

## Financial Services Audit Committee Communication

Date: September 23, 2022

**To:** Great Lakes Water Authority Audit Committee

From: William Baker, Professional Administrative Analyst, Construction Accounting &

**Financial Reporting** 

**Re:** FY 2022 Q4 Construction Work-in-Progress Report through June 30, 2022

(Unaudited)

**Background:** The quarterly construction work-in-progress (CWIP) provides information and analysis related to the execution of the Great Lakes Water Authority capital improvement program (CIP).

**Analysis:** The attached documents summarize the FY 2022 Q4 CWIP positions and provides a detailed snapshot to inform decision makers and stakeholders.

Proposed Action: Receive and file this report.

# Construction Work-in-Progress Quarterly Report (Unaudited)

As of June 30, 2022

For questions, please contact:

William Baker

C2 - Wastewater - FY 2022 Project Amendment Summary	18

### **September 23, 2022**

#### To Our Stakeholders:

The contents of this report represent the financial presentation of construction work-in-progress activity for the Great Lakes Water Authority (GLWA) as of June 30, 2022. The information in this report presents a detailed snapshot and is important as we track the execution of the FY 2023–2027 Capital Improvement Plan (CIP) and look to inform decision makers as we evaluate the draft FY 2024–2028 CIP.

As we continue to refine this report to better communicate pertinent information to inform decision makers and stakeholders, content and formatting may be changed. With the summary of active projects now regularly being reported to the Capital Planning Committee the project highlights previously being reported have been removed from this report.

#### **Report Contents and Organization**

Construction Work-in-Progress (CWIP) Appendices: Includes breakdown by jurisdiction which provides a summary of the planned and actual project activity by the jurisdictions identified within the FY 2022 – 2026 Board Approved CIP Plan, detailed CWIP rollforward, which lists all projects in the CIP along with financial activity. These tables may be used to revisit priorities, workload, and phasing. In addition, this section contains project amendment summaries which consider the award of CIP contracts and the related execution thereof may result in deviations from the amount and timing of project activity. Project amendments are prepared to fund the related increase or decrease with either an adjustment to Capital Reserve or Program / Allowance accounts to amend the board approved fiscal year CIP accordingly and to inform decision makers in the development of future Capital Improvement Plans.

#### **Financial Information**

All project amounts are unaudited. This means that direct contractor costs are generally included in these totals with most pay estimates entered through June 30, 2022. There may, however, be some pay estimates that lag. The totals do not include indirect overhead.

## **Budget vs. Plan**

Generally, GLWA's CIP projects span two or more fiscal years. The GLWA Board of Directors adopts a biennial "budget" and a five-year capital improvement "plan".

- ✓ The adopted **budget** relates to operations and maintenance expense, annual fixed commitments such as debt service, and incremental adjustments to reserves. The budget provides authority to spend within defined amounts. The budget is also referred to as the "revenue requirement" for the utility.
- ✓ After contracts are awarded at amounts variant from the CIP plan and more reliable anticipated spend data becomes available, the amended budget for the current fiscal year may increase or decrease by way of "Capital Reserve" budget amendments.
- ✓ The five-year capital improvement **plan** is a rolling plan that is updated at an administrative tracking level as projects move from estimated to actual bid numbers. An updated mid-cycle CIP would be presented to the Board for approval if the prioritization strategy was revised and/or the plan was in need of material revisions.
- ✓ In addition, the Board of Directors adopts a capital spending ratio assumption (SRA) which allows the realities of capital program delivery to align with the financial plan. The SRA is an analytical approach to bridge the total dollar amount of projects in the CIP with what can realistically be spent due to limitations beyond GLWA's control and/or delayed for nonbudgetary reasons. Those limitations, whether financial or non-financial, necessitate the SRA for budgetary purposes, despite the prioritization established.

## **Executive Summary**

The rate of spend is a key performance indicator. The development of the FY 2022-2026 and related CIP Plan for FY 2022 were based on anticipation of FY 2022 activity resulting in 75% of planned spend. Effective June 22, 2022, GLWA Board of Directors adopted a capital spending ratio (SRA) of 95.0% for the Water system and 69.8% for the Wastewater system.

