Re: Review and Approval of Audit and Related Draft Financial Reports Pertaining to the Fiscal Year Ended June 30, 2020

See the
"FY 2020 CAFR Highlights Presentation"

Background: Annually, the Great Lakes Water Authority (GLWA) prepares a Comprehensive Annual Financial Report (CAFR) and Schedule of Expenditures of Federal Awards (SEFA) in accordance with financial accounting standards and federal guidelines. Baker Tilly Virchow Krause LLP (Baker Tilly) has been engaged to perform the GLWA annual financial audit and issue an opinion as to whether the financial statements are fairly stated in accordance with accounting standards. Baker Tilly's appointment as GLWA's auditors includes the fiscal years ending in 2019, 2020 and 2021.

Analysis: Fieldwork for the FY 2020 GLWA audit has been completed and draft CAFR and SEFA reports have been prepared. The year-end close and audit were completed entirely remote and have gone very smoothly. The audit continues to remain on target to file the audit in December 2020. Next steps are as follows:

- December 4, 2020: Audit Committee Review and Discussion of audit and financial reports
- December 9, 2020: Board Members receive FY 2020 CAFR, SEFA and related Reports for review
- December 17, 2020: Presentation of final CAFR, SEFA and related reports to Board of Directors with proposed recommendation to file.
- December 18, 2020: Issue and file approved statements and reports

Proposed Action: The Audit Committee recommends that the Board of Director receives and files the Reports Pertaining to the Fiscal Year Ended June 30, 2020 Financial Audit (which includes the FY 2020 Comprehensive Annual Financial Report, the FY 2020 Single Audit Act Compliance Report, and the FY 2020 Independent Auditor's Communication with those Charged with Governance) and authorizes staff to proceed with the completion and filing of the annual audit prior to the due date with the state of Michigan before December 31, 2020; and authorizes the Chief Executive Officer or her designee to take such other action as may be necessary to accomplish the intent of this vote.

RE: Approval of Audit and Related Draft Financial Reports Pertaining to the Fiscal Year Ended June 30, 2020

MOTION

Upon recommendation of Nicolette N. Bateson, Chief Financial Officer/Treasurer, the Board of Directors (Board) of the Great Lakes Water Authority (GLWA), **moves to receive and file the Reports Pertaining to the Fiscal Year Ended June 30, 2020 Financial Audit (the FY 2020 Comprehensive Annual Financial Report, the FY 2020 Single Audit Act Compliance Report, and the FY 2020 Independent Auditor's Communication with those Charged with Governance) and authorizes staff to proceed with the completion and filing of the annual audit prior to the due date with the state of Michigan before December 31, 2020;** and authorizes the CEO to take such other action as may be necessary to accomplish the intent of this vote.

BACKGROUND

GLWA's fourth full twelve-month financial audited financial reports for the Great Lakes Water Authority (GLWA) for the year ended June 30, 2020 are nearly complete. The final step is review by the GLWA Board of Directors and requested approval. This will enable staff to file those reports with the state of Michigan Department of Treasury, the federal clearinghouse for the single audit report, and the Electronic Municipal Market Access system ("EMMA") for Municipal Securities Rulemaking Board ("MSRB") requirements, and others in a timely manner by December 31, 2020.

JUSTIFICATION

The draft reports pertaining to the Fiscal Year Ended June 30, 2020 include the following and are attached:

- Presentation by Ms. Jodi Dobson, Partner, BakerTilly (external auditor)
- FY 2020 Comprehensive Annual Financial Report (CAFR)
- FY 2020 Single Audit Act Compliance Report
- FY 2020 Independent Auditor's Communication to those Charged with Governance
- Informal Management Comment Letter

Drafts of the above reports have been previously distributed to the Audit Committee and the Board.

ARTICLE XII, Section 2 of the GLWA By-laws states the following:

The Board shall obtain an annual audit of the GLWA's financial statements by an independent certified public accountant and report on the audit and auditing procedures in accordance with state law and generally accepted government auditing standards, as well as federal grant compliance audit requirements. The Board shall furnish at least two copies of the annual audit to each Incorporating Municipality. The audited financial statements shall be posted on the GLWA's website. In addition, the audited financial statements shall be filed with the Michigan Department of Treasury upon approval of the GLWA Board.

BUDGET IMPACT

Not applicable for the proposed action.

COMMITTEE REVIEW

The Audit Committee has received updates from staff and auditors on a monthly basis. Drafts reports were presented to the Audit Committee on December 4, 2020 with the action of *[insert after Audit Committee meeting]*.

SHARED SERVICES IMPACT

This item does not impact the shared services agreement between GLWA and DWSD.

TRANSMITTAL LETTER

December 18, 2020

Board of Directors
Great Lakes Water Authority

Dear Directors,

We are pleased to present the Comprehensive Annual Financial Report (“CAFR”) for the Great Lakes Water Authority (“GLWA” or “Authority”) for the fiscal year which ended June 30, 2020. This is GLWA’s fourth full 12-month fiscal year of operations since the Authority’s operational effective date of January 1, 2016. Having four full years of financial information allows the GLWA team to demonstrate delivery of the high level of performance that we have pledged.

GLWA’s financial statements were prepared in accordance with U.S. generally accepted accounting principles (“GAAP”), as promulgated by the Governmental Accounting Standards Board (“GASB”) and audited by a firm of independent certified public accountants engaged by the GLWA Board of Directors. This is consistent with the GLWA Articles of Incorporation and By-laws which require an annual audit of the Authority’s financial statements by independent certified public accountants.

Responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with GLWA management. To the best of my knowledge and belief, the information contained in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of GLWA. All disclosures necessary for the reader to gain an understanding of GLWA’s financial activity have been included.

GLWA management is responsible for establishing and maintaining an internal control structure designed to ensure that its assets are adequately safeguarded against loss, theft, or misuse and to maintain accurate and reliable financial records for the preparation of financial statements and the representations made by management. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of internal controls should not exceed the benefits derived from the controls; and 2) the evaluation of costs and benefits requires management’s exercise of judgment. To the best of my knowledge and belief, GLWA’s internal accounting controls adequately safeguard its assets and provide reasonable assurance of the proper recording of financial transactions in accordance with GAAP.

Baker Tilly Virchow Krause, LLC, Certified Public Accountants, has been retained by GLWA to serve as its independent auditors and has issued an unmodified (“clean”) opinion on GLWA’s financial statements for the year ended June 30, 2020 with comparative amounts for June 30, 2019.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis ("MD&A"). This letter of transmittal is designed to supplement the MD&A and should be read in conjunction with it. GLWA's MD&A is located immediately following the independent auditors' report.

Overview of GLWA

GLWA is the result of a monumental collaboration among regional leaders. Working to meet the needs of sustainable and affordable infrastructure, a memorandum of understanding was agreed upon on September 9, 2014 to form a regional water authority. Subsequently, GLWA was incorporated by the City of Detroit ("City") and the counties of Macomb, Oakland and Wayne on November 26, 2014 pursuant to Act 233, Public Acts of Michigan, 1955, as amended. At the time of GLWA's incorporation, the City, through its Detroit Water and Sewerage Department ("DWSD"), was providing water supply services within and outside of the City through a water supply system and drainage and sewage disposal services within and outside of the City through a sewage disposal system.

On June 12, 2015, the City and GLWA executed the Regional Water Supply and Sewerage Disposal System Leases (the Regional System Leases), transferring the regional water and sewage disposal facilities from the City to GLWA for an initial term of 40 years. In addition, the City and GLWA entered into a Water and Sewer Services Agreement whereby GLWA provides water and sewer services to the City; the City then supplies these services to Detroit retail customers via the DWSD.

The above agreements required the satisfaction of several conditions before becoming effective. By January 1, 2016 (the operational Effective Date), those conditions were met and GLWA, under the terms of the Leases, became responsible for the assets, all bonded indebtedness, and operations for the regional water and wastewater systems.

GLWA leases the regional water and sewerage disposal facilities from the City for an allocation of \$50 million per year to fund capital improvements for the City's retail system and/or debt obligations. GLWA also funds a Water Residential Assistance Program ("WRAP") to assist low-income residential households in enrolled member partner communities.

Biennial budgets are prepared annually and approved by the Board of Directors. Included with the biennial budget is a five-year financial plan. A five-year capital plan is also prepared annually and approved by the Board of Directors.

At GLWA, we define "member partner" as the city, township, village, drainage district, authority or other public body corporate recognized by the state of Michigan that holds a wholesale water or wastewater services contract with GLWA and includes its staff and consultants. Our member partners are actively engaged with GLWA and supported by a facilitated outreach program to ensure open, ongoing, and proactive relationships.

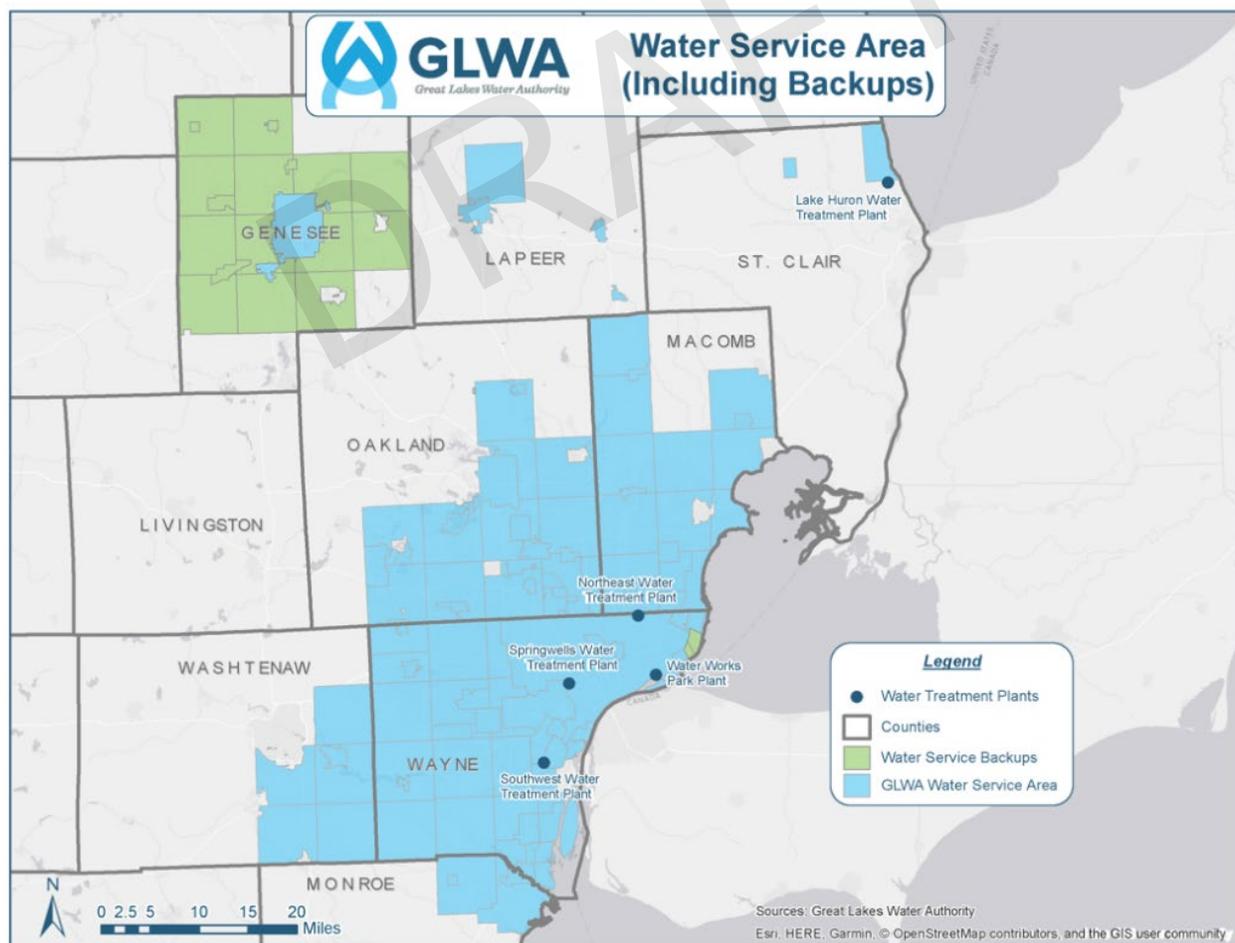

Water System

Our regional water system is one of the largest in the United States, both in terms of water produced and population served. The system currently serves an area of 1,698 square miles with an estimated population of nearly 3.8 million or approximately 38 percent of Michigan’s population. The water system has 88 member partners across 112 communities.

The water supply system consists of three intake facilities, five water treatment plants, 19 booster pumping stations, 32 water storage reservoirs and a conveyance system with over 816 miles of transmission mains. The facilities have the treatment capacity of 1,720 million gallons per day.

The long-term strategy for the water system focuses on reliability, flexibility and cost effectiveness. The 2015 Comprehensive Water Master Plan has identified the ability to reduce the number of water treatment facilities in full operation at GLWA. Initially, for long-term capital expenditure avoidance, the plan has identified the repurposing of the Northeast Water Treatment Plant. To repurpose this facility into a reservoir and pump station, several capital projects, as identified Table IV-10 of the FY 2021 - 2025 CIP, have been identified and are required to be completed.

Below is the Water System service area map.

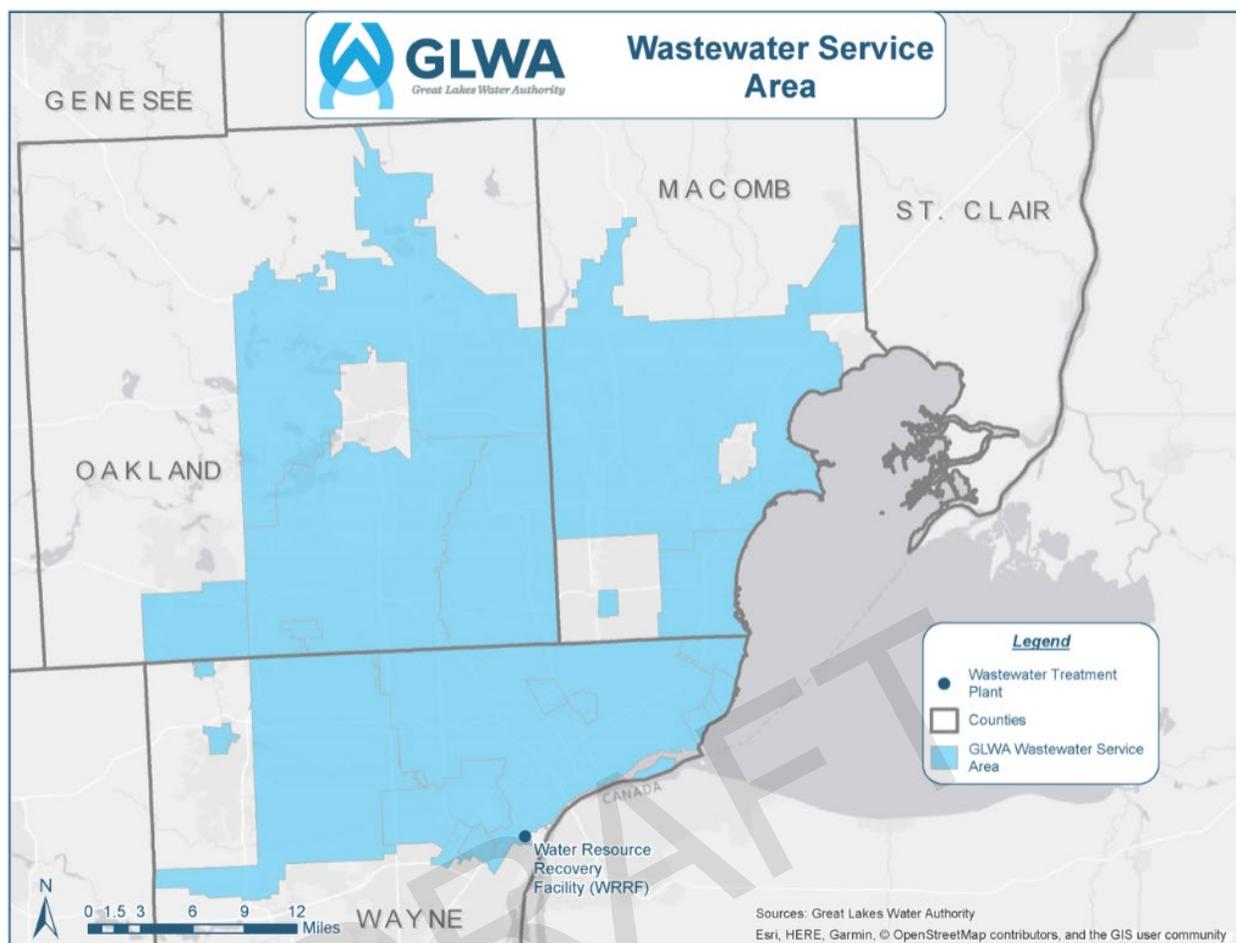

Wastewater System

Our regional wastewater system is also one of the largest in the United States, both in terms of treatment capacity and population served. The wastewater system currently serves an area of 944 square miles with an estimated population of nearly 2.8 million or approximately 28 percent of Michigan's population. The wastewater system has 19 member partners across 79 communities.

The wastewater system consists of one of the largest single-site water resource recovery facilities in the United States, three major interceptors, nine pump stations, eight Combined Sewer Overflow ("CSO") Control Facilities, including five retention treatment basins and three flow-through type facilities, as well as a conveyance system with 195 miles of trunk sewers and interceptors.

The long-term strategy for the wastewater treatment and sewage disposal system is a focus on regional efficiencies. The 2020 Wastewater Master Plan ("WWMP") was adopted by the Board in September 2020. The WWMP was created with incredible energy, insight, and direction from a broad cross section of our member partners working collaboratively with our team members and consultants and other regional stakeholders. The focus, approach and outcomes of the plan demonstrate the true spirit of the One Water Partnership that GLWA and our member partners are committed to for the benefit of southeast Michigan. The 40-year master plan focuses on water quality, leveraging the entire region's existing infrastructure, maximizing the use of dynamic wet weather operations, strategic use of green infrastructure, addressing changes in weather patterns and rain event intensities, extensive system modeling including surface water and wastewater treatment, evaluation of resource recovery options and energy reduction opportunities.

Below is the Wastewater System service area map.

Key Financial Highlight – Bond Refunding Savings

As interest rates continued to decline during FY 2020, the possibility of a successful advance refunding transaction later became a reality - despite the challenges presented by the COVID-19 Pandemic.

December 2019 - The bond financing team is assembled, and initial planning meeting is held.

Early March 2020 – Presentations were made to each rating agency with successful outcomes.

Standard & Poors affirmed GLWA’s senior lien water system at AA- and its second lien water system rating at A+. Both the water and sewer senior and second lien bonds were assigned a stable outlook. S&P cited several strengths: as a wholesaler serving a large area, GLWA is not dependent on any single entity to fulfill its financial commitments, comprehensive budgeting practices, and a Capital Improvement Plan (“CIP”) that is forward-looking and not tied to any regulatory compliance mandates. Both the senior and second liens were assigned a stable outlook. The rating agency upgraded GLWA’s senior lien sewer system rating by one notch to AA- and its second lien sewer system was increased by one notch to A+.

Moody’s Investors Service upgraded both GLWA’s water system and sewer system senior lien ratings one notch to A1 and both its second lien ratings one notch to A2. Moody’s cited GLWA’s strong operating trends, healthy liquidity, and an “experienced management team

[that] remains committed to measured revenue growth through annual revenue requirement increases, while at the same time maintaining an affordable rate structure ...". The ratings outlook for both water and sewer senior and second lien bonds remain stable.

Fitch Ratings also upgraded both system bond ratings, raising GLWA's ratings for its water system and sewer system senior lien bonds by one notch to A+, and its second lien bonds by one notch to an A. The credit outlook for both water and sewer senior and second lien bonds are stable. In its report, Fitch said the improvement in its credit outlook for GLWA, "reflects sustained improvement to the Authority's financial profile," citing stable charge setting practices, accumulation of cash reserves, and prospects for achieving or beating expectations help to insulate GLWA from potential credit risks. Fitch also cited GLWA's plans to use pay-as-you-go capital funding to moderate debt levels as a key factor in this outlook adjustment.

Mid/Late March 2020 – The World Health Organization declared a pandemic on March 11, 2020, following the outbreak of COVID-19, a respiratory disease caused by a novel strain of coronavirus. Then, on March 13, 2020, President Donald Trump declared a national emergency to unlock federal funds to help states and local governments fight the pandemic. Subsequently, on March 28, 2020, President Trump, at the request of Michigan Governor Gretchen Whitmer, declared that a major disaster exists. This crisis created a volatile municipal bond market and varying concerns by credit analysts of water sector financial outlook. GLWA was, therefore, in position to pause the contemplated refunding and new money transaction.

Concurrently, GLWA was proactively managing through the COVID-19 challenges utilizing an emergency management plan framework while focusing on GLWA's long-term operational and financial stability. In addition to expense reductions to offset potential reductions in water sales, at the recommendation of the Authority's administration, the GLWA Board of Directors voted to defer the previously approved service charge increase from July 1, 2020 until October 1, 2020 to support member partner communities who are facing increased expenses and/or cashflow needs due to the pandemic.

Late April 2020 - As the market showed favorable signs of stability, GLWA prepared to return to the bond market. The recently upgraded ratings remained in place, despite the events of the prior 45 days. On April 29, 2020 S&P issued a ratings bulletin, *Great Lakes Water Authority, MI Ratings Unaffected by COVID-19 Pandemic*, stating that the AA- rating on the senior lien water supply system bonds and the A+ rating on the second-lien revenue bonds had not been affected by the COVID-19 pandemic. S&P noted that GLWA took actions to maintain budgetary balance to date and has identified further actions depending on the length of the declared emergency in Michigan and the United States.

May 2020 - GLWA executed a successful refunding transaction on May 12, 2020, of \$463.1 million of Water Supply System Revenue Bonds (with \$377.5 million in refunding bonds and \$85.6 million for the DWSD local system in new money achieving a very favorable arbitrage yield of 2.98% for 30-year debt and generating nearly \$100 million for local system water system capital improvements). The net present value savings from the refunding transaction was \$66.5 million for the water fund. There was outstanding investor participation with over \$1.6 billion in orders for the combined preliminary pricing total of \$443 million in bonds (3.6x oversubscribed). This resulted in a mid-day repricing and allowed us to achieve even greater savings for the refunding and to further lower the borrowing rate for the new money bonds for DWSD capital improvements.

June 2020 - A second successful refunding was completed on June 16, 2020 of \$687.5 million of Sewage Disposal System Revenue Bonds. The net present value savings from the refunding transaction was \$122.9 million for the sewage disposal fund. Like the water system transaction, there was outstanding investor participation with over \$4.3 billion in orders for the total of \$687.5 million in bonds (6.3x oversubscribed). Given the taxable (rather than tax exempt) nature of the bonds, investors from Canada, Norway, Britain and Taiwan also participated in the transaction.

Pattern of Delivering What We Promise - This financial achievement, which occurred with maintaining system reliability and quality during an emergency event, demonstrates the strength, stability, and best-in-class performance that the regional stakeholders and leadership team envisioned when the concept of a regional authority emerged in 2014. Further, we believe that our transparency and accessibility in addressing questions from rating agencies, as well as investors, contributed to successful outcomes in uncertain times. The result is rating agency improvements since the operational effective date of the Authority. Moody's Investor Services has increased the ratings 5 notches and both Standard & Poor's and Fitch Ratings have increased the ratings 4 notches.

One Billion in Savings Reached - Within a relatively short period of time, the path toward financial stability through optimizing the debt portfolio has resulted in over \$1 billion in cashflow savings over the remaining life of the debt at the time of the refunding – with nearly 72% of those savings achieved since the operating effective date of GLWA. In addition, restricted cash for debt reserves has decreased nearly \$160 million. These savings have a material impact on GLWA's ability to control annual charge adjustments at an amount well below the consumer price index. Further, the required level of restricted cash has declined as the structure of the outstanding debt has been optimized as part of a long-term strategy as shown in the table below. This frees up additional cash for capital improvements.

Cumulative Savings from Bond Refunding Transactions (\$000)

	GLWA			DWSD (Implementation period of Memorandum of Understanding)			Total FY 2015 to FY 2020
	FY 2020	FY 2019	FY 2017	Total Since Inception January 1, 2016	Period Ended December 31, 2015	FY 2015	
Cash Flow Savings							
Water Fund	\$ 103,077	\$ 30,880	\$ 185,424	\$ 319,381	\$ 16,390	\$ 138,696	\$ 474,467

Total Debt Reserves	\$ 23,264	\$ 68,559	\$ 85,800	\$ 87,522	\$ 136,128	\$ 135,570	\$ 183,476

FY 2020 Results

GLWA is committed to ensuring the long-term sustainability of the water and sewage disposal systems. Beyond the FY 2020 bond refunding program noted, below are key financial highlights from FY 2020.

1. Liquidity - Strong liquidity with 1,086 days cash on hand for the water system and 593 days for the sewage disposal system as shown on the Schedule of Days Cash in the supplementary information.

2. Debt Service Coverage - Excellent debt service coverage for both the water and sewage disposal funds. The water fund reports debt coverage for senior lien bonds at 1.97 times and all bonds at 1.43 times. The sewage disposal fund reports debt coverage for senior lien bonds at 2.16 times and all bonds at 1.30 times. Detail for all debt types can be found in the Debt Service Coverage schedule in the statistical section.

3. Revenue Stability - Predictable wholesale budgeted with actual revenues within 0.46 percent (\$1.4 million) more than budget for the water system and 0.14 percent (\$0.4 million) less than budget for the sewage disposal system. The Schedule of Revenue Requirements in the Supplementary Information section provides more information related to the basis for which we establish service charges compared to actual results.

4. Controlled Operations Spending Results in Positive Overall Budget Variances - Both the water and wastewater operations controlled their spending within 5% as shown in the Schedule of Operations and Maintenance Expense for each system in the Supplementary Information section. Both systems had overall positive budget variances of \$7.5 million for the water fund and \$11.3 million for the sewage disposal system as shown in the Schedule of Revenue Requirement for each system in the Supplementary Information section. Generally, the overall positive budget variances will be directed toward future years' pay-as-you go capital funding.

Solid Foundation for Sustainability

As GLWA matures as an organization, the connections that our team members have with each other, and with our many stakeholders, is evident. This is most noticeable when you see the passion of multi-disciplinary teams, working through the development of a long-term plan that encompasses engineering, operations, finance, and many others to chart the course for the future - while never forgetting about the end-consumer and the environment. Below are topics that we cover when

talking about GLWA. At the core of each item is a connection between our stakeholders and a foundational element of sustainability.

Stable Revenues with Modest Charge Adjustments - GLWA balances steady and controlled Operations and Management budget requests for the short-term, while continuing to focus on increasing cash reserves for capital investment and decreasing long-term liabilities. This provides stability in the cost of supply for our member partners. See Schedule 3 in the Statistical Section which provides the history of charge adjustments. The water and sewer system charge structure, developed collaboratively with member partners, supports a high degree of financial stability. The Water System revenues are set using a methodology with a basis of 60 percent fixed monthly charge and 40 percent commodity consumption using a 36-months historical average usage. Proof of that stability gained is that actual wholesale customer revenue for 2020 was 98.9% of budget despite a reduction in water sales volumes of over 5% compared to the 2018 volumes, upon which the budgeted 2020 sales volumes were based. The sewer system charge revenues are 100 percent fixed monthly billing based on each member partner's share of the annual forecasted revenue requirement. As we are presently looking forward to the FY 2022 financial planning cycle, a new, further simplified sewer charge methodology will be implemented which was developed by GLWA team members, advisors, and member partners over the past two years. This was recently presented to the Board of Directors on November 25, 2020.

Bondholder Protections - All GLWA and DWSD customer payments are deposited to Bond Trustee Accounts and are disbursed in accordance the Master Bond Ordinance (MBO) flow of funds.

Defined Contribution Benefit Plans - All employee benefit plans are defined contribution which provide shorter term vesting and flexibility for the employee while creating zero risk on unfunded liabilities for GLWA.

Flexible Capital Program - The majority of the GLWA FY 2021 –2025 five-year capital improvement plan ("CIP") is driven by optimizing the system and fostering innovation. There are no projects in the water system or sewer system CIP which have costs that will be incurred during FY 2021 to 2025 that are driven by mandated permit requirements. The water system CIP calls for \$701.6 million of major capital expenditures over the next five fiscal years (2021-2025) and the sewer system CIP calls for \$554.6 million of capital expenditures over the same time period. The staff from Michigan Department of Environment, Great Lakes, and Energy ("EGLE") regularly engage with GLWA on capital project matters to ensure alignment and open dialog to achieve optimal results.

Regulatory Stability - GLWA's National Pollutant Discharge Elimination System ("NPDES") permit was issued July 1, 2019. A key feature is that it enables an integrated planning framework as well as gray infrastructure construction deferred for two permit periods to allow GLWA time to demonstrate strategies from the wastewater master plan.

Payment Assistance Program - The Water Residential Assistance Program (WRAP) set aside \$4.1 million of resources to support customer assistance needs in the region for the year ended June 30, 2020. Services include payment assistance, consumption audit, basic plumbing repairs, conservation education, and limited lead fixture replacement. This means that qualified households can receive payment assistance, as well as take steps to sustainably reduce their bills in the future. Embracing the spirit of continuous improvement, in late FY 2020, we assessed the program to identify better performance measures and ensure that eligible residents throughout the service can readily access

the program. During FY 2021, we are working with service agency partners to expand the base of constituency served to address these goals.

Workforce Development - As a significant number of employees in the water service sector prepare for retirement, GLWA is focused on workforce development and succession planning. In September 2020, the Apprenticeship Program for Electrical Instrumentation Control Technicians (EICT-I) graduated 20 apprentices from the three-year training program for EICT-I certification. Nineteen accepted full-time positions with GLWA. This program, which operates in conjunction with the U.S. Department of Labor, was expanded in January 2019 to include a new three-year apprenticeship program for 20 maintenance technicians. In February 2020, a five-year EICT-E (electrician) apprenticeship program was launched.

Business Inclusion and Diversity Initiative - On November 25, 2020, the GLWA Board of Directors approved an amendment to the procurement policy that establishes the submission of a diversity plan for all procurements over \$1 million to ensure that the vendor community is aligned with GLWA's values for a diverse vendor base. The amendment also provides incentives to business located in our state, services area, and in economically disadvantaged communities among our member partner communities. The launch of the Business Inclusion & Diversity ("BID") program significantly strengthens the Small Business Initiative and the Strategic Alliance Memorandum executed with the United States Small Business Administration ("SBA") in 2018 to meet the needs of the small business community and engagement in GLWA business opportunities.

