CHIEF EXECUTIVE OFFICER'S TRANSMITTAL LETTER

December XX, 2018

Board of Directors
Great Lakes Water Authority

Dear Members of the Board,

I am pleased to present the Comprehensive Annual Financial Report (CAFR) for the Great Lakes Water Authority (GLWA) for the fiscal year which ended June 30, 2018. This is significant for GLWA as it provides the second full 12 month fiscal year of operations since GLWA's operational effective date of January 1, 2016. Having two full years of financial information allows the GLWA team to demonstrate delivery of the high level of performance that we have pledged.

GLWA's financial statements were prepared in accordance with U.S. generally accepted accounting principles ("GAAP"), as promulgated by the Governmental Accounting Standards Board ("GASB") and audited by a firm of independent certified public accountants engaged by the GLWA Board of Directors. This is consistent with the GLWA Articles of Incorporation and By-laws which require an annual audit of GLWA's financial statements by independent certified public accountants.

GLWA management is responsible for establishing and maintaining an internal control structure designed to ensure that its assets are adequately safeguarded against loss, theft, or misuse and to maintain accurate and reliable financial records for the preparation of financial statements and the representations made by management. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of internal controls should not exceed the benefits derived from the controls; and 2) the evaluation of costs and benefits requires management's exercise of judgment. To the best of my knowledge and belief, GLWA's internal accounting controls adequately safeguard its assets and provide reasonable assurance of the proper recording of financial transactions in accordance with GAAP.

Rehmann Robson, LLC, Certified Public Accountants, has been retained by GLWA to serve as its independent auditors and has issued an unmodified ("clean") opinion on GLWA's financial statements for the year ended June 30, 2018 with comparative amounts for June 30, 2017.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis ("MD&A"). This letter of transmittal is designed to supplement the MD&A and should be read in conjunction with it. GLWA's MD&A is located immediately following the independent auditors' report.

A Model of Regional Collaboration

GLWA is the result of a monumental collaboration among regional leaders. Working to meet the needs of sustainable and affordable infrastructure, a memorandum of understanding was agreed upon on September 9, 2014. Subsequently, GLWA was incorporated by the City of Detroit (City) and the counties of Macomb, Oakland and Wayne on November 26, 2014 pursuant to Act 233, Public Acts of Michigan, 1955, as amended. At the time of GLWA's incorporation, the City, through its Detroit Water and Sewerage Department (DWSD), was providing water supply services within and outside of the City through a water supply system and drainage and sewage disposal services within and outside of the City through a sewage disposal system.

On June 12, 2015, the City and GLWA executed the Regional Water Supply and Sewerage Disposal System Leases (the Leases), transferring the regional water and sewer facilities from the City to GLWA for an initial term of 40 years, as well as a Water and Sewer Services Agreement, pursuant to which GLWA provides water and sewer services to the City; the City then supplies these services to Detroit retail customers.

The above agreements required the satisfaction of several conditions before becoming effective. By January 1, 2016 (the Effective Date), those conditions were met and GLWA, under the terms of the Leases, became responsible for the assets, all bonded indebtedness, and operations for the regional water and wastewater systems.

GLWA leases the regional water and sewer facilities from the City for an allocation of \$50 million per year to fund capital improvements for the City's retail system and/or debt obligations. GLWA also funds a Water Residential Assistance Program (WRAP) to assist low-income residential households in enrolled member partner communities.

The service area covered by GLWA is large and diverse. See the water system and sewer system maps on the following pages.

Water System

Our regional water system is one of the largest in the United States, both in terms of water produced and population served. The system currently serves an area of 1,760 square miles located in eight southeast Michigan counties with an estimated population of nearly 3.8 million or approximately 38 percent of Michigan's population. This encompasses 87 wholesale services contracts spanning 127 communities.

The water supply system consists of three intake facilities, five water treatment plants, 19 booster pumping stations, 32 water storage reservoirs and a conveyance system with over 803 miles of transmission mains.

The long-term strategy for the water system is a focus on flexibility. The Water System Master Plan was updated in August 2016. The master plan addressed declining water usage trends which has been a significant and consistent decline. Because GLWA's water system is large and made up of multiple facilities, the team had flexibility in charting a course forward. The overarching strategy is to address excess system capacity by derating a facility to reduce operating costs, but more significantly, avoiding future capital costs. Presently, the engineering team is evaluating an option to convert the Northeast Water Treatment Plant into a storage and pumping facility and invest in new transmission mains to support Northeast's service area.

Wastewater System

Our regional wastewater system is also one of the largest in the United States, both in terms of treatment capacity and population served. The wastewater system currently serves an area of 988 square miles located in three southeast Michigan counties, with an estimated population of nearly 2.8 million or approximately 28 percent of Michigan's population. This encompasses 18 wholesale services contracts spanning 76 communities.

The wastewater system consists of one of the largest single-site wastewater treatment plants in the world, three major interceptors, five pump stations, eight Combined Sewer Overflow (CSO) Control Facilities, including five retention treatment basins and three flow-through type facilities, and a conveyance system with 181 miles of trunk sewers and interceptors.

The long-term strategy for the sewer system is a focus on regional efficiencies. The Wastewater Master Planning Process, launched in April 2017 and supported by a Wastewater Master Plan Steering Committee including the Michigan Department of Environmental Quality, holds monthly meetings with stakeholders. The 40-year master planning process is focusing on water quality, leveraging the entire region's existing infrastructure, maximize the use of dynamic wet weather operations, strategic use of green infrastructure, addressing changes in weather patterns and rain event intensities, extensive system modeling including surface water and wastewater treatment, evaluation of resource recovery options and energy reduction opportunities.

Financial Highlights

The publication of this report is on the heels of the return of a "AA" category bond rating for the debt held by GLWA (which was assumed from DWSD on January 1, 2016). In preparing for a bond transaction, on September 5, 2018, Standard & Poor's (S&P) increased GLWA's senior lien water system rating by three notches to AA- and its second lien water system rating by three notches to A+. The rating agency also increased GLWA's senior lien sewer system rating by two notches to A+ and its second lien sewer system was increased by two notches to A.

This rating increase was followed by a successful refunding, on October 3, 2018, of \$155,595,000 of Water Supply System Revenue Bonds and \$257,465,000 of Sewage Disposal System Revenue Bonds (\$81,595,000 in new money and \$175,870,000 in refunding bonds). The net present value savings from the refunding transactions was a total of \$59.42 million, with \$24.90 million for the water fund and \$34.52 million for the sewage disposal fund.

This demonstration of an improved credit rating to secure a lower cost of capital was a key objective in the creation of GLWA.

FY 2018 Results

GLWA is committed to ensuring the long-term sustainability of the water and sewer systems. Below are key financial highlights:

1. **Liquidity** - Strong liquidity with 1,066 days cash on hand for the water system and 432 days for the sewer system as shown on the Schedule of Days Cash in the supplementary information.
2. **Debt Service Coverage** - Excellent debt service coverage for both the water and sewer funds. The water fund reports debt coverage for senior lien bonds at 2.03 times and all bonds at 1.51 times. The sewer fund reports debt coverage for senior lien bonds at 2.04 times and all bonds at 1.24 times. Detail for all debt types can be found in the Debt Service Coverage schedule in the statistical section.

3. Revenue Stability - Predictable wholesale budgeted versus actual revenues with a positive variance of approximately \$13.1 million, or 4.2 percent, for the water system and \$2.0 million, or 0.7 percent, for the sewer system in the Supplementary Information section.

4. Controlled Spending - Sound performance results with an overall Operations and Maintenance (O&M) budget positive variance of \$6.6 million, or 5.75 percent, for the water system and \$14.0 million, or 7.35 percent, for the sewer system as shown on the Schedule of Operations and Maintenance Expense for each system in the Supplementary Information section. The positive budget variances support subsequent year pay-as-you go capital investment.

Solid Foundation for Sustainability

As GLWA matures as an organization, the connections that our team members have with each other, and with our many stakeholders, is evident. This is most noticeable when you see the passion of multi-disciplinary teams, working through the development of a long-term plan that encompasses engineering, operations, finance, and many others to chart the course for the future - while never forgetting about the end-consumer and the environment. Below are topics that we cover when talking about GLWA. At the core of each item is a connection between our stakeholders and a foundational element of sustainability.

Revenues - The water and sewer system charge structure, developed collaboratively with member partners, supports a high degree of financial stability. The Water System revenues are billed on a basis of 60 percent fixed monthly charge and 40 percent commodity consumption using a 36-months historical average usage. The sewer system charge revenues are 100 percent fixed monthly billing based on each member partner's agreed upon share of the annual forecasted revenue requirement.

Bondholder Protections - All GLWA and DWSD customer payments deposited to Bond Trustee Account and are disbursed in accordance the Master Bond Ordinance (MBO) flow of funds.

Defined Contribution Benefit Plans - All employee benefit plans are defined contribution which provider shorter term vesting and flexibility for the employee while creating zero risk on unfunded liabilities for GLWA.

Moderate Budget and Charges Requests - GLWA balances steady and controlled O&M budget requests for the short-term, while continuing to focus on increasing cash reserves for capital investment and decreasing long-term liabilities. This provides stability in the cost of supply for our member partners.

Flexible Capital Program - The majority of the GLWA FY 2019 - FY 2023 five-year capital improvement plan (CIP) is driven by optimizing the system and fostering innovation rather than driven by specific regulatory mandates. Almost no projects in the water system CIP are driven by mandates while less than 6 percent of the five-year sewer system CIP is driven by mandated permit requirements. The water system CIP calls for \$712.8 million of major capital expenditures over the next five fiscal years (2019-2023) and the sewer system CIP calls for \$633.2 million of capital expenditures over the same time period. The staff from Michigan Department of Environmental Quality (MDEQ) regularly engage with GLWA on capital project matters.

Customer Assistance Program - The WRAP (Water Residential Assistance Program) provided \$4.5 million of resources to support customer assistance needs in the region for the year ended June 30, 2018. Services include payment assistance, consumption audit, basic plumbing repairs, conservation education, and limited lead fixture replacement. This means that qualified households, can receive payment assistance as well take steps to sustainably reduce their bills in the future.

Strong Economy - The regional system is supported by a broad-based economy that is experiencing the lowest rate of unemployment in over a decade at 3.7 percent. Other statistical information is shown in Schedule 10.

Service to the City of Flint - On December 1, 2017, GLWA entered into a 30-year master contract with the City of Flint (which is located in Genesee County). As part of this arrangement, the Genesee County Drain Commission (GCDC) and GLWA have a contractual arrangement for as needed reciprocal emergency water service. This provides redundant, backup service for customers in that area with very little capital investment. In addition, GLWA provides Flint with a credit on its monthly water bill equal to its debt service payment obligations on existing Karegnondi Water Authority bonds in exchange for a license to raw water rights.

Workforce Development - As a significant number of employees in the water service sector prepare for retirement, GLWA is focused on workforce development and succession planning. The inaugural Apprenticeship Program for Electrical Instrumentation Control Technicians (EICT-I) is currently in the second year of its three-year duration, training 20 apprentices to receive their EICT-I certification. This program, which operates in conjunction with the Department of Labor, will soon be expanding to include a new apprenticeship for maintenance technicians.

Vendor Outreach - Expanding the base of our vendor community is a top priority for GLWA. One way to do this is to foster relationships with small businesses to expand their water service sector experience. By doing so, GLWA lessens risk from reliance on a shorter list of firms that support our operations.

Governance Structure that Supports Collaboration - GLWA's Board of Directors consists of six members. Two members are appointed by the Mayor of the city of Detroit, the chief executive of each of the three counties (Macomb, Oakland, and Wayne), as well as the governor of the state of Michigan all appoint one member each to the Board. The Governor's appointee represents other suburban customer areas outside the tri-county service area, and that appointee must reside within that geographic area.

One Water Partnership - In September 2017, the first One Water Partnership Agreement was signed by GLWA and its member partners. This historic agreement outlines the mutual commitments to working together for the greater good of the region, and details the responsibilities of all parties to moving the agreement forward. A critical addition to the agreement is the development of a multi-jurisdictional, multi-agency approach to infrastructure renewal and investment.

Recognition Among Our Peers

AMWA Gold Award - GLWA received acknowledgement of its Effective Utility Management (EUM) efforts in November 2017 when the Association of Metropolitan Water Agencies (AMWA) honored the Authority with its annual Gold Award for Exceptional Utility Performance. AMWA is an organization of the largest publicly owned drinking water systems in the United States and is the only policy-making organization solely for metropolitan drinking water suppliers. The Gold Award recognizes drinking water systems that exhibit high levels of performance in the 10 EUM attributes. It was a tremendous accomplishment to be one of only three recipients in the country, made even more special in that it was our first submission and just our second year of operations.

APWA Project of the Year - GLWA received the 2017 Project of the Year from the American Public Works Association (APWA) Downriver Chapter for its Wick Road reconstruction, 48-inch water transmission main installation and resurfacing of Vining Road with the city of Romulus. This project is an example of collaboration and project coordination between GLWA and its member partner, Romulus. The result was a successful completion of more than one-half mile of road construction, a quarter mile of road resurfacing and nearly 4,000 linear feet of large diameter water transmission main installation in a single coordinated effort.

