Construct Connect	Marie Beinke	Marie.Beinke@constructconnect.com	They are a construction news service and does not directly bid on projects.
William Laydon Construction, LLC	Bill Laydon	sandpitwarrior@comcast.net	They have not mobilized to this logistical location. They are still based out of Ct.
Northwest Pipe Company	Geoff Stieler	gstieler@nwpipe.com	They are a manufacturer of Steel Pressure Pipe. Construction services as proposed are not within their scope of service. The Project documents did not require identification of suppliers and manufacturers as intended resources.
PICA Corp	Dave Russell	drussell@russeltech.com	They had signed a Teaming Agreement with HDR for a GLWA project, found out it was for a different project. The RFQ seems to have been written with Pure Technologies Tools in mind. Their tools require that the pipes which are larger than 36" are shut down and drained. Their experience has only been on bar-wrapped PCCP.