Governance Structure that Supports Collaboration - GLWA's Board of Directors consists of six members. Two members are appointed by the mayor of the City of Detroit, one member is appointed by each chief executive of the three counties (Macomb, Oakland, and Wayne), and one member is appointed by the governor of the state of Michigan. The governor's appointee represents other suburban customer areas outside the tri-county service area, and that appointee must reside within that geographic area.

One Water Partnership - In September 2017, the first One Water Partnership Agreement was signed by GLWA and its member partners. This historic agreement outlines the mutual commitments to working together for the greater good of the region and details the responsibilities of all parties to moving the agreement forward. A critical addition to the agreement is the development of a multi-jurisdictional, multi-agency approach to infrastructure renewal and investment.

Recognition Among Our Peers

Leading Utilities of the World Membership - In 2019, GLWA was invited to become a part of the Leading Utilities of the World ("LUOW") initiative. LUOW is a network of the world's most successful, forward-thinking and innovative water and wastewater utilities. Created to help drive performance across the service sector, GLWA is one of just 49 global utilities inaugurated into the initiative since it was founded in 2017. These utilities represent a "gold standard" of utility innovation and performance. The network provides a platform to share ideas and challenges, and to inspire innovation.

The basis for GLWA's acceptance into the network included key achievements: a) Network Operation via public agency collaboration to address service redundancy for the city of Flint and communities in Genesee, Lapeer and St. Clair Counties; b) Environmental Impact Improvements with the

retirement of six incinerators at the Authority's Water Resource Recovery Facility and resulting beneficial reuse of biosolids via a public-private partnership Biosolids Dryer Facility; c) completion of the Rouge River Outfall project addressing a long-term water quality improvement objective at a fraction of the cost of prior approaches; and, d) in the area of Human Resource Development/Stakeholder Engagement, GLWA's apprenticeship programs and One Water Institute supporting GLWA and member partners' team member development needs.

Platinum Award for Utility Excellence - In October 2020, GLWA received the Platinum Award for Utility Excellence from the Association of Metropolitan Water Agencies ("AMWA"). The national award recognizes the exceptional performance of public drinking water utilities where management vision and employee commitment create sustainable utilities producing ample supplies of clean, safe drinking water. To be invited by AMWA to apply for the Platinum Award, a utility must first win the association's Gold Award, which GLWA received in 2017. It must then, over the next three years, exhibit measurable progress in implementing the industry standard 10 Attributes of Effective Utility Management and Keys to Management Success, as well as a distinctive level of management expertise and expanded utility achievement.

Partnership for Safe Water ("PSW") Award - GLWA's Water Works Park received the "2019 Directors Award for Water Treatment" from PSW, a program developed by the EPA, American Water Works Association ("AWWA"), and associated partner organizations to guide water systems toward improving water quality by optimizing system operations. GLWA was one of six select groups in the nation honored in this category for its long-term commitment to innovation, outstanding performance achieved and environment and public-health protection. The PSW awards program recognizes utilities who demonstrate an outstanding commitment to delivering superior quality drinking water to customers, directly aligning with GLWA's commitment to providing water of unquestionable quality. In 2016, three GLWA facilities including Lake Huron, Northeast and Southwest received this important designation from PSW.

Hub Utility - In April 2019 GLWA was invited to participate as a national hub model in Hub Utility program which was initiated by the Environmental Protection Agency. The concept is peer-to-peer assistance to assure safe, sustainable water services. Demonstrated successes to-date include joint capital planning and execution; the One Water Institute, for GLWA team members and member partners' staff a no- or low-cost, that provides academies for operations, technology, safety, and leadership training; local distribution system artificial intelligence platform leveraging GLWA's live network data; real-time data and dashboards for coordinated wastewater operations; providing GLWA's corrosion study for use by local systems to comply with lead and copper rule; joint emergency planning and exercises (local, state, and federal); and several others, with the list continuing to grow.

Utility of the Future Today - A group of five national professional organizations, led by the National Association of Clean Water Agencies ("NACWA") has recognized GLWA as a Utility of the Future Today for the third consecutive year. The award is given to water systems for transforming operations through innovations and technology. GLWA won in 2020 for its commitment to and innovation in watershed stewardship.

Government Finance Officers Association Distinguished Budget Presentation Award - The Government Finance Officers Association of the United States and Canada ("GFOA") presented a Distinguished Budget Presentation Award to Great Lakes Water Authority, Michigan, for its Biennial Budget for the biennium beginning July 1, 2019. To receive this award, a governmental unit must publish a budget

document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communications device.

Government Finance Officers Association Certificate of Achievement for Excellence in Financial Reporting - GFOA has awarded the Certificate of Achievement for Excellence in Financial Reporting to Great Lakes Water Authority for its comprehensive annual financial report ("CAFR") for the fiscal year ended June 30, 2019. The CAFR has been judged by an impartial panel to meet the high standards of the program, which includes demonstrating a constructive "spirit of full disclosure" to clearly communicate its financial story and motivate potential users and user groups to read the CAFR. The Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management.

COVID-19 Pandemic

GLWA has implemented a COVID-19 response policy to maintain the health and safety of its team members, the quality and continuity of its operations, provide water of unquestionable quality and safe and sanitary wastewater services to the region. GLWA will utilize the best available information and resources to respond to the COVID-19 pandemic to offer protection to its team, engage the vendor community to align with all safety protocols, and always preserve the quality and continuity of its essential operations.

Acknowledgements

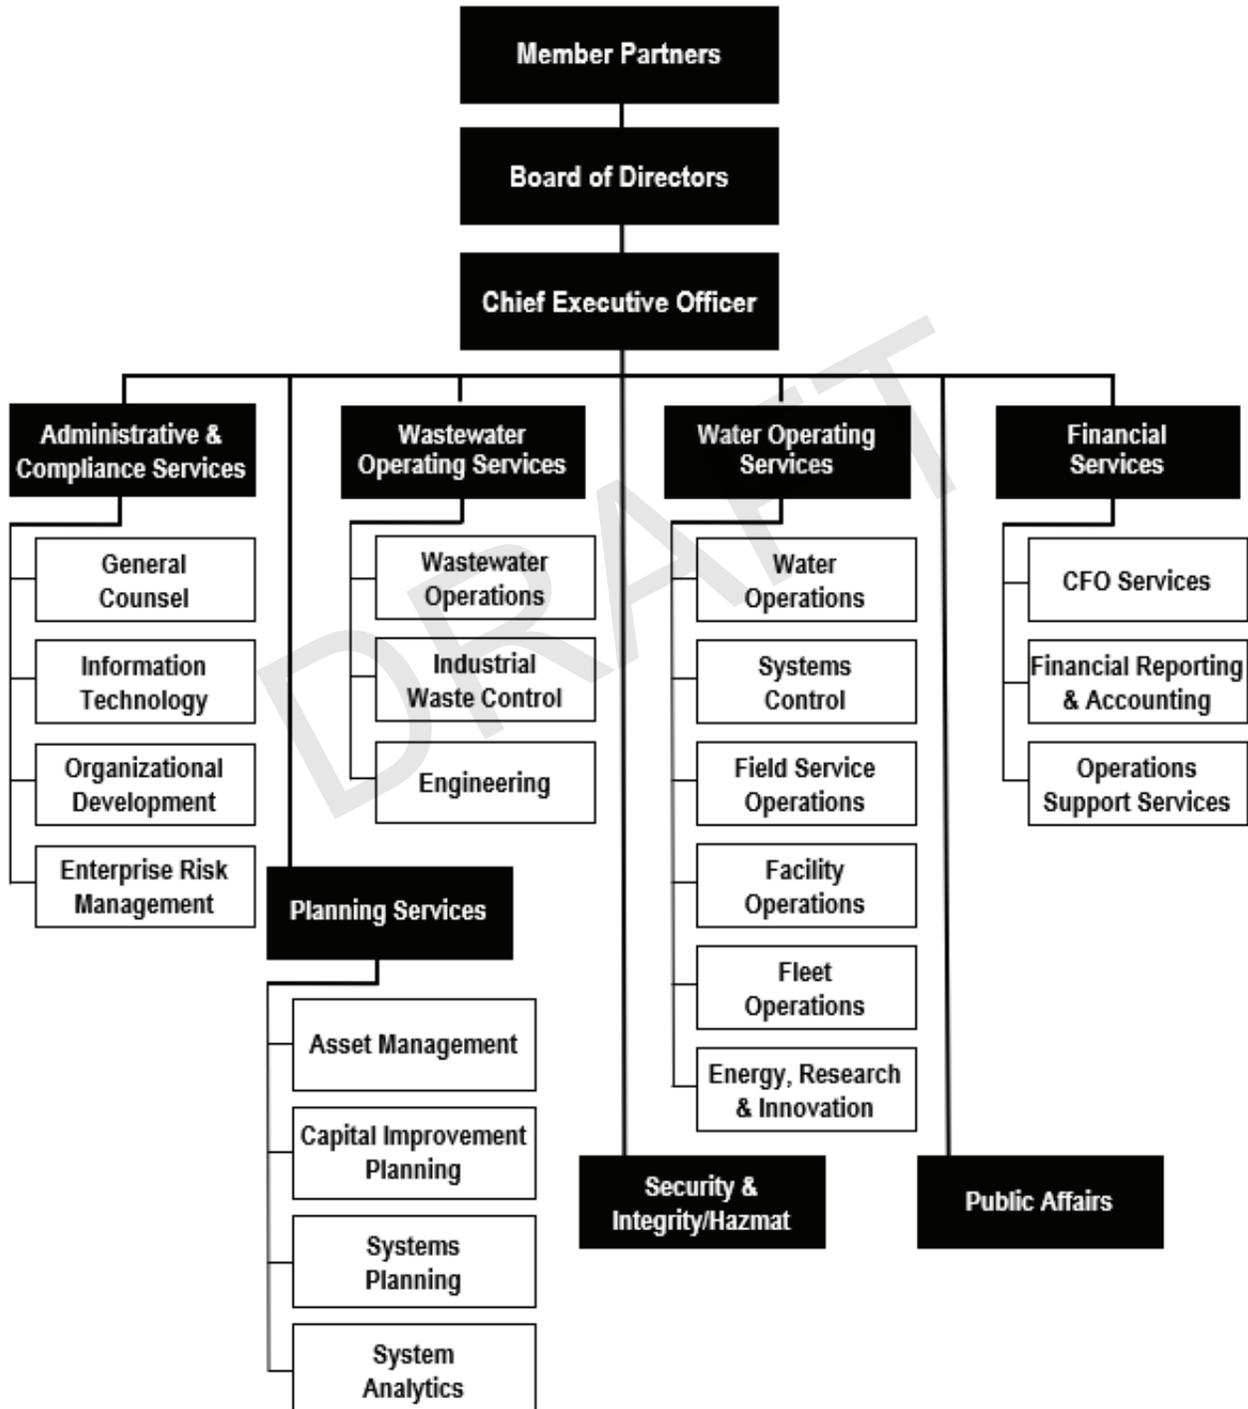

When we say "our" system, it is "our" system that we mutually support and foster in collaboration with our member partners, team members, vendor community, board of directors, other stakeholders and the public. Thank you for your continued engaged participation and interest.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Great Lakes Water Authority
Detroit, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities, and each major fund of the Great Lakes Water Authority, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Great Lakes Water Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control over financial reporting relevant to the Great Lakes Water Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Great Lakes Water Authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, and each major fund of the Great Lakes Water Authority as of June 30, 2020 and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis and the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Great Lakes Water Authority's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Great Lakes Water Authority's basic financial statements. The introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Prior-Year Comparative Information

We have previously audited the Great Lakes Water Authority's 2019 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the business-type activities, and each major fund in our report dated December 20, 2019. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2019, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2020 on our consideration of the Great Lakes Water Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Great Lakes Water Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Great Lakes Water Authority's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

DRAFT

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

June 30, 2020

The management of the Great Lakes Water Authority (GLWA or Authority) presents this discussion and analysis of GLWA's financial position and changes in financial position as of and for the fiscal year ended June 30, 2020. The Management's Discussion and Analysis (MD&A) should be read in conjunction with GLWA's basic financial statements and the related notes to the financial statements in addition to the transmittal letter provided in this report.

Introduction to the Great Lakes Water Authority

The regional water system is one of the largest in the United States, both in terms of water produced and population served. The Water System currently serves an area of 1,698 square miles located in eight Michigan counties and an estimated population of nearly 3.8 million or approximately 38% of Michigan's population. Suburban wholesale service contracts comprise approximately 82% of the population served by the Authority while the retail water customers served by the City of Detroit Water and Sewerage Department (DWSD) comprise the remaining 18%.

The regional sewage disposal system is also one of the largest in the United States, both in terms of treatment capacity and population served. The Sewage Disposal System currently serves an area of 944 square miles located in three Michigan counties and an estimated population of nearly 2.8 million or approximately 28% of Michigan's population. Suburban wholesale service contracts comprise approximately 76% of the population served by the Authority, while retail sewer customers served by DWSD comprise the remaining 24%.

GLWA began operations on January 1, 2016. This fiscal year ended June 30, 2020 report represents the fourth full twelve-month report for GLWA. Comparative information for the fiscal year-ended June 30, 2019 has been provided for Total Business-Type activities in the basic financial statements. Three years of data is provided in condensed format in this management's discussion and analysis.

Creation of a Regional Authority

The creation of a regional water authority was an outcome of the City of Detroit's Chapter 9 Bankruptcy. Collaboration among regional stakeholders, supported by mediation proceedings, resulted in a "Memorandum of Understanding Regarding the Formation of the Great Lakes Water Authority" signed on September 9, 2014 by the mayor of the City of Detroit, the chief executives of Wayne, Oakland, and Macomb counties, and the governor of the State of Michigan. The agreement established a framework for a regional water and sewer authority to be established pursuant to Act 233, Public Acts of Michigan, 1955, as amended. The purpose of GLWA is to operate, control, and improve the regional assets of both the Water System and Sewage Disposal System owned by the City and which were operated by DWSD. The purpose of DWSD is to be the service provider for the retail system, which is largely the City of Detroit customer base, including a few retail customers located just outside the City of Detroit.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Subsequently, on June 12, 2015, the City of Detroit and GLWA entered into a Regional Water Supply Lease, a Regional Sewage Disposal Lease (collectively the "Regional System Leases") and a Water and Sewer Services Agreement ("WSSA"). Prior to implementation of the Regional System Leases, several conditions precedent were necessary to establish the financial and legal parameters before GLWA could assume control of the Regional Systems. Those conditions precedent included execution of the Regional System Leases, WSSA, a Shared Services Agreement, and a Detroit General Retirement ("GRS") pension agreement; adoption of a Master Bond Ordinance ("MBO") for both the Water System and the Sewage Disposal System; confirmation from the Michigan Department of Environmental Quality (now known as the Michigan Environment, Great Lakes and Energy Department) that all permits were secured for the Leased Facilities; certification from the bond trustee that no less than 51 percent of bondholders of the outstanding DWSD Water Bonds and DWSD Sewer Bonds, respectively, consented to the adoption by GLWA of the Master Bond Ordinance ("MBO") for the Water System and the Sewage Disposal System and to the assumption by GLWA of the outstanding DWSD Water Bonds and DWSD Sewer Bonds on the Effective Date; certification from the feasibility consultant that GLWA had the ability to issue at least one dollar of additional indebtedness at each level of lien priority pursuant to the Additional Bonds Test set forth in the MBO for each system; legal opinions that each Regional System Lease is valid, binding, and enforceable and that the rates adopted by DWSD for fiscal year 2016 for the wholesale and City customers were binding and effective; and all necessary consents to the assignment of the wholesale customer contracts. On December 17, 2015, the GLWA Board of Directors determined that all conditions precedent were satisfied to commence operations on January 1, 2016.

Since GLWA assumed the outstanding bonded indebtedness, retail customer revenues are pledged for payment of outstanding bonded indebtedness assumed by GLWA. For this reason, pursuant to the terms of the Regional System Leases, DWSD is GLWA's agent for retail billing, collections and enforcement.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Activity for the Regional System Leases was recorded based upon GASB 69, *Government Combinations and Disposals of Government Operations*. Accounting for the regional system leases under GASB 69 resulted in the following Statement of Net Position categories. An explanation of those categories and how they relate to the establishment of the Authority's opening Statement of Net Position is below.

Capital Assets: Capital assets acquired were recorded at "acquisition value" based upon an inventory valuation performed by a certified appraisal firm as of January 1, 2016. This resulted in an overall increase in capital asset value from the predecessor entity's historical cost. Accordingly, the depreciable lives were reviewed and, in several cases shortened, which has increased annual depreciation expense.

Bonded Indebtedness: The outstanding bonded indebtedness of the predecessor entity was assumed in its entirety by GLWA. GASB 69 also required debt to be recorded at acquisition value.

Net Pension Liability: The net pension liability represents the Regional Systems' share of the frozen, defined benefit City of Detroit GRS pension assigned to DWSD in the City of Detroit's Chapter 9 Bankruptcy Plan of Adjustment. On January 24, 2017, the parties agreed that 70.3 percent of the liability was allocable to the GLWA regional operations and 29.7 percent to DWSD and is the basis of allocation for future pension contributions. That net pension liability is further subdivided between the Water System and the Sewage Disposal System for each entity.

Obligation Payable: The obligation payable represents the Regional Systems' share of the B and C Note Obligations assigned to DWSD in the City of Detroit's Chapter 9 Bankruptcy Plan of Adjustment. The B and C Note Obligations refers to the debt service on City of Detroit Financial Recovery Bonds dated December 10, 2014. Those bonds were issued to satisfy claims relating to the City's pension obligation certificates and postemployment healthcare benefits. GLWA's portion of the liability was estimated at 71.42 percent of the total DWSD liability.

Beginning Net Position: The acquisition value of assets acquired exceeded the liabilities assumed by \$736.5 million in total with \$457.9 million attributable to the Water System and \$278.6 million attributable to the Sewage Disposal System. In accordance with GASB 69, the opening capital assets were adjusted by an amount to establish a total net position of zero as of January 1, 2016.

Contractual Obligation Receivable: This represents DWSD's allocable portion of the long-term bonded indebtedness assumed by GLWA on January 1, 2016. This receivable is amortized annually in an agreed upon amount that approximates debt service. If new debt is issued on behalf of DWSD, the receivable is increased.

Lease Payable: The lease payable is the net present value of the lease payment of \$50 million per year for 40 years payable to the DWSD with \$22.5 million paid to the DWSD local water system and \$27.5 million paid to the DWSD local sewer system based on a 4.17% borrowing rate for both systems.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The basic financial statements are comprised of the following:

The *statement of net position* presents information on the Authority's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the residual reported as net position.

The *statement of revenues, expenses and changes in net position* presents information showing how the Authority's net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported for some items that will result in cash flows in future fiscal periods.

The *statement of cash flows* provides information about the Authority's cash receipts, cash payments and net changes in cash and cash equivalents resulting from operating, investing and capital and non-capital financing activities for the fiscal year.

The *notes to the financial statements* provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves. These schedules provide additional financial, budgetary, statistical, trend, and economic information that may be helpful to the readers of these financial statements.

The Authority presents a combining statement for each system in the supplementary financial information classified into three categories that align with the Authority's strategic and budgetary focus of managing capital investment for both the Regional Water System and Regional Sewage Disposal System: 1) operation and maintenance (low capital investment), 2) improvement and extension (moderate capital investment and financial mechanism to lower borrowings and the related cost of capital over the long term), and 3) construction projects (high capital investment). The water and sewage disposal funds together comprise the activity of these three categories of the Authority in total. The separate water and sewage disposal funds are required by the MBO. A separate credit rating is established for each fund and services provided to the member partner communities by each system are separate and distinct (although many may geographically overlap).

Financial Analysis

Summaries of the basic financial statements and related commentaries are presented below.

Net Position

Net position is defined by the accounting standards as the residual of all other elements presented in a statement of financial position. It is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. A net deficit occurs when the liabilities and deferred inflows exceed assets and deferred outflows. Deferred inflows and deferred outflows generally relate to financing activity and GLWA's share of the GRS pension obligation. In total, GLWA ended June 30, 2020 with a \$221.6 million net deficit. The net deficit for the water fund was \$96.4 million and \$125.2 million for the sewage disposal fund. The deficit for June 30, 2019 was \$76.9 million for the water fund and \$123.9 million for the sewage disposal fund for a total deficit of \$200.8 million.

In fiscal year 2019 the calculation of the components of net position was reassessed which is the main reason for the large net position variances between 2019 and 2018. The Regional System Leases liability was analyzed pursuant to the application of GASB 69 to record the acquisition and the net position components of the acquired water and sewage disposal systems. In previous years the liability for the Regional System Leases were entirely included in the unrestricted deficit calculation. Starting with fiscal year 2019 the Regional System Leases payable are now allocated among the net position components based on the net position components as of the operational effective date of January 1, 2016. The impact is a reclassification within net position categories only.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

There are three general components of a net position or deficit: 1) net investment in capital assets (in its simplest form, capital assets acquired less debt incurred to acquire those assets); 2) restricted (such as legally required bond reserves or net proceeds from bonds restricted for capital spending); and 3) unrestricted.

Net investments in capital assets is the largest component of the net position with a deficit balance of \$311.1 million (\$197.8 million deficit in the water system and \$113.3 million deficit for the sewage disposal system). The balances on June 30, 2019 were a deficit of \$166.5 million for the water system and a deficit of \$62.4 million for the sewage disposal system for a total net investment in capital assets deficit of \$228.9 million. The decrease for 2020 to 2019 of \$82.3 million (\$31.3 million for the water system and \$51 million for the sewage disposal system) is due to depreciation expense being larger than the acquisition of assets and repayment of debt. Most of the overall decrease for 2019 to 2018 of \$579.6 million, with \$227.3 million for water system and \$352.3 million for the sewage disposal system, relates to the reclassification of a portion of the Regional System Leases to this category of net position. The decrease related to the Regional Lease system classification change was \$664.8 million, with \$307.1 million for the water system and \$357.7 million for the sewage disposal system. Increases during the year were attributable to the acquisition of assets and repayment of debt which were offset by depreciation expense. These increases resulted in a positive increase of \$85.2 million, with 79.8 million for the water system and \$5.4 million for the sewage system. The deficit in the net investment in capital assets is representative of numerous cumulative historical financial activities via the predecessor entity. Those primarily related to terminated capital projects which have been subsequently addressed by other projects or approaches.

Net position restricted for debt service represents amounts that are required by the related MBO or other third-party agreements to be used for the repayment of debt. The total amount restricted at year end was \$105.3 million, with \$19.5 million in the water system and \$85.8 million for the sewage disposal system. The amounts at June 30, 2019 were \$29.7 million in the water system and \$117.3 million for the sewage disposal system for a total of \$147 million.

Net position restricted for capital acquisition primarily represents unspent bond proceeds which have been offset by the outstanding balance of bond issues related to the unspent proceeds. Balances reported at June 30, 2018 were \$140.7 million in the water system and \$102.5 million in the sewage disposal system for a total of \$243.2 million. For June 30, 2019 and 2020 there is no balance shown as the unspent bond funds were offset by the bond liability from which they were funded.

Unrestricted net position (deficit) is generally defined as the net result of the other components of net position. The remaining unrestricted deficit totals of \$24.7 million, with \$78.1 million positive net position for the water fund offset by a deficit of \$102.8 for the sewage disposal fund. The overall improvement in the unrestricted net position from current operations was \$ 102.2 million of which \$21.6 million was in the water system and \$80.6 million in the sewage disposal system. The amounts of unrestricted net position at June 30, 2019 was \$183.4 million for the water system and a deficit of \$183.4 for the sewage disposal system for a total of \$126.9 million. One of the factors driving the improvement from 2019 to 2018 is \$776.8 million unrestricted net position is the change made in allocating a portion of the Regional System lease liability to the net investment in capital assets. The overall improvement in the water system was \$344.1 million and the sewage disposal system was \$432.7 million. The improvement related to the change in the classification of a portion of the regional system leases was \$664.8 million, with \$307.1 million for the water system and \$357.7 million for the sewage disposal system. This unrestricted deficit is representative of numerous cumulative historical financial activities via the predecessor entity. The largest dollar amounts were driven by swap termination fees paid by debt. Operations for FY 2019 contributed to \$112 million in improvement, with \$37 million in the water system and \$75 million in the sewage disposal system.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Addressing this deficit is a top priority for the GLWA Board and management but recognizes that it will take time. The Authority forecasts that it will be in a positive net position by the end of the ten-year planning horizon in FY 2030. GLWA continues to optimize its operations, focus on financial planning with a biennial budget, annually update the five-year capital and financial plan, semi-annual updates of the ten-year financial plan, and applying core principles of in asset management. Evidence of those efforts are demonstrated by key financial performance measures. These include strong days cash on hand, debt service coverage well above the minimum requirements, achievement of revenue targets, and positive operations and maintenance expense budget variances. The performance measures in the table below are presented in the Supplementary Information section and the Statistical section of this report.

Financial Performance Measure	Water Fund (Unaudited)	Sewage Disposal Fund (Unaudited)
Days cash on hand (Schedule of Days Cash – Liquidity)	1,086 days	593 days
Debt service coverage for all bonds including junior lien state revolving fund loans (Debt Service Coverage-GAAP Basis)	1.43x	1.30x
Revenue target (Schedules of Revenue Requirement)	\$1.4 million or 0.46% positive budget variance	\$0.4 million or 0.14% negative budget variance
Operations & maintenance budget (Schedules of Operations and Maintenance Expense)	\$5 million or 3.94% negative budget variance	\$7.4 million or 4.07% positive budget variance

Management's Discussion and Analysis

Changes in Net Position

The following is a comparative summary of the business-type activities changes in net position for the last three years, followed by a detailed discussion of the significant changes by activity.

	Changes in Net Position						
	Fiscal Year			Change 2020 vs 2019		Change 2019 vs 2018	
	2020	2019	2018	Amount	Percent	Amount	Percent
Operating revenues	\$ 800,889,221	\$ 801,078,783	\$ 811,894,703	\$ (189,562)	0.0%	\$(10,815,920)	-1.3%
Operating expenses	593,153,157	606,544,905	618,232,739	(13,391,748)	-2.2%	(11,687,834)	-1.9%
Operating income	207,736,064	194,533,878	193,661,964	13,202,186	6.8%	871,914	0.5%
Nonoperating expenses	(234,448,946)	(216,603,735)	(269,581,735)	(17,845,211)	8.2%	52,978,000	-19.7%
Income (loss) before contributions and special item	(26,712,882)	(22,069,857)	(75,919,771)	(4,643,025)	21.0%	53,849,914	-70.9%
Capital contributions	5,960,000	-	-	5,960,000	100.0%	-	0.0%
Change in net position	(20,752,882)	(22,069,857)	(75,919,771)	1,316,975	-6.0%	53,849,914	-70.9%
Net position, beginning	(200,824,621)	(178,754,764)	(102,834,993)	(22,069,857)	12.3%	(75,919,771)	73.8%
Net position, end of year	\$ (221,577,503)	\$ (200,824,621)	\$ (178,754,764)	\$ (20,752,882)	10.3%	\$(22,069,857)	12.3%

Overall, GLWA's financial performance is steady and in line with forecasts. During FY 2020, the ten-year forecast was presented in October 2019 and again later in the fiscal year for inclusion in the official statements for the water and sewage disposal bond refunding transactions. This commitment to long-term forecasting informs current decisions with a focus on improved net position.

Operating revenues are primarily from wholesale water charges of \$312.7 million (93.6% of Water System revenues). There was not much change from 2020 to 2019 as the wholesale customer charge adjustment was budgeted at 0.3%. The slight decrease in water customer charges revenue from 2019 to 2018 was due to several factors. First, an intended outcome as the result of entering into a 30-year contract with the City of Flint in November 2017 which provided a favorable service charge and a credit for an agreement to transfer their interest in the Karegnondi Water Authority (KWA) rights; second, the known transition for the Genesee County Drain Commission (GCDC) to an alternate source (KWA) with an emergency backup service agreement with GLWA; third, a general downward trend in water usage consistent with that seen by other water utilities and very mild weather conditions in the summer of 2019.

Local system revenues of \$21.3 million account for 6.4% of the total operating revenue. The increase in 2020 local system charges is due to increases in max day and peak hour demands which was slightly offset by and adjustment to remove volumes and demands associated with a proposed change in account status for certain GLWA sewer facilities that were previous served as retail customers of DWSD. Local system charges increased in FY 2019 due to Phase 1 of the Units of Service Study (USS). The USS is a study to determine the usage of non-mastered metered customers prepared by an outside engineering firm. Pursuant to the terms of the WSSA with DWSD, a \$20.7 million credit is applied against allocated water revenue requirements in the charge methodology. This credit replaces a previous ownership benefit that was in place prior to the Effective Date of the Regional System Lease.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

GLWA provides services to 88 member partners across 112 communities. Revenue and charge stability are important goals for GLWA and its member partners. Established via an engaged, collaborative process, the water charge structure is based on the following.

1. 40% is based on the average annual usage for each customer from their 36 prior months of usage ending September 30th each year
2. 60% is based on fixed monthly charges

Fiscal year 2020 revenue billed was 100.5% of the amended budget meeting the goal of revenue stability and was net of the KWA credit. Fiscal year 2019 revenue billed was 99% of budget and was net of the KWA credit.

Operating income after operating expenses (including depreciation) equals \$71 million or 21.2% of operating revenue. Operating expenses are detailed below.

Water Fund Operating Expenses								
Fiscal Year				Change 2020 vs 2019		Change 2019 vs 2018		
2020	Percentage of Operating Expense	2019	2018	Amount	Percent	Amount	Percent

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Operating expenses of \$263.3 million represent 78.8% of total operating revenue which consists primarily of depreciation expense and operations and maintenance activities. Depreciation is the larger category of expense at \$127.2 million or 48.3% of operating expense. Given the nature of GLWA's water operations, it is expected that personnel, contractual services, and utilities would represent the higher dollar amount.

Contractual services include field services contracts for timely repairs to minimize disruption in service, technology related services for both operational and enterprise data networks, and outsourcing of janitorial, fleet, and other functions. The increase in contractual services of \$3.0 million from 2020 to 2019 is a result of variances throughout various cost centers. The major variances which total \$1.7 million are detailed below:

- Decrease of \$1.9 million in the Field Services cost center as a result of a true up of construction activity reclass of \$1.0 million in 2019 and decreased costs of \$ 0.9 million for the 14 Mile water main condition assessment pilot study. Both of these projects were for the betterment of the system and therefore paid with I&E funds.
- Decrease of \$4.5 million at Springwells and Northeast water plants for reduced activity of sludge removal.
- Increase of \$8.1 million in allocated contractual centralized services. See the Centralized Services and Administrative Services section for a discussion of these variances. The discussion follows the Sewage Disposal Fund discussions.

Contractual services increased \$7.3 million from 2019 to 2018 which is mainly due to the following items:

- Increase of \$4.5 million for the Springwells water plant contractual services mostly due to the mobile dredging-alum sludge hauling contract which began in FY 2019.
- Increase of \$1.4 million in the Southwest water plant due to an increase of \$3.1 million for the mobile dredging-alum sludge hauling contract which began in FY 2019 and a decrease of \$1.7 million for the dewatering system installation project (SW-548) that incurred costs in FY 2018 but not in FY 2019.
- Increase of \$0.8 million in the Northeast water plant for the mobile dredging-alum sludge hauling contract which began in FY 2019.
- Increase of \$2.1 million in the Improvement and Extension (I&E) fund for projects that were for the betterment of the system and therefore paid with I&E funds. These projects included water main condition assessment, blow off valve condition assessment and Geographic Information System (GIS) data development.
- Decrease of \$0.9 million in the allocation of the administrative services cost. See the Centralized Services and Administrative Services section for a discussion of these variances. The discussion follows the Sewage Disposal Fund discussions.
- Decrease of \$1.6 million in the allocation of the centralized services costs. See the Centralized Services and Administrative Services section for a discussion of these variances. The discussion follows the Sewage Disposal Fund discussions.

Capital program allocation increased from 2019 to 2018 due to the implementation of a user-friendly software tracking system in 2019 for personnel time spent on capital projects.

The \$5.7 million decrease in the FY 2020 shared services allocation is due to a \$4 million true up decrease for 2018 and 2019 shared services. The remaining decrease is due to less services required by DWSD. The \$3.2 million decrease in the shared services allocation for FY 2019 is due to less services required by DWSD as some of the Information Technology services were terminated during the year in accordance with an agreed upon transition plan.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Water Fund Nonoperating Revenue (Expenses)								
Fiscal Year				Change 2020 vs 2019		Change 2019 vs 2018		
2020	Percentage of Nonoperating Expense	2019	2018	Amount	Percent	Amount	Percent	
Earnings on Investments	\$ 13,744,774	-15.2%	\$ 14,754,401	\$ 6,129,530	\$ (1,009,627)	-6.8%	\$ 8,624,871	140.7%
Interest on loan and obligations receivable	22,945,866	-25.4%	22,921,380	23,351,220	24,486	0.1%	(429,840)	-1.8%
Interest expense	(133,537,621)	147.6%	(136,704,033)	(139,343,204)	3,166,412	-2.3%	2,639,171	-1.9%
Legacy pension income (expense)	(7,220,716)	8.0%	6,014,441	(8,933,691)	(13,235,157)	-220.1%	14,948,132	-167.3%
Other	13,568,934	-15.0%	8,925,386	11,125,542	4,643,548	52.0%	(2,200,156)	-19.8%
Total Nonoperating Expenses	(90,498,763)	100.0%	(84,088,425)	(107,670,603)	(6,410,338)	7.6%	23,582,178	-21.9%

Net nonoperating expense of \$90.5 million is primarily related to interest expense of \$133.5 million. The interest expense from debt service is \$111.3 million with the remainder related to the Regional Water System Lease, obligation payable and raw water rights lease. The largest offsets to the nonoperating expense are interest revenue on the obligation receivables of \$22.9 million, which is related to the terms of the Regional Water System Lease, and investment earnings of \$13.7 million.

As a result of the short-term nature of the GLWA portfolio, it is heavily impacted by changes in the Fed Funds interest rate. Earnings increased in FY 2018 and FY 2019 as the Federal Reserve increased interest rates. The rate peaked in June 2019 at a range of 2.25 – 2.50%. Earnings dropped in FY 2020 as the Federal Reserve cut the Fed Funds interest rate to 0%.

The decrease in interest expense in 2020 and 2019 is a result of a reduction in long term debt as well as the savings being realized from bond refunding transactions in 2016, 2018 and 2020.

The legacy pension variances are a result of income being realized in 2019 versus an expense. The main reason for the income in 2019 was a change in actuarial assumptions that decreased the total pension liability. The decrease in 2020 is also related to a significant decrease in investment earnings on the plan assets.

Nonoperating expenses	(143,950,183)	-30.8%	(132,515,310)	(161,911,132)	(11,434,873)	8.6%	29,395,822	-18.2%
Income (loss) before contributions and special item	(7,184,966)	-1.5%	(5,623,578)	(51,958,560)	(1,561,388)	27.8%	46,334,982	-89.2%
Capital contributions	5,960,000		-	-	5,960,000	100.0%	-	0.0%
Change in net position	(1,224,966)	-0.3%	(5,623,578)	(51,958,560)	4,398,612	-78.2%	46,334,982	-89.2%
Net position, beginning	(123,942,981)		(118,319,403)	(66,360,843)	(5,623,578)	4.8%	(51,958,560)	78.3%
Net position, end of year	\$ (125,167,947)		\$ (123,942,981)	\$ (118,319,403)	\$ (1,224,966)	1.0%	\$ (5,623,578)	4.8%

Operating revenues are primarily from wholesale sewer charges of \$266 million (57% of Sewage Disposal System revenues). The decrease from 2020 to 2019 in the wholesale customer charges is a result of a credit to a member on their wholesale charges of \$5.9 million for a capital contribution as shown on the capital contribution line item. The decrease also relates to an increase in bad debt charges of approximately \$518,000. The increase from 2019 to 2018 is a result of the budgeted wholesale charge increase of 1.3%

Local system revenues of \$185.8 million account for 39.8% of total operating revenues. The variances in the local system charges line up with the budgeted increases of 2.5% for FY 2020 and 1.2% for FY2019. Pursuant to the terms of the WSSA with DWSD, a \$5.516 million credit is applied against sewer charges in the charge methodology. This credit replaces a previous contractual arrangement that was in place prior to the Effective Date of the Regional System.

The remaining 3.2% of operating revenue is due to other charges such as industrial waste charges and pollutant surcharges which are charged to non-residential users. The decrease in the industrial waste charges are due to decreases made in the charges for both FY2020 and FY2019. The decrease in the others revenue

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

line item from 2019 to 2018 relates to \$3.7 million of insurance proceeds in FY2018 related to operations cost incurred for the cleanup of the fire damage at the WWTP.

GLWA provides services to 19 member partners across 79 communities. Wholesale contract charges are based on a "share" percentage of the annual revenue requirement billed one-twelfth each month. The shares are established based upon historical flows and are formally revisited every three years. The result is no revenue shortfall or overestimation.

Operating income after operating expenses (including depreciation) equals \$136.8 million or 29.3% of operating revenue. Operating expenses are detailed below.

Sewage Disposal Fund Operating Expenses									
Fiscal Year				Change 2020 vs 2019		Change 2019 vs 2018			
2020	Percentage of Operating Expense	2019	2018	Amount	Percent	Amount	Percent		
Operating expenses before depreciation									
Personnel	\$ 60,320,195	18.3%	\$ 56,503,053	\$ 53,680,162	\$ 3,817,142	6.8%	\$ 2,822,891	5.3%

Total operating expenses before depreciation									
	176,949,460	53.6%	174,040,805	176,379,404	2,908,655	1.7%	(2,338,599)	-1.3%	
Depreciation									
	152,920,967	46.4%	168,544,370	187,250,583	(15,623,403)	-9.3%	(18,706,213)	-10.0%	
Total Operating Expenses									
	\$ 329,870,427	100.0%	\$ 342,585,175	\$ 363,629,987	\$(12,714,748)	-3.7%	\$(21,044,812)	-5.8%	

Operating expenses of \$329.9 million represent 70.7% of total operating revenue which consists primarily of depreciation expense and operations and maintenance activities. Depreciation is the larger category of expense at \$152.9 million or 46.4% of operating expense. Given the nature of GLWA's wastewater operations, it is expected that personnel, contractual services, and utilities would represent the higher dollar amount.

Personnel cost increase in FY 2020 is mainly due to increase in the allocation from both Centralized and Administrative charges. See the Centralized Services and Administrative Services section for a discussion of these variances. This discussion follows the Sewage Disposal Fund discussions.

Contractual services include operation and management of the Biosolids Dryer Facility (BDF), timely repairs for the Water Resources Recovery Facility (WRRF), staff augmentation for operations, technology related services for both operational and enterprise data networks, and outsourcing of janitorial, fleet, and other functions. Contractual services increased \$4.7 million in FY 2020 which is due to the following:

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

- Increase of \$2.2 million for CSO condition assessment beginning in FY 2020.
- Decrease of \$1.9 million due to various contract reductions in the following cost centers: Chief Operating Officer Wastewater, Wastewater Operations, Wastewater Process Control and Baby Creek Combined Sewer Overflow.
- Increase of \$4.4 million in allocated contractual centralized services. See the Centralized Services and Administrative Services section for a discussion of these variances. This discussion follows the Sewage Disposal Fund discussions.

Contractual services decreased \$5.4 million in FY 2019 from FY 2018 mainly due to the following items:

- Decrease of \$2.1 million relating to a generator rental incurred in fiscal year 2018 for backup electrical service for the wastewater treatment plant which was not incurred in fiscal year 2019.
- Decrease of \$3.0 million in the allocation of the administrative services costs. See the Centralized Services and Administrative Services section for a discussion of these variances. The discussion follows the Sewage Disposal Fund discussions.

The supplies and other expenses decrease of \$1.9 million in FY 2020 is mainly due to inventory reserve adjustments.

The Capital adjustment in FY 2019 relates to projects, generally design phase engineering costs, which did not move into the construction phase and were expensed to operations.

Capital program allocation increased in FY 2019 due to the implementation of a user-friendly software tracking system for personnel time spent on capital projects.

The variance in the shared services allocation for both FY 2020 and FY 2019 are due to true-up adjustments related to previous years.

Sewer Fund Nonoperating Revenue (Expenses)

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Net nonoperating expense of \$144 million is primarily related to \$155.4 million of interest expense. Interest expense from debt service is \$136 million with the remainder related to the Regional Sewage Disposal Lease and obligation payable. The largest offset to the expense is interest revenue of \$19.5 million on the obligations receivable, which is related to the terms of the Regional Sewage Disposal Lease, and investment income of \$11.7 million.

As a result of the short-term nature of the GLWA portfolio, it is heavily impacted by changes in the Fed Funds interest rate. Earnings increased in FY 2018 and FY 2019 as the Federal Reserve increased interest rates. The rate peaked in June 2019 at a range of 2.25 – 2.50%. Earnings dropped in FY 2020 as the Federal Reserve cut the Fed Funds interest rate to 0%.

Interest earnings on loan and obligation receivable have increased due to increases in the obligation receivable related to additional new money bonds and SRF loans and the loan receivable from DWSD due to budget shortfalls.

The decrease in interest expense in 2020 and 2019 is a result of a reduction in long term debt as well as the savings being realized from bond refunding transactions in 2016, 2018 and 2020.

The legacy pension variances are a result of income being realized in 2019 versus an expense. The main reason for the income in 2019 was a change in actuarial assumptions that decreased the total pension liability. The decrease in 2020 is also related to a significant decrease in investment earnings on the plan assets.

The sewer lookback-MOU adjustment in 2019 was a one-time charge which was part of the 2018 MOU with DWSD.

Centralized Services and Administrative Services

The following table summarizes the activity in the centralized services and administrative services for FY 2018 through FY 2020.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Centralized and Administrative Services											
Fiscal Year			Change 2020 vs 2019				Change 2019 vs 2018

Total Administrative Services	28,956,116	25,119,187	26,860,316	3,836,929	15.3%	1,918,464	1,918,465	(1,741,129)	-6.5%	1,032,048	(2,773,177)

Centralized services personnel costs increased \$3.8 million and administrative services personnel cost increased \$3.9 million in FY 2020. There was an increase in staff of 7 employees in the centralized services cost center and 5 employees in the administrative services cost center. Overall employee benefit costs also increased in FY 2020. In FY 2019 centralized services personnel cost increased \$4.6 million due to an increase in staff of 19 employees. Administrative services personnel cost increased \$1.9 million due to an increase in staff of 18 employees.

Centralized contractual services increased \$12.4 million in FY 2020. The major variances which total \$10.2 million are detailed below:

- Increase of \$6.7 million in Capital Improvement Planning due to a full year of activity from AECOM.
- Increase of \$5.0 million is due to an AT&T contract renewal credit (\$1.3 million) received in FY 2019 and increase in billing rate for AT&T AVPN services.
- Increase of \$1.7 million related to COVID-19 deep cleaning performed at various GLWA facilities.
- Increase of \$1.5 million for increase in legal services.
- Decrease of \$2.1 million in Systems Planning upon completion of the Wastewater Master Plan in FY 2020.
- Decrease of \$1.3 million in Systems Analytics with more engineering work performed in house.
- Decrease of \$1.3 million resulting from reduced IT needs related to our human resources information services system.

Centralized services contractual services decreased \$1.8 million in FY 2019. This variance is spread among many cost centers. The cost centers with the largest variances are detailed below:

- Increase of \$1.6 million in asset management.
- Increase of \$0.7 million in energy research and innovation.
- Decrease of \$2.4 million in the facility operations cost center.
- Decrease of \$1.3 million in the information technology cost centers.
- Decrease of \$0.8 million in systems operations control.
- Decrease of \$0.5 million in systems analytics.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Administrative contractual services decreased \$3.9 million in FY 2019. The majority of this decrease was due to a decrease of \$2.9 million in legal services during the fiscal year.

Capital Assets and Debt Administration

GLWA's investment in capital assets is \$4.4 billion (net of accumulated depreciation) with \$1.8 billion assigned to the Water System and \$2.6 billion assigned to the Sewage Disposal System. The investment in capital assets includes land, buildings, plants, transmission lines, vehicles and other equipment. Total net capital assets decreased in both 2019 and 2020. The net decrease is primarily attributable to depreciation in excess of current year additions. See Note 10 to the financial statements for more information on capital assets. The Authority implemented GASB 89 during FY 2018 and no longer capitalizes interest expense.

	Capital Assets (Net)						
	Fiscal Year			Change 2020 vs 2019		Change 2019 vs 2018	
	2020	2019	2018	Amount	Percent	Amount	Percent

Total water fund capital assets (net of depreciation)	\$1,809,126,127	\$1,858,595,653	\$1,933,803,588	\$ (49,469,526)	-2.7%	\$ (75,207,935)	-3.9%

Water Fund additions in 2020 and 2019 were mainly due to transfers out of construction in progress to the applicable asset category. Total additions in FY 2020 to construction in progress was \$76.5 million and transfers out of \$125.1 million. The total additions in FY 2019 to the construction in progress were \$61.5 million with \$28.4 million transferred to capital assets. The table below summarizes major projects for the last two years. Comprehensive project plan details can be found within Capital Improvement Plan documents available at <https://www.glwater.org/cip/>.

Total sewage disposal fund capital assets (net of depreciation)	\$2,599,786,483	\$2,675,593,255	\$2,756,460,272	\$ (75,806,772)	-2.8%	\$ (80,867,017)	-2.9%

Sewage Disposal Fund additions in 2020 and 2019 were mainly due to transfers out of construction in progress to the applicable asset category. Total additions for FY 2020 to construction in progress was \$73.8 million and transfers out of \$90.5 million. The total additions for FY 2019 to the construction in progress were \$82.1 million with \$34.6 million transferred to capital assets. The table below summarizes major projects for the last two years. Comprehensive project plan details can be found within Capital Improvement Plan documents available at <https://www.glwater.org/cip/>.

Intangible Asset and Related Obligation - Water Fund

Effective December 1, 2017, GLWA, the city of Flint, Karegnondi Water Authority (KWA), Genesee County Drain Commission (GCDC) and the State of Michigan entered into a long-term partnership agreement to satisfy a number of critical water service needs across the region. Key provisions of a master agreement comprised of seven separate exhibits includes: 1) A 30-year water service contract with Flint that establishes GLWA as the long-term water source for the city and credits the city of its debt service payment obligations on existing KWA bonds for the building of its water facilities; 2) a long-term lease to GLWA of the 72-inch line serving the city; and 3) a 30-year contract for reciprocal, emergency water services between GLWA and GCDC.

The 30-year water service contract with the city of Flint includes a license to raw water rights on 17.46 MGD of the 18 MGD purchased by Flint as part of KWA bond obligation. These licensed rights constitute an intangible asset under governmental accounting standards. Therefore, the Authority has recorded an offsetting intangible asset and lease obligation of approximately \$107 million associated with this agreement as part of the fiscal year ending June 30, 2018 financial statements. The Authority recognized \$3.6 million of amortization expense during the current and previous year. The lease obligation for the raw water rights was reduced by \$2.5 million in the current year and by \$3 million during the previous year.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Long-term Debt

At year-end, the Authority had \$5.3 billion of long-term debt. All of the outstanding bonds are revenue bonds, including capital appreciation bonds and state revolving fund loans. Of the total, \$2.3 billion is assigned to the Water System and \$3 billion is assigned to the Sewage Disposal System.

During the year, the Authority refunded both water system and sewage disposal system bonds. The details of these refunding transactions are described in Note 13. These transactions included debt reserve releases of \$10.5 million for the Water Fund and \$33.6 million for the Sewage Disposal Fund. The transactions also achieved all necessary bondholder consents on the debt service reserve fund springing amendments for the potential future elimination of the Water System Bond Reserve Funds and the Sewage Disposal System Bond Reserve Funds once GLWA attains two AA category ratings.

	Outstanding Debt						
	Fiscal Year			Change 2020 vs 2019		Change 2019 vs 2018	
	2020	2019	2018	Amount	Percent	Amount	Percent
Revenue bonds	\$4,840,155,000	\$4,824,710,000	\$4,868,890,000	\$ 15,445,000	0.3%	\$(44,180,000)	-0.9%
Capital appreciation bonds	11,335,000	14,780,000	17,250,000	\$ (3,445,000)	-20.0%	\$ (2,470,000)	-14.3%
State revolving loans	488,984,795	504,037,930	501,113,442	(15,053,135)	-3.0%	2,924,488	0.6%

Water Fund

The total outstanding debt for the Water System is \$2.3 billion, increasing by \$51.1 million from the prior year.

The Authority issued \$463.1 million in refunding and new money water system revenue bonds during the year ended June 30, 2020. The new money bonds totaling \$85.6 million and were a pass-through to DWSD for local system improvements.

Less than 1.7% of the total indebtedness is issued through the State of Michigan revolving fund loan program for the benefit of the Water System. The Water System received \$16.1 million in new state revolving fund loans and received \$4.7 million in loan forgiveness. The amount of state revolving fund loans pass-through to DWSD for local system improvements was \$6.8 million.

	Water Fund Outstanding Debt						
	Fiscal Year			Change 2020 vs 2019		Change 2019 vs 2018	
	2020	2019	2018	Amount	Percent	Amount	Percent
Revenue bonds	\$2,261,935,000	\$2,220,320,000	\$2,284,825,000	\$ 41,615,000	1.8%	\$(64,505,000)	-2.8%
State revolving loans	39,318,264	29,860,802	25,435,902	9,457,462	37.2%	4,424,900	17.4%
Total outstanding debt	<u>\$2,301,253,264</u>	<u>\$2,250,180,802</u>	<u>\$2,310,260,902</u>	<u>\$ 51,072,462</u>	<u>2.2%</u>	<u>\$(60,080,100)</u>	<u>-2.6%</u>

Repayment of GLWA bonds issued are funded by charges to all member partners. Repayment of the debt service assigned to DWSD for Local System improvements are paid from retail customer collections by DWSD.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Sewage Disposal Fund

The total outstanding debt for the Sewage Disposal System is \$3 billion, decreasing by \$54.1 million from the prior year.

The Authority issued \$687.5 million of sewage disposal system refunding revenue bonds during the year ended June 30, 2020.

Approximately 14.8% of the total indebtedness is issued through the State of Michigan revolving fund loan program for the benefit of the Sewage Disposal System. The Sewage Disposal System received \$25.2 million in new state revolving fund loans.

Sewage Disposal Fund Outstanding Debt							
	Fiscal Year			Change 2020 vs 2019		Change 2019 vs 2018	
	2020	2019	2018	Amount	Percent	Amount	Percent
Revenue bonds	\$2,578,220,000	\$2,604,390,000	\$2,584,065,000	\$(26,170,000)	-1.0%	\$ 20,325,000	0.8%
Capital appreciation bonds	11,335,000	14,780,000	17,250,000	(3,445,000)	-20.0%	\$ (2,470,000)	-14.3%

Total outstanding debt	\$3,039,221,531	\$3,093,347,128	\$3,076,992,540	\$(54,125,597)	-1.8%	\$ 16,354,588	0.5%

Repayment of GLWA bonds issued are funded by charges to all member partners. Repayment of the debt service assigned to DWSD for Local System improvements is paid from retail customer collections by DWSD.

Credit Ratings

In March 2020 the Authority's ratings were upgraded or affirmed. For both the Water Fund and the Sewage Disposal Fund, Fitch Ratings upgraded the ratings with senior lien debt at A+ and second lien at A, both with a stable outlook; Standard & Poor's affirmed the Authority's ratings with water senior lien debt at AA- and second lien at A+, and upgraded the sewage disposal senior lien one notch to AA- and second lien at A+, all with a stable outlook; and Moody's upgraded the Authority's ratings one notch with senior lien debt at A1 and second lien at A2, all were assigned a stable outlook.

Additional information on the Authority's long-term debt can be found in Note 13.

Economic Factors Affecting Next Year's Operations and Rates

On March 11, 2020, the GLWA Board adopted the biennial budget for the Authority for fiscal years 2021 and 2022. That two-year financial plan remains true to a foundational commitment to control the budget within a 4% revenue cap as further described below.

Water Fund

For FY 2021 the budget increased by 0.6 percent. This translated into a system average charge increase of 3.2 percent and suburban wholesale member partner average charge increase of 3.1 percent depending on each customers usage in relation to other customers.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Sewage Disposal Fund

For FY 2021 budget increased by 1.3 percent. This translated into a system average charge increase of 2.0 percent and suburban wholesale member partner average charge decrease of 1.7 percent.

COVID-19 Pandemic

Charge increases to member partners were to take effect on July 1, 2020. Due to the COVID-19 pandemic the Board delayed implementation of charge increases until October 1, 2020 resulting in a revenue reduction of \$3 million for the water system and \$2.65 million for the sewer system. In September 2020, the Board passed a second delay of implementation to January 1, 2021, resulting in another revenue reduction of \$3 million for the water system and \$2.65 million for the sewer system. These delays in implementation of increased charges along with a substantial decrease in investment earnings as a result of the pandemic will require budget amendments for FY 2021 which the Authority is working on. In addition to these revenue reductions, the Authority is incurring additional operating costs for cleaning and providing a safe workplace for our team members. The Authority is working with its insurance provided for possible insurance recoveries as well as requesting reimbursement of qualifying costs from FEMA.

Requests for Information

This financial report is designed to provide a general overview of GLWA's finances for all those with an interest in the Authority's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Great Lakes Water Authority, Office of the Chief Financial Officer, 735 Randolph, Detroit, Michigan 48226. This report is also available on the Authority's website at www.glwater.org.

GREAT LAKES WATER AUTHORITYNOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Great Lakes Water Authority (GLWA or the Authority) is the regional wholesale provider of water and sewage disposal services in southeast Michigan. The Authority was incorporated by the counties of Macomb, Oakland, Wayne and the City of Detroit (the City) on November 26, 2014 pursuant to Act 233, Public Acts of Michigan, 1955, as amended (Act 233). Pursuant to Regional System Leases that became effective on January 1, 2016, the Authority assumed possession and control of the regional assets of both the water supply and sewage disposal systems owned by the City, which were previously operated by the Detroit Water and Sewerage Department (DWSD). The City, acting through DWSD, will continue to manage and operate its own local retail water and sewage disposal system infrastructure. The Regional System Leases assigned all revenues of both systems to the Authority for an initial term of 40 years and, pursuant to bondholder consent, replaced the City with GLWA as the obligor on all outstanding debt obligations of the City related to the systems.

The term “Regional System Leases” is used throughout the financial statements to represent the agreements that transferred the regional water system and sewage disposal system assets and operations from the City of Detroit to GLWA. The Regional System Leases are not considered a lease as defined by the Government Auditing Standards Board (GASB) in GASB Statement No. 87, *Leases*.

The Authority’s water system is one of the largest in the United States, both in terms of water produced and population served. The water system currently serves an area of 1,698 square miles located in eight Michigan counties and an estimated population of approximately 3.8 million or approximately 38% of Michigan’s population. Suburban wholesale customers comprise approximately 82% of the population in the service area, and the DWSD retail water customers comprise the remainder.

The Authority’s sewage disposal system is one of the largest in the United States, both in terms of treatment capacity and population served. The sewer disposal system currently serves an area of 944 square miles located in three Michigan counties and an estimated population of approximately 2.8 million or approximately 28% of Michigan’s population. Suburban customers comprise approximately 76% of the population in the service area, and the DWSD retail sewer customers comprise the remainder.

The Authority’s Board is authorized to establish rates, fees and charges for its water supply and sewage disposal services. Under the Water and Sewer Services Agreement, the City is appointed as agent of the Authority for setting retail rates and for billing, collecting and enforcing the collection of charges from retail water and sewer customers. As an agent of the Authority, the City, through the Board of Water Commissioners and without further approval by the City Council, is required to set retail rates to meet the revenue requirements that the Authority establishes for the retail system for regional commitments as well as other reasonable costs of the local DWSD systems. Under certain conditions, the Authority may terminate the City’s appointment.

The financial statements of the Authority have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the Authority’s accounting policies are described below.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

REPORTING ENTITY

The GLWA Board is composed of six voting members. Two members are residents of the City of Detroit and are appointed by the Mayor of the City of Detroit. The chief executive of the counties of Macomb, Oakland and Wayne each appoint one member who is a resident of the county from which appointed and the Governor of the State of Michigan appoints one member who is a resident of an area served by the Authority outside of the counties. All members of the GLWA Board must have at least seven years of experience in a regulated industry, a utility, engineering, finance, accounting or law firm. After the initial term specified in its Articles of Incorporation, each GLWA Board member is appointed for a four-year term and serves at the pleasure of the appointing government.

The GLWA Board has adopted a committee structure. Four committees have been established: Audit, Capital Improvement Planning, Operations and Resources, and Legal.

BASIS OF PRESENTATION

The Authority presents a water enterprise fund and a sewage disposal enterprise fund for its basic financial statements which consists of a statement of net position, statement of revenues, expenses and changes in net position, a statement of cash flows and these notes to the financial statements.

BASIS OF ACCOUNTING

The accounting policies of the Authority conform to GAAP as applicable to governmental entities. The accounts of the Authority are used to account for its activities, which are financed and operated in a manner similar to a private business enterprise. Accordingly, the Authority maintains its records on the accrual basis of accounting. Revenues from operations, investments and other sources are recorded when earned. Expenses (including depreciation) of providing services to the public are accrued when incurred.

Nonexchange transactions, in which the Authority receives value without directly giving equal value in return, include contributions and grants. On an accrual basis, revenue from contributions and grants is recognized in the fiscal year in which all eligibility requirements have been satisfied, including timing and expense requirements. Timing requirements specify the year when the resources are required to be used or the fiscal year when use is first permitted. Expense requirements specify the year in which the resources are provided to the Authority on a reimbursement basis.

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION

Cash Deposits and Investments

The Authority's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION (cont.)

Cash Deposits and Investments (cont.)

Investments are reported at fair value or estimated value. The Authority maintains and adheres to a formal investment policy in accordance with Michigan Public Act 20 of 1943, Investment of Surplus Funds of Political Subdivisions. Michigan State law allows the Authority to deposit in the accounts of federally insured banks, credit unions and savings and loan associations and to invest in obligations of the U.S. Treasury, certain commercial paper, repurchase agreements, bankers' acceptances and mutual funds composed of otherwise legal investments. These investments are subject to interest rate risk and credit risk which may affect the value at which these investments are recorded.

Restricted Assets

Restricted assets are those assets set aside as required by the Authority's Master Bond Ordinance (MBO), funds held on behalf of another entity, or where legally restricted for a particular purpose such as bond proceeds for the capital program. See Note 4 for further details.

Accounts Receivable

The Authority records unbilled revenues for services provided prior to year-end by accruing actual revenues billed in the subsequent month.

The Authority recognizes an estimate of uncollectible accounts for its customer accounts receivable related to its water and sewage disposal services.

Due from and Due to Other Governments

Amounts owed to the Authority by DWSD for shared services and local revenue requirements, accrued interest receivable on the contractual obligation receivable and federal and state grants. Amounts owed by the Authority to DWSD for shared services and green infrastructure program.

Due from and Due to Other Funds

An amount owed between the Water and Sewage Disposal Funds based on shared centralized and administrative services administered by the Water Fund and allocated to the Sewage Disposal Fund. Any water system usage of inventory in the Sewage Disposal Fund is charged through an interfund payable to the Sewage Disposal Fund.

Contractual Obligation Receivable

Pursuant to the Water and Sewer Services Agreement, the City is responsible for paying the portion of debt service on the bonds assumed by the Authority that were issued to finance the cost of improvements to the Detroit local facilities. The resulting contractual obligation is a receivable recorded by the Authority and is repaid by DWSD based upon an agreed upon schedule. Any new debt issued on behalf of the City and DWSD is also included in the contractual obligation receivable.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION (cont.)***Loan Receivable – DWSD***

The balance represents loan receivables from DWSD established per the 2018 Memorandum of Understanding (MOU) dated June 27, 2018 executed between DWSD and the Authority to cure any shortfall created from difference between cash receipts and the MBO obligations. An annual loan amount and interest rate is determined based on any shortfalls during each fiscal year. There was a sewer shortfall of local revenue requirements of \$10.2 million for the fiscal year ending June 30, 2020 that is included in the due from other governments as DWSD has one year to cure the shortfall before it becomes a loan receivable.

Prepaid Items and Other Assets

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the financial statements. Prepaid insurance on debt is amortized over the life of the debt. Other assets include accrued interest receivable on investments.

Inventories

Inventories consist of operating, maintenance and repair parts for water and sewage disposal system assets and are valued at the lower of cost or market, with cost being determined on an average cost method. Inventory is recorded as expense when consumed rather than when purchased.

Prepaid Lease

As described in Note 14, the Authority has recorded a prepaid lease for cash paid to DWSD on the date GLWA began operations equivalent to six months of lease payments. As noted in the 2018 MOU dated June 2018, this amount will be applied at the end of the 40-year term and, hence, it is classified as a noncurrent asset.