Acknowledgements

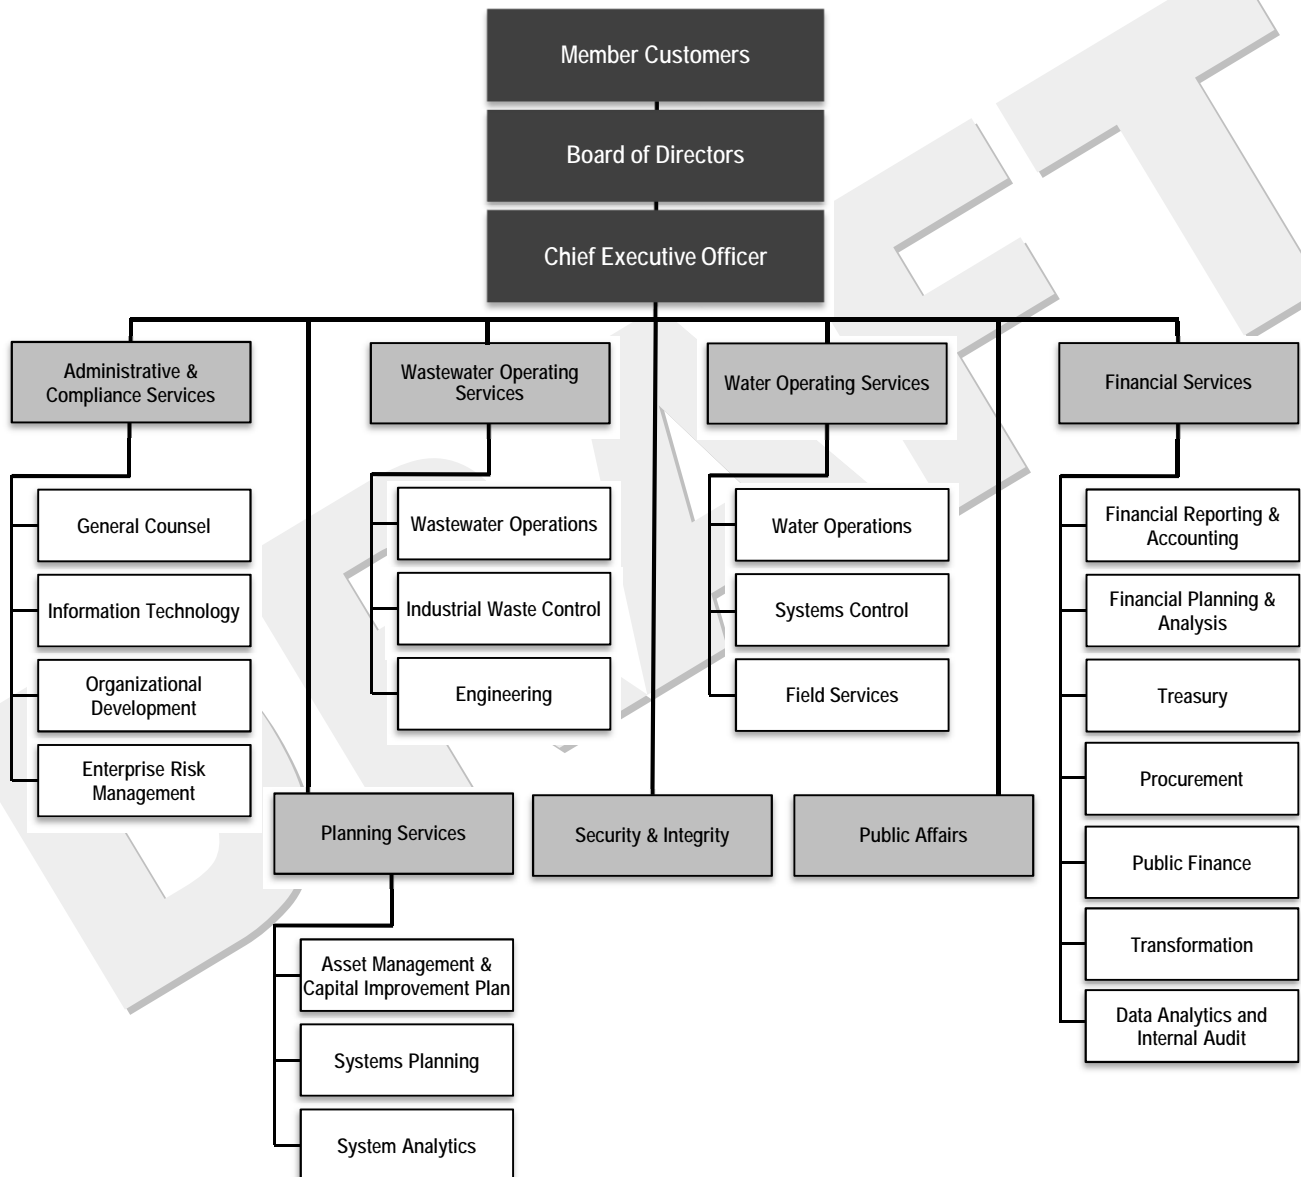

When we say “our” system, it is “our” system that we mutually support and foster with our member partners, team members, vendor community, Board of Directors, other stakeholders and the public. Thank you for your continued engaged participation and interest.

To exceed our customers' expectations by utilizing best practices in the treatment and transmission of water and wastewater, while promoting healthy communities and economic growth.

INDEPENDENT AUDITORS' REPORT

MONTH XX, 2018

To the Board of Directors of the
Great Lakes Water Authority
Detroit, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and each major fund of the *Great Lakes Water Authority* (the "Authority") as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on auditor judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and each major fund of the Great Lakes Water Authority as of June 30, 2018, and the respective changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and the schedules for the pension plan, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the required supplementary information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The introductory section, combining and individual fund schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introductory section, combining and individual fund schedules and the statistical section are the responsibility of management and have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued, under separate cover, our report dated MONTH XX, 2018 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

June 30, 2018

The management of the Great Lakes Water Authority (GLWA or Authority) presents this discussion and analysis of GLWA's financial position and changes in financial position as of and for the fiscal year ended June 30, 2018. The Management's Discussion and Analysis (MD&A) should be read in conjunction with GLWA's basic financial statements and the related notes to the financial statements. Capitalized terms not otherwise defined in the MD&A shall have the meaning given such terms in the transmittal letter from the Chief Executive Officer of GLWA that accompanies the financial statements and the MD&A.

Introduction to the Great Lakes Water Authority

The regional water system is one of the largest in the United States, both in terms of water produced and population served. The Water System currently serves an area of 1,790 square miles located in eight Michigan counties and an estimated population of nearly 3.8 million or approximately 38 percent of Michigan's population. Suburban wholesale service contracts comprise approximately 82 percent of the population served by the Authority while the retail water customers served by DWSD comprise the remaining 18 percent.

The regional sewer system is one of the largest in the United States, both in terms of treatment capacity and population served. The Sewer System currently serves an area of 944 square miles located in three Michigan counties and an estimated population of nearly 2.8 million or approximately 28 percent of Michigan's population. Suburban wholesale service contracts comprise approximately 77 percent of the population served by the Authority, while retail sewer customers served by the City of Detroit Water and Sewerage Department comprise the remaining 23 percent.

GLWA began operations on January 1, 2016. This fiscal year ended June 30, 2018 report represents the second full twelve-month report for GLWA. Now, with two years of information available, comparative information for the fiscal year-ended June 30, 2017 has been provided for total business-type activities in the basic financial statements.

Creation of a Regional Authority

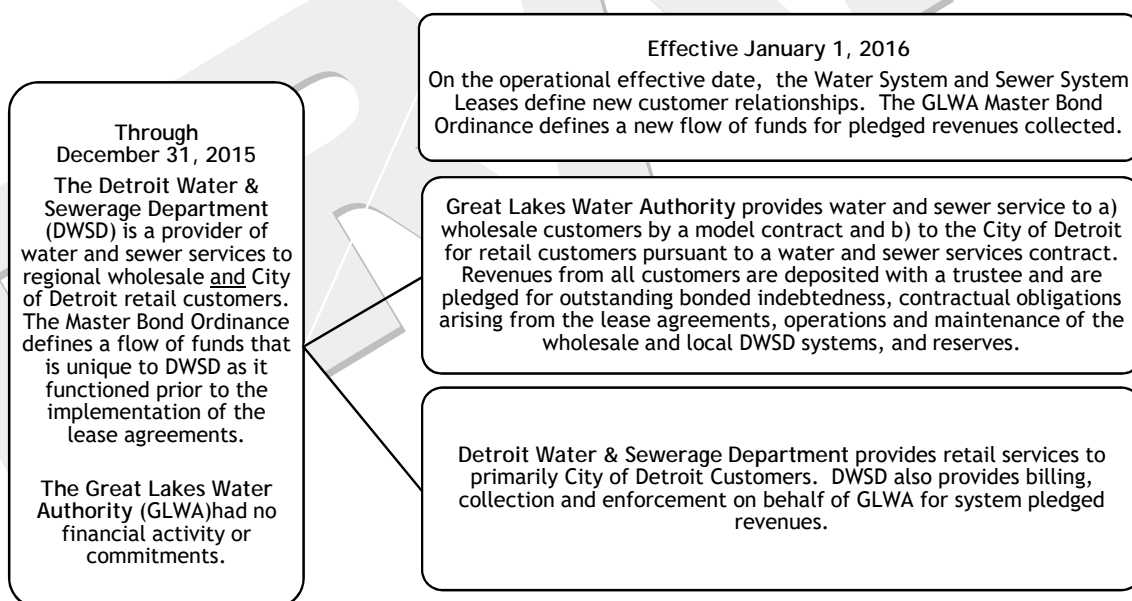

The creation of a regional water authority was an outcome of the City of Detroit's Chapter 9 Bankruptcy. Collaboration among regional stakeholders, supported by mediation proceedings, resulted in a "Memorandum of Understanding Regarding the Formation of The Great Lakes Water Authority" signed on September 9, 2014 by the Mayor of the City of Detroit, the Chief Executives of Wayne, Oakland, and Macomb counties, and the Governor of the State of Michigan. The agreement established a framework for a regional water and sewer authority to be established pursuant to Act 233, Public Acts of Michigan, 1955, as amended. The purpose of GLWA is to operate, control, and improve the regional assets of both the Water System and Sewer System owned by the City and which were operated by DWSD. The purpose of DWSD is to be the service provider for the retail system which is largely the City of Detroit customer base.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Subsequently, on June 12, 2015, the City of Detroit and GLWA entered into a Regional Water Supply Lease, a Regional Sewage Disposal Lease (collectively the "Leases") and a Water and Sewer Services Agreement ("WSSA"). Prior to implementation of the Leases, several conditions precedent were necessary to establish the financial and legal parameters before GLWA could assume control of the Regional Systems. Those conditions precedent included execution of the Leases, WSSA, a Shared Services Agreement, and a Detroit General Retirement ("GRS") pension agreement; adoption of a Master Bond Ordinance ("MBO") for both the Water System and the Sewer System; confirmation from the Michigan Department of Environmental Quality that all permits were secured for the Leased Facilities; certification from the bond trustee that no less than 51 percent of bondholders of the outstanding DWSD Water Bonds and DWSD Sewer Bonds, respectively, consented to the adoption by GLWA of the Master Bond Ordinance ("MBO") for the Water System and the Sewer System and to the assumption by GLWA of the outstanding DWSD Water Bonds and DWSD Sewer Bonds on the Effective Date; certification from the feasibility consultant that GLWA had the ability to issue at least one dollar of additional indebtedness at each level of lien priority pursuant to the Additional Bonds Test set forth in the MBO for each system; legal opinions that each Lease is valid, binding, and enforceable and that the rates adopted by DWSD for fiscal year 2016 for the wholesale and City customers were binding and effective; and all necessary consents to the assignment of the wholesale customer contracts. On December 17, 2015, the GLWA Board of Directors determined that all conditions precedent were satisfied to commence operations on January 1, 2016.

Since GLWA assumed the outstanding bonded indebtedness, retail customer revenues are pledged for payment of outstanding bonded indebtedness assumed by GLWA. For this reason, pursuant to the terms of the Leases, DWSD is GLWA's agent for retail billing, collections and enforcement. The chart below depicts the DWSD and GLWA customer relationship and the impact of the MBO flow of funds.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Activity for the Leases was recorded based upon GASB 69, *Government Combinations and Disposals of Government Operations*. This required lease accounting resulted in the following Statement of Net Asset categories. An explanation of those categories and how they relate to the leases and the establishment of the Authority's opening Statement of Net Assets is below:

Capital Assets: Capital assets subject to the Leases were recorded at "acquisition value" based upon an inventory valuation performed by a certified appraisal firm as of January 1, 2016. This resulted in an overall increase in capital asset value from the predecessor entity's historical cost. Accordingly, the depreciable lives were reviewed and, in several cases shortened, which has increased annual depreciation expense.

Bonded Indebtedness: The outstanding bonded indebtedness of the predecessor entity was assumed in its entirety by GLWA. GASB 69 also required debt to be recorded at acquisition value.

Net Pension Liability: The net pension liability represents the Regional Systems' share of the frozen, defined benefit City of Detroit GRS pension assigned to DWSD in the City of Detroit's Chapter 9 Bankruptcy Plan of Adjustment. On January 24, 2017, the parties agreed that 70.3 percent of the liability was allocable to the GLWA regional operations and 29.7 percent to DWSD and is the basis of allocation for future pension contributions. That net pension liability is further subdivided between the Water System and the Sewer System for each entity.

Obligation Payable: The obligation payable represents the Regional Systems' share of the B and C Note Obligations assigned to DWSD in the City of Detroit's Chapter 9 Bankruptcy Plan of Adjustment. The B and C Note Obligations refers to the debt service on City of Detroit Financial Recovery Bonds dated December 10, 2014. Those bonds were issued to satisfy claims relating to the City's pension obligation certificates and postemployment healthcare benefits. GLWA's portion of the liability was estimated at 70.3 percent of the total liability consistent with the allocation applied to the net pension liability.

Beginning Net Position: The acquisition value of assets acquired exceeded the liabilities assumed by \$736.5 million in total with \$457.9 million attributable to the Water System and \$278.6 million attributable to the Sewer System. In accordance with GASB 69, the opening capital assets were adjusted by an amount to establish a total net position of zero as of January 1, 2016.

Contractual Obligation Receivable: This represents DWSD's allocable portion of the long-term bonded indebtedness assumed by GLWA on January 1, 2016. This receivable is amortized annually in an agreed upon amount that approximates debt service. If new debt is issued on behalf of DWSD, the receivable is increased.

Lease Payable: The lease payable is the net present value of the lease payment of \$50 million per year for 40 years payable to the DWSD with \$22.5 million paid to the DWSD local water system and \$27.5 million paid to the DWSD local sewer system based on a 4.17 percent borrowing rate for both systems.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Financial Highlights

Total business-type current assets of \$900.1 million exceed current liabilities of \$283.1 million by \$617 million in total or 3.2 times. For the Water System, current assets of \$479.9 million exceed current liabilities of \$139.1 million by \$340.8 million in total or 3.45 times. For the Sewer System, current assets of \$420.2 million exceed current liabilities of \$144.1 million by \$276.1 million in total or 2.9 times.

The liabilities and deferred inflows of resources of the business-type activities exceeded the assets and deferred outflows of resources as of June 30, 2018 by \$178.7 million (a net deficit). The net deficit for the water fund was \$60.4 million and \$118.3 million for the sewage disposal fund.

The largest category of expense is depreciation at \$331.2 million in total with \$144.0 million for the water fund and \$187.2 million for the sewage disposal fund. The depreciation is based upon the assets that were recorded at acquisition value on January 1, 2016 as previously noted. The second largest category of expense is interest expense at \$300.4 million in total with \$139.3 million for the water fund and \$161.1 million for the sewage disposal fund. The Authority implemented GASB 89 during this fiscal year and no longer capitalizes interest expense.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The basic financial statements are comprised of the following:

The *statement of net position* presents information on all of the Authority's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the residual reported as net position.

The *statement of revenues, expenses and changes in net position* presents information showing how the Authority's net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods.

The *statement of cash flows* provides information about the Authority's cash receipts, cash payments and net changes in cash and cash equivalents resulting from operating, investing and capital and non-capital financing activities for the fiscal year.

The *notes to the financial statements* provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves. These schedules provide additional financial, budgetary, statistical, trend, and economic information that may be helpful to the readers of these financial statements.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

The Authority presents a combining statement for each system in the supplementary financial information classified into three categories that align with the Authority's strategic and budgetary focus of managing capital investment for both the Regional Water System and Regional Sewer System: 1) operation and maintenance (low capital investment), 2) improvement and extension (moderate capital investment and financial mechanism to lower borrowings and the related the cost of capital over the long term), and 3) construction projects (high capital investment). The water and sewage disposal funds together comprise the activity of these three categories of the Authority in total. The separate water and sewage disposal funds are required by the MBO, a separate credit rating is established for each fund, and the customers and services provided by each system are separate and distinct (although some may geographically overlap).

Financial Analysis

Summaries of the basic financial statements and related commentaries are presented below.

Net Position

Net position is defined by the accounting standards as the residual of all other elements presented in a statement of financial position. It is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. A net deficit occurs when the liabilities and deferred inflows exceed assets and deferred outflows. Deferred inflows and deferred outflows generally relate to financing activity and GLWA's share of the GRS pension obligation. In total, GLWA ended June 30, 2018 with a \$178.7 million net deficit. The net deficit for the water fund was \$60.4 million and \$118.3 million for the sewage disposal fund.

	Net Position	
	2018	2017
Current and other assets	\$ 1,725,147,253	\$ 1,557,125,361
Restricted assets	489,334,606	573,822,933
Capital assets	4,690,263,860	4,908,786,837
Total assets	6,904,745,719	7,039,735,131
Deferred outflows of resources	332,991,599	357,600,919
Current liabilities	283,126,328	318,134,242
Long-term debt	5,714,095,283	5,842,482,161
Net pension liability	178,961,907	194,075,547
Other liabilities	1,113,876,457	1,014,782,772
Total liabilities	7,290,059,975	7,369,474,722
Deferred inflows of resources	126,432,107	130,696,321
Net position		
Net investment in capital assets	350,745,726	528,875,506
Restricted for debt service	125,235,904	134,125,957
Restricted for capital acquisition	243,238,577	323,905,502
Restricted for payment assistance program	5,771,110	5,336,117
Unrestricted (deficit)	(903,746,081)	(1,095,078,075)
Total net position	\$ (178,754,764)	\$ (102,834,993)

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

There are three general components of a net position or deficit: 1) net investment in capital assets (in its simplest form, capital assets acquired less debt incurred to acquire those assets); 2) restricted (such as legally required bond reserves or net proceeds from bonds restricted for capital spending); and 3) unrestricted.

Net investments in capital assets is the largest component of the net position with a total balance of \$350.7 million (\$60.8 million the water system and \$289.9 for the sewage disposal system). Increases during the year were attributable to the acquisition of assets and repayment of debt which were offset by depreciation expense.

Net position restricted for debt service represents amounts that are required by the related MBO or other third-party agreements to be used for the repayment of debt. The total amount restricted at year end was \$125.2 million with \$23.2 million in the water system and \$102.0 million for the sewage disposal system.

Net position restricted for capital acquisition primarily represents unspent bond proceeds of \$243.2 million in total with \$140.7 million in the water system and \$102.5 million in the sewage disposal system.

The remaining unrestricted deficit is significant: a total of \$903.7 million with \$287.6 million for the water system and \$616.1 for the sewage disposal system. Unrestricted net position (deficit) is generally defined as the net result of the other components of net position. There has been an improvement of \$191.3 million in the unrestricted net position since 2017. This unrestricted deficit is representative of numerous cumulative historical financial activities via the predecessor entity. The largest dollar amounts were driven by swap termination fees paid by debt and capital financed assets that were subsequently written off. Addressing this deficit is a top priority for the GLWA Board and management but recognizes that it will take time. GLWA continues to optimize its operations, focus on financial planning with a biennial budget, annually update the five-year capital and financial plan, and expand its expertise in asset management. Evidence of those efforts are demonstrated by key financial performance measures. These include strong days cash on hand, debt service coverage well above the minimum requirements, achievement of revenue targets, and positive operations and maintenance expense budget variances. The performance measures in the table below are presented in the Supplementary Information section of this report.

Financial Performance Measure	Water	Sewage Disposal
Days cash on hand (Schedule of Days Cash - Liquidity)	1066 days	432 days
Debt service coverage - (all bonds including junior lien state revolving fund junior lien) (Pledges of Revenue and Debt Service Coverage)	1.51x	1.24x
Revenue target (Schedules of Revenue Requirement)	14.7 million or 4.5% positive budget variance	9.3 million or 2.0% positive budget variance
Operations & maintenance budget (Schedules of Operations and Maintenance Expense)	\$6.6 million or 5.75% positive budget variance	\$14.0 million or 7.35% positive budget variance

Management's Discussion and Analysis

Change in Net Position

The following is a comparative summary of the business-type activities changes in net position for the current and prior year (followed by a detailed discussion of the significant changes by activity):

	Changes in Net Position	
	2018	2017
Operating revenues	\$ 811,894,703	\$ 857,557,026
Operating expenses	<u>618,232,739</u>	<u>582,815,592</u>
Operating income	193,661,964	274,741,434
Nonoperating expenses	<u>(269,581,735)</u>	<u>(268,922,991)</u>
Income before contributions and special item	(75,919,771)	5,818,443
Capital contributions	-	320,707
Special item - MOU with DWSD	<u>-</u>	<u>(94,290,263)</u>
Change in net position	(75,919,771)	(88,151,113)
Net position, beginning	<u>(102,834,993)</u>	<u>(14,683,880)</u>
Net position, end of year	<u>\$ (178,754,764)</u>	<u>\$ (102,834,993)</u>

Net nonoperating expense of \$161.1 million is primarily related to interest expense from debt service (\$137.6 million) with the remainder related to the Sewer Lease and obligation payable. The largest offset to the expense is interest revenue on the obligations receivable which is also related to the terms of the Sewer Lease.

Water

Operating revenues, as shown in the table below, are primarily from wholesale water charges of \$323.1 million (95.51 percent of Water System revenues). GLWA provides services to 87 customers in addition there is one emergency backup service customer. Revenue and charge stability are important goals for GLWA and its member partners.

1. 40 percent is based on the average annual sales for each customer from their 36 prior months of usage ending September 30th each year.
2. 60 percent is based on fixed monthly charges.

Fiscal year 2018 wholesale revenue billed was 104% of budget meeting the goal of revenue stability.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Local system revenues of \$15.1 million account for 4.47 percent of the total operating revenue. Pursuant to the terms of the WSSA with DWSD, a \$20.7 million credit is applied against forecasted water purchases in the charge methodology. This credit replaces a previous ownership benefit that was in place prior to the Effective Date of the Regional System.

	Amount	Percent of Operating Revenues
Wholesale customer charges	\$ 323,117,344	95.51%
Local system charges	15,130,600	4.47%
Other revenues	64,200	0.02%
	<u> </u>	<u> </u>
Total operating revenues	<u>\$ 338,312,144</u>	<u>100%</u>

Operating expenses of \$254.6 million represent 75.3 percent of total operating revenue which consists primarily of depreciation expense and operations and maintenance activities. Depreciation is the larger category of expense at \$144 million or 56.6 percent of operating expense. Amortization was .8% of operating expenses. The remaining 42.6 percent of operating expenses is shown in the table below. Given the nature of GLWA's water operations, it is expected that personnel, contractual services, and utilities would represent the higher dollar amount. Contractual services include field services contracts for timely repairs to minimize disruption in service, technology related services for both operational and enterprise data networks, and outsourcing of janitorial, fleet, and other functions.

	Amount	Percent of Operating Expenses
Personnel	\$ 41,845,295	16.4%
Contractual services	35,794,549	14.1%
Utilities	26,871,081	10.6%
Chemicals	4,804,768	1.9%
Supplies and other expenses	9,543,615	3.7%
Capital program allocation	(713,779)	-0.3%
Shared services allocation	(9,615,146)	-3.8%
	<u> </u>	<u> </u>
Total operating expenses before depreciation and amortization	<u>\$ 108,530,383</u>	<u>42.6%</u>

Operating income after operating expenses (including depreciation) equals \$83.7 million or 24.7 percent of operating revenue.

Net nonoperating expense of \$107.7 million is primarily related to interest expense of \$139.3 million of which 118.2 million is from debt service. The remainder of interest is from the water lease, obligation payable and raw water rights lease. The largest offset to the expense is interest revenue on the obligations receivable which is also related to the terms of the Water Lease.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Sewage Disposal

Operating revenues, as shown in the table below, are primarily from wholesale sewer charges of \$269 million account (56.8 percent of Sewer System revenues) pursuant to from 18 services contracts. Wholesale contract charges are based on a “share” percentage of the annual revenue requirement billed one-twelfth each month. The shares are established based upon historical flows and are formally revisited every three years. The result is no revenue shortfall or overestimation.

Local system revenues of \$179 million account for 37.8 percent of total operating revenues. Pursuant to the terms of the WSSA with DWSD, a \$5.516 million credit is applied against sewer charges in the charge methodology. This credit replaces a previous ownership benefit that was in place prior to the Effective Date of the regional system.

The remaining 5.4 percent of operating revenue is due to other charges such as industrial waste charges and pollutant surcharges which are charged to non-residential users.

	Amount	Percent of Operating Revenues
Wholesale customer charges	\$ 268,978,831	56.8%
Industrial waste charges	14,334,979	3.0%
Pollutant surcharges	6,908,404	1.5%
Local system charges	178,969,200	37.8%
Other revenues	4,391,145	0.9%
Total operating revenues	<u>\$ 473,582,559</u>	<u>100%</u>

Operating expenses of \$363.6 million represent 76.8 percent of total operating revenue which consists primarily of depreciation expense and operations and maintenance activities. Depreciation is the larger category of expense at \$187.3 million or 51.5 percent of operating expense. The remaining 48.5 percent of operating expenses is shown in the table below. Given the nature of GLWA’s water operations, it is expected that personnel, contractual services, and utilities would represent the higher dollar amount. Contractual services include operation and management of the biosolids dryer facility, timely repairs for the wastewater resources recovery facility, staff augmentation for operations, technology related services for both operational and enterprise data networks, and outsourcing of janitorial, fleet, and other functions.

	Amount	Percent of Operating Expenses
Personnel	\$ 53,680,162	14.8%
Contractual services	64,082,761	17.6%
Utilities	26,823,299	7.4%
Chemicals	8,073,045	2.2%
Supplies and other expenses	24,982,773	6.9%
Capital program allocation	(969,671)	-0.3%
Shared services allocation	(292,965)	-0.1%
Total operating expenses before depreciation	<u>\$ 176,379,404</u>	<u>48.5%</u>

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Operating income after operating expenses (including depreciation) equals \$110 million or 23.2 percent of operating revenue.

