To GLWA Board Members:

GLWA is in its third year, but it is the same as when DWSD was running the show. Nothing has really changed, and the debt has increased. Political candidates are running their campaigns to change the affairs of Great Lakes Water Authority by getting modern technology, and abandoning outdated practices.

Papers are being presented at scientific conferences to criticize the stagnation at DWSD. Now it is high time to come to the table to discuss these important issues.