Capital Assets

Capital assets are recorded at historical cost. All acquisitions of land and land improvements are capitalized regardless of cost. The capitalization threshold is \$5,000 for capital assets with the exception of certain information technology which is \$1 million dollars. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION (cont.)

Capital Assets (cont.)

Capital assets acquired after January 1, 2016 are depreciated on the straight-line basis over the useful life of the assets as follows:

	Useful Lives (In Years)
Site improvements	15
Buildings and structures	20-50
Infrastructure	80
Machinery and equipment	3-20
Vehicles	5-7
Leasehold improvements	15

Capital assets acquired as of the operational effective date of the Authority at January 1, 2016 are depreciated over their estimated remaining useful lives at that time as determined by a third-party valuation. These remaining lives differ from the years cited above for newly acquired capital assets and, in most instances, are significantly shorter.

Intangible Asset - Raw Water Rights

The Authority has recorded an intangible asset for raw water rights which is being amortized on a straight-line basis over 30 years. See Note 10 for a description of these rights.

Deferred Outflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods. At that time, the activity will be recognized as an outflow of resources (or expense). The Authority reports deferred outflows of resources for two items: deferred charges on refunding and pension amounts. Deferred charges on refunding results from the difference in the carrying value of refunded debt and its reacquisition price; these amounts are deferred and amortized over the shorter of the life of the refunded or refunding debt. Deferred outflows of resources from pension amounts relate to the net pension liability. A portion of these costs represent contributions to the plan subsequent to the plan measurement date. More detailed information on pension amounts can be found in Note 18.

Other Accrued Liabilities

Other accrued liabilities represent amounts held for specific purposes or other parties as described below:

Current

- Under the terms of the MBO, the Authority retains cash on hand for the benefit of DWSD to be used for current revenue requirements.
- The Authority holds a customer deposit for \$3,750,000 plus interest earned net of bank fees.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION (cont.)

Other Accrued Liabilities (cont.)

Noncurrent

- Under the terms of the MBO, the Authority retains cash on hand for the benefit of DWSD for budget stabilization funds to be used if DWSD has cash shortfalls.
- DWSD's local share of the Water Residential Assistance Program (WRAP) funds that have not been remitted to the administrator of the WRAP program.

Arbitrage Rebate Payable

Certain bonds are subject to arbitrage rebate requirements in accordance with regulations issued by the U.S. Treasury Department. The requirements generally stipulate that earnings from the investment of the tax-exempt bond proceeds that exceeds related interest costs on the bonds must be remitted to the Federal government on every fifth anniversary of each bond issue. The Authority did not have an arbitrage rebate liability as of June 30, 2020.

Long-Term Debt

In the financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

Leases Payable

The effective date of the Regional System leases by the City to the Authority for the leased water and sewage disposal facilities was January 1, 2016. See Note 14 for the details of the regional system leases.

Lease Obligation - Raw Water Rights

The Authority has recorded a liability for the lease obligation on its raw water rights. See Note 15 for the details of this obligation.

Obligation Payable

Under the terms of the lease agreements with the City, the Authority is required to pay a portion of the City's B and C notes allocated to the regional water and sewage disposal systems. See "Obligation Payable - City of Detroit 2014 Financial Recovery Bonds" in Note 13.

GREAT LAKES WATER AUTHORITYNOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION (cont.)***Compensated Absences***

The Authority has a paid time off (PTO) policy which has an annual accrual period ending September 30 each year. Employees are allowed to carry over a maximum bank of 80 hours to the next accrual period. Balances greater than 80 hours up to a maximum of 160 hours are converted to the retiree health saving program at 50% of the value of the PTO time. Hours in excess of 160 hours are forfeited if unused by September 30 of each accrual period. The accrued compensated absences for PTO accrual are approximately \$2,802,000 for the Water Fund and \$899,000 for the Sewage Disposal Fund on June 30, 2020.

Due to the impact COVID-19 had on our team members, the Authority granted team members who were granted advanced PTO or used accrued PTO hours for a COVID-19 related absence between March 16, 2010 and June 30, 2020 replenishment of PTO, not to exceed 80 hours, for COVID-19 related absence.

The Authority also has an accrued compensated absence liability assumed on January 1, 2016 relating to the accumulated unpaid vacation and sick leave balances for those employees who retired from the City or resigned from the City and accepted employment with the Authority on January 1, 2016. The June 30, 2020 balance of the accrued compensated absences for the liability assumed on January 1, 2016 is approximately \$2,134,000 of which \$179,000 is current. This liability is recorded in the Water Fund as the disbursements for payment will be processed from the Water Fund with reimbursement from the Sewage Disposal Fund. The accrued compensated absences includes the employers' share of Social Security and Medicare taxes.

Claims and Judgements

The Authority has accrued in its financial statements for known asserted claims in which future settlements may be necessary.

Net Pension Liability

Under the terms of the Regional System leases, the Authority participates in the City of Detroit General Employee's Retirement system (GRS) Component II plan in a special funding situation. For the purposes of measuring the net pension liability, deferred outflows, and pension expense, information about the fiduciary net position of the Component II plan of the GRS and additions to/ deductions from the plan's net position have been determined on the same basis as they are reported by GRS. The GRS combined plan uses the economic resources measurement focus and the full accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred. Plan member contributions are recognized in the period in which the contributions are due. Benefits are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value or estimated fair value. Refer to Note 18 for additional information on the net pension liability.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION (cont.)

Deferred Inflows of Resources

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods. At that time, the activity will be recognized as an inflow of resources (or revenues). The Authority has included the deferred amounts on swap terminations, deferred gain on refunding and pension inflows in this reporting category. The deferred amounts on swap terminations were assumed as part of the regional system lease agreements with the City. The amounts will be fully amortized for both funds by fiscal 2035. Deferred gain on refunding results from the difference in the carrying value of refunded debt and its reacquisition price; these amounts are deferred and amortized over the shorter of the life of the refunded or refunding debt. Deferred pension inflows result when there is a change in total pension liability due to benefit changes, differences between expected and actual experience, changes in actuarial assumptions, or differences between expected and actual investment returns. The amount for the changes in actuarial assumptions is deferred and amortized over the estimated remaining service life. The amount for the difference between actual and projected assumptions in investment earnings is deferred and amortized over five years.

Deferred Capital Contribution – represents the balance of the amount received from a customer in exchange for elimination of future capital charges related to GLWA assets that the customer will maintain in the future. In March 2019, the Great Lakes Water Authority (GLWA) and the Oakland-Macomb Interceptor Drain Drainage District (OMIDDD) signed a contract amendment that redefined the operation, maintenance, repair and improvement responsibilities of each entity regarding the Northeast Sewer Pump Station (NESPS), interceptor PCI-5 and the North Interceptor East Arm (NIEA). As part of this agreement, OMIDDD is required to pay GLWA a one-time contribution in the amount of \$11,920,000, which generally reflects GLWA's determination of net book value of the assets as of the effective date. This amount was used to meet budgeted debt service requirements of \$5,960,000 in FY 2020 and \$5,960,000 in FY2021.

Net Position

Net position, which represents the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources, is reported in three components as follows:

Net Investment in Capital Assets - consists of capital assets, net of accumulated depreciation and reduced by the balance of outstanding related debt including the share of the regional system lease liability allocable to the net investment in capital assets acquisition value of the regional systems recorded under GASB 69.

Restricted – consists of amounts that are legally restricted by outside parties or by law through constitutional provisions or enabling legislation. The net position consists of restricted assets reduced by liabilities related to those assets.

Unrestricted – is the residual balance of net position after net investment in capital assets and restricted.

When both restricted and unrestricted resources are available for use, generally it is the Authority's policy to use restricted resources first and then unrestricted resources when they are needed.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET POSITION

Classification of Revenues and Expenses

The Authority classifies its revenues and expenses as either operating or nonoperating.

Operating revenues are those revenues generated from providing services in connection with the Authority's principal ongoing operations. The principal operating revenues of the Authority are wholesale charges for providing water and wastewater treatment. The local system charges are the charges to the City of Detroit under the Water and Sewer Services Agreement (WSSA), dated June 12, 2015. Wholesale customer charges are shown net of bad debt expense of \$1,178,328 for the Water Fund and \$2,699,100 for the Sewage Disposal Fund.

Operating expenses include the direct costs of operating the water and sewage disposal systems, centralized support, utilities, administrative expenses and depreciation on capital assets. The capital program allocation represents personnel costs that support the project delivery of the Capital Improvement Plan and have been capitalized, therefore they are shown as a reduction to operating expenses. Costs related to shared facilities and personnel are allocated to the Water and Sewage Disposal Funds on a basis that relates costs incurred to the system benefited. By agreement, the Authority provides shared services to DWSD, which are shown as a reduction to operating expenses.

All revenue and expenses not meeting these definitions above are reported as nonoperating revenues and expenses.

Capital Adjustment

As part of the Authority's capital improvement program the Authority incurs costs to design capital improvement projects. Periodically, the actual construction project may not be completed due to changes in plans or environmental requirements. Once it has been determined that construction will not proceed related costs are charged to the capital adjustment operating expense, including any costs previously recorded in construction in progress.

Taxes

The Authority pays no direct federal, state or local taxes, except local taxes on excess property and federal Social Security and Medicare taxes.

Interest Income on Loan and Obligations Receivable

Interest income is the interest earned on the loan receivable and the contractual obligation receivable.

Amortization of Debt Related Items and Cost of Issuance

Bond premiums, discounts, and gains or losses on refunding are deferred and amortized over the life of the bonds. Bond premiums, discounts and GASB 69 debt value adjustment are amortized using the effective interest method. The deferred amounts on refunding are amortized using the straight-line method. Debt cost of issuance is expensed when incurred.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET POSITION (cont.)

Legacy Pension Expense

GLWA is legally responsible for making substantial contributions to a legacy pension plan of another entity, see Note 18 for additional information on this Plan.

Centralized Services and Administrative Services

Various common costs incurred by the Authority are allocated between the Water and Sewerage Disposal Funds. The allocations are based on an annual cost allocation analysis and may change from year to year based upon that analysis. The following table shows the allocation of these common costs for the year ended June 30, 2020:

Common Costs	Water % Allocation	Water Allocation	Sewer % Allocation	Sewer Allocation	Total Common Costs
Centralized services	47.2%	\$ 48,445,160	52.8%	\$ 54,253,510	\$ 102,698,670
Administrative services	50.0%	\$ 14,478,058	50.0%	\$ 14,478,058	\$ 28,956,116

Centralized services include security, systems operations control, field engineering and service operations, facility and fleet operations, information technology, planning, asset management, energy management, and system analytics service costs.

Administrative services includes executive, public affairs, general counsel, organizational development, risk management, finance, procurement, and other service costs.

Use of Estimates

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Effect of New Accounting Standards on Current Period Financial Statements

GASB Statement No. 83, *Certain Asset Retirement Obligations*, and Statement No. 88, *Certain Disclosures Related to Debt*, including direct borrowings and Direct Placements originally were effective for years beginning after June 15, 2018, which was changed to June 15, 2019 by GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. Both of these statements were implemented during the prior fiscal year.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET POSITION (cont.)

Effect of New Accounting Standards on Current Period Financial Statements (cont.)

GASB has approved GASB Statement No. 84, *Fiduciary Activities*, Statement No. 87, *Leases*, Statement No. 90, *Majority Equity Interests – an amendment of GASB Statement No. 14 and No. 61*, Statement No. 91, *Conduit Debt Obligations*, Statement No. 92, *Omnibus 2020*, Statement 93, *Replacement of Interbank Offer Rates*, Statement 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, Statement No. 96, *Subscription-Based Information Technology Arrangements*, and Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans - an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*. When they become effective, application of these standards may restate portions of these financial statements.

The statements listed above through Statement No. 93 had their required effective dates postponed by one year with the issuance of Statement No. 95, *Postponement of Effective Dates of Certain Authoritative Guidance*, with the exception of Statement No. 87 which was postponed by one and a half years.

Reclassifications

Certain prior year amounts have been reclassified to conform to current year presentation.

NOTE 2 – BUDGETARY INFORMATION

The financial activity of the Authority is presented in two enterprise funds, which are not required under State statutes to adopt appropriated budgets. Budget to actual schedules for revenues and expenses are presented in the Supplementary Information section of this report. This schedule is not required by GAAP or subject to audit procedures. It is presented strictly for informational purposes.

BUDGET PROCESS

GLWA adopts a biennial budget for the regional water and sewage disposal systems as required by its Articles of Incorporation. The revenue requirements budget is adopted separately for the water and sewerage disposal systems. It is the sum of: a) operation and maintenance expenses; b) amounts necessary to pay the principal of and interest on all bonds and to fund any reserves required by the Master Bond Ordinance; c) the lease payment, which shall be a common-to-all charge; d) GLWA's portion of the GRS net pension liability and the B&C obligation payable; e) the required deposit to the Water Residential Assistance Program (WRAP) Fund, which shall be a common-to-all charge equal to 0.5% of the base budgeted operating revenues for the regional water and sewage disposal systems for each fiscal year; f) the amounts needed to make the required deposits to the regional Extraordinary Repair and Replacement Reserve Fund and the regional Improvement and Extension Fund as defined in the Master Bond Ordinance; and g) the amount necessary to satisfy the coverage ratios required by the rate covenant in the Master Bond Ordinance.

As provided in the Regional System leases, through the fiscal year ending June 30, 2025, the water and sewage disposal systems are limited to annual increases in the regional revenue requirement of not more than 4%. This limitation shall not be applicable, however, if the regional revenue requirement must increase beyond the 4% assumption in order to satisfy the rate covenant or to pay the cost of improvements to the leased water and/or sewage disposal facilities that are required to be made by applicable laws.

In the Regional System leases, the City acknowledges that all local water and sewer system revenues received from customers in the City are the property of GLWA and will be deposited as received in the Receiving Fund as defined in the Master Bond Ordinance and applied as provided in the Bond Ordinance.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020

NOTE 2 – BUDGETARY INFORMATION (cont.)

BUDGET PROCESS (cont.)

As a result, the City agrees to provide the Authority with a budget for the local water and sewage disposal system as provided in the Water and Sewer Services Agreement.

SCHEDULE OF CHARGES PROCESS

The GLWA Wholesale Customer Model Water Contract and GLWA Wholesale Customer Model Sewer Contract requires that GLWA provide wholesale customers with written notice of a proposed charge, meet to review the proposed charge, and the underlying data used to calculate the charge not less than 30 calendar days prior to a public hearing. Further, the contract requires that a public hearing be held no less than 120 days prior to the date that proposed charges take effect.

The Water and Sewer Services Agreement between GLWA and DWSD requires that GLWA provide the City with written notice of the proposed charge and the underlying data used to calculate the charge not less than 120 calendar days prior to the effective date of any new charge.

NOTE 3 – CASH DEPOSITS AND INVESTMENTS

Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended) authorizes the Authority to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The law also allows investments outside the state of Michigan when fully insured. The Authority is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications that matures not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions that are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

The deposits and investments of the Authority at June 30, 2020 are reported in the basic financial statements as follows:

	Water Fund	Sewage Disposal Fund	Total
Statement of Net Position			
Cash and cash equivalents	\$ 88,786,996	\$ 119,569,724	\$ 208,356,720
Restricted cash and cash equivalents	39,304,453	26,060,277	65,364,730
Restricted cash for the benefit of DWSD	1,544,529	-	1,544,529
Investments	305,653,818	167,895,196	473,549,014
Restricted investments	30,900,352	87,066,562	117,966,914
Noncurrent restricted cash and cash equivalents	20,491,397	27,014,187	47,505,584
Noncurrent restricted investments	10,770,585	29,048,921	39,819,506
Total	\$ 497,452,130	\$ 456,654,867	\$ 954,106,997
Cash Deposits and Investments			
Bank deposits – checking and savings accounts \$	24,870,419	\$ 25,927,006	\$ 50,797,425
Money market accounts	125,256,956	146,717,182	271,974,138
Investments in securities	347,324,755	284,010,679	631,335,434
Total	\$ 497,452,130	\$ 456,654,867	\$ 954,106,997

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020**NOTE 3 – CASH DEPOSITS AND INVESTMENTS (cont.)****CUSTODIAL RISK OF BANK DEPOSITS**

Deposits and money market accounts are exposed to custodial credit risk if they are not covered by depository insurance. At year-end, the carrying amount of the Authority's deposits and money market accounts was \$150,127,375 for the water fund and \$172,644,188 for the sewage disposal fund. The bank balance of the water fund deposits and money market accounts was \$153,498,105 of which \$133,666,917 was uninsured and uncollateralized. The bank balance of the sewage disposal fund deposits and money market accounts was \$172,644,188 of which \$172,394,188 was uninsured and uncollateralized.

In accordance with the Authority's investment policy and State law, all deposits are held in the Authority's name, and evidenced by a safekeeping receipt. Also, due to the dollar amounts of cash deposits and the limits of FDIC insurance, the Authority believes it is impractical to insure all bank deposits. As a result, the Authority evaluates each financial institution and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

INVESTMENTS

Following is a summary of the Authority's investments as of June 30, 2020:

	Water Fund	Standard & Poors Rating	Weighted Maturity In Years
U.S. treasury notes	\$ 143,270,327	AA+	1.36
U.S. government agencies	168,880,626	AA+	1.61

Total	<u>\$ 631,335,434</u>		

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended June 30, 2020

NOTE 3 – CASH DEPOSITS AND INVESTMENTS (cont.)

CUSTODIAL RISK OF INVESTMENTS

Investments are exposed to custodial credit risk if the securities are uninsured, unregistered or held by a counterparty or its agent but not in the government's name. In accordance with the Authority's investment policy, all investments are held in the name of the Authority and are evidenced by a safekeeping receipt confirmation, and thus not exposed to custodial credit risk.

CREDIT RISK

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Authority's investment policy and State law require that commercial paper be rated in the top two ratings by at least two nationally recognized statistical rating organizations.

As of June 30, 2020, all of the Authority's investments in securities of U.S. agencies were rated AA+ by Standard & Poor's and Aaa by Moody's. The Authority's commercial paper was rated A1 by Standard and Poor's and P1 by Moody's. U.S. Treasury notes are explicitly guaranteed by the U.S. government and not considered to have credit risk. The Authority's money market accounts were not rated.

CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. In order to manage its exposure risk, the Authority's investment policy requires diversification by security type to no more than 50% of the total investment portfolio.

At June 30, 2020, the Authority had greater than 5% of its total investment portfolio concentrated as follows:

Investment Type	Issuer	% of Portfolio
Water Fund		
U.S. government agencies	Federal Home Loan Bank	15.88%
U.S. government agencies	Federal National Mortgage Association	15.17%
U.S. government agencies	Federal Home Loan Mortgage Company	17.58%
Sewage Disposal Fund		
U.S. government agencies	Federal National Mortgage Association	9.34%
U.S. government agencies	Federal Home Loan Mortgage Company	7.25%

INTEREST RATE RISK

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of investments. As a means of limiting its exposure to fair value losses due to rising interest rates, the Authority's investment policy limits the maximum maturity period to no more than five years, unless matched to a particular cash flow need. The Authority's investment policy further provides risk will be minimized by: matching investments with short and long-term cash flow requirements, and monitoring the maturity dates of individual securities and the weighted average maturity of the investment portfolio to ensure duration is commensurate with the cash flow requirements.

NOTE 3 – CASH DEPOSITS AND INVESTMENTS (cont.)

FAIR VALUE MEASUREMENTS

The Authority categorizes investments measured at fair value within the fair value hierarchy established by generally accepted accounting principles. The Authority is required to classify certain assets and liabilities based on the following fair value hierarchy:

Level 1: Quoted price in active markets for identical assets.

Level 2: Inputs other than quoted prices included in Level 1 that are observable, either directly or indirectly. Debt securities are priced based on a compilation of primarily observable market information or broker quote in non-active market.

Level 3: Inputs are significant unobservable inputs.

	Level 2
Water Fund	
Investments by fair value level 2:	
U.S. treasury notes	\$ 143,270,327
U.S. government agencies	168,880,626
Commercial paper	35,173,802
Water Fund Total Investments	347,324,755
Sewage Disposal Fund	
Investments by fair value level 2:	
U.S. treasury notes	124,630,048
U.S. government agencies	71,632,512
Commercial paper	87,748,119
Sewer Fund Total Investments	284,010,679
Total Investments – Business-type activities	\$ 631,335,434

The Authority has no Level 1 or 3 inputs at June 30, 2020.

NOTE 4 – RESTRICTED ASSETS

Restricted assets, comprised of cash and investments, are available for debt service on revenue bonds and to provide funds for improvements, enlargements, extensions and construction. In accordance with the provisions of the Master Bond Ordinance and Regional System Leases, the Authority follows a sequential flow of funds in segregated accounts through which revenue receipts are deposited and are maintained at certain levels in satisfaction of all legal requirements.

NOTE 5 – RECEIVABLES

The following is a summary of the net receivables as of June 30, 2020:

	Water Fund	Sewage Disposal Fund	Total
Receivables, net:			
Billed	\$ 38,769,605	\$ 56,390,056	\$ 95,159,661
Unbilled	31,032,237	23,861,029	54,893,266
Other	214,997	95,376	310,373
Subtotal	70,016,839	80,346,461	150,363,300
Allowance for doubtful accounts	(8,634,075)	(36,357,891)	(44,991,966)
Total	\$ 61,382,764	\$ 43,988,570	\$ 105,371,334

NOTE 6 – DUE FROM OTHER GOVERNMENTS

Due from other governments in the statement of net position are as follows:

	Water Fund	Sewage Disposal Fund
DWSD-Billed shared services	\$ 20,567,313	\$ 519,465
DWSD-Unbilled shared services	(1,647,492)	-
DWSD-Local System revenue requirement	-	10,195,198
DWSD-Accrued interest on obligation receivable	676,393	-
State of Michigan FEMA	747,024	744,735
Total	\$ 20,343,238	\$ 11,459,398

NOTE 7 – DUE TO AND DUE FROM OTHER FUNDS

Interfund balances result from the time lag between the dates interfund goods and services are provided or reimbursable expenditures occur and the payment between funds are made. Interfund balances for the year ended June 30, 2020 consisted of the following:

	Water Fund - Due from Sewage Disposal Fund	Sewage Disposal Fund - Due from Water Fund	Total Due to
Water Fund - Due to Sewage Disposal Fund	\$ -	\$ -	\$ -
Sewage Disposal Fund - Due to Water Fund	2,134,191	-	2,134,191
Total Due from	\$ 2,134,191	\$ -	\$ 2,134,191

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020**NOTE 8 – CONTRACTUAL OBLIGATION RECEIVABLE**

As part of the regional system lease transaction, in which GLWA leased the regional water and sewage disposal system from the City of Detroit, all DWSD revenue bonds outstanding as of December 31, 2015, including those purchased by the Michigan Finance Authority under its state revolving loan program, were assumed by GLWA with the consent of bondholders. Total bonds assumed by GLWA totaled \$2,313,683,761 for the Water Fund and \$3,291,282,050 for the Sewage Disposal Fund.

Per the lease agreements, the WSSA and the MBO, the Detroit retail class continues to pay its common-to-all share of debt service revenue requirements and its allocated share of debt service revenue requirements associated with improvements to the local water and sewage disposal systems. Payments on the debt service incurred by GLWA on the outstanding revenue bonds assumed as of December 31, 2015 are to be allocated using an agreed-upon percentage of total debt service associated with bond-financed local improvements over the life of such bonds, though the bonds themselves continue to be secured by the net revenue of GLWA, and the revenues of the Detroit retail class. The MOU dated June 27, 2018 defines an agreed upon allocation and amortization schedule. Any additional debt issued by GLWA on behalf of the local system is also included in the obligation receivable. DWSD is billed monthly for the debt requirements on a debt set-aside basis so the funds are available when the associated debt payment is due.

Changes in obligation receivable for the year ended June 30, 2020 were as follows:

	Beginning Balance	Increase	Decrease	Debt Forgiveness	Ending Balance	Due Within One Year
Water Fund						
Bifurcated debt	\$ 412,140,600	\$ -	\$ (13,820,900)	\$ -	\$ 398,319,700	\$ 14,478,800

NOTE 9 – LOAN RECEIVABLE – DWSD

Under the terms of the WSSA and the 2018 MOU, if DWSD experiences a cumulative negative variance of more than two percent (2%) of the total budget for either local system (a budget shortfall) from its adopted budget, DWSD, as the agent of GLWA, shall, within thirty (30) days thereafter, schedule a meeting of the Reconciliation Committee to discuss a remedy for the shortfall.

In accordance with the 2018 MOU, budget shortfalls not cured by the end of the fiscal year following the year in which they arise shall be repaid in full, in installments, over a period not to exceed the next three fiscal years, plus a surcharge calculated as provided below. The surcharge factor on the portion of the budget shortfall for the Sewage Disposal Fund, which remains unpaid, shall be based on the three-year U.S. Treasury note rate plus 150 basis points. The combined 2016 and 2017 budget shortfall and the 2018 budget shortfall had remaining balances of \$10,171,496 and \$16,331,513, respectively. The surcharge factor for the combined 2016 and 2017 budget shortfall and the 2018 budget shortfall were 4.125% and 3.209%, respectively.

The budget shortfall loan receivable to be paid by DWSD is as follows:

	Year Ended June 30	Principal	Interest	Total
2017 DWSD Loan Receivable				
	2021	\$ 10,171,496	\$ 228,699	\$ 10,400,195
	Year Ended June 30	Principal	Interest	Total
2018 DWSD Loan Receivable				
	2021	\$ 8,034,935	\$ 406,585	\$ 8,441,520
	2022	8,296,578	144,918	8,441,496
Total		\$ 16,331,513	\$ 551,503	\$ 16,883,016

Total loan receivable to be paid by DWSD for 2016, 2017 and 2018 budget shortfalls:

	Year Ended June 30	Principal	Interest	Total
Total DWSD Loans Receivable				
	2021	\$ 18,206,431	\$ 635,284	\$ 18,841,715
	2022	8,296,578	144,918	8,441,496
Total		\$ 26,503,009	\$ 780,202	\$ 27,283,211

ASSET IMPAIRMENT

Capital assets are evaluated annually to determine if any asset impairments exist, defined as a significant, unexpected decline in the service utility of a capital asset. The Authority recorded impairments of \$1,432,027 in the Water Fund and no impairments in the Sewage Disposal Fund, for a total of \$1,432,027 of impairments. The majority of the impairments were for filters at the Springwells Water Treatment Plant that incurred sink holes in the media due to high turbidity.

As part of the Authority's capital improvement program the Authority incurs costs to design capital improvement projects. Periodically the actual construction project may not be completed due to changes in plans or environmental requirements. Once it has been determined that construction will not proceed related costs are charged to the capital adjustment operating expense, including any costs previously recorded in construction in progress. The Authority recorded capital adjustments of \$26,780 in the Water Fund for the year ended June 30, 2020.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020**NOTE 10 – CAPITAL ASSETS (cont.)****RAW WATER RIGHTS ASSET**

Effective December 1, 2017, the Authority, the City of Flint, Karegnondi Water Authority (KWA), Genesee County Drain Commission (GCDC) and State of Michigan entered into a long-term partnership agreement to satisfy a number of critical water service needs across the region. Key provisions of a master agreement includes: 1) a 30-year water service contract with the City of Flint that establishes the Authority as the long-term water source for the City of Flint and credits the City of Flint for its debt service payment obligations on existing KWA bonds for the building of its raw water intake and supply line; 2) a long-term lease to the Authority of the 72-inch line serving the City of Flint; and 3) a 30-year contract for reciprocal, emergency water services between the Authority and GCDC.

The 30-year water service contract with the City of Flint includes a license to raw water rights on 17.46 MGD of the 18 MGD purchased by Flint as part of KWA bond obligation. These license rights constitute an intangible asset under governmental accounting standards. Therefore, the Authority has recorded an intangible asset and purchase obligation liability of approximately \$107 million associated with this agreement in the accompanying financial statements. The Authority is amortizing the intangible asset over 30 years. As the City of Flint satisfies its monthly bond payment obligations to KWA, the Authority credits Flint's water invoice for that payment and reduces the Authority's purchase obligation. This process will continue each year over the 30-year life of the asset.

NOTE 11 – OTHER ACCRUED LIABILITIES

As described in Note 1, other accrued liabilities in the statement of net position are as follows:

	Water Fund	Sewage Disposal Fund
<u>Current</u>		
Cash held for the benefit of DWSD	\$ 1,544,529	\$ -

For bonds issued through the Michigan Finance Authority (MFA) in 2014 and 2015, the Authority is required to make payment on these obligations to the MFA depository account five business days prior to the actual due date of the bond principal and interest payments. Therefore, the payments for principal and interest due on July 1, 2020 are not included in the debt service requirements amounts above as they were paid on June 24, 2020.

NOTE 13 – LONG-TERM DEBT (cont.)

REVENUE BONDS – PLEDGES OF FUTURE REVENUE

The Authority has pledged assets to secure the repayment of the revenue bonds and State of Michigan revolving fund loans. The Water System bonds and loans are paid solely from the net revenues of the Water System and the Sewer System bonds and loans are paid solely from the net revenues of the Sewer System. Net revenues are defined in the Great Lakes Water Authority Water and Sewer Master Bond Ordinances as all revenues except those transferred to the Operation and Maintenance funds. These revenues are further defined to include the revenues from the Retail Customers who are serviced under the Water and Sewer Services Agreement with the City of Detroit which are reported in the financial statements of the City of Detroit Water and Sewerage Department. The pledged revenues calculation for the fiscal year ending June 30, 2020 includes revenues reported by the Great Lakes Water Authority and the City of Detroit Water and Sewerage Department as this revenue is pledged for payment of the bonds and loans of the Great Lakes Water Authority.

The general purpose of the Water System debt is to provide funding for various water treatment and transmission capital improvements, refund certain water revenue bonds, pay termination amounts for interest rate swap agreements and fund reserve requirements. The general purpose of the Sewer System bonds is to provide funding for various wastewater treatment and collection activities, capital improvements, refund certain sewage disposal revenue bonds, pay termination amounts for interest rate swap agreements and fund reserve requirements. The term of pledge commitment for the water bonds is 2050 and the sewage disposal bonds is through 2049.