Capital Assets and Debt Administration

GLWA's investment in capital assets as of June 30, 2018 is \$4.7 billion (net of accumulated depreciation) with \$1.9 billion assigned to the Water System and \$2.8 billion assigned to the Sewer System. This investment in capital assets includes land, buildings, plants, transmission lines, vehicles and other equipment. Total net capital assets decreased by \$218.5 million or 4.5 percent when compared to the prior year. The net decrease is primarily attributable to depreciation in excess of current year additions.

Water Fund

Water System additions were largely due to a net increase in construction work-in-progress of \$36.6 million.

Approximately one-half of that amount, \$17.8 million, is due to construction related to the following projects:

- Project # 114001: 1958 Filter Rehabilitation at the Springwell Water Treatment Plant (Contracts CS-1425, CS-200, SP- 563). The project has a total budget of \$ 93.5 million. Life to date costs through June 30, 2018 total \$89.3 million. Fiscal year 2018 expenditures were \$6.4 million. The project is expected to be completed in fiscal year 2019. Approximately \$22.7 was placed into service during fiscal year 2018.
- Project # 170502: Transmission System Valve Assessment and Rehabilitation/Replacement (Contract CON-181). The project has a total budget of \$15.3 million. Life to date costs which were all incurred in fiscal year 2018 total \$3.4 million. Approximately \$3.1 million was placed into service during fiscal year 2018.
- Project # 114003: Water Production Flow Metering Improvements (CON-133). The project has a total budget of \$7.2 million. Life to date costs through June 30, 2018 total \$3.4 million. Fiscal year 2018 expenditures were \$3.3 million. The project is expected to be completed in fiscal year 2021.
- Project # 116002: Raw Water Supply Tunnel Improvements (DB-150). The project has a total budget of \$33.1 million. Life to date costs through June 30, 2018 total \$2.2 million. Fiscal year 2018 expenditures were \$2.2 million. The project is expected to be completed in fiscal year 2023.
- Project # 114015: Emergency Grating Replacement (DB-112). The project has a total budget of \$2.8 million. Life to date costs through June 30, 2018 total \$2.7 million. Fiscal year 2018 expenditures were \$2.5 million. Approximately \$2.5 million was placed into service during fiscal year 2018.
- The remaining \$19.1 million is attributable to 49 projects that are near closeout or are design and study contracts related to larger projects.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Sewage Disposal Fund

Sewer System additions were also largely due to a net increase in construction work-in-progress of \$71.6 million.

Slightly more than one-half of that amount, \$41.6 million, is due to construction related to the following projects:

- Project # 260201: Conveyance System Interceptor Rehabilitation (CON-149). The project has a total budget of \$14.9 million. Life to date costs through June 20, 2018 total \$8.9 million. Fiscal year 2018 expenditures were \$8.8 million. The project is expected to be completed in fiscal year 2020.
- Project # 211001: Rehabilitation of Primary Clarifiers, Rectangular Tanks, Drain Lines, Electrical/Mechanical Building and Pipe Gallery (PC-757). The project has a total budget of \$54 million. Life to date costs through June 30, 2018 total \$25.1 million. Fiscal year 2018 expenditures were \$13.2 million. The project is expected to be completed in fiscal year 2021.
- Project # 212006: Rouge River Outfall Project (Contracts PC-797, CS-1781). The project has a total budget of \$47.5 million. Life to date costs through June 30, 2018 total \$26.4 million. Fiscal year 2018 expenditures were \$19.6 million. The project is expected to be completed in fiscal year 2020.
- The remaining \$30.0 million is attributable to 28 projects that are near closeout or are design and study contracts related to larger projects.

	GLWA's Capital Assets, Net	
	2018	2017

Additional information on the Authority's capital assets can be found in Note 7.

Intangible Asset and Related Obligation - Water Fund

Effective December 1, 2017, GLWA, the City of Flint (the City), Karegnondi Water Authority (KWA), Genesee County Drain Commission (GCDC) and the State of Michigan entered into a long-term partnership agreement to satisfy a number of critical water service needs across the region. Key provisions of a master agreement comprised of seven separate exhibits includes: 1) A 30-year water service contract with the City that establishes GLWA as the long-term water source for the City and credits the City of its debt service payment obligations on existing KWA bonds for the building of its water plant; 2) a long-term lease to GLWA of the 72-inch line serving the City; and 3) a 30-year contract for reciprocal, emergency water services between GLWA and GCDC.

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

The 30-year water service contract with the City includes a license to raw water rights on 17.46 MGD of the 18 MGD purchased by Flint as part of KWA bond obligation. These licensed rights constitute an intangible asset under governmental accounting standards. Therefore, the Authority has recorded an offsetting intangible asset and lease obligation of approximately \$107 million associated with this agreement as part of the fiscal year ending June 30, 2018 financial statements. The Authority recognized \$2.1 million of amortization expense through June 30, 2018 on the intangible asset. The lease obligation for the raw water rights was reduced by \$0.8 million during the year.

Long-term Debt. At year-end, the Authority had \$5.4 billion of long-term debt. All the outstanding bonds are revenue bonds, including capital appreciation bonds and state revolving fund loans. Of the total with \$2.3 billion is assigned to the Water System and \$3.1 billion assigned to the Sewer System.

Water Fund

The total outstanding bonds for the Water System is \$2.3 billion, decreasing by \$47.8 million from the prior year. No new debt was issued for the year ended June 30, 2018 other than state revolving fund activity.

Repayment of GLWA bonds issued are funded by charges to all member partners. Repayment of the debt service assigned to DWSD for Local System improvements are paid from retail customer collections by DWSD.

Less than 1.1 percent of the total indebtedness is issued through the State of Michigan revolving fund loan program for the benefit of the Water System. The Water System received \$12.5 million in new state revolving fund loans and received a \$2.9 million in loan forgiveness. The state revolving fund loan activity for the year was a pass-through to DWSD for system improvements.

Sewage Disposal Fund

The total outstanding bonds for the Sewer System is \$3.1 billion, decreasing by \$67.6 million from the prior year. No new debt was issued for the year ended June 30, 2018 other than state revolving fund activity.

Repayment of GLWA bonds issued are funded by charges to all member partners. Repayment of the debt service assigned to DWSD for Local System improvements are paid from retail customer collections by DWSD.

Approximately 15.4 percent of the total indebtedness is issued through the State of Michigan revolving fund loan program for the benefit of the Sewer System. The Sewer System received \$34.7 million in new state revolving fund loans.

GLWA's Outstanding Debt			
	Water Fund	Sewage Disposal Fund	Total
Revenue bonds	\$ 2,284,825,000	\$ 2,584,065,000	\$ 4,868,890,000
Capital appreciation bonds	-	17,250,000	17,250,000
State revolving loans	25,435,902	475,677,540	501,113,442
Total	\$ 2,310,260,902	\$ 3,076,992,540	\$ 5,387,253,442

GREAT LAKES WATER AUTHORITY

Management's Discussion and Analysis

Credit Ratings

As of June 30, 2018, the same ratings were in place since the last rating agency reviews in September 2016. For both the Water and Sewage Disposal Funds, Fitch Ratings has rated senior lien debt at A and second lien at A-; Standard & Poor's has rated senior lien debt at A- and second lien at BBB+; and Moody's has rated senior lien debt at A3 and second lien at Baa1.

Additional information on the Authority's long-term debt can be found in Note 11.

Economic Factors Affecting Next Year's Operations and Rates

On June 20, 2018, the GLWA Board adopted the biennial budget for the Authority for fiscal years 2019 and 2020. That two-year financial plan remains true to a foundational commitment to control the budget within a 4 percent revenue cap as further described below.

Water Fund

For FY 2019 the budget increased by one percent. This translated into a system average charge increase of 1.6 percent and wholesale member partner average charge increase of 0.1 percent depending on each customers usage in relation to other customers.

Sewage Disposal Fund

For FY 2019 budget increased by one percent. This translated into a system average charge increase of 0.1 percent and wholesale member partner average charge increase of 1.3 percent.

Requests for Information

This financial report is designed to provide a general overview of GLWA's finances for all those with an interest in the Authority's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Great Lakes Water Authority, Office of the Chief Financial Officer, 735 Randolph, Detroit, Michigan 48226. This report is also available on the Authority's website at www.glwater.org.

Other noncurrent liabilities	52,395	20,339	72,734	(57,508)
Net pension liability and deferred items	(1,877,109)	(3,359,429)	(5,236,538)	(23,137,694)
Net cash provided by operating activities	<u>\$ 237,210,451</u>	<u>\$ 244,171,857</u>	<u>\$ 481,382,308</u>	<u>\$ 534,542,054</u>

concluded.

Noncash transactions

During the year the Authority applied credits to Flint billings totaling \$3,176,073 for payments made by the City of Flint for the KWA bonds in the water fund. These credits are recorded as payments on the raw water lease rights which have been recorded as an intangible asset and a lease obligation payable.

The accompanying notes are an integral part of these financial statements.

This page intentionally left blank.

NOTES TO FINANCIAL STATEMENTS

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Great Lakes Water Authority ("GLWA" or the "Authority") is the regional wholesale provider of water and sewer services in southeast Michigan. The Authority was incorporated by the counties of Macomb, Oakland, Wayne and the City of Detroit (the "City") on November 26, 2014 pursuant to Act 233, Public Acts of Michigan, 1955, as amended ("Act 233"). Pursuant to Leases that became effective on January 1, 2016, the Authority assumed possession and control of the regional assets of both the water supply and sewage disposal systems owned by the City, which were previously operated by the Detroit Water and Sewerage Department ("DWSD" or the "Department"). The City, acting through DWSD, will continue to manage and operate its own local retail water and sewer system infrastructure. The Leases assigned all revenues of both systems to the Authority for an initial term of 40 years and substituted GLWA for the City as the obligor on all outstanding debt obligations of the City related to the systems.

The Authority's water system is one of the largest in the United States, both in terms of water produced and population served. The water system currently serves an area of 1,760 square miles located in eight Michigan counties and an estimated population of approximately 3.8 million or approximately 38% of Michigan's population. Suburban wholesale customers comprise approximately 82% of the population served by the Authority, and the retail water customers comprise the remainder served by the Authority.

The Authority's sewer system is one of the largest in the United States, both in terms of treatment capacity and population served. The sewer system currently serves an area of 944 square miles located in three Michigan counties and an estimated population of approximately 2.8 million or approximately 28% of Michigan's population. Suburban customers comprise approximately 77% of the population served by the Authority, and the retail sewer customers comprise the remainder served by the Authority.

The Authority is authorized to establish rates, fees and charges for its water supply and sewage disposal services. Under the Water and Sewer Services Agreement, the City is appointed as agent of the Authority for setting retail rates and for billing, collecting and enforcing the collection of charges from retail water and sewer customers. As an agent of the Authority, the City, through the Board of Water Commissioners and without further approval by the City Council, is required to set retail rates to meet the revenue requirements for the City retail portion of the water and sewer systems. Under certain conditions, the Authority may terminate the City's appointment.

The financial statements of the Authority have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the Authority's accounting policies are described below.

Reporting Entity

The GLWA Board is composed of six voting members. Two members are residents of the City of Detroit and are appointed by the Mayor of the City of Detroit. The chief executive of the counties of Macomb, Oakland and Wayne each appoint one member who is a resident of the county from which appointed and the Governor of the State of Michigan appoints one member who is a resident of an area served by the Authority outside of the counties. All members of the GLWA Board must have at least seven years of experience in a regulated industry, such as a utility, engineering, finance, accounting or law firm. After the initial term specified in its Articles of Incorporation, each GLWA Board member is appointed for a four-year term and serves at the pleasure of the appointing government.

The GLWA Board has adopted a committee structure. Four committees have been established: Audit, Capital Improvement Planning, Operations and Resources, and Legal.

The Authority has a water enterprise fund and a sewage disposal enterprise fund, both of which are presented as major funds.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

Basis of Accounting

The accounting policies of the Authority conform to GAAP as applicable to governmental entities. The accounts of the Authority are used to account for its activities, which are financed and operated in a manner similar to a private business enterprise. Accordingly, the Authority maintains its records on the accrual basis of accounting. Revenues from operations, investments and other sources are recorded when earned. Expenses (including depreciation) of providing services to the public are accrued when incurred.

Nonexchange transactions, in which the Authority receives value without directly giving equal value in return, include contributions and grants. On an accrual basis, revenue from contributions and grants is recognized in the fiscal year in which all eligibility requirements have been satisfied, including timing and expense requirements. Timing requirements specify the year when the resources are required to be used or the fiscal year when use is first permitted. Expense requirements specify the year in which the resources are provided to the Authority on a reimbursement basis.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position

Cash Deposits and Investments

The Authority's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are stated at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. Investments that do not have established market values are reported at estimated fair value. Cash deposits are reported at carrying amounts, which reasonably approximates fair value.

State statutes authorize the Authority to deposit in the accounts of federally insured banks, credit unions and savings and loan associations and to invest in obligations of the U.S. Treasury, certain commercial paper, repurchase agreements, bankers' acceptances and mutual funds composed of otherwise legal investments. The Authority also maintains and adheres to a formal investment policy in accordance with Michigan Public Act 20 of 1943, *Investment of Surplus Funds of Political Subdivisions*.

Restricted Assets

Restricted assets are those assets set aside as required by the Authority's Master Bond Ordinance ("MBO"). See Note 4 for further details.