The Water System spend for the period ending June 30, 2022, is 88.7% of the FY 2022 board approved CIP, 88.2% of the FY 2022 board approved CIP with project amendments, and 93.4% of the FY 2022 Capital Spending Rate Assumption (SRA). Detailed analysis of the projects for which FY 2022 Board Approved CIP was amended from \$179,210,481 to \$180,250,867 is provided in the subsequent Project Amendment Summary appendix of this report.

The Wastewater System spend for the period ending June 30, 2022, is 66.5% of the FY 2022 board approved CIP, 70.4% of the FY 2022 board approved CIP with project amendments, and 95.3% of the FY 2022 Capital Spending Rate Assumption (SRA). Detailed analysis of the projects for which FY 2022 Board Approved CIP was amended from \$106,050,041 to \$100,248,682 is provided in the subsequent Project Amendment Summary appendix of this report.

## Appendix A - Construction Work-in-Progress Rollforward Summaries by Jurisdiction

The purpose of the construction work-in-progress (CWIP) summary rollforward by jurisdiction is to provide a high-level overview of the financial status of the projects identified within the current board approved CIP by their jurisdiction. Within the FY 2022 – 2026 Board Approved CIP Plan, projects are identified and categorized as either City of Detroit, Wayne County - Outside Detroit, Lapeer County, Macomb County, Oakland County, Saint Clair County or Multiple Counties and reflected accordingly in this report.

\$272.9 million is in CWIP as of June 30, 2022 as shown for the Water System in A1.

**\$193.0** million is in CWIP as of June 30, 2022 as show for the Wastewater System in A2.

The order of these appendices on the subsequent pages are in ascending by jurisdiction alphabetically.

## **Appendix B - Construction Work-in-Progress Rollforwards**

The purpose of the construction work-in-progress (CWIP) rollforward is to analyze the current year activity for each project in relation to the overall capital improvement program as well as the project portfolio overall.

As part of our project life cycle review the CA&FR team identifies when it is appropriate for projects to be capitalized. Projects are to be capitalized when they have been completed in totality or are inclusive of identifiable assets that have been placed in service. Capitalization of project cost occurred in the FY 2022 4th quarter for the following projects:

<u>Project</u>	<u>Contract</u>	<u>Description</u>
114008	1802774	1930 Sedimentation Basin Sluice Gates, Guides & Hoists Improvement
114016	2001456	Springwells Water Treatment Plant 1958 Settled Water Conduits Concrete Pavement Replacement
122003	1803258	Northeast Flow Control Facility Design Build Services
122004	1900741	96" Main Relocation Route Study, Condition Assessment & DB Contractor Oversight
122005	CS-259	As-needed Engineering Services for Schoolcraft Water Main
122006	1803621	Wick Road Parallel Work – 48" Water Transmission Main
170801	1900744	Implay, WCS, LH, SP, SW Reservoir Inspection
216007	1701516	DTE Primary Electric 3 <sup>rd</sup> Feed Supply to WRRF/Consulting Engineering

As of June 30, 2022

232002	CON-109	Emergency Refurb of Storm Pumps 5 & 7
260505	1902658	Rehabilitation of CSO Outfalls – Phase IV
260603	CON-234	Conner Creek CSO Basin Rehabilitation
260615	1902040	Site Improvement at Leib & Puritan Fenkell CSO Facilities
277001	1902908	Baby Creek CSO Effluent Conduit Access & Sedimentation Mitigation

\$272.9 million is in CWIP as of June 30, 2022, as shown for the Water System in B1.

\$193.0 million is in CWIP as of June 30, 2022, as shown for the Wastewater System in B2.

The order of these appendices on the subsequent pages are in ascending order by CIP project number.

## **Appendix C - Project Amendment Summaries**

The purpose of the Project Amendment Summary is to illustrate the amendments to the current fiscal year board approved CIP for each project with an amendment resulting from the use of allowance and program funding for a specific amount necessitated by contract award.

