

# Emerson Automation Solutions Power and Water Solutions

## Innovation Project of the Year Award

Each year, the Ovation Users' Group members are invited to nominate automation projects which employ innovative Emerson technology. This year, the Users Group selection committee chose GLWA as a utility to recognize, based on your innovative use of Emerson software and technology to solve a problem and convert it to an asset!

Each year two projects are selected for Projects of the Year Award.

### Selection Criteria

- Enabled the company to overcome an industry or business challenge
- Applied innovative technology or process to reach a desired economic impact
- Maximized process efficiency or minimized environmental impact

### Awarded to:

**Great Lakes Water Authority, Water Resource Recovery Facilities**  
**- Dissolved Oxygen Optimization Project**