See table below for pledged revenue coverage as of June 30, 2020:

	Water Fund	Sewage Disposal Fund
Remaining principal and interest requirement	\$ 3,662,291,388	\$ 4,286,915,185
Principal and interest funding requirement for the year ending June 30, 2020 (computed consistent with rate covenant basis for rate determination purposes. Not applicable for purpose of additional bond test)	\$ 169,183,461	\$ 245,783,258
Pledged revenue for the year ending June 30, 2020	\$ 241,505,884	\$ 318,735,411
Pledged revenue collected as a percentage of funding requirement	143 %	130 %

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended June 30, 2020

NOTE 13 – LONG-TERM DEBT (cont.)

STATE REVOLVING LOANS PAYABLE (cont.)

The state revolving loans are direct borrowings issued as part of the State of Michigan's Revolving Fund Loan Program. As GLWA draws additional amounts from time to time hereafter, the outstanding principal amounts of such bonds will correspondingly increase. All loans are callable under terms specified in the loan agreements.

REFUNDED DEBT – WATER FUND

On May 12, 2020, the Authority issued \$42,445,000 in Series 2020A senior lien revenue bonds, \$43,135,000 in second lien revenue bonds and \$377,515,000 in taxable senior lien revenue refunding bonds for a total issue of \$463,095,000. The net proceeds of the 2020A and 2020B bonds will be used to pay certain costs of improvements, enlargements and extension and repairs to the Local Water System. The net proceeds of the Series 2020C were used to purchase securities that were placed in an irrevocable trust with an escrow agent to refund \$289,605,000 Series 2011A revenue bonds, \$2,295,000 Series 2011B revenue bonds and \$74,125,000 of Series 2011C revenue bonds for a total of \$366,025,000 of refunded bonds with a call date of July 1, 2021. As a result, the refunded bonds are considered to be defeased and the trust fund assets and related liabilities have been removed from the statement of net position. The refunding resulted in a savings of \$103,077,566 over the next 21 years and an economic gain of \$66,489,475.

REFUNDED DEBT AND NEW MONEY BOND– SEWAGE DISPOSAL FUND

On June 16, 2020, the Authority issued \$594,930,000 in Series 2020A taxable senior lien revenue refunding bonds and \$92,525,000 in Series 2020B taxable second lien revenue refunding bonds for a total issue of \$687,455,000. The net proceeds of the bonds were used to purchase securities that were placed in an irrevocable trust with an escrow agent to refund \$419,810,000 Series 2012A revenue bonds (call date July 1, 2022), \$123,200,000 Series 2014C-1 revenue bonds (call date July 1, 2022), \$27,450,000 2014C-2 revenue bonds (call date July 1, 2022), \$31,785,000 Series 2005A revenue bonds (call date July 1, 2021) and \$55,000,000 Series 2006B revenue bonds (call date July 1, 2021) for a total of \$657,245,000 in refunded bonds. As a result, the refunded bonds are considered to be defeased and the trust fund assets and related liabilities have been removed from the statement of net position. The refunding resulted in a savings of \$221,039,756 over the next 24 years and an economic gain of \$122,880,865.

ISSUANCE OF STATE REVOLVING LOANS

The Authority's Water Fund received direct borrowing loans from the State of Michigan Revolving Loan Fund totaling \$16,084,406 of which \$4,711,944 has been forgiven, and the Sewage Disposal Fund received \$25,164,403 during the year ended June 30, 2020. The water loans forgiven and \$6,791,655 of the proceeds of the Water Fund loans were a pass through to DWSD, the subrecipient of the loans. The remaining proceeds of the Water Fund loans were used to pay costs of acquiring, constructing extensions, and making certain repairs and improvements to the regional water system. The proceeds of the Sewage Disposal Fund loans were used to pay costs of acquiring, constructing extensions, and making certain repairs and improvements to the regional sewage disposal system. At June 30, 2020, \$39,083,195 for the Water Fund and \$42,210,602 for the Sewage Disposal Fund was authorized and unissued.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended June 30, 2020

NOTE 13 – LONG-TERM DEBT (cont.)

DEBT RATINGS

In March 2020, Standard & Poor's Global Ratings Services affirmed the ratings on the water system senior lien debt of AA- and the water system second lien debt of A+ and assigned a stable outlook. It also upgraded the ratings on the sewage disposal system senior lien debt by one notch to AA- and the sewage disposal system second lien debt by one notch to A+. Both were assigned a stable outlook. Moody's Investor Services upgraded the ratings on the water and sewage disposal system senior lien debt by one notch to A1 and second lien debt by one notch to A2. The ratings outlook for both remained stable. Fitch upgraded the ratings on the water system and sewage disposal system senior lien debt by one notch to A+ and second lien debt by one notch to an A. Both with a stable outlook.

The Authority was asked by the State to seek a rating for the junior lien debt, as this is the debt category of the state revolving fund bonds. In November 2018, S&P Global Ratings assigned an A+ rating to the Authority's junior lien water system SRF bonds and an A rating to the Authority's junior lien sewage disposal system SRF bonds. In March 2020, the junior lien sewage disposal system SRF bonds were upgraded to A+.

OBLIGATION PAYABLE – CITY OF DETROIT 2014 FINANCIAL RECOVERY BONDS

The Financial Recovery Bonds, Series 2014-B are federally taxable. The Series 2014-B bonds have two components: B(1) which has a 4.0 percent per annum interest rate and B(2) which has a variable interest rate until the maturity date of April 1, 2044. The bonds were delivered to classes of creditors in satisfaction of: (1) Class 12 OPEB claims the bonds were distributed to the new Voluntary Employee Beneficiary Associations (VEBA) for the general retirees and police and fire retirees; (2) Class 9 Pension Obligation Certificate (POC) claims; and (3) other unsecured bankruptcy claims. GLWA has a contractual obligation to pay a portion of the bonds based on an agreed-upon allocation percentage.

The Financial Recovery Bonds, Series 2014-C were issued with interest at 5.0 percent per annum. The 2014-C bonds were issued as part of the Syncora Settlement and FGIC/POC Settlement in the bankruptcy plan. GLWA has a contractual obligation to pay a portion of the bonds based on an agreed-upon allocation percentage.

In 2018, the governing body of the City of Detroit authorized the use of general funds for the full redemption of the General Obligation Bonds, 2014 Series C, including the amount allocated to the Authority. The 2014 Series C debt was fully redeemed on April 13, 2018. In addition, on December 13, 2018, the City issued Financial Recovery Refunding Bonds to redeem a portion of the 2014 Series B. The Authority will repay the City of Detroit General Fund under the terms of the original debt payment schedules for the 2014 Series B & C General Obligation Bonds, with principal and interest due on June 30 each year.

NOTE 14 – LONG-TERM LEASES PAYABLE AND RELATED PREPAID LEASE

On January 1, 2016, the Authority effectuated lease agreements with the City for the regional water and sewage disposal systems for a term of 40 years, to be extended automatically to coincide with the final maturity of any bonds issued to finance improvements to the regional or local sewage disposal systems. The agreements collectively provide for an annual lease payment of \$50 million. Currently, \$22,500,000 is allocated to the Water Fund and \$27,500,000 is allocated to the Sewage Disposal Fund. The lease for the water system provides service to the wholesale customers and the retail water customers of the City up to the point of connection to the local water system facilities of the City. The lease for the sewage disposal system provides service to the wholesale customers and the retail sewage disposal customers of the City up to the point of connection to the local sewage disposal system facilities of the City. In addition, both leases provide that certain other assets including cash and investments held by DWSD as of December 31, 2015 be transferred to GLWA, all revenues of the regional and local water and sewage disposal systems are assigned to GLWA, and that GLWA assumes all DWSD bonded debt and certain other liabilities. The long-term leases are recorded as the present value of all future debt payments.

The regional system leases were recorded under GASB 69 to record the acquisition of the operations of the City of Detroit water and sewage disposal systems. The liability for the leases is allocated in the computation of net position based upon the components of net position acquired. Under the definitions of the regional system leases all improvements, additions and replacements to the original facilities acquired are considered to be leased facilities.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended June 30, 2020

NOTE 14 – LONG-TERM LEASES PAYABLE AND RELATED PREPAID LEASE (cont.)

Amounts reported as a liability at year-end represent the net present value of all future lease payments. Changes in long-term leases payable for the year ended June 30, 2020 were as follows:

	Beginning Balance	Increase	Decrease	Ending Balance	Amount due Within One Year*
Water fund	\$ 421,488,871	\$ -	\$ (5,019,122)	\$ 416,469,749	\$ 5,232,465
Sewage disposal fund	515,153,069	-	(6,134,486)	509,018,583	6,395,235
Total Business-type Activities	\$ 936,641,940	\$ -	\$ (11,153,608)	\$ 925,488,332	\$ 11,627,701

* The current portion of the long-term leases payable represents the 12 monthly payments required from July 1, 2019 through June 30, 2020. Future revenues are intended to cover these payments.

As of June 30, 2020, aggregate requirements of the Authority's leases were as follows:

Water Fund	Year Ended June 30	Principal	Interest	Total
	2021	\$ 5,232,465	\$ 17,267,535	\$ 22,500,000
	2022	5,454,878	17,045,122	22,500,000
	2023	5,686,745	16,813,255	22,500,000
	2024	5,928,467	16,571,533	22,500,000
	2025	6,180,464	16,319,536	22,500,000
	2026 - 2030	35,073,528	77,426,472	112,500,000

As part of the 2018 MOU, the MBO requirement for six months of lease payments made to DWSD on January 1, 2016 will be treated as a prepaid lease payment. The initial term of the regional system leases began on the effective date and ends on December 31, 2055. GLWA's last monthly payment shall be June 1, 2055 and GLWA's \$25 million lease pre-payment on January 1, 2016 shall be applied to the period of July 1, 2055 through December 31, 2055. Of the \$25 million recorded as a prepaid on the statement of net position, \$11,250,000 is recorded in the Water Fund and \$13,750,000 in the Sewage Disposal Fund.

NOTE 15 – LEASE OBLIGATION – RAW WATER RIGHTS

A lease obligation has been recorded related to the license of the raw water rights that were part of the 30-year service contract with the City of Flint. This lease obligation represents the future credits to the City of Flint's water bills as the City of Flint satisfies its monthly bond payment obligations to KWA. See related footnote for the raw water rights intangible asset (Note 10).

	Beginning Balance	Increase	Decrease	Ending Balance	Due Within One Year

NOTE 16 – RISK MANAGEMENT/SELF-INSURANCE PROGRAMS

The Authority is exposed to various types of risk of loss including torts; theft of, damage to, or destruction of assets; errors or omissions; occupationally related illnesses or injuries to employees; natural disasters; and environmental occurrences. Also included are risk of loss associated with providing medical benefits to employees.

The Authority transfers risk via the purchase of a variety of insurance policies the most significant of which are shown in the table below (alphabetical by coverage):

Coverage	Coverage Limits	Maximum Retention Per Occurrence
Aviation	\$5,000,000	5% of insured value
Cyber Breach	\$10,000,000	\$250,000
Fiduciary	\$10,000,000	\$1,000
General and Auto Liability	\$10,000,000/ \$12,000,000	\$1,000,000
Pollution Legal Liability	\$25,000,000	\$500,000
Property Damage	\$750,000,000	\$1,000,000
Public Officials and Employment Practices	\$25,000,000	\$250,000
Underground Storage Tanks	\$2,000,000	\$5,000
Workers' Compensation	Statutory/ \$2,000,000	\$1,250,000

Settled claims relating to commercial insurance have not exceeded the amount of insurance coverage since inception of the Authority.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020**NOTE 16 – RISK MANAGEMENT/SELF-INSURANCE PROGRAMS (cont.)**

The Authority assumes all risk for motor vehicle physical damage.

The Authority maintains a self-insurance program for workers' compensation coverage up to the amount of its retention. The program is administered by a third-party who provides claim review and medical bill review services.

A liability for claims is reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of recent claim settlement trends including frequency and amount of payouts and other economic and social factors. The claim liabilities also include estimated costs for claim administration fees and outside legal and medical assistance costs. The liabilities for workers' compensation current year claims is based on estimates and payments are based on actuals.

Medical insurance. The Authority provides medical benefits to a significant number of employees through a self-insured health plan that is administered by third party administrators. The Authority purchased stop loss insurance for its self-insured health plan with terms of \$300,000 per contract to reduce risk exposure for the group. The self-insured program is administered by a third-party administrator who provides claims review and processing services as well as illustrated premium rates, which are anticipated, over time, to approximate the actual cost of benefits. The unpaid claims estimate is accrued within the Water Fund's accrued salaries, wages and benefits payable account on the Statement of Net Position.

	2020	2019
Unpaid claims, beginning of year	\$ 1,001,198	\$ 1,044,067
Incurred claims (including change in IBNR provisions)	13,429,897	10,655,927
Claims payments	<u>(13,054,664)</u>	<u>(10,698,796)</u>
Unpaid Claims, End of Year	<u>\$ 1,376,431</u>	<u>\$ 1,001,198</u>

Workers' compensation. The Authority maintains a self-insurance program for workers' compensation coverage up to the amount of its retention. The program is administered by a third party who provides claim review and medical bill review services. The unpaid claims estimate is accrued within the Water Fund's accrued workers' compensation account on the Statement of Net Position.

Changes in the balances of claims liabilities during the past two years are as follows:

	2020	2019
Unpaid claims, beginning of year	\$ 292,480	\$ 303,239
Incurred claims (including change in IBNR provisions)	252,998	246,138
Claims payments	<u>(293,644)</u>	<u>(256,897)</u>
Unpaid Claims, End of Year	<u>\$ 251,834</u>	<u>\$ 292,480</u>

NOTE 17 – DEFINED CONTRIBUTION PENSION PLANS

DEFINED CONTRIBUTION PLANS

The Great Lakes Water Authority Defined Contribution Retirement Plan is a 401(a) governmental money purchase plan administered by ICMA Retirement Corporation (the “Administrator”) to provide benefits at retirement to all full-time employees of the Authority. The Authority contributes 6.0% of earnings to the plan. The Authority will make an additional contribution to the 401(a) plan to match employee contributions under the Great Lakes Water Authority 457 Plan up to 3% of compensation. Employees are 100% vested after three years of service (cliff vesting). Employees who transferred to the Authority on or around January 1, 2016 from DWSD retain their years of service for vesting purposes. The Authority recognized expense of \$5,162,376, which is net of forfeitures of \$301,942, for the year ended June 30, 2020. The Authority has accrued approximately \$234,000 of expense on the accrued payroll at June 30, 2020. At June 30, 2020, there were 1,160 plan members.

The Great Lakes Water Authority Defined Contribution Plan Make-Up Benefit is a 401(a) governmental money purchase plan administered by ICMA Retirement Corporation (the “Administrator”) to provide benefits at retirement to all employees who terminated employment with DWSD on or around January 1, 2016 and were not vested in the City of Detroit General Retirement System (GRS). Eligible employees are required to rollover to the Authority’s Section 457 Deferred Compensation Plan their refunded employee mandatory contribution from GRS. The amount of the make-up benefit was determined by an actuary based on the present value of the lost GRS benefit. It was accrued in fiscal year 2018 and funded during fiscal year 2019. No additional contributions are required for this plan. Employees are 100% vested after one year of service. At June 30, 2020 there are 34 participants in the plan.

The Authority has a Section 457 Deferred Compensation Plan which employees can make pre-tax or post-tax (Roth) contributions which are immediately 100% vested. At June 30, 2020 there were 1,102 plan members.

The Authority has a Roth IRA Plan which allows employees to make post-tax contributions which are immediately 100% vested. At June 30, 2020 there were 60 plan members.

RETIREMENT HEALTH SAVINGS PLAN

The Authority also provides a Retirement Health Savings Program for full-time employees. Employees are required to contribute \$10 per pay period and the Authority contributes \$80 per pay period. Employees are 100% vested after three years of service (cliff vesting). Employees who transferred to the Authority on or around January 1, 2016 from DWSD retain their years of service for vesting purposes. The Authority recognized an expense \$2,007,299, which is net of forfeitures of \$181,822, for the year ended June 30, 2020. The Authority has accrued approximately \$91,000 of expense on the accrued payroll at June 30, 2020. Employee contributions were \$260,580 for the year ended June 30, 2020. At June 30, 2020, there were 1,448 plan members.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended June 30, 2020

NOTE 18 – NET PENSION LIABILITY (SPECIAL FUNDING SITUATION)

As part of the City of Detroit bankruptcy plan of adjustment (POA) and the Regional System Leases (Section 4.3), the City, the City of Detroit General Employees' Retirement system (GRS or the System) and the Authority entered into an agreement on December 1, 2015 that set forth the terms for contributions and reporting of the DWSD share of the GRS pension pool. GRS provides the information necessary for the Authority and DWSD to report the proportionate share separately in their respective statements. On January 24, 2017, DWSD and the Authority provided a supplement to the agreement whereby GRS is directed to allocate investments and pension liabilities of the DWSD division on the basis of 70.3% to the Authority and 29.7% to DWSD effective January 1, 2016. This agreement constitutes a special funding situation pursuant to the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. As such, while no Authority employees earn service credit in the legacy or hybrid plans, GLWA is legally responsible for making substantial contributions to a legacy pension plan of another entity and, accordingly, must record a net pension liability for its proportion and make the following disclosures regarding the plan as required by the standard. Information is available in a separate audit report for the "Combined Plan for the General Retirement System of the City of Detroit" as well as "The General Retirement System of the City of Detroit GASB Statement Nos. 67 and 68 Accounting and Financial Reporting for Pension Plans of Component II" as of June 30, 2019 which are available by contacting the Authority's management.

Plan Administration. The Authority contributes to (and DWSD participates in) the System. The System is a single employer plan composed of a defined benefit plan component and a defined contribution annuity plan component. The plan provides retirement, disability, and survivor benefits to plan members and beneficiaries. The plan is administered by its own board of trustees. Plan members include active employees, retirees and beneficiaries from various departments within the City. Benefit terms have been established by contractual agreements between the City and the employees' collective bargaining units; amendments are subject to the same process.

The System issues publicly available financial reports that include financial statements and the required supplementary information. The reports can be obtained from City of Detroit Retirement Systems, One Detroit Center, 500 Woodward Avenue, Suite 3000, Detroit, MI 48226 or obtained from the Systems' website (www.rscd.org). Detailed information about the pension plan's fiduciary net position is available in the separately issued financial reports.

Benefits Provided. Plan members may retire at age 55 or 60 with 5, 8, 10 or 25 years of credited service depending on which group the employee is in. Members are vested after completing 5, 8 or 10 years of credited service. Retirement options that provide for survivor benefits are available to members. The Plan also provides death and disability benefits. If a member leaves employment or dies before vesting, accumulated member contributions plus interest are refunded to the member or designated beneficiary.

Component II is the legacy plan, the original defined benefit plan, which includes a defined benefit component and a defined contribution component. Component II generally applies to benefits accrued by members prior to July 1, 2014. The plan provides retirement, disability, and survivor benefits to plan members and beneficiaries. Except as specifically provided in the combined plan, benefits provided under Component II are frozen effective June 30, 2014. Component II also includes the income stabilization fund. The fund, a part of Component II and established as a provision of the POA, was established for the sole purpose of paying the income stabilization benefits to eligible pensioners. Complete details regarding the Component II benefits and changes in those benefits by virtue of the POA are presented in the System financial statements.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended June 30, 2020

NOTE 18 – NET PENSION LIABILITY (SPECIAL FUNDING SITUATION) (cont.)

Employer Contributions. Employer contributions, including the Authority's nonemployer contribution, for the respective components are as follows:

During fiscal year 2019, employer contributions were not actuarially determined, but are determined by the provisions of the POA. Included within contributions for fiscal year 2019 are contributions from the Foundation for Detroit's Future in the amount of \$375,000 and approximately \$67.9 million of contributions from the City, City-related entities, and GLWA.

The POA obligates DWSD to pay \$2,500,000 per year towards administrative costs and annual plan contributions of \$42,900,000 per year in total for both water and sewer employees, until 2023. Pursuant to the Regional System leases, the Authority is obligated to pay its allocable share of such liability. The portion allocated to the Authority is \$31,916,200 for fiscal year 2020. This includes a contribution to the GRS pension plan of \$10,810,800 for the Water Fund and \$19,347,900 for the Sewage Disposal Fund for a total pension contribution of \$30,158,700. The contribution was made subsequent to the measurement date and has been recorded as a deferred outflow. It also includes an administrative fee of \$1,757,500, with \$630,000 paid by the Water Fund and \$1,127,500 paid by the Sewage Disposal Fund. Part of the administrative fee is considered a prepayment based on actual administrative expenses incurred by the plan as reported in the other supplemental information of the audited financial report of the GRS Plan.

Subsequent to 2023, DWSD and the Authority will be responsible for paying their allocable share of any additional amounts that are actuarially determined to be payable. An estimate of the 2024 contribution was included in the GRS annual actuarial valuation of Component II dated June 30, 2019. The total share for the DWSD is estimated to be between \$8.2 million and \$10.5 million. GLWA's share of the 2024 estimated contribution will be between \$5.8 million and \$7.3 million with approximately \$2.1 million to \$2.6 million allocated to the Water Fund and approximately \$3.7 million to \$4.7 million allocated to the Sewage Disposal Fund.

The information below represents the Authority's share of pension liability activity. DWSD separately reports its pro rata share of activity in its separate financial statements.

DWSD Employee Contributions. Contribution requirements of plan members are established and may be amended by the GRS Board of Trustees in accordance with the City Charter, union contracts, and plan provisions. For the year ended June 30, 2019, there were no employee contributions into Component II, as the plan was frozen as of June 30, 2014; contributions into Component I began thereafter.

Net Pension Liability. As permitted by GASB Statement No. 68, the net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability was actuarial determined as of June 30, 2018, which used updated procedures to roll forward the estimated liability to June 30, 2019. The actuarial valuation used the following actuarial assumptions applied to all periods included in the measurement.

Inflation	Not applicable
Salary increases	Not applicable
Investment rate of return	7.38%, net of investment expense and including inflation

The actuarial assumptions were based on an experience study from 2008-2013 issued in February 2015; the mortality table assumption was based on RP-2014 Blue Collar Annuitant Table for males and females. The tables are projected to be fully generational, based on two-dimensional sex distinct mortality scale MP-2014.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020**NOTE 18 – NET PENSION LIABILITY (SPECIAL FUNDING SITUATION) (cont.)**

The actuarial assumptions other than mortality and the investment rate of return used in the June 30, 2018 valuation to calculate the total pension liability as of June 30, 2019 were based on the results of an actuarial experience study for the period from 2002-2007.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each asset class. These real ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. For each asset class that is included in the pension plan's target asset allocation as of June 30, 2019, these best estimates are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	Expected Money-Weighted Rate of Return
Global equity	43.0%	5.26%	2.26%
Global fixed income	20.0%	3.73%	0.75%
Private equity	8.0%	7.97%	0.64%
Cash	1.0%	0.39%	0.00%
Real estate	15.0%	4.56%	0.68%
Diversifying strategies	8.0%	3.03%	0.24%
Hedge funds	5.0%	4.26%	0.21%
	100%		4.78%
Inflation			2.60%
Investment rate of return			7.38%

Discount Rate. The discount rate used to measure the total pension liability was 7.38%, as was the single discount rate used at the beginning of the year. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City of Detroit's contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees both at the beginning of the year, as well as at the end of the year. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability. The components of the change in the Authority's share of the net pension liability are summarized as follows:

	Water	Sewage Disposal	Total
Total pension liability	\$ 184,323,353	\$ 329,880,290	\$ 514,203,643
Plan fiduciary net position	(136,679,979)	(244,613,775)	(381,293,754)
Authority's Net Pension Liability	\$ 47,643,374	\$ 85,266,515	\$ 132,909,889

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020**NOTE 18 – NET PENSION LIABILITY (SPECIAL FUNDING SITUATION) (cont.)**

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the separately issued plan financial statements.

Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions. For the year ended June 30, 2020, the Authority recognized pension expense of \$7,220,716 and \$12,922,789 for the Water and Sewage Disposal Funds, respectively. At June 30, 2020, the Authority reported deferred outflows and inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	Net Deferred Outflows (Inflows) of Resources
Water Fund			
Net difference between projected and actual earnings on pension plan investments	\$ 4,481,694	\$ -	\$ 4,481,694
Employer contributions to the plan subsequent to the measurement date	10,810,800	-	10,810,800
Total Water Fund	15,292,494	-	15,292,494
Sewage Disposal Fund			
Net difference between projected and actual earnings on pension plan investments	8,020,810	-	8,020,810
Employer contributions to the plan subsequent to the measurement date	19,347,900	-	19,347,900
Total Sewage Disposal Fund	27,368,710	-	27,368,710
Total Business-type Activities	\$ 42,661,204	\$ -	\$ 42,661,204

The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the net pension liability for the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ended June 30	Water	Sewage Disposal	Total
2021	\$ 2,140,274	\$ 3,830,412	\$ 5,970,686
2022	(3,072)	(5,497)	(8,569)
2023	991,349	1,774,200	2,765,549
2024	1,353,143	2,421,695	3,774,838
Total	\$ 4,481,694	\$ 8,020,810	\$ 12,502,504

Payable to the Pension Plan. At June 30, 2020, the Authority did not have any outstanding contributions payable to the pension plan for the year then ended.

GREAT LAKES WATER AUTHORITYNOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020**NOTE 19 – COMMITMENTS AND CONTINGENCIES**

CAPITAL IMPROVEMENT PROGRAM

The Authority is engaged in a variety of projects that are part of its five-year capital improvement program (the Program). The total cost of this Program is anticipated to be approximately \$935.4 million with a 75% spend rate assumption of \$701.6 million for the Water Fund and \$739.4 million with a 75% spend rate assumption of \$554.6 million for the Sewage Disposal Fund through fiscal year 2025. The Program is being financed primarily from revenue bond proceeds in addition to the Improvement and Extension Funds. As of June 30, 2020, the Water Fund has unspent bond proceeds of \$20.2 million and Improvement and Extension funds of \$285.3 million available for use in addition to state revolving fund loan resources of \$39,083,195 in funding these commitments. Similarly, the Sewage Disposal Fund has unspent bond proceeds of \$23.5 million and Improvement and Extension funds of \$128.3 million available for use in addition to state revolving loan resources of \$42,210,602 in funding these commitments.

The total amount of construction contract commitments outstanding at June 30, 2020 was approximately \$137 million for the Water Fund and \$76 million for the Sewage Disposal Fund.

CONTINGENCIES

The Authority is subject to various government environmental laws and regulations. GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*, established accounting and financial reporting standards for pollution (including contamination) remediation obligations, which are obligations to address the current or potential detrimental effects of existing pollution by participating in pollution remedial activities such as site assessments and cleanups. The standard excludes pollution prevention or control obligations with respect to current operations, and future pollution remediation activities that are required upon retirement of an asset, such as landfill closure and post-closure care. The Authority determined that there were no estimated pollution remediation obligations to be recorded at June 30, 2020.

GASB Statement No. 83, *Certain Asset Retirement Obligations*, established accounting and financial reporting standards for legally enforceable liabilities related to the retirement of tangible capital asset(s) where the tangible capital asset is permanently removed from service. The retirement of a tangible capital asset can occur via sale, abandonment, recycling or disposal in some other manner and excludes the temporary idling of a tangible capital asset. An asset retirement obligation does not apply to obligations resulting from the disposal, or plan to dispose, of a tangible capital asset; obligation(s) associated with using a tangible capital asset for a different purpose; obligation(s) for pollution remediation; obligation(s) from regular maintenance or the cost to replace a component. The Authority determined there were no legally enforceable asset retirement obligations to be recorded at June 30, 2020.

The Sewage Disposal Fund's operations are subject to regulation pursuant to the Federal Water Pollution Control Act, as amended by the Clean Water Act of 1977 and the Water Quality Act of 1987 (collectively, the Clean Water Act). Included in the regulatory framework established by the Clean Water Act is the National Pollutant Discharge Elimination System (NPDES) permit program, which requires operation of wastewater system facilities according to discharge limitations and other requirements as set forth in permits issued to each facility. The Environmental Protection Agency (EPA) has authorized the Michigan Department of Environmental Quality (MDEQ) to implement and enforce the federal NPDES permit program. The Sewage Disposal Fund operates pursuant to the NPDES Permit. The Authority's current NPDES permit was issued July 1, 2019 and expires on October 1, 2022.

GREAT LAKES WATER AUTHORITY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2020**NOTE 19 – COMMITMENTS AND CONTINGENCIES (cont.)****CONTINGENCIES (cont.)**

The Authority is a defendant in numerous alleged claims, lawsuits, billing disputes, and other stated and pending demands. The Authority's Legal Department has estimated a reserve of \$2,222,500 for the Water Fund and \$7,650,000 for the Sewage Disposal Fund, which are included in the accompanying financial statements, for the potential outcome of such claims or the amount of potential damages in the event of an unfavorable outcome for each of the above contingencies. The Authority's management believes that any differences in reserved amounts and final settlement, after consideration of claims covered by insurance, resulting from such litigation will not materially impact the Authority's financial position or results of operations.

The Authority holds various commercial insurance policies to cover other potential loss exposures.

NOTE 20 – NET INVESTMENT IN CAPITAL ASSETS

The composition of net investment in capital assets as of June 30, 2020 was as follows:

	Water Fund	Sewage Disposal Fund	Total Business-type Activities

NOTE 20 – NET INVESTMENT IN CAPITAL ASSETS (cont.)

The capital portion of the lease payable is the percentage of the lease liability that has been determined to be allocated to the net investment in capital assets acquired. The lease is described in Note 14.

NOTE 21 – SUBSEQUENT EVENT

JUNIOR LIEN REVENUE BONDS

In July 2020, the GLWA Board approved \$40 million (Ordinance No. 2020-5) and \$7 million (Ordinance No. 2020-06) of State Revolving Funds (SRF) Junior Lien Revenue Bonds for the Water and Sewage Disposal systems, respectively. Of the \$40 million approved for the water system, the Department of Environment, Great Lakes, and Energy (EGLE) issued orders of approval for \$18 million, in August 2020, to be used for regional water system improvements and \$13.3 million, in September 2020, for local water system improvements. Of the \$7 million approved for the sewage disposal system, EGLE issued an order of approval for \$4 million, in September 2020, for local sewage disposal system improvements.

The Authority received an order of approval from EGLE, in July 2020, for \$22.6 million for local water system improvements. This order of approval is part of a \$35 million SRF Junior Lien Revenue Bonds (Ordinance No. 2020-3) approved by the GLWA Board in February 2020.

The above SRF loans bear a fixed interest rate of 2.00% for varying terms of twenty (20) to thirty (30) years.

* As described in Notes 1 and 18 GLWA was established on January 1, 2016. At that time GLWA assumed a portion of the net position and liabilities of the City of Detroit Water and Sewerage Department. This reflects only the portion allocated to GLWA.

** Contributions are determined by the provisions of the Plan of Adjustment and are not actuarially determined.

Note: This schedule is being built prospectively; ultimately, 10 years of data will be presented.

Component II

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
For the Year Ended June 30, 2020

Changes in Assumptions

In 2016, amounts reported as changes in assumptions resulted from adjustment of the discount rate from 7.61 percent to 7.23 percent.

In 2017, amounts reported as changes of assumptions resulted from adjustment of the discount rate from 7.23 percent to 6.91 percent.

In 2018, amounts reported as changes of assumptions resulted from adjustment of the discount rate from 6.91 percent to 7.38 percent.

Note: Great Lakes Water Authority is required to present the last ten fiscal years of data; however, accounting standards allow the presentation of as many years as are available until ten fiscal years are presented.

GREAT LAKES WATER AUTHORITY

SCHEDULE OF REVENUE REQUIREMENT
BUDGET TO ACTUAL - WATER SYSTEM OPERATIONS
For the Year Ended June 30, 2020

The Great Lakes Water Authority Board adopts a budget using a revenue requirement method for its operating funds that aligns with water and wastewater revenue charges. This method applies an accrual basis of accounting for revenues and operating expenses in addition to a cash basis of accounting for other commitments, such as debt service, Detroit General Retirement closed pension commitment, lease payment, reserves and certain other payments.

The schedule below presents the Board adopted budgeted, adjusted for amendments, for comparison with actual revenues, expenses, and other payments. Overall, the Water System experienced a positive variance of approximately \$7.5 million.

	2020 Adopted Budget	2020 Amended Budget	2020 Actual	Variance Over (Under) Budget
Revenues				
Revenue from Charges - Suburban Wholesale Customers [1]	\$ 309,284,500	\$ 304,634,200	\$ 306,049,429	\$ 1,415,229
Revenue from Charges - Detroit Customers	21,295,500	21,295,500	21,295,500	-
Total Revenue from Charges	<u>330,580,000</u>	<u>325,929,700</u>	<u>327,344,929</u>	<u>1,415,229</u>
Other Revenue [2]	-	2,400	2,659,660	2,657,260
Investment earnings [3]	<u>9,084,200</u>	<u>8,084,200</u>	<u>9,115,115</u>	<u>1,030,915</u>
Total Revenues	<u>\$ 339,664,200</u>	<u>\$ 334,016,300</u>	<u>\$ 339,119,704</u>	<u>\$ 5,103,404</u>
Revenue Requirements				
Operations and Maintenance Regional System Wholesale [4]	\$ 131,490,500	\$ 126,840,200	\$ 131,840,040	\$ 4,999,840
General Retirement System Legacy Pension	6,048,000	6,048,000	6,048,000	-
Debt Service	137,557,600	135,998,800	132,835,624	(3,163,176)
General Retirement System Accelerated Pension	6,268,300	6,268,300	6,268,300	-
Water Residential Assistance Program Contribution	1,698,300	1,698,300	1,698,300	-
Contribution to Operating Reserves	3,976,000	3,976,000	-	(3,976,000)
Local System Budget Shortfall	-	1,230,400	937,400	(293,000)
Lease Payment to Local System Improvement & Extension Fund	22,500,000	22,500,000	22,500,000	-
Transfer to the Regional Improvement & Extension Fund	<u>30,125,500</u>	<u>29,456,300</u>	<u>29,456,300</u>	<u>-</u>
Total Revenue Requirements	<u>\$ 339,664,200</u>	<u>\$ 334,016,300</u>	<u>\$ 331,583,964</u>	<u>\$ (2,432,336)</u>
Revenue Requirement Variance	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 7,535,740</u>	<u>\$ 7,535,740</u>

[1] Revenue from Charges - Suburban Wholesale Customers presented in this schedule differs from those presented on the Statement of Revenues, Expenses and Changes in Net position due to \$6,652,348 of revenue which was credited for the KWA debt service which is a non-cash transaction that is the lease payment on the raw water rights.

[2] Other Revenue includes other operating revenues and other nonoperating revenues for the Water Operations Fund. Numbers will not match combining schedules as other nonoperating is net of income and expenses.

[3] Investment earnings excludes construction fund and WRAP earnings.

[4] See the Combining Schedule of Revenues, Expenses and Changes in Net Position for the Water Fund. Operations and Maintenance expenses in this schedule are based on activities relating only to the Water Operations Fund.

The accompanying notes to the supplementary information are an integral part of this schedule.

GREAT LAKES WATER AUTHORITY

Lease Payment to Local System Improvement & Extension Fund	27,500,000	27,500,000	27,500,000	-
Transfer to the Regional System Improvement & Extension Fund [4]	25,461,600	20,797,600	20,797,600	-
Total Revenue Requirements	<u>\$ 480,605,300</u>	<u>\$ 480,005,300</u>	<u>\$ 469,809,101</u>	<u>\$ (10,196,199)</u>
Revenue Requirement Variance	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 11,316,018</u>	<u>\$ 11,316,018</u>

[1] Other Revenue includes other operating revenues and other nonoperating revenues for the Sewer Operations Fund. Numbers will not match combining schedules as other nonoperating is net of income and expenses.

[2] Investment earnings excludes construction fund and WRAP earnings.

[3] Refer to the Combining Schedule of Revenues, Expenses and Changes in Net Position for the Sewage Disposal Fund. Operations and Maintenance expenses in this schedule are based on activities relating only to the Sewer Operations Fund.

[4] DWSD loan receivable payments are transferred directly to the Improvement & Extension Fund. They are excluded from this schedule because they are not part of the revenue requirement methodology used to set charges.

The accompanying notes to the supplementary information are an integral part of this schedule.

GREAT LAKES WATER AUTHORITY

SCHEDULE OF REVENUE REQUIREMENT TO STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET POSITION CROSSWALK

For the Year Ended June 30, 2020

The Great Lakes Water Authority establishes a Revenue Requirement budget for the purpose of establishing charges for services which follows a modified cash basis of accounting. Conversely, the annual financial report is prepared in accordance with Generally Accepted Accounting Principles for enterprise funds of a local government. Because the budget and the financial report are prepared using different bases of accounting, a crosswalk is prepared to reconcile fiscal year financial performance from the budget basis of accounting to the financial statement basis of accounting.

Key areas of reconciliation include the following:

- Defined Benefit Pension related to the City of Detroit General Employees Retirement System. Annual contributions are an expense for the budget basis while the accrual basis financial report reflects the current year payment as a deferred outflow.
- Debt Service (principal and interest) is an expense for the budget basis while the accrual basis financial report treats interest as an expense and principal payments as a reduction of a liability.
- Lease payments (principal and interest) are an expense for the budget basis while the accrual basis financial report treats interest as an expense and principal payments as a reduction of a liability.
- Contributions to the Regional System Improvement & Extension Fund are an expense for the budget basis while the accrual basis financial report treats this activity as an increase in assets.
- Depreciation and amortization are not a components of the budget basis while the accrual basis financial report treats these as an expense.

	Water	Sewage Disposal	Combined
Revenue Requirement Variance from Schedule of Revenue Requirement	\$ 7,535,740	\$ 11,316,018	\$ 18,851,758

* GLWA assumed operations on January 1, 2016. Data for 2016 includes six months of operation under GLWA. Operating expense per day for 2016 is computed using 181 days (six months of operations).

The accompanying notes to the supplementary information are an integral part of this schedule.

GREAT LAKES WATER AUTHORITYNOTES TO SUPPLEMENTARY INFORMATION
For the Year Ended June 30, 2020**Note 1 – Combining and Individual Fund Schedules**

The Combining and Individual Fund Schedules presented combined the six funds the Authority maintains into the two major funds reported in the Basic Financial Statements, the Water Fund and Sewage Disposal Fund. The following describes the six funds and the purpose of each fund.

Water Operations & Maintenance (O&M) – All water revenues are credited to this fund. All expenses for the operations and maintenance of the water system are paid from this fund. This fund aligns with the revenue requirement for establishing service charges.

Sewer Operations & Maintenance (O&M) – All sewer revenues are credited to this fund. All expenses for the operations and maintenance of the wastewater system are paid from this fund. This fund aligns with the revenue requirement for establishing service charges.

Water Improvement & Extension Fund (I&E) – Amounts that are budgeted in the water revenue requirement to reduce debt financing are transferred to this fund as well as any other water funds that management has determined are available for this use. This fund is used for water system capital outlays and capital improvements. Expenditures under the operating expenses category are expenditures incurred for the betterment of the system, which may lead to capital expenditures but are not necessarily applicable to any current capital improvement.

Sewer Improvement & Extension Fund (I&E) - Amounts that are budgeted in the wastewater revenue requirement to reduce debt financing are transferred to this fund as well as any other wastewater funds that management has determined are available for this use. This fund is used for wastewater system capital outlays and capital improvements. Expenditures under the operating expenses category are expenditures incurred for the betterment of the system, which may lead to capital expenditures but are not necessarily applicable to any current capital improvement.

Water Construction Fund – This fund is used for the proceeds of water debt obligations and investment earnings thereon. Funds are used to pay for water system capital improvements in accordance with the debt obligations.

Sewer Construction Fund – This fund is used for the proceeds of sewer debt obligations and investment earnings thereon. Funds are used to pay for the wastewater system capital improvements in accordance with the debt obligations.

GREAT LAKES WATER AUTHORITYNOTES TO SUPPLEMENTARY INFORMATION
For the Year Ended June 30, 2020**Note 2 – Budget to Actual Schedules*****Schedule of Operations and Maintenance Expense Cost Type Activity – Budget to Actual***

The schedule of operations and maintenance expense (O&M) for the water system operations and the sewage disposal system operations provides the detail of the major expense categories of the O&M budget compared to the actual results. The actual expenditures are the operating expenses before depreciation for the Water Operations and the Sewer Operations reported in the Combining Schedule of Revenues, Expenses and Changes in Net position for the Water Fund and the Sewage Disposal Fund.

Schedule of Revenue Requirement – Budget to Actual

The revenue requirement is the basis for GLWA's budget and calculating Member Partner service charges. The revenue requirement is presented to align with the Master Bond Ordinance flow of funds categories. The budget basis reflects revenues and operations and maintenance expenses on an accrual basis in addition to cash payments for debt service, legacy pension obligations, and lease related activities.

The revenue requirement basis is foundational to GLWA's daily operations and long-term financial planning. The budget is adopted by the GLWA Board of Directors by resolution. The Board's action establishes the total operations and maintenance budget, total debt service requirements and total capital expenditures for both the Regional Water System and the Regional Sewer System. The legal level of budgetary control is at this level. Administratively, the budget may be modified within these categories. Modifications to the budget beyond those established levels would be presented to the Audit Committee, and subsequently to the Board.

Note 3 – Schedule of Revenue Requirement to Statement of Revenues, Expenses and Changes in Net Position Crosswalk

The Great Lakes Water Authority establishes a revenue requirements budget for the purposes of establishing charges, which follows a modified cash basis of accounting. The financial report is prepared in accordance with Generally Accepted Accounting Principles for enterprise funds of a local government. The crosswalk is provided to provide a reconciliation between the different basis of accounting used for the budget and the financial report.

STATISTICAL SECTION

DRAFT

GREAT LAKES WATER AUTHORITY

STATISTICAL SECTION TABLE OF CONTENTS

The objective of the statistical section is to provide financial statement users with additional historical perspective, context and detail to assist in using the information in the financial statements, notes to financial statements and required supplementary information to understand and assess the Authority's economic condition.

The statistical section information is presented in the following categories:

		<u>Page</u>
Financial Trends Schedules 1 through 2	Financial trends information is intended to show how the Authority's financial position has changed over time.	104
Revenue Capacity Schedules 3 through 7	Revenue capacity information is intended to show the factors affecting the Authority's ability to generate its own-source revenue.	113
Debt Capacity Information Schedules 8 through 13	Debt capacity information is intended to show the Authority's debt burden and its ability to issue additional debt.	119
Demographic and Economic Schedules 14 through 15	Demographic and economic information is intended to show the socioeconomic environment within which the Authority operates.	136
Operating Information Schedules 16 through 18	Operating information is intended to show contextual information about operations and resources to provide understanding and assessing the Authority's economic condition.	138

Sources: Unless otherwise noted, information presented in these schedules was obtained from GLWA's comprehensive annual financial reports, the prior financial reports of DWSD or other internal information systems.

GREAT LAKES WATER AUTHORITY

CHARGE ADJUSTMENTS

	2021	2020	2019	2018	2017	2016 [5]
Water Fund						
Budgeted revenue requirement [1]	\$341,642,000	\$339,664,200	\$331,400,500	\$328,119,300	\$331,213,200	\$318,474,200
Percent change in budgeted revenue requirement	0.6%	2.5%	1.0%	-0.9%	4.0%	4.0%
Average annual charge adjustment [2]						
Total regional system	3.2%	0.6%	1.8%	1.8%	4.5%	n/a [6]
Wholesale customers	3.1%	0.3%	0.2%	2.0%	3.4%	11.3%
Local system charge [3]	3.0%	2.7%	14.1%	-1.0%	11.6%	n/a [6]
Number of wholesale customers [4]	87	87	87	87	88	85
Sewage Disposal Fund						
Budgeted revenue requirement [1]	\$486,751,300	\$480,605,300	\$470,156,000	\$465,500,100	\$464,078,500	\$446,229,300
Percent change in budgeted revenue requirement	1.3%	2.2%	1.0%	0.3%	4.0%	4.0%
Average annual charge adjustment [2]						
Total regional system	2.0%	0.8%	0.1%	-0.7%	8.3%	n/a [6]
Wholesale customers	1.7%	-0.1%	1.3%	1.8%	4.9%	-1.1%
Local system charge [3]	2.3%	2.5%	1.2%	-4.2%	13.9%	n/a [6]
Number of wholesale customers [4]	18	18	18	18	18	21

[1] This is the revenue requirement in the original adopted budget for the fiscal year which is used in the calculation of charges.

[2] Average annual charge adjustment percentages is the required charge adjustment required when calculating revenue with the prior year existing charges, usage projections and any other specific individual contract requirements. For the sewage disposal system, this also includes the bad debt adjustment.

[3] Represents the annual change in the local system charges to the Detroit customer class before the annual credit of \$20.7 million for water and \$5.516 million for sewer. Does not include any lookback charges in the percentage increase/decrease calculation. Does not include any Detroit local system operating costs or charges included in the Detroit retail rate. Also does not include any impact of Detroit's use of the regional system lease payment to finance allocated debt service obligations.

[4] Does not include the City of Detroit. The water system includes one emergency basis contract.

[5] GLWA began operations on January 1, 2016. Amounts in this column are based on annual budget of Detroit Water and Sewage Department for FY 2016 which was the basis for the revenue requirement for the six months of operations of GLWA.

[6] Due to the establishment of the Authority and DWSD as separate entities during FY 2016, this information is not applicable.

[1] Reflects fiscal period in which actual payments are due.

[2] For bonds issued through the Michigan Finance Authority (MFA) in 2014 and 2015, the Authority is required to make payment on these obligations to the MFA depository accounts five business days prior to the due date of the bond principal and interest payments. Therefore, the payments for the principal and interest due on July 1, 2020, are not included in the debt service requirement amounts above as they were paid June 24, 2020.

GREAT LAKES WATER AUTHORITY

Water and Sewer Senior Lien - Debt Ratings History
As of June 30, 2020

GREAT LAKES WATER AUTHORITY

CALCULATION OF DEBT SERVICE COVERAGE - OVERVIEW

As of June 30, 2020

The Authority has pledged Net Revenues of the water and sewage disposal systems to secure the repayment of the principal and interest of the revenue bonds and State of Michigan revolving fund loans. Net Revenues are defined as all Revenues except for those transferred to the Operations and Maintenance Fund. Revenues are defined in the Master Bond Ordinance and are in accordance with State of Michigan Public Act 94, the Revenue Bond Act of 1933, as all monies collected, directly or indirectly, by GLWA, or by the DWSD as agent for GLWA for the local system under the water and sewer services agreement. The MBO establishes minimum debt coverage levels at 1.20 for senior lien bonds, 1.10 for second lien bonds and 1.00 for any junior lien bonds, other than second lien bonds. Debt service coverage ratios are inclusive of all debt held on behalf of both GLWA and DWSD.

Debt service coverage ratios are presented using both (a) the GAAP methodology which calculates pledged revenue on an accrual basis and (b) the Rate Covenant methodology which calculates pledged revenue on a cash basis.

GREAT LAKES WATER AUTHORITY

PRODUCED AND BILLED WATER VOLUMES
Last Ten Years

Fiscal Year	Estimated Total Water Produced (Mcf) [1]	Reported Water Sales			Estimated Non-Revenue Water (Mcf)	Estimated Non-Revenue % of Production [3]
		Wholesale Customer Billed (Mcf)	Local System Billed (Mcf)	Total Water Billed (Mcf) [2]		
2020	19,989,460	13,578,706	2,622,321	16,201,027	3,788,433	19.0%
2019	20,968,100	13,708,571	2,806,192	16,514,763	4,453,337	21.2%
2018	23,228,600	14,391,768	2,876,255	17,268,023	5,960,577	25.7%
2017	23,915,600	14,824,000	2,912,030	17,736,030	6,179,570	25.8%
2016 *	23,580,700	14,730,400	3,086,400	17,816,800	5,763,900	24.4%
2015 *	23,238,000	13,547,000	3,173,700	16,720,700	6,517,300	28.0%
2014 *	26,088,800	14,778,500	3,410,600	18,189,100	7,899,700	30.3%
2013 *	26,832,800	15,687,900	3,660,300	19,348,200	7,484,600	27.9%
2012 *	27,219,500	16,280,300	3,903,100	20,183,400	7,036,100	25.8%
2011 *	26,513,000	16,094,700	4,176,600	20,271,300	6,241,700	23.5%

[1] Represents, in part, estimated volumes based on pump curves and engineering analysis. GLWA engineering studies in 2017 concluded that the total water production values for calendar year 2016 were over-reported by 5.8%.

[2] Represents metered wholesale amounts for all customers other than Detroit, Dearborn, and Highland Park. Water sales to those customers reflect, in part, estimated retail water sales during this period. GLWA is modifying this approach, which will result in larger reported water sales figures in future years.

[3] As noted in [1] and [2], these values are likely overestimated. GLWA expects flow measuring methods to result in lower values in future years.

* GLWA assumed operations on January 1, 2016. The information in this table from 2011-2015 is based on operations under the City of Detroit Water and Sewerage Department (DWSD). Data for 2016 includes six months of operation under DWSD and six months of operation under GLWA.

GREAT LAKES WATER AUTHORITYTREATED AND BILLED WASTEWATER VOLUMES
Last Ten Years

Fiscal Year	Total Wastewater Treated (mg)	Customer Wastewater Volume (mg)		
		Wholesale Customers [1]	Local System [2]	Total
2020	213,700	117,200	18,500	135,700
2019	249,500	124,800	19,600	144,400
2018	235,600	119,400	19,500	138,900
2017	254,400	105,500	19,200	124,700
2016 *	209,200	96,800	20,600	117,400
2015 *	222,700	103,700	20,100	123,800
2014 *	233,200	107,200	22,100	129,300
2013 *	220,600	99,400	23,100	122,500
2012 *	255,500	112,600	24,900	137,500
2011 *	253,500	112,700	28,000	140,700

[1] Primarily metered wastewater volumes, but also includes water sales volumes for some customers whose wastewater is not metered. A fixed charge billing methodology was implemented in 2015. Volumes reflect measured and monitored wastewater flow.

[2] Reported water usage billed to retail customers

* GLWA assumed operations on January 1, 2016. The information in this table from 2011-2015 is based on operations under the City of Detroit Water and Sewerage Department (DWSD). Data for 2016 includes six months of operation under DWSD and six months of operation under GLWA.

Audit presentation topics

- > Audit overview
- > Auditor Communication with Those Charged with Governance
- > Internal control communication
- > Questions

Audit overview

- > Audit was conducted smoothly with no major snags or difficulties.
- > Management and staff were cooperative and readily available.
- > Audit schedule was maintained and communication between management and auditors was good.
- > Remote fieldwork began in September and concluded October 16th.
- > CAFR preparation and review through early November.
- > No audit adjusting journal entries were noted.
- > No single audit findings noted.

Audit overview

- > **Audit performed in accordance with Generally Accepted Auditing Standards and Government Auditing Standards.**
- > **Audit is based on assessment of control risk in key business process areas. Below are several key areas of review:**
 - Cash and investments
 - Revenues and receivables
 - General disbursements
 - Payroll
 - Pension liabilities
 - Long-term debt
 - Intangible asset and related lease obligation
 - Assets under construction and plant in service
 - Net position calculations
 - Analytical review of statement of net position and statement of revenues, expenses and changes in net position

Audit overview

- > **Audit objective** – obtain reasonable assurance that financial statements are free from material misstatement.
- > Financial statements receive an *Unmodified Opinion* (clean opinion).
- > Single audit results in *Unmodified Opinion* on compliance and controls over major program.

Auditor Communication with Those Charged with Governance

Significant Findings from the Audit

Area to Be Communicated	Auditor's Response
<p>Auditor's View on Qualitative Aspects of Significant Accounting Policies</p>	<ul style="list-style-type: none"> > The significant accounting policies used in the preparation of your financial statements are discussed in Note 1 to the financial statements. > Accounting estimates are an integral part of the financial statements prepared by management's knowledge and experience about past and current events and assumptions about future events. We feel that all estimates made by management are in accordance with generally accepted accounting principles.

Auditor Communication with Those Charged with Governance

Significant Findings from the Audit

Area to be Communicated	Auditor's Response
<p>Significant Difficulties Encountered in Performing the Audit</p>	<p>> We encountered no difficulties in performing our audit.</p>
<p>Uncorrected Misstatements</p>	<p>> By Professional Auditing Standards, uncorrected misstatements refer to immaterial passed audit adjustments – there were no passed audit adjustments.</p>

Auditor Communication with Those Charged with Governance

Significant Findings from the Audit

Area to be Communicated	Auditor's Response
<p>Disagreements with Management</p>	<p>> Professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements were encountered during the course of the audit.</p>
<p>Other Findings or Issues</p>	<p>> There are no other issues to disclose as part of the audit in connection with these Professional Auditing Standards.</p>

Auditor Communication with Those Charged with Governance

Audit summary

Thank You!

We appreciate the work performed by GLWA's accounting staff and management in preparing for and assisting in the audit!

We would be happy to answer any questions regarding the audit.

Reporting and insights from 2020 audit: Great Lakes Water Authority

June 30, 2020

Executive summary

_____, 2020

To the Board of Directors
Great Lakes Water Authority
Detroit, Michigan

We have completed our audit of the financial statements of the Great Lakes Water Authority for the year ended June 30, 2020, and have issued our report thereon dated {date}. This letter presents communications required by our professional standards.

Your audit should provide you with confidence in your financial statements. The audit was performed based on information obtained from meetings with management, data from your systems, knowledge of the Authority's operating environment and our risk assessment procedures. We strive to provide you clear, concise communication throughout the audit process and of the final results of our audit.

Additionally, we have included information on key risk areas Great Lakes Water Authority should be aware of in your strategic planning. We are available to discuss these risks as they relate to your organization's financial stability and future planning.

If you have questions at any point, please connect with us:

- Jodi L Dobson, Partner: jodi.dobson@bakertilly.com or +1 (608) 240.2469
- Gwen Zech, Manager: gwen.zech@bakertilly.com or +1 (608) 240.2443

Sincerely,

Baker Tilly US, LLP

Audit objectives

Audit objectives

Our responsibilities

As your independent auditor, our responsibilities include:

- Planning and performing the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. Reasonable assurance is a high level of assurance.
- Assessing the risks of material misstatement of the financial statements, whether due to fraud or error. Included in that assessment is a consideration of the Authority's internal control over financial reporting.
- Performing appropriate procedures based upon our risk assessment.
- Evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management.
- Forming and expressing an opinion based on our audit about whether the financial statements prepared by management, with the oversight of the Board of Directors:
 - Are free from material misstatement
 - Present fairly, in all material respects, and in accordance with accounting principles generally accepted in the United States of America
- Performing tests related to compliance with certain provisions of laws, regulations, contracts and grants, as required by *Government Auditing Standards*
- Considering internal control over compliance with requirements that could have a direct and material effect on major federal programs to design tests of both controls and compliance with identified requirements
- Forming and expressing an opinion based on our audit in accordance with OMB's *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance) about the entity's compliance with requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of its major federal programs.

We are also required to communicate significant matters related to our audit that are relevant to the responsibilities of the Board of Directors, including:

- Qualitative aspects of Authority's accounting practice including policies, accounting estimates and financial statement disclosures
- Significant difficulties encountered
- Disagreements with management
- Corrected and uncorrected misstatements
- Internal control matters
- Significant estimates
- Other findings or issues arising from the audit

Management's responsibilities

Management	Auditor
 <p>Prepare and fairly present the financial statements</p>	<p>Our audit does not relieve management or the Board of Directors of their responsibilities</p>
 <p>Establish and maintain effective internal control over financial reporting and compliance with laws, regulations, contracts and grants</p>	<p>An audit includes consideration of internal control over financial reporting, but not an expression of an opinion on those controls</p>
<p>Compliance with the types of requirements described in the <i>OMB Compliance Supplement</i></p>	<p>While our audit provides a reasonable basis for our opinion on compliance, it does not provide a legal determination on compliance with those requirements.</p>
 <p>Provide us with written representations at the conclusion of the audit</p>	<p>See Appendix B for a copy of management's representations</p>

Audit status

Audit status

Significant changes to the audit plan

There were no significant changes made to either our planned audit strategy or to the significant risks and other areas of emphasis identified during the performance of our risk assessment procedures.

Audit approach and results

Audit approach and results

Planned scope and timing

Audit focus

Based on our understanding of the Authority and environment in which you operate, we focused our audit on the following key areas:

- Key transaction cycles
- Areas with significant estimates
- Implementation of new accounting standards

Our areas of audit focus were informed by, among other things, our assessment of materiality. Materiality in the context of our audit was determined based on specific qualitative and quantitative factors combined with our expectations about the Authority's current year results.

Key areas of focus and significant findings

Significant risks of material misstatement

A significant risk is an identified and assessed risk of material misstatement that, in the auditor's professional judgment, requires special audit consideration. Within our audit, we focused on the following areas below.

Significant risk areas	Testing approach	Conclusion
Management override of controls	Incorporate unpredictability into audit procedures, emphasize professional skepticism and utilize audit team with industry expertise	Procedures identified provided sufficient evidence for our audit opinion
Improper revenue recognition due to fraud	Confirmation or validation of certain revenues supplemented with detailed predictive analytics based on non-financial data and substantive testing of related receivables	Procedures identified provided sufficient evidence for our audit opinion

Other key areas of emphasis

We also focused on other areas that did not meet the definition of a significant risk, but were determined to require specific awareness and a unique audit response.

Other key areas of emphasis		
Cash and investments	Revenues and receivables	General disbursements
Payroll	Pension liability	Long-term debt
Capital assets including intangible assets	Net position calculations	Financial reporting and required disclosures
Shared services with and received from DWSD	Lease payables	Due to and due from other governments

Internal control matters

We considered the Authority's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements. We are not expressing an opinion on the effectiveness of the Authority's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.

A material weakness is a deficiency or combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses or significant deficiencies.

Required communications

Qualitative aspect of accounting practices

- Accounting policies: Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we have advised management about the appropriateness of accounting policies and their application. The significant accounting policies used by Authority are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing accounting policies was not changed during fiscal year 2020. We noted no transactions entered into by the Authority during the year for which accounting policies are controversial or for which there is a lack of authoritative guidance or consensus or diversity in practice.
- Accounting estimates: Accounting estimates, including fair value estimates, are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements, the degree of subjectivity involved in their development and because of the possibility that future events affecting them may differ significantly from those expected. The following estimates are of most significance to the financial statements:

Estimate	Management's process to determine	Baker Tilly's conclusions regarding reasonableness
Accrued compensated absences	Evaluation of hours earned and accumulated in accordance with employment policies and average wage per hour rates	Reasonable in relation to the financial statements as a whole
Workers' compensation claims	Evaluation based on third-party administrators and subsequent claim activity.	Reasonable in relation to the financial statements as a whole
Allowance for doubtful accounts	Evaluation of historical revenues and loss levels with the analysis on collectability of individual amounts	Reasonable in relation to the financial statements as a whole
Net pension liability and related deferrals	Key assumptions set by management with the assistance of a third party actuary	Reasonable in relation to the financial statements as a whole
Depreciation	Evaluate estimated useful life of the asset and original acquisition value	Reasonable in relation to the financial statements as a whole
Shared services subject to joint review and true up	Evaluation based on joint review and agreement between parties	Reasonable in relation to the financial statements as a whole

There have been no significant changes made by management to either the processes used to develop the particularly sensitive accounting estimates, or to the significant assumptions used to develop the estimates, noted above.

- Financial statement disclosures: The disclosures in the financial statements are neutral, consistent and clear.

Significant unusual transactions

There have been no significant transactions that are outside the normal course of business for the Authority or that otherwise appear to be unusual due to their timing, size or nature.

Other information in documents containing audited financial statements

The Authority's audited financial statements are "general purpose" financial statements. General purpose financial statements consist of the basic financial statements that can be used by a broad group of people for a broad range of activities. Once we have issued our audit report, we have no further obligation to update our report for events occurring subsequent to the date of our report. The Authority can use the audited financial statements in other client prepared documents, such as official statements related to the issuance of debt, without our acknowledgement. Unless we have been engaged to perform services in connection with any subsequent transaction requiring the inclusion of our audit report, as well as to issue an auditor's acknowledgment letter, we have neither read the document nor performed subsequent event procedures in order to determine whether or not our report remains appropriate.

Difficulties encountered during the audit

We encountered no significant difficulties in dealing with management and completing our audit.

Disagreements with management

Professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management's consultations with other accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing or accounting matters.

Written communications between management and Baker Tilly

The Appendix includes copies of other material written communications, including a copy of the management representation letter.

Uncorrected misstatements and corrected misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. There were no misstatements identified.

Compliance with laws and regulations

We did not identify any non-compliance with laws and regulations during our audit.

We will issue a separate document which contains the results of our audit procedures to comply with the Uniform Guidance.

Fraud

We did not identify any known or suspected fraud during our audit.

Going concern

Pursuant to professional standards, we are required to communicate to you, when applicable, certain matters relating to our evaluation of the Authority's ability to continue as a going concern for a reasonable period of time but no less than 12 months from the date the financial statements are issued or available to be issued, including the effects on the financial statements and the adequacy of the related disclosures, and the effects on the auditor's report. No such matters or conditions have come to our attention during our engagement.

