

Financial Services Audit Committee Communication

Date: September 22, 2023

To: Great Lakes Water Authority Audit Committee

From: Alicia Schwartz, Manager – Grants and Intergovernmental Relations

Re: Grants, Gifts, and Other Resources Report

Background: The Great Lakes Water Authority (GLWA) delegated authority to the Chief Executive Officer to oversee and report on activities identified in the GLWA Articles of Incorporation related to solicitation and receipt of grants, gifts, and other resources as stated in Article 4 – Powers, Section B (4):

(4) Solicit, receive, and accept gifts, grants, labor, loans, contributions of money, property, or other things of value, and other aid or payment from any federal, state, local, or intergovernmental government agency or from any other person or entity, public or private, upon terms and conditions acceptable to the Authority, or participate in any other way in a federal, state, local, or intergovernmental government program.

Other resources in this context refer to labor, contributions of money, property, or other things of value from any other person or entity, public or private with the exception for loans, subject to provisions of the GLWA Board Debt Management Policy, and Intergovernmental agreements and other activities that are addressed in the GLWA Board Procurement Policy.

Participation in any other way in a federal, state local, or intergovernmental government program includes participation in research projects at universities.

Refer to the Grants, Gifts, and Other Resources Delegation Policy at [Grants, Gifts, and Other Resources Delegation Policy - GLWA \(glwater.org\)](https://glwater.org/grants-gifts-and-other-resources-delegation-policy).

Analysis: To ensure transparency and timely communication, this report is provided to the Board, no less than quarterly, documenting activities subject to the policy. The report will, at a minimum, include description, type of activity, dollar amount, compliance and/or performance requirements, if any, and status including, at a minimum, solicitation, acceptance, and close-out.

This report has been updated to align section titles with the grant lifecycle as found in best practice guidance and in the Workday system currently being implemented at GLWA. The

grants lifecycle refers to the process required to secure, administer, and close out grant activity. These steps are broken down in three major phases: pre-award, award, and post award.

The **pre-award** phase includes the process of applying for a grant and the period prior to the signing of the grant agreement between the awarding agency and GLWA.

The **award phase** reflects the period after the agreement is executed with the awarding agency. In this phase, GLWA becomes responsible for meeting the administrative, financial, and programmatic reporting requirements of the award.

The **post award** phase is the final stage of grant activity and includes final reporting requirements, auditing, and closeout. There are final financial and programmatic reports that must be submitted to formally close out the grant as defined in each grant agreement.

The tables in each section of this report now reflect GLWA grant activity in each phase. As a grant moves through this lifecycle, it will be updated in the appropriate section of the report.

Bolded items in the attached tables reflect changes from the prior report.

Highlights of this report through August 31, 2023, includes the following.

- ✓ **Federal Emergency Management Agency (FEMA) activity related to COVID-19** – GLWA received three payments for projects related to the COVID-19 grant through the State of Michigan. These payments included \$1,858,713 for project 144208, \$573,325 for project 553713, and \$19,348 for project 149797. These three grants are now closed.
- ✓ **NOAA Climate Resilience Regional Challenge University of Michigan** – GLWA is a collaborator on a National Oceanic and Atmospheric Administration (NOAA) grant with the prime recipient being the University of Michigan. This relates to a NOAA Climate Resilience Regional Challenge grant that helps find solutions for climate disasters that affect underserved and underrepresented communities.

This report presents the Grants, Gifts, and Other Resources across three tables.

Table 1 – Pre-Award Programs reflects open submissions for FY 2023 and FY 2024 to date. The summarized activity provided identifies nine FEMA projects, with one grant reimbursement request submission, two new letters of intent to support and collaborate with other entities, two EPA Community Grants, and the I-94 Modernization Project grant in the NEPA process.

Table 2 - Awarded Programs reflects all awarded grants from FY 2021 through FY 2024. Current month updates to the summarized activity below includes the two

State Revolving Fund American Rescue Plan Act Funding programs in which there has been one disbursement request submitted and two award receipts related to a local nonprofit apprenticeship grant.

Table 3 – Post Award Programs reflects three programs with seven reimbursement requests and receipts through August 31, 2023. The programs that are reflected below are FEMA Covid-19, FEMA Flood Event and the DESC apprenticeship program. Funds related to these programs have been received in full and the programs are in the process of being closed out, including any closeout reporting requirements.
