

FY 2024 Second Quarter Budget Amendment Report Through December 31, 2023 & Proposed Budget Amendment Resolution

Presented to the Audit Committee April 29, 2024 **Background:** In accordance with the budget amendment policy, articles, and by-laws for the Great Lakes Water Authority, a quarterly budget amendment report is presented for review by the Audit Committee in addition to a corresponding budget amendment resolution.

Analysis: The budget amendment report is presented with a table followed by commentary in the following order.

1. Appropriation Level - Revenue Requirement - Water and Sewer Systems

- A. Water System General Operating Fund
- B. Sewer System General Operating Fund
- C. Total Operating Fund Level Water System and Sewer System*
- D. Enterprise-wide Core Groups*
- E. Enterprise-wide Operations & Maintenance Account Type*
- F. Unallocated Reserve by Core Group*

2. Appropriation Level - Debt Service - Water and Sewer Systems

- A. Water System Debt Service Coverage Calculation
- B. Sewer System Debt Service Coverage Calculation

3. Appropriation Level - Improvement & Extension Fund - Water and Sewer Systems

- A. Water System Improvement & Extension Fund
- B. Sewer System Improvement & Extension Fund

4. Appropriation Level - Construction Fund - Water and Sewer Systems

- A. Water System Construction Fund
- B. Sewer System Construction Fund

5. Proposed Budget Amendment Resolution

Water System - Revenues (Table 1A)

Net decrease to the Water System revenues of \$3.4 million

- > \$0.8 million wholesale revenue decrease Due to the impact of the City of Highland Park settlement on wholesale revenues related to FY 2024 activity.
- \$5.0 million revenue decrease − Due to the contingent funding for member partner bad debt recovery credits based on the framework of the settlement agreement between the City of Highland Park, the State of Michigan, and GLWA related to the water system as approved by the Board of Directors on November 16, 2023 (Action #2023-427) pending certain conditions precedent.
- > \$2.0 million revenue increase Investment earnings adjustment based on revised interest rates provided by the Authority's investment manager.
- > \$0.4 million revenue increase Other earnings adjustment based on activity to date for energy rebates, radio tower lease payments received, scrap metal sales, grants (apprentice program and COVID-19), and other miscellaneous receipts. The source of revenue for this category fluctuates from year to year.

Water System - Revenue Requirements (Table 1A)

- A. **Operations & Maintenance Expense -** Increase to the Water Operations & Maintenance (O&M) Expense of \$3.8 million (Table 1A). The primary drivers for this increase are as follows:
 - ➤ *Utilities* \$1.2 million increase Primarily driven by current fiscal year increases in electricity charges (kWh) in the water plants of \$0.6 million, offset by the restructured natural gas contract with the State of Michigan. The additional \$0.6 million increase is due to electricity charges for pumping stations.
 - ➤ Personnel \$0.9 million increase Driven by increase in filled positions and increased costs related to the accelerated timing of the Apprentice Program in Workforce Development.
 - > Supplies and Other \$0.8 million increase Related increased costs related to maintenance requirements for lift and pump repairs.
 - > Contractual Services \$0.7 million increase Primarily driven by the significant increase in phosphoric acid usage to comply with new Environmental Protection Agency (EPA) lead and copper regulations for mobile dredging.

Quarterly Budget Amendment Report FY 2024 Ending December 31, 2023

This budget impact aligns with the new requirements outlined in the Corrosion Control Study Updates and Draft Recommendations presented to the Board of Directors on February 28, 2024 (Action Item # 2024-064).

- ➤ The remaining amount of \$0.1 million is due to other minor variances including general insurance premiums.
- B. **Debt Service** Budget amendment is related to the timing impact of actual versus forecasted state revolving fund (SRF) loan draws.
- C. **General Retirement System Pension** No amendment is required.
- D. Extraordinary Repair & Replacement Deposit No amendment is required.
- E. Water Residential Assistance Program Contribution No amendment is required.
- F. Regional System Lease No amendment is required.
- G. **Receiving Fund Working Capital Requirement** This amendment appropriately restores working capital reserve to zero based on actual and forecasted activity.
- H. **Improvement & Extension Fund Transfer Pending** Represents annual funding for pay-as-you-go capital improvement program. The net effect of budget amendments to revenues, bad debt, investment earnings, and operations & maintenance expense affect this line item.