Independence

We are not aware of any relationships between Baker Tilly and the Authority that, in our professional judgment, may reasonably be thought to bear on our independence.

Related parties

We did not have any significant findings or issues arise during the audit in connection with the Authority's related parties.

Other audit findings or issues

We encountered no other audit findings or issues that require communication at this time.

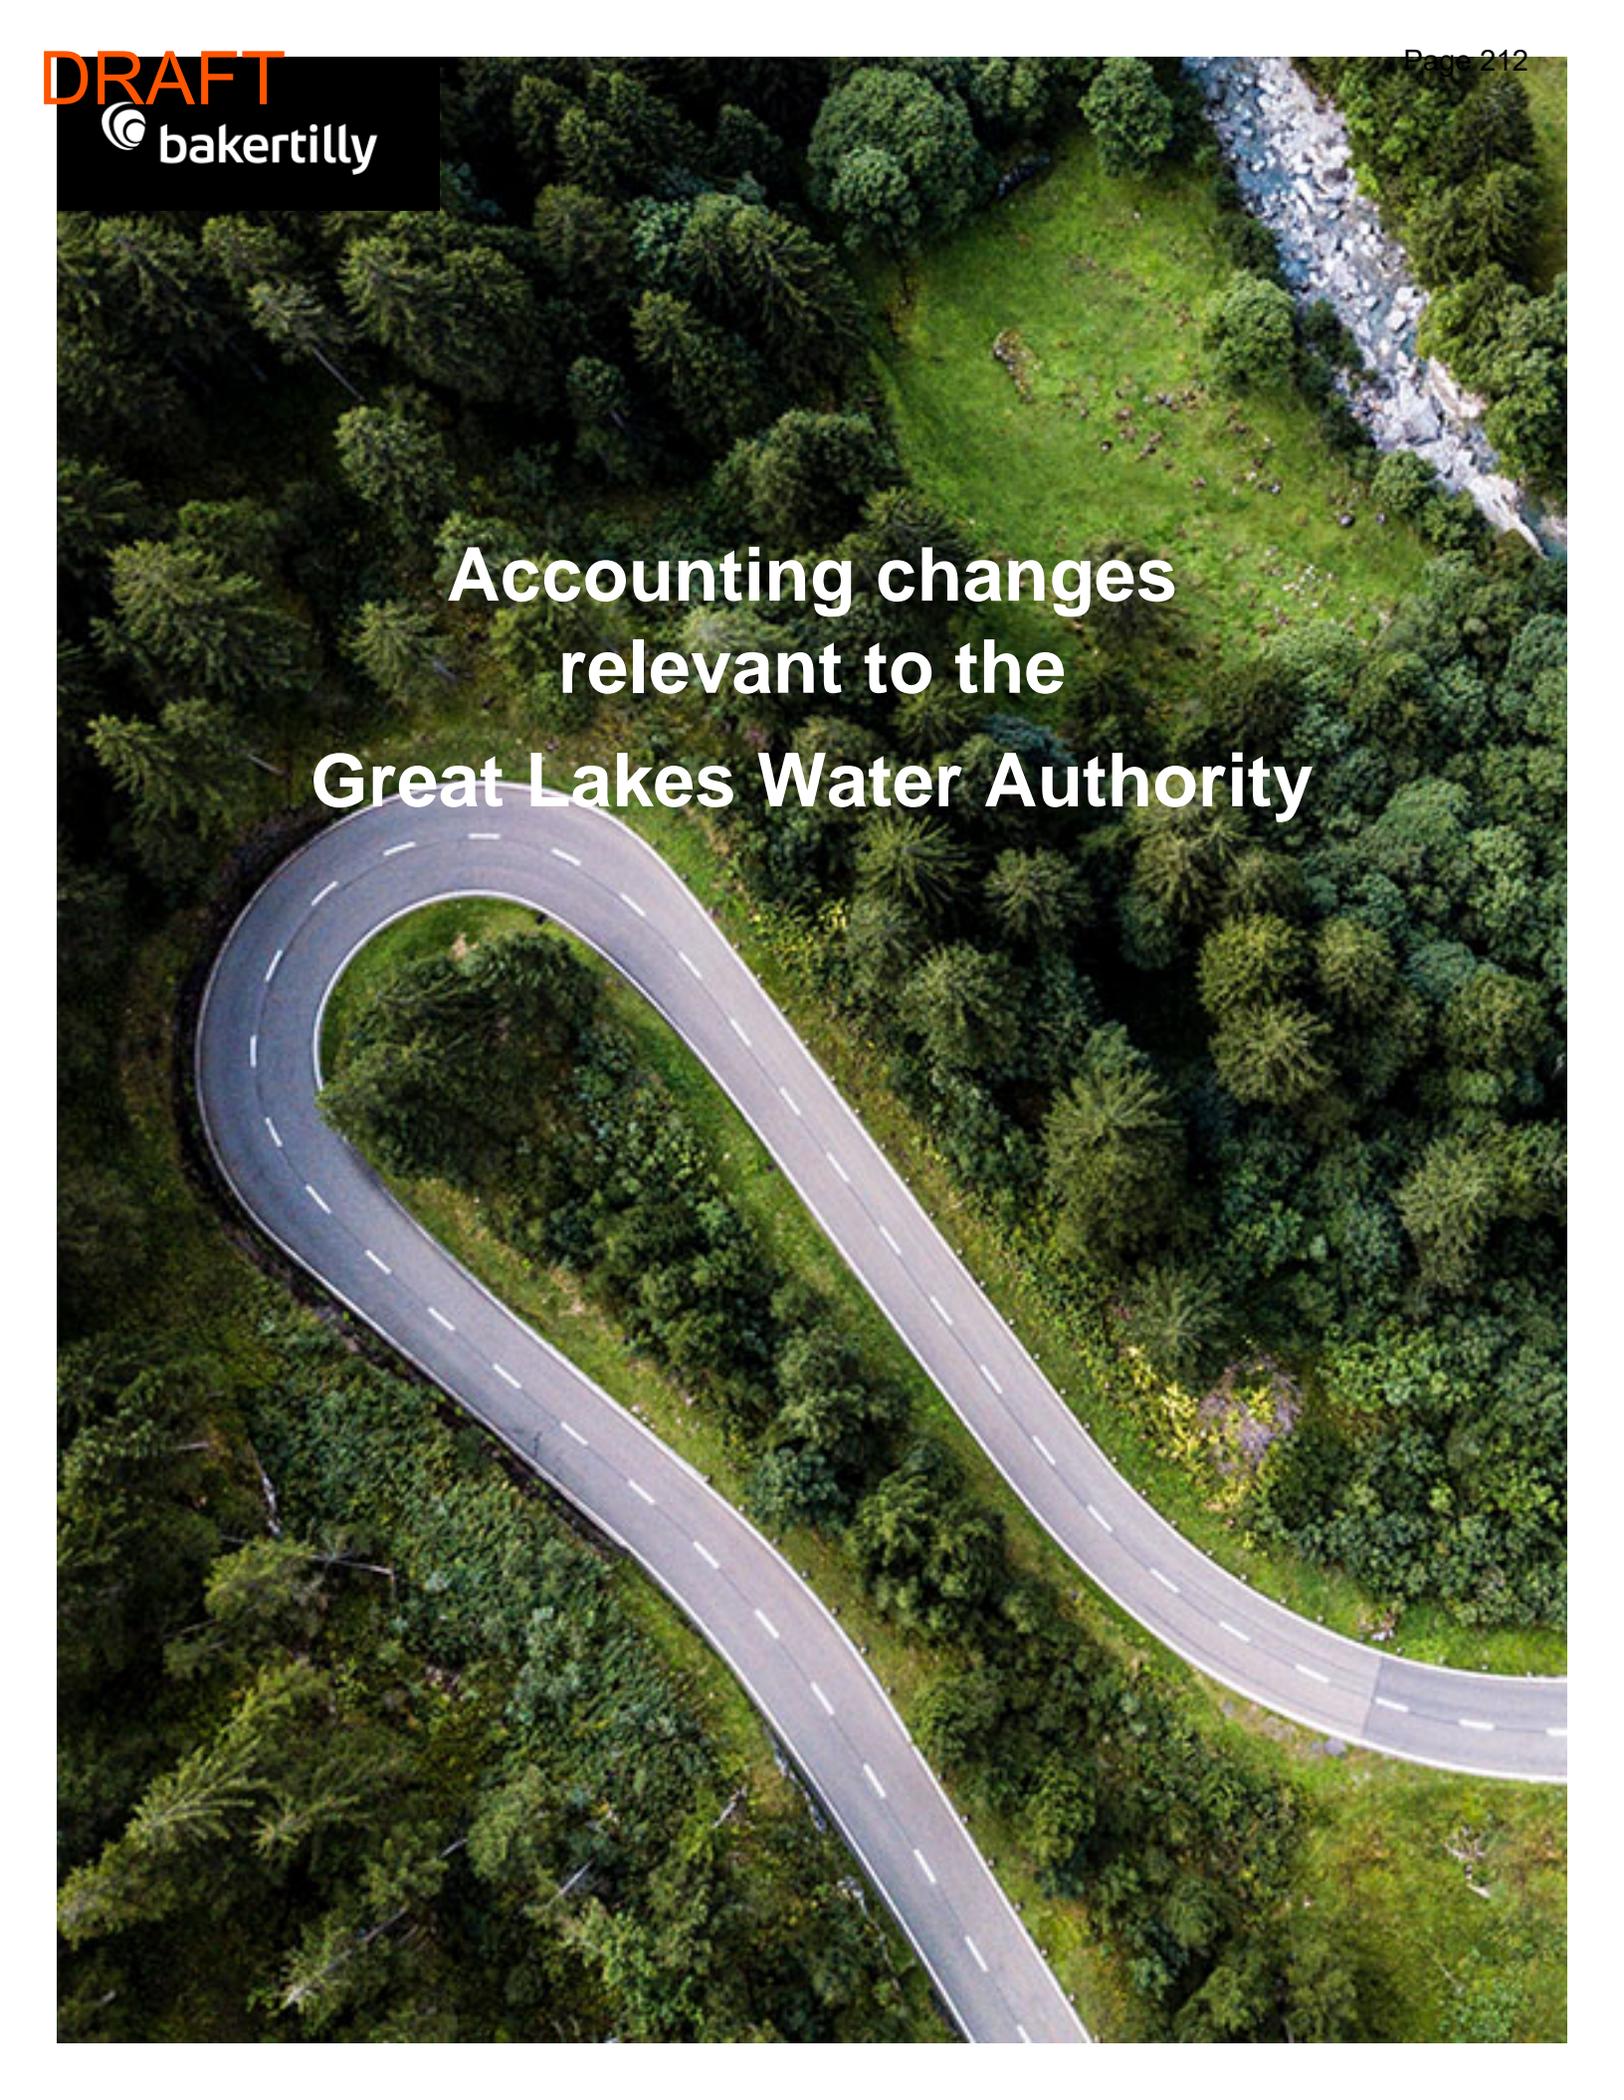

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Authority's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other matters

We applied certain limited procedures to the required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the supplementary information which accompanies the financial statements but is not RSI. With respect to the supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the other information, which accompanies the financial statements but are not RSI. We did not audit or perform other procedures on this other information and we do not express an opinion or provide any assurance on it.

An aerial photograph of a winding asphalt road with white dashed lines, curving through a dense green forest. In the upper right corner, a rocky stream flows through the trees. The overall scene is lush and natural.

Accounting changes relevant to the Great Lakes Water Authority

The effective date reflected above is the required revised implementation date.

Further information on upcoming [GASB pronouncements](#)

Preparing for the new lease standard

GASB's new single model for lease accounting will be effective for the upcoming year. This standard will require governments to identify and evaluate contracts that convey control of the right to use another entity's nonfinancial asset as specified in the contract for a period of time in an exchange or exchange-like transaction. Contracts meeting the criteria for control, term and other items within the standard will result in recognizing a right to use asset and lease liability or a receivable and deferred inflow of resources.

We recommend the Authority review this standard and start planning now as to how this will affect your financial reporting. We recommend that you begin by completing an inventory of all contracts that might meet the definition of a lease. The contract listing should include key terms of the contracts such as:

- Description of contract
- Underlying asset
- Contract term
- Options for extensions and terminations
- Service components, if any
- Dollar amount of lease

In addition, the Authority should begin to establish a lease policy to address the treatment of common lease types, including a dollar threshold for each lease. We are available to discuss this further and help you develop an action plan.

Planning for the new conduit debt reporting

Conduit debt includes arrangements where there are three separate parties involved including a third party that is obligated for payment, a debt holder or lender and an issuing party which is often a government. This standard provides additional criteria for identifying and classifying conduit debt with the intent of providing consistency in how the debt is recorded and reported in governmental financial statements. The Authority should identify any existing debt arrangements involving third party obligors and evaluate how those arrangements will be reported under the new standard in order to determine the potential impact of this standard on future financial reporting.

Trending challenges for organizations

Trending challenges for organizations

Management and the governing body of the Authority must keep the future in mind as they evaluate strategies to achieve future growth. Keeping a balance between risk and sustainability is key, and organizations need to think beyond their immediate needs to their long term goals. Economic uncertainty, coupled with key risk areas and fast paced technology change, make strategic planning complex. Begin the discussion with your management team to find your path to your future.

2020 strategic risks for boards

Evaluating and mitigating the greatest risks

Public sector organizations face a multitude of internal and external risks in an evolving landscape. Risks can stem from strategy, finances, legal situations, operations, regulatory compliance, information technology, economic environment, and/or fraud, waste and abuse.

By employing a risk assessment, areas with the greatest needs and highest risks are evaluated. Then a risk mitigation plan can be developed and deployed.

Learn about [risk assessment](#) types, tools and strategies.

Cybersecurity

Operational reporting on cybersecurity effectiveness

As boards engage management in cybersecurity risk discussions, directors should expect management to produce reports on the effectiveness of the organization's cybersecurity-risk management program. Management can (and should) collect and analyze relevant performance measures and metrics to determine if cybersecurity safeguards and controls are operating as intended, and whether any corrective action should be taken to strengthen management's risk-mitigation approaches. While not an exhaustive list, some key processes on which management should report include these:

- Incident management
- Risk management and governance
- Independent assurance on the cybersecurity program

Data privacy

Elevating privacy risks to the forefront of board agendas

Organizations around the world are still scrambling to comply with the General Data Protection Regulation in the European Union, which went into effect in May 2018. While the data privacy regulatory environment changes rapidly, organizations can take proactive steps to ensure that they stay informed of the existing regulations and of those developing on the near horizon.

Adequate oversight remains a key part of staying on top of data privacy developments. Some regulations specify oversight requirements, and can depend on the type of the organization, the quantity and type of personal data processed, and the locations where operations take place. In many cases, a data protection officer (DPO) must lead the effort. Since the DPO is responsible for overseeing practices related to data protection strategy and implementation, having one in place early on will help ensure that the privacy program is comprehensive and consistent.

The talent problem

Establishing a lifeline for your shifting workforce

Employee recruitment and retention challenges are an all too common struggle in the public sector:

- Aging workers with institutional knowledge retire
- High demand for small qualified candidate pool
- Perception of geographic disadvantages
- Wage/benefit competition with private sector
- Lean operations exclude investments in recruitment, on-the-job training and technology
- Unclear growth and career advancement tracks

Sustainable organizations must have a robust workforce development and succession planning program. Learn how to get started and incorporate a workforce/succession planning program with existing operational practices.

Innovation

Anticipating disruptive innovation and digital transformation

To stay competitive and relevant in a rapidly changing business landscape, organizations in every industry must navigate an increasingly disruptive, technology-enabled environment. Companies that do not address and embrace new and emerging technologies will be less competitive or may even face obsolescence.

Given these challenges to companies, what does innovation mean in this era of digital transformation? Innovation now involves finding the right problems worth solving; building new offerings, business models, and experiences; and generating value at scale for customers.

Furthermore, the rapid digital transformation of advanced technologies such as blockchain, robotic process automation (RPA), and artificial intelligence (AI) now portend similar effects in industries from financial services and healthcare to communications and manufacturing. Boards must become

knowledgeable about these digital disruption trends in order to be able to conduct meaningful oversight that management can use successfully as the company embraces new technologies.

Operational and organizational sustainability

Aligning resources with strategy

As new demands confront the public sector industry, it's easy to solve an immediate problem instead of pausing to take a holistic view. Rippling inefficiencies, increasing financial pressures, taxing staff resources and plummeting constituent satisfaction can pile atop organizations already facing pressure to improve efficiency, effectiveness, relevance and financial viability.

An operational review follows a systematic, strategic approach to understanding an entity's operations and performance. Opportunities to improve processes, bolster internal controls and reduce costs are uncovered in order to realign organizational resources and strategic objectives.

Learn invaluable methods for [executing an operational review](#) while maintaining day-to-day operations.

COVID-19 Risks and ongoing response

Staying nimble and resilient during unprecedented disruption

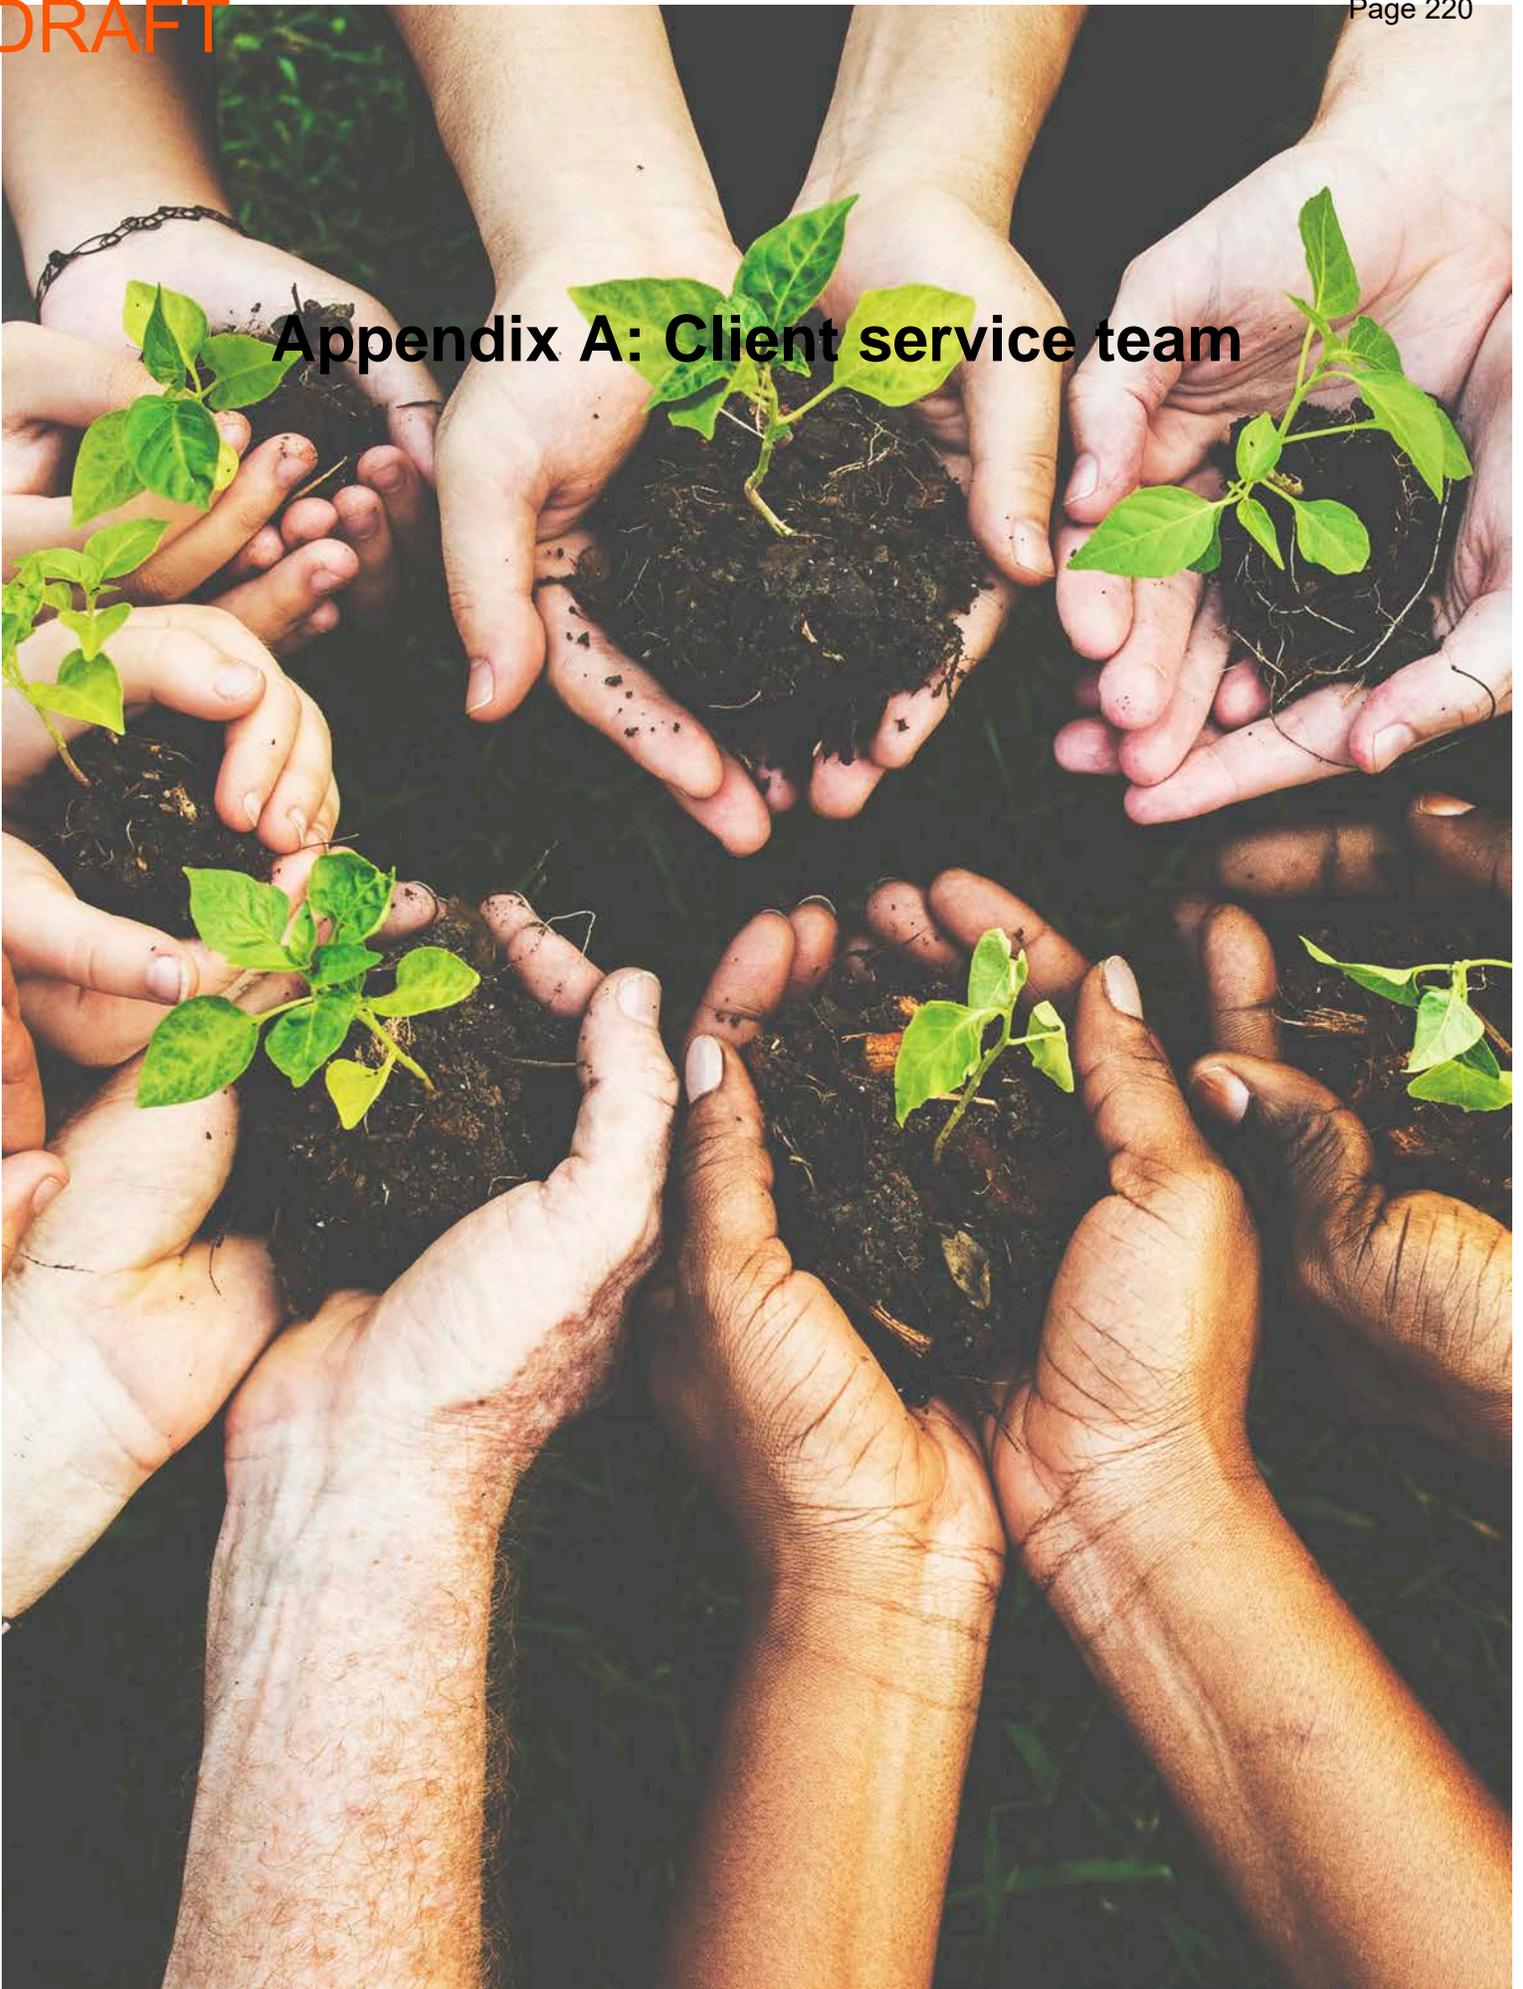

COVID-19 has challenged all organizations and the effects continue to unfold. It is critical that management and governing bodies stay nimble to respond to direct and indirect effects of this disruption on operations, cash flow, and people. Some best practices to consider include:

- Establish mechanisms to track COVID-19 related expenses, lost revenues or delayed revenues
- Monitor cash flow projections and seek short term liquidity help
- Create a policy and forms for compliance with Family First Coronavirus Response Act
- Compare anticipated results to bond covenants and track any continuing disclosure items
- Re-evaluate TIF projections with revised development scenarios
- Develop a strategy for leading your community through the crisis

Learn about public sector [Coronavirus resources](#), including the latest news on business continuity and cash flow management, Federal stimulus and tax developments, and more.

Appendix B: Management representation letter

_____, 2020

Baker Tilly US, LLP

Ten Terrace Court
PO Box 7398
Madison, WI 53707

Dear Baker Tilly US, LLP:

We are providing this letter in connection with your audit of the financial statements of the Great Lakes Water Authority as of June 30, 2020 and for the year then ended for the purpose of expressing opinions as to whether the financial statements present fairly, in all material respects, the financial position of the Great Lakes Water Authority (Authority), each major enterprise fund, and the respective changes in financial position and cash flows, where applicable, in conformity with accounting principles generally accepted in the United States of America. We confirm that we are responsible for the fair presentation of the previously mentioned financial statements in conformity with accounting principles generally accepted in the United States of America. We are also responsible for adopting sound accounting policies, establishing and maintaining internal control over financial reporting, and preventing and detecting fraud.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement. An omission or misstatement that is monetarily small in amount could be considered material as a result of qualitative factors.

We confirm, to the best of our knowledge and belief, the following representations made to you during your audit.

Financial Statements

- 1) We have fulfilled our responsibilities, as set out in the terms of the audit engagement letter.
- 2) The financial statements referred to above are fairly presented in conformity with accounting principles generally accepted in the United States of America. We have engaged you to advise us in fulfilling that responsibility. The financial statements include all properly classified funds of the Authority required by accounting principles generally accepted in the United States of America to be included in the financial reporting entity.
- 3) We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

- 4) We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.
- 5) Significant assumptions we used in making accounting estimates, if any, are reasonable.
- 6) All events subsequent to the date of the financial statements and for which accounting principles generally accepted in the United States of America require adjustment or disclosure have been adjusted or disclosed. No other events, including instances of noncompliance, have occurred subsequent to the financial statement date and through the date of this letter that would require adjustment to or disclosure in the aforementioned financial statements or in the schedule of expenditures of federal and state awards.
- 7) All material transactions have been recorded in the accounting records and are reflected in the financial statements and the schedule of expenditures of federal and state awards.
- 8) There are no known or possible litigation, claims, and assessments whose effects should be considered when preparing the financial statements. There are no unasserted claims or assessments that our lawyer has advised us are probable of assertion and must be disclosed in accordance with accounting principles generally accepted in the United States of America.
- 9) Guarantees, whether written or oral, under which the Authority is contingently liable, if any, have been properly recorded or disclosed.

Information Provided

- 10) We have provided you with:
 - a) Access to all information, of which we are aware, that is relevant to the preparation and fair presentation of the financial statements, such as financial records and related data, documentation, and other matters and all audit or relevant monitoring reports, if any, received from funding sources.
 - b) Additional information that you have requested from us for the purpose of the audit.
 - c) Unrestricted access to persons within the entity from whom you determined it necessary to obtain audit evidence.
 - d) Minutes of the meetings of Board of Directors or summaries of actions of recent meetings for which minutes have not yet been prepared.
- 11) We have disclosed to you results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.
- 12) We have no knowledge of any fraud or suspected fraud that affects the entity and involves:
 - a) Management,
 - b) Employees who have significant roles in internal control, or
 - c) Others where the fraud could have a material effect on the financial statements.
- 13) We have no knowledge of any allegations of fraud or suspected fraud affecting the entity received in communications from employees, former employees, regulators, or others.

- 14) We have no knowledge of known instances of noncompliance or suspected noncompliance with provisions of laws, regulations, contracts, or grant agreements, or abuse, whose effects should be considered when preparing financial statements.
- 15) There are no known related parties or related party relationships and transactions of which we are aware.

