Please place the picture and title above and the following below, into your minutes for the GLWA board meeting October 24, 2018 or the next meeting if this comes too late.

The Detroit Housing Commission hired a Austin, Texas co. to study the rezoning of all of Detroit ; I suggested they see if we could get some ditches to the river and some some cisterns linked up with urban agriculture; their "leader" seemed interested. Marcel Todd and others of Legislative Analysis Division are working with them for the next 2 years; they told me they would be coming here about once a month.
