**Subject:** Public comment to GLWA Board Mtg. on June 20, 2020  
**Date:** Tuesday, June 23, 2020 1:30:38 PM

---

There are no shortcuts to safe and effective treatment of water and wastewater and a good example of good treatment is Cincinnati, while the bad example is GLWA. We need public forum to discuss all of these issues. COVID 19 brought to attention to use ozone or uv light to disinfect water and this should be a primary topic for public forum.