<u>Sewer System - Revenues (Table 1B)</u>

Net decrease to Sewer System revenues of \$13.5 million (Table 1B)

- > \$0.2 million wholesale revenue increase Due to the impact of the City of Highland Park settlement on wholesale revenues related to FY 2024 activity.
- \$15.0 million revenue decrease − Due to the contingent funding for member partner bad debt recovery credits based on the framework of the settlement agreement between the City of Highland Park, the State of Michigan, and GLWA related to the water system as approved by the Board of Directors on November 16, 2023 (Action #2023-427) pending certain conditions precedent.
- > \$1.0 million revenue increase Investment earnings adjustment based on revised interest rates provided by the Authority's investment manager.
- ➤ \$0.3 million revenue increase Other earnings adjustment based on activity to date for septic tank disposal fees, energy rebates, fire remediation insurance proceeds, scrap metal sales, grants (COVID-19), and other miscellaneous receipts. The source of revenue for this category fluctuates from year to year.

<u>Sewer System - Revenue Requirements (Table 1B)</u>

- A. **Operations & Maintenance Expense -** Increase to the Sewer Operations & Maintenance Expense of \$1.9 million. The primary drivers for this increase are as follows:
 - ➤ One-time incinerator rebuild cost in the amount of \$1.5M for Incinerator #11 in Wastewater Incineration Process department.
 - ➤ The remaining amount of \$0.4 million is due to other minor variances including general insurance premiums.
- B. **Debt Service** Budget amendment is related to the timing impact of actual versus forecasted state revolving fund (SRF) loan draws.
- C. General Retirement System Pension No amendment is required.
- D. Extraordinary Repair & Replacement Deposit No amendment is required.
- E. Water Residential Assistance Program Contribution No amendment is required.
- F. **Regional System Lease** No amendment is required.

G. **Improvement & Extension Fund Transfer Pending** – Represents annual funding for pay-as-you-go capital improvement program. The net effect of budget amendments to revenues, bad debt, investment earnings, and operations & maintenance expense affect this line item.

Totals may be off slightly due to rounding.

As shown in the table above, there are no budget amendments for transfers of resources between the water and sewer funds. It is unforeseen that such an amendment would occur as each system is accounted for as a stand-alone entity. The purpose of this table is to transparently report that funds from one system do not provide budget support to the other system.

Totals may be off slightly due to rounding.

A subset of the operating funds are core groups that account for A) direct cost of water operations, B) direct cost of sewer operations, C) centralized services (e.g., systems resiliency, field services, security, information technology, facilities, and fleet), D) administrative services (e.g., finance, public affairs, general counsel, and organizational development). The costs of the latter two categories are allocated to the water and sewer systems based upon an internal cost allocation plan that is performed on an annual basis.

Through the second quarter FY 2024, the following amendments are being proposed (details can be found along with the discussion for Tables 1A and 1B).

- Category A Water System Operations The Water O&M budget is being increased an additional \$3.0 million to cover the cost increases projected for FY 2024.
- Category B Wastewater System Operations The Sewer O&M budget is being increased \$2.7 million to cover the cost increases projected for FY 2024.

- Category C Centralized Services The Centralized Services O&M budget is being decreased by \$0.6 million in various
 categories to cover the cost increases related to Water and Wastewater System Operations and Administrative & Other
 Services. The costs in this category are allocated to the water and sewer systems.
- Category D Administrative & Other Services The Administrative & Other Services O&M budget is being increased \$0.6 million to cover the cost increases projected for FY 2024. The costs in this category are allocated to the water and sewer systems.

The table above presents the Operations & Maintenance budget by the major expense categories (account type) to further identify the O&M expense categories that are impacted by budget amendments.

Table 1F - Supplemental Information - Unallocated Reserve by Core Group

Totals may be off slightly due to rounding.

An Unallocated Reserve account is established for each of the four core groups. Budget is assigned to these accounts to cover expenditures not known at the time the budget is developed (merit increases, fluctuations within maintenance contracts and usage of utilities and chemicals, projects and initiatives not planned at the time the initial budget was developed, etc.). It is GLWA's internal budget directive for each area, group, and team to manage their needs to an amount within the initial budget. If required, an amendment is made from the unallocated reserve. If an area does not require as much funding as was established in the original budget, that department's budgeted expenses are reduced, and the unallocated reserve is increased.

Table 2A - Appropriation Level - Debt Service - Water System Debt Service Coverage Calculation Budget Amendment Explanation

For purposes of Debt Service coverage, the combined Regional and Local (DWSD) revenue less operations & maintenance (O&M) expense is calculated to determine net revenues to for Debt Service Coverage. The Board adopts the Debt Service amount shown on line 15 of the Water System Debt Service Coverage Calculation table on the previous page. This is the amount necessary to pay the principal and interest on all Regional Water System bonds and to restore any reserves therefore established in the Master Bond Ordinance.

