February 2025 - Volume 66

Welcome to the February edition of *The Procurement Pipeline*, a monthly newsletter designed to provide updates on doing business with the Great Lakes Water Authority (GLWA).

Michigan Sales and Use Tax for the GLWA Vendor Construction Community

As a municipal water utility, GLWA is a tax-exempt organization. GLWA is also exempt from sales and use tax when procures tangible property directly for its own use. In those instances, GLWA Vendors may utilize the Michigan Sales and Use Tax Certificate of Exemption which is available to view on the GLWA Vendor Webpage. This form supports compliance for sales tax exemption when GLWA makes a direct purchase from your company.

Since the question occasionally arises, this month's edition of the *Procurement Pipeline* outlines the scenario in which GLWA's tax-exempt status **does not** extend to our vendors.

In summary, we have been advised that the State of Michigan Tax Law provides for the following:

- A contractor or subcontractor who constructs, alters, repairs, or improves real estate for others is recognized as the user or consumer of all goods and materials that they purchase for use in providing their services.
- As the user or consumer of these purchased goods and materials affixed to and becoming part of GLWA realty, the contractor or subcontractor cannot claim tax exempt status.
- The contractor or subcontractor in this scenario is therefore responsible for paying the sales tax.

We strongly encourage all GLWA vendors to consult with their own tax advisors when determining whether they will be responsible for payment of sales or use taxes and, therefore, whether such costs should be included in their bid prices. If a GLWA vendor does not include sales or use tax in their bid prices, and later determines that they are responsible paying those taxes , GLWA cannot amend the contract to reimburse those costs.
