

NOTICE OF PUBLIC HEARING

GREAT LAKES WATER AUTHORITY (GLWA)

2024 INDUSTRIAL PRETREATMENT PROGRAM (IPP) RULES UPDATE

NOVEMBER 21, 2024

1:00 P.M.

The Great Lakes Water Authority proposes to enact and implement the 2024 Updated Industrial Pretreatment Program (IPP) Rules.

The IPP is a program for enforcement of local pollution controls in accordance with the objectives of the Clean Water Act. The draft IPP Rules were developed in coordination with a stakeholder group with representatives from local municipalities, the environmental sector, Chamber of Commerce and commercial industry. The proposed 2024 Updates involve recently amended State and Federal regulations of perfluoroalkyl and polyfluoroalkyl substances (“PFAS”). The IPP Rules have been updated to reflect these requirements.

GLWA is undertaking this outreach effort to provide the public with information that will help better protect health and environment and shape the regulatory program for monitoring industrial wastes.

Please be advised a Public Hearing on the 2024 IPP Rules is scheduled for Thursday November 21, 2024 during the GLWA Board meeting at 1:00 p.m., 735 Randolph Street 5th Floor, Detroit, Michigan.

In addition, members of the public who wish to attend this public hearing by Zoom can do so in the following manner:
