing, primarily at the Water Resource Recovery Facility
- ♦ In August 2022 the average unit cost (\$/CCF) increased from \$2.66 to \$4.491 resulting in a monthly increase of approximate \$350,000 (\$4.2M annually)

# Trend Analysis – O&M Utilities Sewage

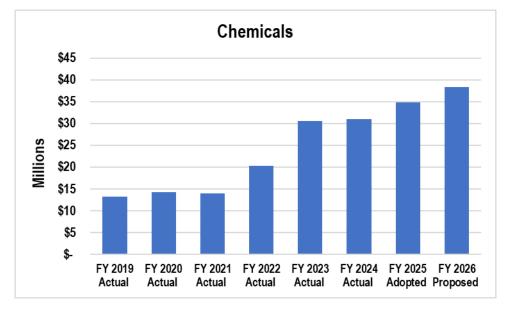

- Sewage costs are primarily driven by water usage volume, for treatment
- ♠ Resolution of a significant water leak at the Oakwood CSO facility forecast a reduction in sewer costs tied to water volume

### **Trend Analysis – O&M Chemicals**

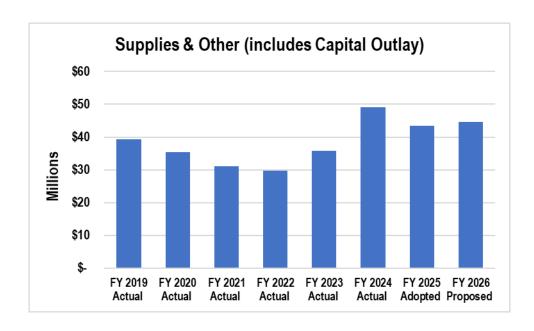

- ♠ Expenditures for chemicals were historically stable through FY 2021. Beginning in FY 2022 and FY 2023 costs increased significantly
- ◆ During FY 2024 and continuing in FY 2025 prices have been come stabilize
- ◆ The increase for FY 2026 is the result of the January 2025 Federal Lead Copper Rule Revisions (LCSS) impact on Orthophosphate and Ferric Chloride volumes
  - ◆ The changes will affect budgets for all water plants (additional \$4.7M) and wastewater for primary processing (additional \$2.8M) respectively

### Trend Analysis – Supplies & Other

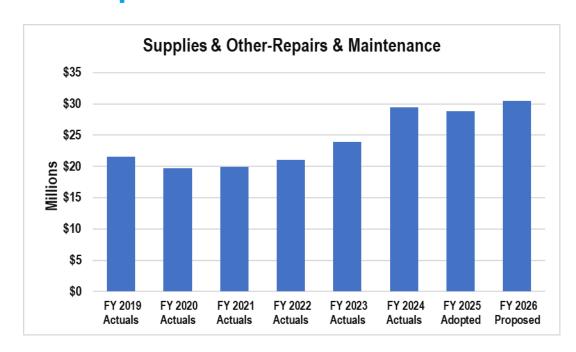

- ◆ The largest portion of this category would be repairs and maintenance, discussed on the following slide
- ◆ Supplies are a significant factor for operations including personal protective equipment (PPE), laboratory supplies and warehoused operational supplies
- ♦ Increase in training programs for staff and member partners

# Trend Analysis – Supplies & Other Repairs & Maintenance Component

- ♠ A focus on maintaining a high level of service in both Water and Wastewater operations
  - Focusing on reliability and resiliency
- ♦ In FY 2024 the development of Workday and NEXGEN were moved to software maintenance
  - Annual operational costs are part of the ongoing budget
- ♦ For FY 2026 additional funding was included for cyber security measures

### **Unallocated Reserve**

- Unallocated reserve is a budget technique to prevent cost centers from budgeting "what if" dollar amounts their line items.
- When a bona fide unforeseen expense arises, and a cost center cannot reallocate other already existing resources, an allocation from the unallocated reserve is provided.
- ◆ The unallocated reserve also includes resources for the Chief Executive Officer (CEO)to utilize for emerging issues and opportunities.
- ◆ Salaries and wages line items do not include future compensation adjustments. The unallocated reserve is utilized at the CEO's discretion for that purpose. This is why the line "rolls up" each year for cumulative compensation impacts.
- ♦ When the unallocated reserve is utilized, there is a budget amendment to reduce that line and the funding is moved to the appropriate line item. In some years, underspending is moved back to the unallocated reserve.
- In FY 2024, the entire amount was utilized largely for equipment repairs and utility cost increases.