Other

- 16) There have been no communications from regulatory agencies concerning noncompliance with, or deficiencies in, financial reporting practices.
- 17) We have taken timely and appropriate steps to remedy fraud, noncompliance with provisions of laws, regulations, contracts or grant agreements, or abuse that you have reported to us.
- 18) We have a process to track the status of audit findings and recommendations.
- 19) We have provided our views on reported findings, conclusions, and recommendations, as well as our planned corrective actions, for our report.
- 20) The Authority has no plans or intentions that may materially affect the carrying value or classification of assets, liabilities, or equity.
- 21) We are responsible for compliance with federal, state, and local laws, regulations, and provisions of contracts and grant agreements applicable to us, including tax or debt limits, debt contracts, and IRS arbitrage regulations; and we have identified and disclosed to you all federal, state, and local laws, regulations and provisions of contracts and grant agreements that we believe have a direct and material effect on the determination of financial statement amounts or other financial data significant to the audit objectives, including legal and contractual provisions for reporting specific activities in separate funds.
- 22) There are no:
 - a) Violations or possible violations of budget ordinances, federal, state, and local laws or regulations (including those pertaining to adopting, approving and amending budgets), provisions of contracts and grant agreements, tax or debt limits, and any related debt covenants whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency, or for reporting on noncompliance, except those already disclosed in the financial statement, if any.
 - b) Other liabilities or gain or loss contingencies that are required to be accrued or disclosed by accounting principles generally accepted in the United States of America.
 - c) Rates being charged to customers other than the rates as authorized by the applicable authoritative body.
 - d) Violations of restrictions placed on revenues as a result of bond resolution covenants such as revenue distribution or debt service funding.
- 23) The Great Lakes Water Authority has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset been pledged as collateral.
- 24) The Great Lakes Water Authority has complied with all aspects of contractual agreements that would have a material effect on the financial statement in the event of noncompliance.

- 25) The financial statements properly classify all funds and activities.
- 26) Components of net position (net investment in capital assets; restricted; and unrestricted) are properly classified and, if applicable, approved.
- 27) The Great Lakes Water Authority has no derivative financial instruments such as contracts that could be assigned to someone else or net settled, interest rate swaps, collars or caps.
- 28) Provisions for uncollectible receivables, if any, have been properly identified and recorded.
- 29) Interfund, internal, and intra-entity activity and balances have been appropriately classified and reported.
- 30) Deposits and investments are properly classified, valued, and disclosed (including risk disclosures, collateralization agreements, valuation methods, and key inputs, as applicable).
- 31) Provision, when material, has been made to reduce excess or obsolete inventories to their estimated net realizable value.
- 32) Capital assets, including infrastructure and intangible assets, are properly capitalized, reported, and, if applicable, depreciated/amortized. Any known impairments have been recorded and disclosed.
- 33) Tax-exempt bonds issued have retained their tax-exempt status.
- 34) We have appropriately disclosed the Great Lakes Water Authority's policy regarding whether to first apply restricted or unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available and have determined that net position were properly recognized under the policy.
- 35) We acknowledge our responsibility for the required supplementary information (RSI). The RSI is measured and presented within prescribed guidelines and the methods of measurement and presentation have not changed from those used in the prior period. We have disclosed to you any significant assumptions and interpretations underlying the measurement and presentation of the RSI.
- 36) With respect to the supplementary information, (SI):
 - a) We acknowledge our responsibility for presenting the SI in accordance with accounting principles generally accepted in the United States of America, and we believe the SI, including its form and content, is fairly presented in accordance with accounting principles generally accepted in the United States of America. The methods of measurement and presentation of the SI have not changed from those used in the prior period, and we have disclosed to you any significant assumptions or interpretations underlying the measurement and presentation of the supplementary information.
 - b) If the SI is not presented with the audited financial statements, we will make the audited financial statements readily available to the intended users of the supplementary information no later than the date we issue the supplementary information and the auditor's report thereon.
- 37) We are responsible for the fair presentation of the Authority's net pension liability based upon calculations by the City of Detroit General Employees' Retirement System (GRS) and related amounts. We appropriately allocated the net pension liability based on the assumptions in the lease agreements, pension agreement and the allocation letter signed by the GLWA Chief Executive Officer and the Detroit Water & Sewerage Department (DWSD) Director on January 24, 2017. We have properly disclosed our special funding situation under GASB 68, *Accounting and Financial Reporting for Pension Plans*. We have reviewed the information provided by GRS for inclusion in the Authority's financial statements..

- 38) We have evaluated and considered all debt reported as defeased in substance and believe all material amounts held in trust that are not expressly prohibited from substitution in monetary assets that are not essentially risk-free are properly disclosed.
- 39) We are responsible for the estimation methods and assumptions used in measuring assets and liabilities reported or disclosed at fair value, including information obtained from brokers, pricing services or third parties. Our valuation methodologies have been consistently applied from period to period. The fair value measurements reported or disclosed represent our best estimate of fair value as the measurement date in accordance with the requirements of GASB 72 – *Fair Value Measurement*. In addition our disclosures related to fair value measurements are consistent with the objectives outlined in GASB 72. We have evaluated the fair value information provided to us by brokers, pricing services or other parties that has been used in the financial statements and believe this information to be reliable and consistent with the requirements.
- 40) We have evaluated the existing outstanding debt for potential arbitrage liability. Any potential liability has been properly recorded.
- 41) We have evaluated existing contracts and agreements and are responsible for the accounting and financial reporting of any related capital or intangible assets, liabilities, receivables or deferred items in compliance with generally accepted accounting principals.
- 42) We are responsible for compliance with the funding requirements and the flow of funds as outlined in the Master Bond Ordinance.
- 43) With respect to federal award programs:
 - a) We are responsible for understanding and complying with and have complied with the requirements of the Single Audit Act Amendments of 1996, *OMB's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), including requirements relating to preparation of the schedule of expenditures of federal awards (SEFA).
 - b) We acknowledge our responsibility for presenting the SEFA in accordance with the requirements of the Uniform Guidance and we believe the SEFA, including its form and content, is fairly presented in accordance with the Uniform Guidance . The methods of measurement and presentation of the SEFA have not changed from those used in the prior period and we have disclosed to you any significant assumptions and interpretations underlying the measurement and presentation of the SEFA.
 - c) If the SEFA is not presented with the audited financial statements, we will make the audited financial statements readily available to the intended users of the SEFA no later than the date we issue the SEFA and the auditors' report thereon.
 - d) We have identified and disclosed to you all of our government programs and related activities subject to the Uniform Guidance and included in the SEFA, expenditures made during the audit period for all awards provided by federal agencies in the form of grants, federal cost reimbursement contracts, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other direct assistance.
 - e) We are responsible for understanding and complying with, and have complied with the requirements of laws, regulations, and the provisions of contracts and grant agreements related to each of our federal programs and have identified and disclosed to you the requirements of laws, regulations, and the provisions of contracts and grant agreements that are considered to have a direct and material effect on each major federal program.

- f) We are responsible for establishing and maintaining, and have established and maintained, effective internal control over compliance for federal programs that provide reasonable assurance that we are administering our federal awards in compliance with laws, regulations, and the provisions of contracts and grant agreements that could have a material effect on our federal programs. We believe the internal control system is adequate and is functioning as intended. Also, no changes have been made in the internal control over compliance or other factors to the date of this letter that might significantly affect internal control, including any corrective action taken with regard to control deficiencies reported in the schedule of findings and questioned costs.
- g) We have made available to you all contracts and grant agreements (including amendments, if any) and any other correspondence with federal agencies or pass-through entities relevant to the programs and related activities.
- h) We have received no requests from a federal agency to audit one or more specific programs as a major program.
- i) We have complied with the direct and material compliance requirements including when applicable, those set forth in the OMB Compliance Supplement relating to federal awards.
- j) We have disclosed any communications from grantors and pass-through entities disclosed to you results of our including communications received from the end of the period covered by the compliance audit to the date of the auditors' report.
- k) Amounts claimed or used for matching were determined in accordance with relevant guidelines in the Uniform Guidance.
- l) We have disclosed to you our interpretation of compliance requirements that may have varying interpretations.
- m) We have made available to you all documentation related to the compliance with the direct and material compliance requirements, including information related to federal program financial reports and claims for advances and reimbursements.
- n) We have disclosed to you the nature of any subsequent events that provide additional evidence about conditions that existed at the end of the reporting period affecting noncompliance during the reporting period.
- o) We are not aware of any instances of noncompliance with direct and material compliance requirements that occurred subsequent to the period covered by the auditors' report.
- p) No changes have been made in internal control over compliance or other factors that might significantly affect internal control subsequent to the date as of which compliance was audited.
- q) Federal program financial reports and claims for advances and reimbursements are supported by the books and records from which the financial statements have been prepared.
- r) The copies of federal program financial reports provided you are true copies of the reports submitted, or electronically transmitted, to the respective federal agency or pass-through entity, as applicable.
- s) We have monitored subrecipients to determine that they have expended pass-through assistance in accordance with applicable laws and regulations and have met the requirements of the Uniform Guidance .

- t) We have taken appropriate action, including issuing management decisions, on a timely basis after receipt of subrecipients' auditors' reports that identified noncompliance with laws, regulations, or the provisions of contracts or grant agreements to ensure that subrecipients have taken the appropriate and timely corrective action on findings.
- u) We have considered the results of subrecipient audits and made any necessary adjustments to our books and records.
- v) We have charged costs to federal awards in accordance with applicable cost principles.
- w) We are responsible for and have accurately prepared the summary schedule of prior audit findings to include all findings required to be included by the Uniform Guidance and we have provided you with all information on the status of the follow-up on prior audit findings by federal awarding agencies and pass-through entities, including all management decisions.
- x) We are responsible for and have accurately prepared the auditee section of the Data Collection Form as required by the Uniform Guidance.

Sincerely,

Great Lakes Water Authority

**Appendix C: Two-way communication
regarding your audit**

As part of our audit of your financial statements, we are providing communications to you throughout the audit process. Auditing requirements provide for two-way communication and are important in assisting the auditor and you with more information relevant to the audit.

As this past audit is concluded, we use what we have learned to begin the planning process for next year's audit. It is important that you understand the following points about the scope and timing of our next audit:

- a. We address the significant risks of material misstatement, whether due to fraud or error, through our detailed audit procedures.
- b. We will obtain an understanding of the five components of internal control sufficient to assess the risk of material misstatement of the financial statements whether due to error or fraud, and to design the nature, timing, and extent of further audit procedures. We will obtain a sufficient understanding by performing risk assessment procedures to evaluate the design of controls relevant to an audit of financial statements and to determine whether they have been implemented. We will use such knowledge to:
 - Identify types of potential misstatements.
 - Consider factors that affect the risks of material misstatement.
 - Design tests of controls, when applicable, and substantive procedures.
- c. We will not express an opinion on the effectiveness of internal control over financial reporting or compliance with laws, regulations, and provisions of contracts or grant programs. For audits performed in accordance with *Government Auditing Standards*, our report will include a paragraph that states that the purpose of the report is solely to describe the scope of testing of internal control over financial reporting and compliance and the result of that testing and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance and that the report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering internal control over financial reporting and compliance. The paragraph will also state that the report is not suitable for any other purpose.
- d. The concept of materiality recognizes that some matters, either individually or in the aggregate, are important for fair presentation of financial statements in conformity with generally accepted accounting principles while other matters are not important. In performing the audit, we are concerned with matters that, either individually or in the aggregate, could be material to the financial statements. Our responsibility is to plan and perform the audit to obtain reasonable assurance that material misstatements, whether caused by errors or fraud, are detected.

Our audit will be performed in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, *OMB's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

We will not express an opinion on the effectiveness of internal control over financial reporting or compliance with laws, regulations, and provisions of contracts or grant programs. For audits done in accordance with *Government Auditing Standards*, the Uniform Guidance, our report will include a paragraph that states that the purpose of the report is solely to describe (a) the scope of testing of internal control over financial reporting and compliance and the result of that testing and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance, (b) the scope of testing internal control over compliance for major programs and major program compliance and the result of that testing and to provide an opinion on compliance but not to provide an opinion on the effectiveness of internal control over compliance and, (c) that the report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering internal control over financial reporting and compliance and the Uniform Guidance, in considering internal control over compliance and major program compliance. The paragraph will also state that the report is not suitable for any other purpose.

We are very interested in your views regarding certain matters. Those matters are listed here:

- a. We typically will communicate with your top level of management unless you tell us otherwise.
- b. We understand that the governing board has the responsibility to oversee the strategic direction of your organization, as well as the overall accountability of the entity. Management has the responsibility for achieving the objectives of the entity.
- c. We need to know your views about your organization's objectives and strategies, and the related business risks that may result in material misstatements.
- d. We anticipate that the Authority will receive an unmodified opinion on its financial statements.
- e. Which matters do you consider warrant particular attention during the audit, and are there any areas where you request additional procedures to be undertaken?
- f. Have you had any significant communications with regulators or grantor agencies?
- g. Are there other matters that you believe are relevant to the audit of the financial statements?

Also, is there anything that we need to know about the attitudes, awareness, and actions of the governing body concerning:

- a. The entity's internal control and its importance in the entity, including how those charged with governance oversee the effectiveness of internal control?
- b. The detection or the possibility of fraud?

We also need to know if you have taken actions in response to developments in financial reporting, laws, accounting standards, governance practices, or other related matters, or in response to previous communications with us.

With regard to the timing of our audit, here is some general information. If necessary, we may do preliminary financial audit work during the months of August or September. Our final financial fieldwork is scheduled during the fall to best coincide with your readiness and report deadlines. After fieldwork, we wrap up our financial audit procedures at our office and may issue drafts of our report for your review. Final copies of our report and other communications are issued after approval by your staff. This is typically 6-12 weeks after final fieldwork, but may vary depending on a number of factors.

Keep in mind that while this communication may assist us with planning the scope and timing of the audit, it does not change the auditor's sole responsibility to determine the overall audit strategy and the audit plan, including the nature, timing, and extent of procedures necessary to obtain sufficient appropriate audit evidence.

We realize that you may have questions on what this all means, or wish to provide other feedback. We welcome the opportunity to hear from you.

December , 2020

To the Great Lakes Water Authority Audit Committee:

We are presenting, for your consideration, our comments and management recommendations which were identified during our audit of the financial statements of the Great Lakes Water Authority (Authority) for the year ended June 30, 2020.

This letter, by its nature, focuses on improvements and does not comment on the many strong areas of the Authority's systems and procedures. The comments and suggestions are not intended to reflect in any way on the integrity or ability of the personnel of Authority's operations. Additionally, this letter is meant to provide management with information which may be useful when considering operating enhancements to your operation and are provided in the spirit of advisory assistance. The comments in this report are not required as part of our annual audit but are offered only as a process to assist your operations.

OVERVIEW

The focus for the 2020 Information Technology (IT) review was to continue developing our understanding of the general computer control (GCC) environment at Authority and perform detailed tests per the request of the Baker Tilly financial audit team. This document is intended to summarize the results of our review and provide any additional guidance regarding the IT environment at Authority.

The GCC review utilized the IT Risk Assessment Standards framework to obtain a more detailed understanding of the Authority IT control environment. As part of the GCC review, the following areas related to the IT function were reviewed:

- > Software Acquisition
- > Change Management
- > Data Conversion
- > Unique User Authentication
- > Passwords
- > User Account Management
- > Elevated Privileges
- > User Account Access Review
- > Access Violation Monitoring
- > Physical Security
- > Third-Party Service Providers
- > Backup and Restoration
- > Automated/Scheduled Processes

December __, 2020

Page 2

GENERAL COMPUTER CONTROL FINDINGS

Below lists some of the specific GCC findings that did not warrant a management letter comment but should be considered by the Authority.

Control Objective	IT Finding	Recommendation to Address Finding	Management's Response
Backup Testing	Backup restores are not tested periodically.	We recommend the Authority proactively test full back up restoration on all in scope applications hosted at the Authority to test if the disaster recovery procedures are effective. We noted, he Authority does perform table top exercises which is a good mitigating control, however a full restore test provides additional assurance that disaster recovery procedures are effective.	The Authority will continue to conduct annual table top exercises. We also currently perform backups of all systems on a daily basis. In fiscal year 2021, the Authority plans to perform full back up restore testing on all in scope applications.

This report is intended solely for the information and use of management and others in the organization and is not intended to be, and should not be, used by anyone other than the specified parties.

We appreciate the courtesy and assistance extended to us by all your personnel during the audit. If you have any questions on our comments, or if we can offer our services in any other way during the year, please do not hesitate to contact us. Thank you for allowing us to serve you.

Sincerely,

BAKER TILLY US, LLP

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Great Lakes Water Authority
Detroit, Michigan

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities, and each major fund of the Great Lakes Water Authority, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Great Lakes Water Authority's basic financial statements, and have issued our report thereon dated _____, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR THE MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL
OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
REQUIRED BY THE UNIFORM GUIDANCE

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Great Lakes Water Authority
Detroit, Michigan

Report on Compliance for the Major Federal Program

We have audited the Great Lakes Water Authority's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the Authority's major federal program for the year ended June 30, 2020. The Authority's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal program.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for the Authority's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the Authority's compliance.

Opinion on the Major Federal Program

In our opinion, the Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Authority's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of This Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the business-type activities, and each major fund of the Great Lakes Water Authority, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Great Lakes Water Authority's basic financial statements. We issued our report thereon dated _____, 2020, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

See accompanying notes to schedule of expenditures of federal awards.

GREAT LAKES WATER AUTHORITY**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**
For the Year Ended June 30, 2020

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the “schedule”) includes the federal award activity of the Great Lakes Water Authority under programs of the federal government for the year ended June 30, 2020. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the Great Lakes Water Authority, it is not intended to and does not present the financial position, changes in net position or cash flows of the Great Lakes Water Authority.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule are reported on the modified cash basis of accounting, which is described as follows:

BASIS OF ACCOUNTING

In general, expenditures are reported in the Schedule when the Authority remits payment to a vendor or contractor, rather than when an expense is incurred by the Authority in accordance with Generally Accepted Accounting Principles (GAAP). Additionally, any amounts paid to subrecipients are included when paid or transferred instead of when incurred. The Authority reports its expenditures using this method based on guidance it received from the Michigan Department of Environment, Great Lakes, and Energy (EGLE), which serves as the pass-through entity for all of the Authority's federally funded loan programs.

PRE-AWARD COSTS

In addition to the above, the EGLE may approve reimbursement of costs related to projects undertaken (and paid to vendors) in prior periods. In those cases, as the payments were not previously reported as federal expenditures, they are reported on the Schedule in the period reimbursement is approved by the EGLE which is normally with the initial project cash draw.

Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available.

NOTE 3 – INDIRECT COST RATE

The Great Lakes Water Authority has not elected to use the 10% de minimis indirect cost rate.

GREAT LAKES WATER AUTHORITY

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended June 30, 2020

SECTION I – SUMMARY OF AUDITORS’ RESULTS

FINANCIAL STATEMENTS

Type of report the auditor issued on whether the financial statements audited were prepared in accordance with GAAP: *Unmodified*

Internal control over financial reporting:

- > Material weakness identified? yes X no
- > Significant deficiency identified? yes X none reported

Noncompliance material to financial statements noted? yes X no

FEDERAL AWARDS

Internal control over the major program:

- > Material weakness identified? yes X no
- > Significant deficiency identified? yes X none reported

The type of auditors’ report issued on compliance for the major program: *Unmodified*

Any audit findings disclosed that are required to be reported in accordance with section 2 CFR 200.516(a) of the Uniform Guidance? yes X no

Auditee qualified as low-risk auditee? X yes no

Identification of major federal programs:

<u>CFDA Number</u>	<u>Name of Federal Program or Cluster</u>
66.458	Clean Water State Revolving Fund Cluster - Capitalization Grants for Clean Water State Revolving Funds

Dollar threshold used to distinguish between type A and type B programs: \$ 750,000

GREAT LAKES WATER AUTHORITY

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended June 30, 2020

**SECTION II – FINANCIAL STATEMENT FINDINGS REQUIRED TO BE REPORTED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

None reported.

SECTION III – FEDERAL AWARDS FINDINGS AND QUESTIONED COSTS

None reported.

Top Ten FY 2020 CAFR Highlights

*GLWA Audit Committee Meeting
December 4, 2020*

#1 - “Clean” Audit Opinions

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, and each major fund of the Great Lakes Water Authority as of June 30, 2020 and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Opinion on the Major Federal Program

In our opinion, the Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2020.

#2 Solid Key Financial Performance Measures

- ✓ **Liquidity** – 1,086 days cash on hand for water and 593 days cash on hand for sewer (CAFR page 100)
- ✓ **Excellent Debt Service Coverage** – 1.97 times for Water senior lien bonds and 2.16 times for Sewage Disposal senior lien bonds (CAFR pages 130-131)
- ✓ **Revenue Stability** – wholesale budgeted revenues within 0.5 percent, \$1.4 million, greater than budget for the water system and 0.5 percent, \$199 thousand, greater than budget for the sewage disposal system (CAFR pages 93-94)
- ✓ **Controlled Spending** – overall, combined system Operations & Maintenance budget positive variance of \$2.4 million, or 0.78 percent (CAFR page 96)

#3 Strong Current Ratio – Overall Net Position Requires Ongoing Emphasis on Long-term Accrual Basis Forecast

Key Highlights from pages 24 & 25 of the draft CAFR include:

- **Current Assets to Current Liabilities**

- Current ratio (current assets/current liabilities) confirms GLWA's ability to cover obligations to bondholders
- The GLWA combined, current ratio for FY 2020 is 3.47 indicating current assets are well in excess of current liabilities

- **Net Position**

- Remains in a deficit position of \$221.6 million due mainly to the revaluation of assets and acquisition of debt as part of the stand-up of GLWA
- Asset valuation results in unusually high depreciation expense in the short-term
- Higher than average debt contributes to relative net deficit position
- Long-term forecast presently provides for positive net position by FY 2030

#4 Strong Restricted Assets Meet Financial & Legal Obligations

Key Highlights from Footnote 4 on pages 45 - 47 of the CAFR include:

- **Unrestricted Cash Position**
 - Remains strong primarily due to increased Improvement and Extension Fund deposits
 - Unrestricted cash increased from the prior year by approximately \$47 million for the Water Fund and \$51 million for the Sewage Disposal Fund
- **Debt Reserves**
 - Current reserves are historically low
 - There is the potential for additional reductions should bond ratings continue to improve
- **WRAP**
 - Restricted cash for WRAP reflects the balance life-to-date of revenue requirement transfers plus account interest earned less distributions to Wayne Metro
 - This differs from the expense reflected on Schedule of Revenues, Expenses and Changes in Net Position discussed earlier and on page 26 of the CAFR

#5 DWSD Loan Receivable Aligns with 2018 MOU Terms

Key Highlights from Footnote 9 on page 52 of the draft CAFR include:

- FY 2017 Loan: \$9.8 million paid in FY 2020 (with an additional \$639 thousand in interest)
- FY 2018 Loan: \$7.8 million paid in FY 2020 (with an additional \$660 thousand in interest)
- FY 2019: No shortfall loan needed
- FY 2020: DWSD closed with a net cash receipt shortfall of \$0.9 million in the water fund and \$10.8 million in the sewer fund attributable to unforeseen impacts of the COVID-19 pandemic.
 - Agreed-upon terms under the April 2018 Memorandum of Understanding (MOU) state that DWSD has until June 30, 2021 to resolve this shortfall prior to establishment of a loan receivable with GLWA.
 - DWSD believes that commercial and industrial tax lien collections coupled with CARES Act funding from the State of Michigan will assist in clearing the FY 2020 shortfalls.
 - DWSD is closely managing cash receipts over disbursements for FY 2021 to reduce the risk of a shortfall in the current fiscal year.
 - This topic is discussed with executive leadership at quarterly Reconciliation Committee meetings and at regularly scheduled internal DWSD and GLWA management meetings.

#6 - Long-Term Debt features Ongoing Optimization

Key Highlights from Footnote 13 on pages 56 - 66 of the CAFR include:

- **May/June 2020 Refundings and New Money Transactions**
 - \$377.5 million senior lien refunding for the Water System
 - New money issuance of \$85.6 million for the DWSD Water System
 - \$594.9 million senior lien refunding for the Sewage Disposal System
 - Additional \$92.5 million second lien refunding for the Sewage Disposal System
 - FY 2020 results reflect these transactions in the increase/decrease activity columns as noted

- **State Revolving Fund Loans**
 - These low-interest loans continue to be utilized as an important, ongoing means of financing key projects
 - Listed in full on CAFR page 62
 - Updates in the Quarterly Debt Report section throughout the fiscal year

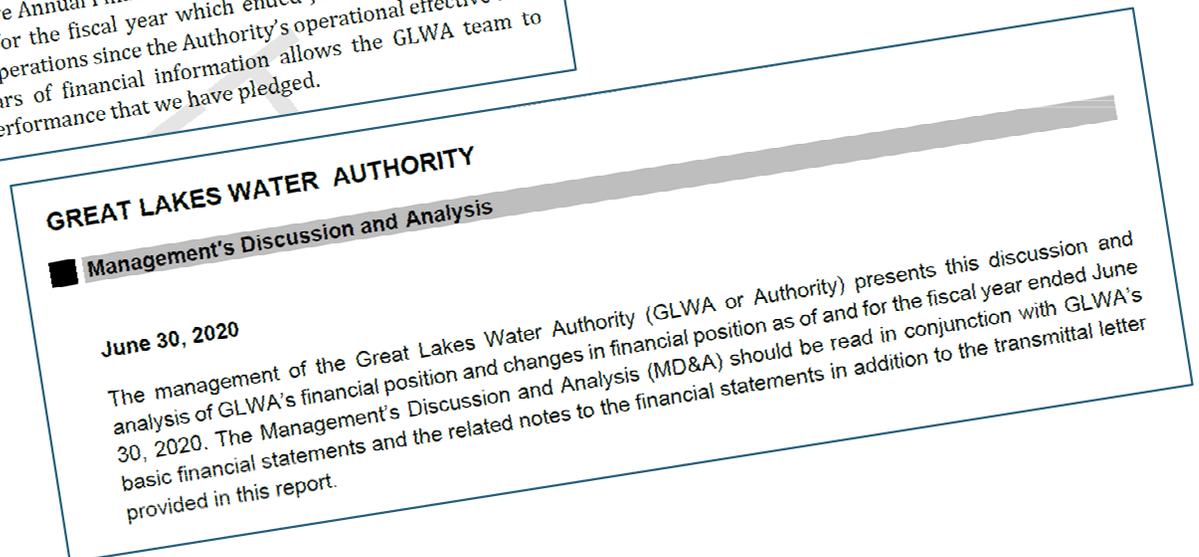

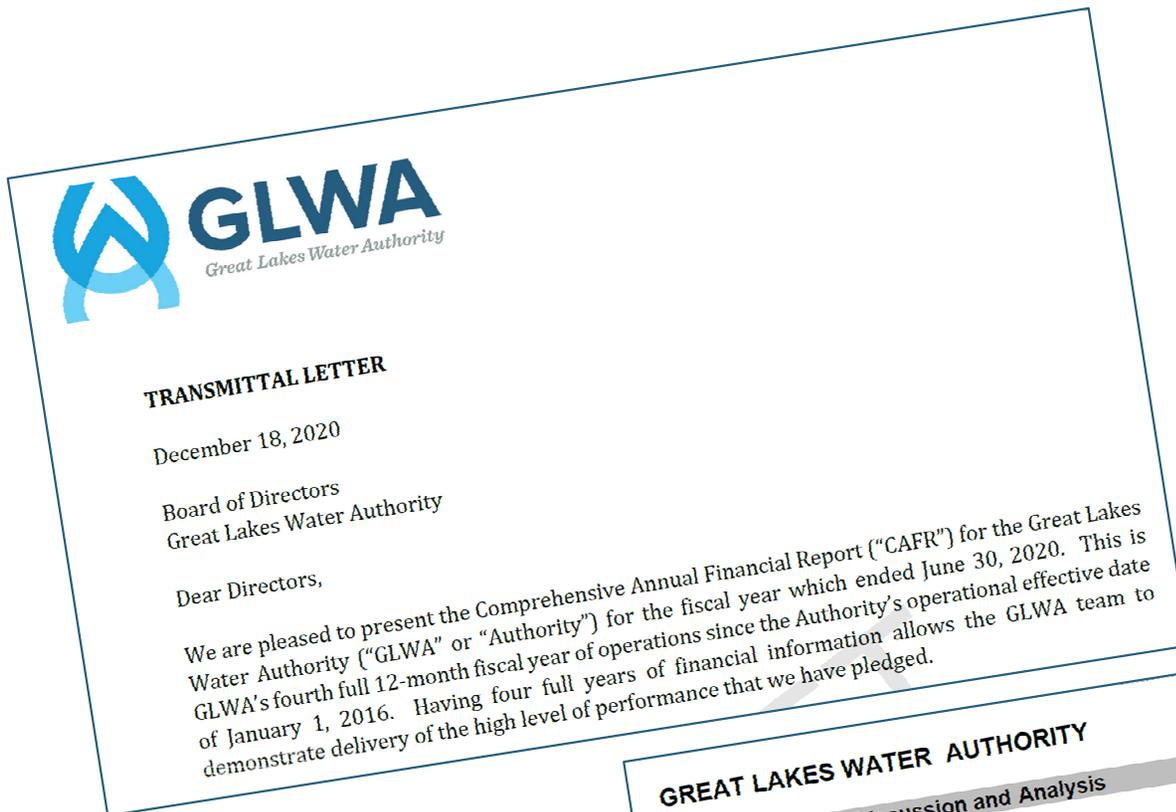

#7 - Legacy Pension – Moderate Impact in FY 2020

Key Highlights from Footnote 18 on pages 72 - 76 of the CAFR

Legacy Pension Net Pension Liability

- The GLWA net pension liability stemming from the General Retirement System (GRS) allocation to “DWSD” (that is the total GLWA and DWSD share) increased \$900 thousand from \$132.0 million as of June 30, 2019 to \$132.9 million as of June 30, 2020.
- This is primarily because benefit payments exceeded contributions and interest earnings for the year.
- The Statement of Revenues, Expenses and Net Position reports a significant variance in pension expense when comparing FY 2019 and FY 2020 because an uncommon pension surplus occurred in FY 2019 when GRS made changes to underlying actuarial assumptions.
- *Overall funded status for the GRS Component II plan decreased by 3% from the prior year.*
- A detailed pension report was provided to the GLWA Audit Committee in June 2020 following the release of the GASB 67 & 68 reports, GRS Annual Financial Report and annual actuarial report.

#8 – Transmittal Letter & MD&A: Past, Present, & Future