Unbilled Revenue

The Authority records unbilled revenues for services provided prior to year-end by accruing actual revenues billed in the subsequent month.

Contractual Obligation Receivable

Pursuant to the aforementioned Water and Sewer Services Agreement, the City is responsible for paying the portion of debt service on the bonds assumed by the Authority that were issued to finance the cost of improvements to the Detroit local facilities. Hence, the "receivable" recorded by the Authority on the "contractual obligation" of the City to the Authority. Any new debt issued on behalf of the City and DWSD is also included in the contractual obligation receivable.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

Prepaid Items and other assets

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the financial statements.

Inventories

Inventories consist of operating, maintenance and repair parts for sewage assets and are valued at the lower of cost or market, with cost being determined on an average cost method. Inventory is recorded as expense when consumed rather than when purchased. The water fund does not report inventory because the amounts are insignificant and for efficiency are recorded in the sewage disposal fund. Any inventory usage by the water fund is charged through an interfund payable to the sewage disposal fund.

Prepaid Lease

As described in Note 13, the Authority has recorded a prepaid lease for cash paid to DWSD on the date GLWA began operations equivalent to six months of lease payments. As noted in the 2018 Memorandum of Understanding (MOU), dated June 2018, this will be applied at the end of the 40 year term and, hence, it is classified as a noncurrent asset.

Capital Assets

Capital assets are recorded at historical cost, together with interest capitalized during construction. All acquisitions of land and land improvements are capitalized regardless of cost. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets acquired after January 1, 2016 are depreciated on the straight-line basis over the useful life of the assets as follows:

	Useful Lives (in years)
Site improvements	15
Buildings and structures	20-50
Infrastructure	80
Machinery and equipment	3-20
Vehicles	5-7
Leasehold improvements	15

Capital assets acquired as of the operational effective date of the Authority at January 1, 2016 are depreciated over their estimated remaining useful lives at that time as determined by a third-party valuation. These remaining lives differ from the years cited above for newly acquired capital assets and, in most instances, are significantly shorter.

Intangible Asset - Raw Water Rights

The Authority has recorded an intangible asset for raw water rights which is being amortized on a straight-line basis over 30 years. See Note 9 for a description of these rights.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

Deferred Outflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods. At that time, the activity will be recognized as an outflow of resources (or expense). The Authority reports deferred outflows of resources for two items: deferred charges on refunding and pension amounts. Deferred charges on refunding results from the difference in the carrying value of refunded debt and its reacquisition price; these amounts are deferred and amortized over the shorter of the life of the refunded or refunding debt. Deferred outflows of resources from pension amounts relate to the net pension liability. A portion of these costs represent contributions to the plan subsequent to the plan measurement date. More detailed information on pension amounts can be found in Note 16.

Long-term Obligations

In the financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

Obligation Payable

Under the terms of the lease agreements with the City, the Authority is required to pay a portion of the City's B and C notes allocated to the regional water and sewer systems. See "Obligation Payable - City of Detroit 2014 Financial Recovery Bonds" in Note 12.

Leases Payable

The effective date of the leases by the City to the Authority for the leased water and sewer facilities was January 1, 2016. See Note 14 for the details of the leases.

Lease Obligation - Raw Water Rights

The Authority has recorded a liability for the lease obligation on its raw water rights. See Note 15 for the details of this obligation.

Compensated Absences

The Authority has a paid time off (PTO) policy which has an annual accrual period ending September 30 each year. Employees are allowed to carry over a maximum bank of 80 hours to the next accrual period. Balances greater than 80 hours up to a maximum of 160 hours shall be converted to the retiree health saving program at 50% of the value of the PTO time. Hours in excess of 160 hours are forfeited if unused by September 30 of each accrual period. The accrued compensated absences for PTO accrual are approximately \$1,743,000 for the water fund and \$717,000 for the sewage disposal fund on June 30, 2018.

The Authority also has an accrued compensated absence liability assumed on January 1, 2016 relating to the accumulated unpaid vacation and sick leave balances for those employees who retired from the City or resigned from the City and accepted employment with the Authority on January 1, 2016. The June 30, 2018 balance of the accrued compensated absences for the liability assumed on January 1, 2016 is approximately \$2,644,000 of which \$469,000 is current. This liability is recorded in the water fund as the disbursements for payment will be processed from the water fund with reimbursement from the sewer fund. The accrued compensated absences includes the employers' share of Social Security and Medicare taxes.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

Bond Premiums, Discounts, and Deferred Amounts on Refunding

Bond premiums, discounts, and gains or losses on refunding are deferred and amortized over the life of the bonds. Bond premiums and discounts are amortized using the effective interest method, and deferred amounts on refunding are amortized using the straight-line method. Bonds payable are reported net of the applicable bond premium and discounts. Deferred amounts on refunding are reported as deferred outflows and deferred inflows of resources.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods. At that time, the activity will be recognized as an inflow of resources (or revenues). The Authority has included the deferred amounts on swap terminations, deferred gain on refunding and pension inflows in this reporting category. The deferred amounts on swap terminations were assumed as part of the lease agreements with the City. The amounts will be fully amortized for both funds by fiscal 2036. Deferred gain on refunding results from the difference in the carrying value of refunded debt and its reacquisition price; these amounts are deferred and amortized over the shorter of the life of the refunded or refunding debt. Deferred pension inflows result when there is a change in total pension liability due to benefit changes, differences between expected and actual experience, changes in actuarial assumptions, or differences between expected and actual investment returns. The amount for the changes in actuarial assumptions is deferred and amortized over the estimated remaining service life. The amount for the difference between actual and projected assumptions in investment earnings is deferred and amortized over five years.

Net Position

Net position, which represents the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources, is reported in three components as follows:

Net Investment in Capital Assets - consists of capital assets, net of accumulated depreciation and related debt.

Restricted - consists of amounts that are legally restricted by outside parties or by law through constitutional provisions or enabling legislation.

Unrestricted - is the residual balance of net position after *net investment in capital assets* and *restricted*.

When both restricted and unrestricted resources are available for use, generally it is the Authority's policy to use restricted resources first and then unrestricted resources when they are needed.

Classification of Revenues and Expenses

The Authority classifies its revenues and expenses as either operating or nonoperating.

Operating revenues are those revenues generated from providing services in connection with the Authority's principal ongoing operations. The principal operating revenues of the Authority are wholesale charges for providing water and wastewater treatment. The local system charges are the wholesale charges to the City of Detroit under the Water and Sewer Services Agreement. Wholesale customer charges are shown net of bad debt expense of \$1,280,039 for the water fund and \$2,452,769 for the sewage disposal fund.

Operating expenses include the costs of operating the water and sewer utilities, administrative expenses and depreciation on capital assets. Costs related to shared facilities and personnel are allocated to the water and sewer funds on a basis that relates costs incurred to the system benefited. By agreement, the Authority provides shared services to DWSD, which are shown as a reduction to operating expenses.

All revenue and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

Taxes

The Authority pays no direct federal, state or local taxes, except local taxes on excess property and federal Social Security and Medicare taxes.

Interest Income on Obligations Receivable

Interest income is the interest earned on the contractual obligation receivable.

Capital Contributions

Contributed capital, if any, represents the forgiveness of debt related to capital construction through the State of Michigan Revolving Loan Fund.

Centralized Services and Administrative Services

Various common costs incurred by the Authority are allocated between the water and sewer funds. The allocations are based on an annual cost allocation analysis and may change from year to year based upon that analysis. The following table shows the allocation of these common costs for the year ended June 30, 2018:

Common Costs	Water % Allocation	Water Allocation	Sewer % Allocation	Sewer Allocation	Total Common Costs
Centralized services	43.4%	\$ 35,404,225	56.6%	\$ 46,200,320	\$ 81,604,545
Administrative services	42.9%	11,527,546	57.1%	15,332,770	26,860,316

Centralized services include security, systems operations control, field engineering and service operations, information technology, planning, energy management, and system analytics service costs.

Administrative services includes executive, public affairs, general counsel, organizational development, risk management, finance, procurement, and other service costs.

Use of Estimates

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

2. BUDGETARY INFORMATION

The financial activity of the Authority is presented in two enterprise funds, which are not required under State statutes to adopt appropriated budgets. Budget to actual schedules for revenues and expenses are presented in the other information section of this report. This schedule is not required by GAAP or subject to audit procedures. It is presented strictly for informational purposes.

Budget Process

GLWA adopts a two-year budget for the regional water and sewer systems as required by its Articles of Incorporation. The budgeted expenses shall equal the sum of the revenue requirement, including the following for both the regional water and sewer systems: a) operation and maintenance expenses; b) amounts necessary to pay the principal of and interest on all bonds and to restore any reserves therefor established in the Master Bond Ordinance; c) the lease payment, which shall be a common-to-all charge; d) GLWA portions of the net pension liability and the B&C obligation payable; e) the amount necessary to be deposited to the Water Residential Assistance Program (WRAP) Fund, which shall be a common-to-all charge equal to 0.5% of the base budgeted operating revenues for the regional water and sewer systems for each fiscal year; f) the amounts needed to make the required deposits to the regional Extraordinary Repair and Replacement Reserve Fund and the regional Improvement and Extension Fund as defined in the Master Bond Ordinance; and g) the amount necessary to satisfy the coverage ratios required by the rate covenant in the Master Bond Ordinance.

As provided in the leases, through the fiscal year ending June 30, 2025, the water and sewer systems are assumed to experience annual increases in the regional revenue requirement of not more than 4%. This limitation shall not be applicable, however, if the regional revenue requirement must increase beyond the 4% assumption in order to satisfy the rate covenant or to pay the cost of improvements to the leased water and/or sewer facilities that are required to be made by applicable laws.

In the leases, the City acknowledges that all local water and sewer system revenues received from customers in the City are the property of GLWA and will be deposited as received in the Receiving Fund as defined in the Master Bond Ordinance and applied as provided in the Bond Ordinance. As a result, the City agrees to provide the Authority with a budget for the local water and sewer system as provided in the Water and Sewer Services Agreement.

Schedule of Charges Process

The GLWA Wholesale Customer Model Water Contract requires that GLWA provide wholesale customers with written notice of a proposed charge, meet to review the proposed charge, and the underlying data used to calculate the charge not less than 30 calendar days prior to a public hearing. Further, the contract requires that a public hearing be held no less than 120 days prior to the date that a proposed charge increase is to take effect.

The Water and Sewer Services Agreement between GLWA and DWSD requires that GLWA provides the City with written notice of the proposed charge and the underlying data used to calculate the charge not less than 120 calendar days prior to the effective date of any new charge.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

3. CASH DEPOSITS AND INVESTMENTS

The deposits and investments of the Authority at June 30, 2018 are reported in the basic financial statements as follows:

	Water Fund	Sewage Disposal Fund	Total
Statement of Net Position			
Cash and cash equivalents	\$ 310,085,221	\$ 199,056,556	\$ 509,141,777
Restricted cash and cash equivalents	51,097,342	54,832,050	105,929,392
Restricted cash for the benefit of DWSD	8,418,827	-	8,418,827
Investments	7,004,525	9,506,712	16,511,237
Restricted investments	1,234,954	31,790,386	33,025,340
Noncurrent restricted cash and cash equivalents	18,261,706	30,001,353	48,263,059
Noncurrent restricted investments	150,436,225	143,261,763	293,697,988
Total	\$ 546,538,800	\$ 468,448,820	\$ 1,014,987,620
Cash deposits and investments			
Bank deposits - checking and savings accounts	\$ 54,724,497	\$ 30,172,238	\$ 84,896,735
Money market accounts	333,138,599	253,717,721	586,856,320
Investments in securities	158,675,704	184,558,861	343,234,565
Total	\$ 546,538,800	\$ 468,448,820	\$ 1,014,987,620

Custodial Credit Risk - Deposits and Money Market Accounts. Deposits and money market accounts are exposed to custodial credit risk if they are not covered by depository insurance. At year-end, the carrying amount of the Authority's deposits and money market accounts was \$387,863,096 for the water fund and \$283,889,959 for the sewage disposal fund. The bank balance of the water fund deposits and money markets was \$392,809,518 of which \$349,684,515 was uninsured and uncollateralized. The bank balance of the sewage disposal fund deposits and money markets was \$283,050,764 of which \$260,963,021 was uninsured and uncollateralized.

In accordance with the Authority's investment policy and State law, all deposits are uncollateralized, held in the Authority's name, and evidenced by a safekeeping receipt. Also, due to the dollar amounts of cash deposits and the limits of FDIC insurance, the Authority believes it is impractical to insure all bank deposits. As a result, the Authority evaluates each financial institution and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

Custodial Credit Risk - Investments. Following is a summary of the Authority's investments as of June 30, 2018:

	Water Fund	Sewage Disposal Fund	Total
U.S. treasury notes	\$ 73,964,522	\$ 129,268,053	\$ 203,232,575
U.S. government agencies	78,853,306	35,659,724	114,513,030
Commercial paper	5,857,876	19,631,084	25,488,960
Total	\$ 158,675,704	\$ 184,558,861	\$ 343,234,565

Investments are exposed to custodial credit risk if the securities are uninsured, unregistered or held by a counterparty or its agent but not in the government's name. In accordance with the Authority's investment policy, all investments are held in the name of the Authority and are evidenced by a safekeeping receipt confirmation, and thus not exposed to custodial credit risk.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Authority's investment policy and State law require that commercial paper be rated in the top two ratings by at least two nationally recognized statistical rating organizations.