The award of CIP contracts and the related execution thereof may result in deviation from the amount and timing of planned spend. Acknowledging the aforementioned deviation, project amendments are prepared to fund the related increase or decrease either to or from the Capital Reserve to amend the current fiscal year board approved Capital Improvement Plan accordingly and to inform decision makers in the development of future Capital Improvement Plans. Similar to the project amendments prepared for the Capital Reserve, project amendments are also prepared for contracts that are planned or funded by way of the CIP Program and Allowance accounts. As additional contracts are awarded, and other project information becomes available additional project amendments to and from the Capital Reserve will be prepared to amend the board approved FY 2022 Capital Improvement Plan.

**\$1,040,387** of Capital Reserve project amendments have been prepared as of June 30, 2022, as shown for the Water System in C1 with project amendments detailing the assignment of funding within Program and Allowance accounts.

**\$5,801,359** of Capital Reserve project amendments have been prepared as of June 30, 2022, as shown for the Wastewater system in C2 with project amendments detailing the assignment of funding within Program and Allowance accounts.

The order of these appendices on the subsequent pages are in ascending order by CIP project number.

## Great Lakes Water Authority Water System Project Amendment Summary Unaudited Activity For the Fiscal Quarter Ended June 30, 2022

Project	Project Name	Capital Reserve	Program / Allowance	<b>Grand Total</b>
111012	LHWTP-Flocculation Improvements	\$ 973,000		\$ 973,000
113006	SW WTP Chloring Scrubber	(1,877,433)		(1,877,433)
114016	Springwells Water Treatment Plant 1958 Settled Water Conduits Concrete Pavement Replacement	335,000		335,000
115001	Yard Piping, Valves and Venturi Meters Replacement at Water Works Park	487,201		487,201
122006	Transmission System Water Main Work-Wick Road Parallel Water Main	470,765		470,765
122013	Lyon Township Transmission Main Extension Project	(79,745)		(79,745)
170300	Water Treatment Plant Automation Program		(1,668,809)	(1,668,809)
170302	SW WTP SCADA Improvements		1,668,809	1,668,809
170500	Transmission System Valve Assessment and Rehabilitation/Replacement Program		(190,000)	(190,000)
170504	Repair of WTM, Valves, & Priority Repair		190,000	190,000
170801	Reservoir Inspection, Design and Rehabilitation	110,000		110,000
116005	Belle Isle Seawall Rehabilitation	(242,102)		(242,102)
170901	Suburban Water Meter Pit Rehabilitation and Meter Replacement	(1,686,914)		(1,686,914)
122004	96-inch Main Relocation, Isolation Valves Installations, and New Parallel Main	2,199,742		2,199,742
122011	Park-Merriman Water Main-Final Phase	350,873		350,873
<b>Grand Total</b>		\$ 1,040,387	\$ -	\$ 1,040,387

## Great Lakes Water Authority Wastewater System Project Amendment Summary Unaudited Activity For the Fiscal Quarter Ended June 30, 2022

Project	Project Name	Capital Reserve	Program / Allowance	<b>Grand Total</b>
211008	Rehabilitation of Ferric Chloride Feed systems at the Pump Station -1 and Complex B Sludge Lines	\$ 2,073,000		\$ 2,073,000
260508	B-39 Outfall Rehab		3,824,352	3,824,352
260510	Conveyence System Rehabilitation - Outfalls		(3,824,352)	(3,824,352)
260600	CSO Facilities Improvements		(1,000,000)	(1,000,000)
260618	Oakwood HVAC Improvements	1,100,000	1,000,000	2,100,000
213007	Construction of the Improved Sludge Conveyance and Lighting System at the WWTP	850,000		850,000
216004	Rehabilitation of Various Sampling Sites and PS# 2 Ferric Chloride System at WWTP	217,920		217,920
216006	Rehabilitation of the Screened Final Effluent (SFE) Pump Station and Secondary Water System	685,450		685,450
222002	Detroit River Interceptor Evaluation and Rehabilitation	(7,734,973)		(7,734,973)
232001	Fairview Pumping Station - Replace Four Sanitary Pumps	(2,679,113)		(2,679,113)
222001	Intercommunity Relief Sewer Modifications in Detroit Oakwood District	663,385		663,385
260204	Energy Services for Rehabilitation of Conveyance Sewer System	(977,028)		(977,028)
<b>Grand Total</b>		\$ (5,801,359)	\$ -	\$ (5,801,359)