⁽a) Note: As outlined in the Master Bond Ordinance, the investment earnings in the I&E Fund are transferred to the Receiving Fund. The impact is to reduce revenue required from charges when calculating the annual Revenue Requirement budget.

Table 3A - Appropriation Level - Improvement & Extension Fund - Water System Budget Amendment Explanation

Revenues/Inflows

- A. **Transfers In from General Operating** The proposed budget amendment is to match the amount available for transfer from the FY 2024 revenue requirement based upon general operating fund performance. (see I&E Fund Transfer Pending line on the Appropriation Level-Revenue Requirement-Water System General Operating table).
- B. **Earnings on Investments** The increase is based on the revised interest rates. Note: There is a corresponding transfer of earnings back to the general operating fund as allowed by the Master Bond Ordinance. The net effect on the I&E Fund is zero as the earnings are budgeted and accounted for in the operating fund to lower revenue requirement for charges.
- C. **Net Use (Increase) of Reserves** This amount represents the net amount of revenues less expenses. A negative amount represents an increase in reserves from current year activity rather than a use of reserves.

Expenditures/Outflows

- A. Water System Revenue Transfers Out (Earnings on Investments) The increase is based on the revised interest rates. Note: This line offsets Earnings on Investments and represents the transfer of earnings back to the general operating fund as allowed by the Master Bond Ordinance. Any variance in activity between the two lines represents a timing difference.
- B. **Capital Spending Other** No budget amendment is required. This line represents an adjustment to the projects in the Board adopted capital improvement plan (CIP) that do not meet the criteria for debt financing as well as other unique, nonrecurring projects/purchases for the betterment of the system. Note that the amount in the actual column at December 31, 2023 was reclassified to a more appropriate category in February 2024.
- C. **Capital Outlay** The proposed budget amendment reflects an increase in spending of \$2.2 million due to power supply upgrades and the ovation system project.
- D. **Revenue Financed Capital** Transfer to/(from) Construction Fund The proposed budget amendment reflects a rebalancing of use of I&E and Construction funds for Capital Projects.

⁽a) Note: As outlined in the Master Bond Ordinance, the investment earnings in the I&E Fund are transferred to the Receiving Fund. The impact is to reduce revenue required from charges when calculating the annual Revenue Requirement budget.

Table 3B - Appropriation Level - Improvement & Extension Fund - Sewer System Budget Amendment Explanations

Revenues/Inflows

- A. Transfers In from General Operating The proposed budget amendment is to match the amount available for transfer from the FY 2024 revenue requirement based upon general operating fund performance. (see I&E Fund Transfer Pending line on the Appropriation Level-Revenue Requirement-Sewer System General Operating table).
- B. Transfers in from Construction Fund The proposed budget amendment is the portion of the \$25 million PA 53 ARPA grant for capital project expenditures that were paid with I&E funds.
- C. Earnings on Investments The increase is based on the revised interest rates. Note: There is a corresponding transfer of earnings back to the general operating fund as allowed by the Master Bond Ordinance. The net effect on the I&E Fund is zero as the earnings are budgeted and accounted for in the operating fund to lower revenue requirement for charges.
- D. Net Use (Increase) of Reserves This amount represents the net amount of revenues less expenditures. A negative amount represents an increase in reserves from current year activity rather than a use of reserves.

Expenditures/Outflows

- A. Sewer System Revenue Transfers Out (Earnings on Investments) The increase is based on the revised interest rates. Note that this line offsets Earnings on Investments and represents the transfer of earnings back to the general operating fund as allowed by the Master Bond Ordinance. Any variance in activity between the two lines represents a timing difference.
- B. Capital Spending Other No budget amendment is required. This line represents an adjustment to the projects in the Board adopted capital improvement plan (CIP) that do not meet the criteria for debt financing as well as other unique, nonrecurring projects/purchases for the betterment of the system. Note that the amount in the actual column at December 31, 2023 was reclassified to a more appropriate category in February 2024.
- C. Capital Outlay The proposed budget amendment reflects an increase in spending of \$1.2 million primarily due to flow meter replacements for circular primary clarifiers within the wastewater primary process.

D. Revenue Financed Capital – Transfer to/(from) Construction Fund - The proposed budget amendment reflects a rebalancing of use of I&E and Construction funds for Capital Projects.