As of June 30, 2018, all of the Authority's investments in securities of U.S. agencies were rated AA+ by Standard & Poor's and Aaa by Moody's. The Authority's commercial paper was rated A1 by Standard and Poor's and P1 by Moody's. U.S. treasury notes are explicitly guaranteed by the U.S. government and not considered to have credit risk. The Authority's money market accounts were not rated.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Authority's investment policy requires diversification by security type and institution, but does not place a fixed percentage limit for any one issuer.

At June 30, 2018, the Authority had greater than 5% of its total investment portfolio concentrated as follows:

Investment Type	Issuer	% of Portfolio
Water fund		
U.S. government agencies	Federal Home Loan Bank	21.2%
U.S. government agencies	Federal National Mortgage Association	18.8%
U.S. government agencies	Federal Home Loan Mortgage Company	9.7%
Sewage disposal fund		
U.S. government agencies	Federal Home Loan Bank	5.6%
U.S. government agencies	Federal National Mortgage Association	8.1%
U.S. government agencies	Federal Home Loan Mortgage Company	5.6%

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

Interest Rate Risk. Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of investments. The Authority's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

As of June 30, 2018, the Authority's fixed income investments had the following maturities:

	< 1 year	1 - 5 years	Total
Water fund			
U.S. treasury notes	\$ 55,374,505	\$ 18,590,017	\$ 73,964,522
U.S. government agencies	42,024,965	36,828,341	78,853,306
Commercial paper	5,857,876	-	5,857,876
	<u>103,257,346</u>	<u>55,418,358</u>	<u>158,675,704</u>
Sewage disposal fund			
U.S. treasury notes	98,858,779	30,409,274	129,268,053
U.S. government agencies	20,691,497	14,968,227	35,659,724
Commercial paper	19,631,084	-	19,631,084
	<u>139,181,360</u>	<u>45,377,501</u>	<u>184,558,861</u>
Total	<u>\$ 242,438,706</u>	<u>\$ 100,795,859</u>	<u>\$ 343,234,565</u>

Fair Value Measurements - The Authority categorizes investments measured at fair value within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted at prices in active markets for identical assets; Level 2 inputs are observable for the asset or liability, such as interest rates and yield curves observable at commonly quoted intervals; and Level 3 inputs are unobservable in the market and are the least reliable. The Authority had the following fair value measurements as of June 30, 2018:

	Level 1	Level 2	Total
Water fund			
Investments by fair value level:			
U.S. treasury notes	\$ 73,964,522	\$ -	\$ 73,964,522
U.S. government agencies	-	78,853,306	78,853,306
Commercial paper	-	5,857,876	5,857,876
	<u>73,964,522</u>	<u>84,711,182</u>	<u>158,675,704</u>
Sewage disposal fund			
Investments by fair value level:			
U.S. treasury notes	129,268,053	-	129,268,053
U.S. government agencies	-	35,659,724	35,659,724
Commercial paper	-	19,631,084	19,631,084
	<u>129,268,053</u>	<u>55,290,808</u>	<u>184,558,861</u>
Total	<u>\$ 203,232,575</u>	<u>\$ 140,001,990</u>	<u>\$ 343,234,565</u>

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

4. RESTRICTED ASSETS

Restricted assets, comprised of cash and investments, are available for debt service on revenue bonds and to provide funds for improvements, enlargements, extensions and construction. In accordance with the provisions of the Master Bond Ordinance and Leases, the Authority follows a sequential flow of funds in segregated accounts through which revenue receipts are deposited and are maintained at certain levels in satisfaction of all legal requirements.

The following schedules provide, in the order of the flow of funds per the Master Bond Ordinance, the assignment of water and sewage disposal fund cash and investments between restricted and unrestricted assets based on the source of the monies as of June 30, 2018.

	Funded from Revenue		Funded from Debt Issuance	Total
	Unrestricted	Restricted	Restricted	
Water fund				
Receiving fund	\$ 36,870,425	\$ -	\$ -	\$ 36,870,425
Operations and maintenance	31,890,282	10,554,899	-	42,445,181
Senior lien debt service	-	25,596,861	-	25,596,861
Senior lien bond reserve	-	-	122,272,919	122,272,919
Second and junior lien debt service	-	15,994,996	-	15,994,996
Second and junior lien debt reserve	-	-	52,360,349	52,360,349

Notes To Financial Statements

5. DUE FROM OTHER GOVERNMENTS

Due from other governments, which consists entirely of amounts due from the City of Detroit, in the statement of net position are as follows:

	Water Fund	Sewage Disposal Fund
Billed shared services	\$ 16,238,829	\$ -
Unbilled shared services	6,836,377	-
Budgetary shortfall advance	-	20,254,427
Wayne County 2017 tax settlement	482,870	5,870,679
Accrued interest on obligation receivable	30,678	-
	<u>\$ 23,588,754</u>	<u>\$ 26,125,106</u>

6. LOAN RECEIVABLE - DWSD

Under the terms of the WSSA, dated June 12, 2015, and the 2018 MOU, dated June 27, 2018, if DWSD experiences a cumulative negative variance of more than two percent (2%) of the total budget for either local system (a "budget shortfall") from its budget adopted, DWSD, as the agent of GLWA, shall, within thirty (30) days thereafter, schedule a meeting of the Reconciliation Committee to discuss a remedy for the shortfall.

In accordance with the 2018 MOU, dated June 27, 2018, budget shortfalls not cured by the end of the fiscal year following the year in which they arise shall be repaid in full, in installments, over a period not to exceed the next three fiscal years, plus a surcharge calculated as provided below, as part of the revenue requirement payable by DWSD. The surcharge factor on the portion of the budget shortfall for the sewage disposal fund which remains unpaid of \$27,514,000 at June 30, 2018 shall be based on the three-year U.S. treasury note rate of 2.63%, plus 150 basis points for a total of 4.22%.

The balance of the loan receivable to be paid by DWSD is as follows:

Year Ended June 30,	Principal	Interest	Total
2019	\$ 8,796,362	\$ 969,900	\$ 9,766,262
2020	9,166,151	600,100	9,766,251
2021	9,551,487	214,800	9,766,287
	<u>\$ 27,514,000</u>	<u>\$ 1,784,800</u>	<u>\$ 29,298,800</u>

7. INTERFUND RECEIVABLES AND PAYABLES

Interfund balances result from the time lag between the dates interfund goods and services are provided or reimbursable expenditures occur and the payment between funds are made. Interfund balances for the year ended June 30, 2018 consisted of the following:

	Water Fund	Sewage Disposal Fund
Due to	\$ 3,447,927	\$ 330,293
Due from	330,293	3,447,927
Total	<u>\$ 3,778,220</u>	<u>\$ 3,778,220</u>

Capital assets were evaluated during the year to determine if any asset impairments exist, defined as a significant, unexpected decline in the service utility of a capital asset. The Authority did not have any significant impairments for the year.

9. INTANGIBLE ASSET

Raw Water Rights Asset

Effective December 1, 2017, the Authority, the City of Flint, Karegnondi Water Authority (KWA), Genesee County Drain Commission (GCDC) and State of Michigan entered into a long-term partnership agreement to satisfy a number of critical water service needs across the region. Key provisions of a master agreement includes: 1) a 30-year water service contract with the City of Flint that establishes the Authority as the long-term water source for the City of Flint and credits the City of Flint for its debt service payment obligations on existing KWA bonds for the building of its raw water intake and supply line; 2) a long-term lease to the Authority of the 72-inch line serving the City of Flint; and 3) a 30-year contract for reciprocal, emergency water services between the Authority and GCDC.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

The 30-year water service contract with the City of Flint includes a license to raw water rights on 17.46 MGD of the 18 MGD purchased by Flint as part of KWA bond obligation. These license rights constitute an intangible asset under governmental accounting standards. Therefore, the Authority has recorded an intangible asset and purchase obligation liability of approximately \$107 million associated with this agreement in the accompanying financial statements. The Authority is amortizing the intangible asset over 30 years. As the City of Flint satisfies its monthly bond payment obligations to KWA, the Authority credits Flint's water invoice for that payment and reduces the Authority's purchase obligation. This process will continue each year over the 30-year life of the asset.

Intangible asset activity for the year ended June 30, 2018 was as follows:

	Beginning Balance	Additions	Disposals	Ending Balance
Water fund				
Intangible asset - raw water rights	\$ -	\$ 106,999,919	\$ -	\$ 106,999,919
Accumulated amortization	-	(2,080,554)	-	(2,080,554)
Total intangible asset	<u>\$ -</u>	<u>\$ 104,919,365</u>	<u>\$ -</u>	<u>\$ 104,919,365</u>

10. OTHER ACCRUED LIABILITIES

Other accrued liabilities in the statement of net position are as follows:

	Water Fund	Sewage Disposal Fund
Cash held for the benefit of DWSD	\$ 8,923,677	\$ -
Customer deposit	3,756,015	-
	<u>\$ 12,679,692</u>	<u>\$ -</u>

11. DUE TO OTHER GOVERNMENTS

Due to other governments, which consists entirely of amounts due to the City of Detroit, in the statement of net position is as follows:

	Water Fund	Sewage Disposal Fund

For bonds issued through the Michigan Finance Authority (MFA) in 2014 and 2015, the Authority is required to make payment on these obligations to the MFA depository account five business days prior to the actual due date of the bond principal and interest payments. Therefore, the payments for principal and interest due on July 1, 2018 are not included in the debt service requirements amounts above as they were paid on June 25, 2018.

Total sewage disposal fund revenue and capital appreciation bonds payable

2,599,049,042

Total business-type activities

\$4,883,874,042

Maturity dates reflect the final pricing of each series of bonds. Multiple maturity date ranges for a series of bonds differentiate between those bonds which are callable prior to maturity and those which are not callable prior to maturity.

* Interest rates are reset periodically at the stated current market interest rate.

** Bonds are capital appreciation bonds. The outstanding balance represents the discounted present value.

c Indicates bonds are callable under terms specified in the indenture; all other bonds are noncallable.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

Revenue Bonds - Pledges of Future Revenue

The Authority has pledged assets to secure the repayment of the revenue bonds and State of Michigan revolving fund loans. The water system bonds and loans are paid solely from the net revenues of the water system and the sewer system bonds and loans are paid solely from the net revenues of the sewer system. Net revenues are defined in the Authority's Water and Sewer Master Bond Ordinances as all revenues except those transferred to the operation and maintenance funds. These revenues are further defined to include the revenues from the retail customers who are serviced under the Water and Sewer Services Agreement with the City which are reported in the financial statements of DWSD. The pledged revenues calculation for the fiscal year ending June 30, 2018 includes revenues reported by the Authority and DWSD as this revenue is pledged for payment of the bonds and loans of the Authority.

The general purpose of the Water System debt is to provide funding for various water treatment and transmission capital improvements, refund certain water revenue bonds, pay termination amounts for interest rate swap agreements and fund reserve requirements. The general purpose of the Sewer System bonds is to provide funding for various wastewater treatment and collection activities, capital improvements, refund certain sewage disposal revenue bonds, pay termination amounts for interest rate swap agreements and fund reserve requirements. The term of pledge commitment for the water bonds is through 2047 and through 2045 for the sewer bonds.

See table below for pledged revenue requirements as of June 30, 2018:

	Water Fund	Sewage Disposal Fund
Remaining principal and interest requirement	\$ 3,944,352,125	\$4,820,971,304
Principal and interest funding requirement for the year ending June 30, 2018 (Computed consistent with rate covenant basis for rate determination purposes. Not applicable for purposes of additional bond test.)	\$ 172,549,891	\$ 232,491,813
Pledged revenue for the year ending June 30, 2018	\$ 261,762,454	\$ 288,473,958
Pledged revenue collected as a percentage of funding requirement	151.7%	124.1%
Amount in restricted cash and investments related to various bond indentures at June 30, 2018	\$ 142,631,408	\$ 99,654,215

The state revolving loans are issued as part of the State of Michigan's Revolving Fund Loan Program. As GLWA draws additional amounts from time to time hereafter, the outstanding principal amounts of such bonds will correspondingly increase. All loans are callable under terms specified in the loan agreements.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

Refunded Debt - Water Fund

In prior years, the Authority's water fund defeased certain bonds by placing the proceeds of new bonds in irrevocable trusts for the purpose of generating resources for all future debt service payments on the refunded debt. As a result, the refunded bonds are considered to be defeased and the trust fund assets and related liabilities have been removed from the statement of net position. At June 30, 2018, the balance of the bonds considered to be defeased are \$147,985,000 for Series 2005B revenue bonds and \$85,250,000 for Series 2006B revenue bonds.

Refunded Debt - Sewage Disposal Fund

In prior years, the Authority's sewage disposal fund defeased certain bonds by placing the proceeds of new bonds in irrevocable trusts for the purpose of generating resources for all future debt service payments on the refunded debt. As a result, the refunded bonds are considered to be defeased and the trust fund assets and related liabilities have been removed from the statement of net position. At June 30, 2018, the balance of the bonds considered to be defeased are \$25,550,000 for Series 2003B revenue bonds, \$134,745,000 for Series 2001E revenue bonds and \$123,185,000 for Series 2006A revenue bonds.

Issuance of State Revolving Loans

The Authority's water fund received loans from the State of Michigan Revolving Loan Fund totaling \$12,533,446 of which \$2,914,779 has been forgiven, and the sewage disposal fund received \$34,750,504 during the year ended June 30, 2018. The proceeds of the sewage disposal fund loans were used to pay costs of acquiring, constructing extensions, and making certain repairs and improvements to the regional sewer system. The water fund loans were for DWSD, the subrecipient of the loans. At June 30, 2018, \$9,572,859 for the water fund and \$73,934,487 for the sewage disposal fund was authorized and unissued.