Appropriation Level - Construction Fund - Water System Budget Amendment Explanations Revenues/Inflows

- A. Transfers (to)/from Improvement & Extension Fund The proposed budget amendment is to match the amount available for transfer to the FY 2024 Improvement & Extension Fund (see Revenue Financed Capital-Operating Transfer to/from Construction Fund line on the Appropriation Level-Improvement & Extension Fund-Water System table). The proposed budget amendment reflects a rebalancing of use of I&E and Construction funds for Capital Projects.
- B. Bond Proceeds Bond Proceeds No budget amendment is proposed at this time a final analysis is being prepared for the November 2023 transaction that closed in December 2023. An amendment will be needed for FY 2024 Q3 based on settlement of final cost of issuance expenses.
- C. Earnings on Investments The proposed budget amendment reflects an adjustment based on the revised interest rates provided by the Authority's investment advisor.
- D. Grant Revenues (State Revolving Fund Loans) State Revolving Fund (SRF) loan disbursements are on a reimbursement basis. The amount and timing of revenues fluctuates with project expenditures incurred. The proposed amendment reflects the timing of project design and construction activity.
- E. Grant Revenues Other The proposed budget is for an anticipated \$5 million PA53 ARPA grant from the State of Michigan.
- F. Net Use (increase) of Reserves This amount represents the net amount of revenues less expenditures. A "use of reserves" indicates a spend down of prior year reserves. The amount has been amended to reflect the anticipated decrease in the Capital spend rate from 94.0% to 79.4% as well as the changes in revenues from Bond proceeds, SRF loans, and transfer (to)/from the I&E fund.

Expenditures/Outflows

- A. Transfers Out The actual amount is the cost of issuance expenses that were paid on the 2023 bond issue. No budget amendment is proposed at this time a final analysis is being prepared for the November 2023 transaction that closed in December 2023. An amendment will be needed for FY 2024 Q3 based on settlement of final cost of issuance expenses.
- B. Capital Improvement Plan This line represents an adjustment to the Capital Spend Ratio for the Water Capital Improvement Plan which is forecasted to decrease from 94.0% to 79.4%. This adjustment is based on a review of the spend projections for FY 2024 and discussions with project personnel.
- C. Capital Spend Rate Adjustment (CSRA) T The CSRA is an analytical approach to bridge the total dollar amount of projects in the CIP with what can realistically be spent due to limitations beyond GLWA's control and/or delayed for nonbudgetary reasons. Those limitations, whether financial or non-financial, necessitate the SRA for budgetary purposes, despite the prioritization established. The Board of Directors adopts a capital spending ratio assumption (SRA) which allows the realities of capital program delivery to align with the financial plan. For FY 2024 that rate was 100%. Amendments to the spend rate assumption are made to align the projected financial use of resources with revised capital improvement plan spending forecasts. The proposed budget amendment represents the decrease in the projected Capital Spend Rate for the Sewer CIP from 94.0% to 79.4%.

Appropriation Level - Construction Fund - Sewer System Budget Amendment Explanations Revenues/Inflows

- A. Transfers (to)/from Improvement & Extension Fund The proposed budget amendment is to match the amount available for transfer from the FY 2024 Improvement & Extension Fund (see Revenue Financed Capital-Operating Transfer to/from Construction Fund line on the Appropriation Level-Improvement & Extension Fund-Sewer System table). The proposed budget amendment reflects a rebalancing of use of I&E and Construction funds for Capital Projects.
- B. Bond Proceeds No budget amendment is proposed at this time a final analysis is being prepared for the November 2023 transaction that closed in December 2023. An amendment will be needed for FY 2024 Q3 based on settlement of final cost of issuance expenses.
- C. Bond Fund Earnings on Investments The proposed budget amendment reflects an adjustment based on the revised interest rates provided by the Authority's investment advisor for these restricted assets.
- D. Grant Revenues (State Revolving Fund Loans) State Revolving Fund (SRF) loan disbursements are on a reimbursement basis. The amount and timing of funds fluctuates with project expenditures incurred. The proposed amendment reflects the timing of project design and construction activity.
- E. Grant Revenues The proposed budget is for the \$25 million PA53 American Rescue Plan Act) (ARPA) grant received in February 2024 from the State of Michigan to support capital program activities.
- F. Net Use (Increase) of Reserves This amount represents the net amount of revenues less expenditures. A "use of reserves" indicates a spend down of prior year reserves. The amount has been amended to reflect the anticipated decrease in the capital spend rate offset by bond proceeds.

Expenditures/Inflows

- A. Transfers Out (to the I&E Fund)- The proposed budget amendment is the portion of the \$25 million PA 53 ARPA grant for project expenditures that were paid with I&E funds.
- B. Capital Improvement Plan The Capital Improvement Plan (CIP) amount shown agrees with the amount adopted by the Board of Directors for FY 2024 for the five-year CIP. There is no change to this line.
- C. Capital Spend Rate Adjustment (CSRA) T The CSRA is an analytical approach to bridge the total dollar amount of projects in the CIP with what can realistically be spent due to limitations beyond GLWA's control and/or delayed for nonbudgetary