Debt Ratings

As of September 30, 2016, Standard & Poor's Ratings Services ratings on the senior and second lien debt was A-/BBB+; Moody's rating was A3/Baa1 and Fitch's rating was A/A-. See note 20 for rating agency upgrades received in September 2018.

Contractual Obligation Receivable - Debt Allocation for DWSD Retail Operations

As part of the lease transaction in which GLWA leased the regional water and sewer system from the City of Detroit, all DWSD revenue bonds outstanding as of December 31, 2015, including those purchased by the Michigan Finance Authority under its state revolving loan program, were assumed by GLWA with the consent of bondholders. Total bonds assumed by GLWA totaled \$2,313,683,761 for the water fund and \$3,291,282,050 for the sewage disposal fund.

Per the Water and Sewer Services Agreement between DWSD and GLWA dated June 12, 2015 and the Master Bond Ordinance dated October 7, 2015, as amended, the Detroit retail class continues to pay its common-to-all share of debt service revenue requirements and its allocated share of debt service revenue requirements associated with improvements to the local water and sewer systems. Payments on the debt service incurred by GLWA on the outstanding revenue bonds assumed as of December 31, 2015 are to be allocated using an agreed-upon percentage of total debt service associated with bond-financed local improvements over the life of such bonds, though the bonds themselves continue to be secured by the net revenue of GLWA, and the revenues of the Detroit retail class. The Memorandum of Understanding (MOU) dated June 27, 2018 defines an agreed upon allocation and amortization schedule. The total obligation receivable at June 30, 2018 is \$490,599,529 for the water fund and \$346,828,300 for the sewage disposal fund.

Notes To Financial Statements

Obligation Payable - City of Detroit 2014 Financial Recovery Bonds

The Financial Recovery Bonds, Series 2014-B are federally taxable. The Series 2014-B bonds have two components: B(1) which has a 4.0 percent per annum interest rate and B(2) which has a variable interest rate until the maturity date of April 1, 2044. The bonds were delivered to classes of creditors in satisfaction of: (1) Class 12 OPEB claims the bonds were distributed to the new Voluntary Employee Beneficiary Associations (VEBA) for the general retirees and police and fire retirees; (2) Class 9 Pension Obligation Certificate (POC) claims; and (3) other unsecured bankruptcy claims. GLWA has a contractual obligation to pay a portion of the bonds based on an agreed-upon allocation percentage.

The Financial Recovery Bonds, Series 2014-C bear interest at 5.0 percent per annum. The bonds mature on December 10, 2026. The 2014-C bonds were issued as part of the Syncora Settlement and FGIC/POC Settlement in the bankruptcy plan. GLWA has a contractual obligation to pay a portion of the bonds based on an agreed-upon allocation percentage.

In 2018, the governing body of the City of Detroit authorized the use of general funds for the full redemption of the General Obligation Bonds, 2014 Series C, including the amount allocated to the Authority. The 2014 Series C debt was fully redeemed on April 13, 2018. The Authority will repay the City of Detroit General Fund under the terms of the original debt payment schedule for the General Obligation Bonds, 2014 Series C, including interest of 5 percent per year, with principal and interest due on June 30 each year, and a final maturity date of June 30, 2027.

The following is a schedule of the obligation payable for the Financial Recovery Bonds at June 30, 2018:

	Bond Issue	Original Issue Amount	Range of Interest Rates	Maturity Date	Outstanding Ending Balance
Water fund					
	Series 2014-B	\$ 26,540,080	4.00% and variable	4/1/44	\$ 15,556,024
	Series 2014-C	3,829,794	5.00%	12/10/26	1,709,479
	Total water fund				<u>17,265,503</u>
Sewage disposal fund					
	Series 2014-B	44,233,463	4.00% and variable	4/1/44	34,990,439
	Series 2014-C	6,382,990	5.00%	12/10/26	3,845,158
	Total sewage disposal fund				<u>38,835,597</u>
	Total business-type activities				<u>\$ 56,101,100</u>

Notes To Financial Statements

14. LONG-TERM LEASES PAYABLE AND RELATED PREPAID

On January 1, 2016, the Authority effectuated lease agreements with the City for the regional water and sewer systems for a term of 40 years, to be extended automatically to coincide with the final maturity of any bonds issued to finance improvements to the regional or local sewer systems. The agreements collectively provide for an annual lease payment of \$50 million. Currently, \$22,500,000 is allocated to the water fund and \$27,500,000 is allocated to the sewage disposal fund. The lease for the water system provides service to the wholesale customers and the retail water customers of the City up to the point of connection to the local water system facilities of the City. The lease for the sewer system provides service to the wholesale customers and the retail sewer customers of the City up to the point of connection to the local sewer system facilities of the City. In addition, both leases provide that certain other assets including cash and investments held by DWSD as of December 31, 2015 be transferred to GLWA, all revenues of the regional and local water and sewer systems are assigned to GLWA, and that GLWA assumes all DWSD bonded debt and certain other liabilities. The long-term leases are recorded as the present value of all future debt payments.

Amounts reported as a liability at year-end represent the net present value of all future lease payments. Changes in long-term leases payable for the year ended June 30, 2018 were as follows:

	Beginning Balance	Increase	Decrease	Ending Balance	Amount Due Within One Year *
Water fund	\$ 430,921,520	\$ -	\$ (4,618,173)	\$ 426,303,347	\$ 4,814,476
Sewage disposal fund	526,681,859	-	(5,644,436)	521,037,423	5,884,359
Total business-type activities	<u>\$ 957,603,379</u>	<u>\$ -</u>	<u>\$ (10,262,609)</u>	<u>\$ 947,340,770</u>	<u>\$ 10,698,835</u>

* The current portion of the long-term leases payable represents the 12 monthly payments required from July 1, 2018 through June 30, 2019. Future revenues are intended to cover these payments.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

As of June 30, 2018, aggregate requirements of the Authority's leases were as follows:

	Year Ended June 30,	Principal	Interest	Total
Water fund				
	2019	\$ 4,814,476	\$ 17,685,524	\$ 22,500,000

Sewage disposal fund			
Land	28,733,333	-	28,733,333
Easements	96,211,323	-	96,211,323
Site Improvements	36,265,930	16,989,529	19,276,401
Buildings and Structures	1,058,604,451	133,918,374	924,686,077
Infrastructure	596,856,313	34,515,910	562,340,403
Machinery and Equipment	1,090,752,050	261,514,220	829,237,830
Vehicles	1,352,511	1,105,940	246,571
	<u>2,908,775,911</u>	<u>448,043,973</u>	<u>2,460,731,938</u>
Total business-type activities	<u>\$4,998,956,224</u>	<u>\$ 805,849,680</u>	<u>\$4,193,106,544</u>

As part of the 2018 Memorandum of Understanding (MOU) with DWSD dated June 2018, the MBO requirement for six months of lease payments made to DWSD on January 1, 2016 will be treated as prepaid lease payments. The initial term of the leases began on the effective date and ends on December 31, 2055. GLWA's last monthly payment shall be June 1, 2055 and GLWA's \$25 million lease pre-payment on January 1, 2016 shall be applied to the period of July 1, 2055 through December 31, 2055. Of the \$25 million recorded as a prepaid on the statement of net position, \$11,250,000 is recorded in the water fund and \$13,750,000 in the sewage disposal fund.

15. LEASE OBLIGATION - RAW WATER RIGHTS

A lease obligation has been recorded related to the license of the raw water rights that were part of the 30-year service contract with the City of Flint. This lease obligation represents the future credits to the City of Flint's water bills as the City of Flint satisfies its monthly bond payment obligations to KWA. See related footnote for the raw water rights intangible asset (Note 8).

	Beginning Balance	Increase	Decrease	Ending Balance
Lease obligation - raw water rights	\$ -	\$ 106,999,919	\$ (759,343)	\$ 106,240,576

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

The future credits to be issued are detailed below:

Year Ended June 30,	Principal	Interest	Total
2019	\$ 2,999,458	\$ 3,980,046	\$ 6,979,504
2020	2,520,996	4,131,352	6,652,348
2021	2,624,820	4,027,432	6,652,252
2022	2,734,246	3,919,206	6,653,452

2034-2038	24,097,490	9,164,433	33,261,923
2039-2043	28,187,150	3,811,606	31,998,756
2044-2046	4,451,858	158,742	4,610,600
	<u>\$ 106,240,576</u>	<u>\$ 63,743,628</u>	<u>\$ 169,984,204</u>

16. RISK MANAGEMENT / SELF-INSURANCE PROGRAMS

The Authority is exposed to various types of risk of loss including torts; theft of, damage to, or destruction of assets; errors or omissions; job related illnesses or injuries to employees; natural disasters; and environmental occurrences. Also included are risk of loss associated with providing medical benefits to employees.

The Authority purchases a variety of insurance policies including: public officials and employment practices liability insurance, property insurance, pollution legal liability insurance and casualty insurance for workers' compensation, general liability, and automobile liability. The Authority purchases excess liability insurance for its casualty program which provides per occurrence and aggregate protection for up to \$8 million. The Authority's retention is \$1,250,000 for workers' compensation and \$250,000 for general liability and automobile. The Authority also has coverage under a pollution legal liability policy with limits of \$50 million, a property insurance policy with limits of \$750 million and a public officials policy with limits of \$25 million.

Settled claims relating to commercial insurance have not exceeded the amount of insurance coverage since inception of the Authority.

A liability for claims is reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of recent claim settlement trends including frequency and amount of payouts and other economic and social factors. The claim liabilities also include estimated costs for claim administration fees and outside legal and medical assistance costs. The liabilities for workers' compensation current year claims is based on estimates and payments are based on actuals.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

Under most circumstances, the Authority's maximum loss retention per occurrence was as follows:

Type of Risk	Maximum Retention Per Occurrence
Workers' compensation	\$1,250,000 per occurrence
General and automobile liability	\$250,000 per occurrence
Motor vehicle physical damage	Authority assumes all risk
Property damage	\$1,000,000 per occurrence
Public officials	\$250,000 per occurrence
Pollution legal liability	\$500,000 per occurrence

The Authority estimates the liability for medical and worker's compensation claims that have been incurred through the end of the fiscal year, including claims that have been reported as well as those that have not yet been reported, which includes estimates of both future payments of losses and related claim adjustments expense. The liability is based on individual claims and management's evaluation of experience with respect to the probable number and nature of claims. Any adjustments resulting from settlement of losses will be reflected in earnings at the time the adjustments are determined.

Medical insurance. The Authority provides medical benefits to a significant number of employees through a self-insured health plan that is administered by third party administrators. The Authority purchased stop loss insurance for its self-insured health plan with terms of \$300,000 per contract to reduce risk exposure for the group. The self-insured program is administered by a third-party administrator who provides claims review and processing services as well as illustrated premium rates, which are anticipated, over time, to approximate the actual cost of benefits.

	2018	2017
Unpaid claims, beginning of year	\$ 1,026,178	\$ 933,567
Incurred claims (including change in IBNR provisions)	8,598,908	8,986,780
Claims payments	(8,581,019)	(8,894,169)
Unpaid claims, end of year	<u>\$ 1,044,067</u>	<u>\$ 1,026,178</u>

Workers' compensation. The Authority maintains a self-insurance program for workers' compensation coverage up to the amount of its retention. The program is administered by a third-party who provides claim review and medical bill review services.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

Changes in the balances of claims liabilities during the past two years are as follows:

	2018	2017
Unpaid claims, beginning of year	\$ 250,000	\$ 351,231
Incurred claims (including change in IBNR provisions)	254,899	238,483
Claims payments	(201,660)	(339,714)
Unpaid claims, end of year	<u>\$ 303,239</u>	<u>\$ 250,000</u>

17. DEFINED CONTRIBUTION PENSION PLANS

Defined Contribution Plans

The Great Lakes Water Authority Defined Contribution Retirement Plan is a 401(a) governmental money purchase plan administered by ICMA Retirement Corporation (the "Administrator") to provide benefits at retirement to all full-time employees of the Authority. The Authority contributes 6.0% of earnings to the plan. The Authority will make an additional contribution to the 401(a) plan to match employee pre-tax contributions under the Great Lakes Water Authority 457 Plan up to 3% of compensation. Employees are 100% vested after three years of service (cliff vesting). Employees who transferred to the Authority on or around January 1, 2016 from DWSD retain their years of service for vesting purposes. Employer contributions totaled \$4,278,051 for the year ended June 30, 2018. At June 30, 2018, there were 1,025 plan members.

The Great Lakes Water Authority Defined Contribution Plan Make-Up Benefit is a 401(a) governmental money purchase plan administered by ICMA Retirement Corporation (the "Administrator") to provide benefits at retirement to all employees who terminated employment with DWSD on or around January 1, 2016 and were not vested in the City of Detroit General Retirement System (GRS). Eligible employees are required to rollover to the Authority's Section 457 Deferred Compensation Plan their refunded employee mandatory contribution from GRS. The amount of the make-up benefit determined by an actuary based on the present value of the lost GRS benefit was \$791,113 as of June 30, 2018. No contributions were made or required during the current year. Employees are 100% vested after one year of service.

The Authority has also adopted a Section 457 Deferred Compensation Plan which employees can make pre-tax contributions which are immediately 100% vested. At June 30, 2018, there were 830 plan members.

Retirement Health Savings Plan

The Authority also provides a Retirement Health Savings Program for full-time employees. Employees are required to contribute \$10 per pay period and the Authority contributes \$80 per pay period. Employees are 100% vested after three years of service (cliff vesting). Employees who transferred to the Authority on or around January 1, 2016 from DWSD retain their years of service for vesting purposes. Employer contributions were \$1,878,206 and employee contributions were \$236,262 for the year ended June 30, 2018. At June 30, 2018, there were 1,175 plan members.

Notes To Financial Statements

18. NET PENSION LIABILITY (SPECIAL FUNDING SITUATION)

As part of the City of Detroit bankruptcy plan of adjustment (POA) and the Leases (Section 4.3), the City, the City of Detroit General Employees' Retirement system (GRS or the "System") and the Authority entered into an agreement on December 1, 2015 that set forth the terms for contributions and reporting of the DWSD share of the GRS pension pool. GRS provides the information necessary for the Authority and DWSD to report the proportionate share separately in their respective statements. On January 24, 2017, DWSD and the Authority provided a supplement to the agreement whereby GRS is directed to allocate investments and pension liabilities of the DWSD division on the basis of 70.3% to the Authority and 29.7% to DWSD effective January 1, 2016. This information is available in a separate audit report for the "Legacy Pension Plan (Component II) of the General Retirement System of the City of Detroit Statement of Changes in Fiduciary Net Position by Division with Supplemental Information as of June 30, 2018" and is available by contacting the Authority's management. This agreement constitutes a special funding situation pursuant to the provisions of GASB 68, *Accounting and Financial Reporting for Pensions*. As such, while no Authority employees earn service credit in the legacy or hybrid plans, GLWA is legally responsible for making substantial contributions to a legacy pension plan of another entity and, accordingly, must record a net pension liability for its proportion and make the following disclosures regarding the plan as required by the standard.

Plan Administration. The Authority contributes to (and DWSD participates in) the System. The System is a single employer plan composed of a defined benefit plan component and a defined contribution annuity plan component. The plan provides retirement, disability, and survivor benefits to plan members and beneficiaries. The plan is administered by its own board of trustees. Plan members include active employees, retirees and beneficiaries from various departments within the City. Benefit terms have been established by contractual agreements between the City and the employees' collective bargaining units; amendments are subject to the same process.

The System issues publicly available financial reports that include financial statements and the required supplementary information. The reports can be obtained from City of Detroit Retirement Systems, One Detroit Center, 500 Woodward Avenue, Suite 3000, Detroit, MI 48226 or obtained from the Systems' website (www.rscd.org). Detailed information about the pension plan's fiduciary net position is available in the separately issued financial reports.

Benefits Provided. Plan members may retire at age 55 or 60 with 5, 8, 10 or 25 years of credited service depending on which group the employee is in. Members are vested after completing 5, 8 or 10 years of credited service. Retirement options that provide for survivor benefits are available to members. The Plan also provides death and disability benefits. If a member leaves employment or dies before vesting, accumulated member contributions plus interest are refunded to the member or designated beneficiary.

Component II is the legacy plan, the original defined benefit plan, which includes a defined benefit component and a defined contribution component. Component II generally applies to benefits accrued by members prior to July 1, 2014. The plan provides retirement, disability, and survivor benefits to plan members and beneficiaries. Except as specifically provided in the combined plan, benefits provided under Component II are frozen effective June 30, 2014. Component II also includes the income stabilization fund. The fund, a part of Component II and established as a provision of the POA, was established for the sole purpose of paying the income stabilization benefits to eligible pensioners. Complete details regarding the Component II benefits and changes in those benefits by virtue of the POA are presented in the System financial statements.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

Employer Contributions. Employer contributions, including the Authority's nonemployer contribution, for the respective components are as follows:

Employer contributions to the GRS were determined by the provisions of the POA. The 2016 employer contributions in Component II were sourced from the one-time sale of City-owned artwork with proceeds from the Foundation for Detroit's Future in the amount of \$32,886,827 along with \$4,005,830 from unlimited tax general obligation bonds and \$67,900,000 of contributions from the City and related entities, of which \$45,400,000 of contributions were from GLWA and DWSD. Employer contributions were also made into the income stabilization fund in the amount of \$1,689,857 from the bond proceeds. The 2017 employer contributions were sourced from the Foundation for Detroit's Future in the amount of \$375,000, \$22,588,402 from unlimited tax general obligation bonds received and receivable in 2017 and \$68,275,000 of contributions from the City, City-related entities and the Authority. Employer contributions were also made into the Income Stabilization Fund in the amount of \$9,539,874 from the unlimited tax general obligation bond refunding proceeds. In 2018 employer contributions were sourced from the Foundation for Detroit's Future in the amount of \$375,000, and approximately \$67.9 million of contributions from the City, City-related entities and the Authority. Employer contributions were also made into the Income Stabilization Fund for \$88,494 from the unlimited tax general obligation stub bond proceeds.

The POA obligates DWSD to pay \$2,500,000 per year towards administrative costs and annual plan contributions of \$42,900,000 per year in total for both water and sewer employees, until 2023. Pursuant to the leases, the Authority is obligated to pay its allocable share of such liability. The portion allocated to the Authority is \$31,916,200 for fiscal year 2018. Subsequent to 2023, DWSD and the Authority will be responsible for paying their allocable share of any additional amounts that are actuarially determined to be payable.

The information below represents the Authority's share of pension liability activity. DWSD separately reports its prorata share of activity in its separate financial statements.

DWSD Employee Contributions. Contribution requirements of plan members are established and may be amended by the GRS Board of Trustees in accordance with the City Charter, union contracts, and plan provisions. For the year ended June 30, 2018, there were minimal employee contributions into Component II, only related to military service credit, as the plan was frozen as of June 30, 2014; contributions into Component I began thereafter.

Net Pension Liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions.

Inflation	not applicable
Salary increases	not applicable
Investment rate of return	6.91%, net of investment expense and including inflation

The actuarial assumptions were based on an experience study from 2008-2013 issued in February 2015; the mortality table assumption was based on RP-2014 Blue Collar Annuitant Table for males and females. The tables are projected to be fully generational, based on two-dimensional sex distinct mortality scale MP-2014.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each asset class. These real ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. For each asset class that is included in the pension plan's target asset allocation as of June 30, 2017, these best estimates are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return	Expected Money-Weighted Rate of Return
Global equity	43.0%	5.33%	2.29%
Global fixed income	16.0%	3.07%	0.49%
Private equity	8.0%	7.23%	0.58%
Cash	1.0%	0.29%	0.00%
Real estate	10.0%	3.46%	0.35%
Global asset allocation/risk parity/real assets	17.0%	4.06%	0.69%
Hedge funds	5.0%	4.17%	0.21%
	<u>100.0%</u>		<u>4.61%</u>
Inflation			<u>2.30%</u>
Investment rate of return			<u>6.91%</u>

Discount Rate. The discount rate used to measure the total pension liability was 6.91%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Authority contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability. The components of the change in the Authority's share of the net pension liability are summarized as follows:

	Water	Sewage Disposal	Total
Total pension liability	\$ 198,242,719	\$ 354,791,535	\$ 553,034,254
Plan fiduciary net position	<u>(134,091,367)</u>	<u>(239,980,980)</u>	<u>(374,072,347)</u>
Authority's net pension liability	<u>\$ 64,151,352</u>	<u>\$ 114,810,555</u>	<u>\$ 178,961,907</u>

Notes To Financial Statements

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the net pension liability of the Authority, calculated using the discount rate of 6.91%, as well as what the Authority's net pension liability would be if it were calculated using a discount rate that is 1% lower (5.91%) or 1% higher (7.91%) than the current rate:

	1% Decrease (5.91%)	Current Discount Rate (6.91%)	1% Increase (7.91%)
Water	\$ 83,392,249	\$ 64,151,352	\$ 48,655,803
Sewage disposal	147,455,969	114,810,555	87,078,442
Authority's net pension liability	<u>\$ 230,848,218</u>	<u>\$ 178,961,907</u>	<u>\$ 135,734,245</u>

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the separately issued plan financial statements.

Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions. For the year ended June 30, 2018, the Authority recognized pension expense of \$8,933,691 and \$15,988,471 for the water and sewage disposal funds, respectively. At June 30, 2018, the Authority reported deferred outflows and inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	Net Deferred Outflows (Inflows) of Resources
Water fund			
Net difference between projected and actual earnings on pension plan investments	\$ 7,834,919	\$ 7,260,572	\$ 574,347
Employer contributions to the plan subsequent to the measurement date	10,810,800	-	10,810,800
	<u>18,645,719</u>	<u>7,260,572</u>	<u>11,385,147</u>
Sewage disposal fund			
Net difference between projected and actual earnings on pension plan investments	14,022,017	12,994,118	1,027,899
Employer contributions to the plan subsequent to the measurement date	19,347,900	-	19,347,900
	<u>33,369,917</u>	<u>12,994,118</u>	<u>20,375,799</u>
Total business-type activities	<u>\$ 52,015,636</u>	<u>\$ 20,254,690</u>	<u>\$ 31,760,946</u>

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the net pension liability for the year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ended June 30,	Water	Sewage Disposal	Total
2019	\$ (1,431,522)	\$ (2,561,970)	\$ (3,993,492)
2020	1,851,365	3,313,356	5,164,721
2021	1,148,925	2,056,211	3,205,136
2022	(994,421)	(1,779,698)	(2,774,119)
Total	<u>\$ 574,347</u>	<u>\$ 1,027,899</u>	<u>\$ 1,602,246</u>

Payable to the Pension Plan. At June 30, 2018, the Authority did not have any outstanding contributions payable to the pension plan for the year then ended.

19. COMMITMENTS AND CONTINGENCIES

Capital Improvement Program

The Authority is engaged in a variety of projects that are part of its five-year capital improvement program (the "Program"). The total cost of this Program is anticipated to be approximately \$712.8 million for the water fund and \$633.2 million for the sewage disposal fund through fiscal year 2023. The Program is being financed primarily from revenue bond proceeds in addition to customer charges revenue. The latter is accounted for in the Improvement and Extension Fund as defined in the MBO. As of June 30, 2018, the water fund has unspent bond proceeds of \$142.6 million and Improvement and Extension funds of \$220.8 million available for use in addition to state revolving fund loan resources of \$9,572,859 in funding these commitments. Similarly, the sewage disposal fund has unspent bond proceeds of \$100.0 million and Improvement and Extension funds of \$62.5 million available for use in addition to state revolving loan resources of \$73,934,487 in funding these commitments.

The total amount of construction contract commitments outstanding at June 30, 2018 was approximately \$52.0 million for the water fund and \$134.0 million for the sewage disposal fund.

Contingencies

The Authority is subject to various government environmental laws and regulations. GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*, established accounting and financial reporting standards for pollution (including contamination) remediation obligations, which are obligations to address the current or potential detrimental effects of existing pollution by participating in pollution remedial activities such as site assessments and cleanups. The standard excludes pollution prevention or control obligations with respect to current operations, and future pollution remediation activities that are required upon retirement of an asset, such as landfill closure and post-closure care. The Authority determined that there were no estimated pollution remediation obligations to be recorded at June 30, 2018.

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

The sewage disposal fund's operations are subject to regulation pursuant to the Federal Water Pollution Control Act, as amended by the Clean Water Act of 1977 and the Water Quality Act of 1987 (collectively, the Clean Water Act). Included in the regulatory framework established by the Clean Water Act is the National Pollutant Discharge Elimination System (NPDES) permit program, which requires operation of wastewater system facilities according to discharge limitations and other requirements as set forth in permits issued to each facility. The Environmental Protection Agency (EPA) has authorized the Michigan Department of Environmental Quality (MDEQ) to implement and enforce the federal NPDES permit program. The sewage disposal fund operates pursuant to the NPDES Permit. The Authority's current NPDES permit expired on October 1, 2018; however, it remains in effect until the MDEQ issues a new NPDES permit. GLWA expects the MDEQ to issue a new NPDES permit between March-May 2019.

The Authority is a defendant in numerous alleged claims, lawsuits, billing disputes, and other stated and pending demands. The Authority's Legal Department has estimated a reserve of \$2,245,000 for the water fund and \$7,834,392 for the sewage disposal fund, which are included in the accompanying financial statements, for the potential outcome of such claims or the amount of potential damages in the event of an unfavorable outcome for each of the above contingencies. The Authority's management believes that any differences in reserved amounts and final settlement, after consideration of claims covered by insurance, resulting from such litigation will not materially impact the Authority's financial position or results of operations.

The Authority holds various commercial insurance policies to cover other potential loss exposures.

20. SUBSEQUENT EVENTS

Reconciliation Committee and DWSD Budget Shortfall

On June 27, 2018, the Board of Directors for the Authority and the Board of Water Commissioners for the DWSD approved a Memorandum of Understanding (MOU). The Leases and the Water and Sewer Services Agreement ("WSSA") between the City and GLWA and the MBO, govern the relationship between DWSD and GLWA, which began on January 1, 2016 (the "Effective Date"). The purpose of the MOU is to (a) provide clarification of specific sections of the Leases, WSSA and MBO; (b) make adjustments contemplated by the Leases and the WSSA; and (c) address the liquidation of specific liabilities. Most financial provisions of the MOU were recorded by GLWA in the June 30, 2017 year-end financial statements based on an executed term sheet that preceded the final MOU in April 2018. Because DWSD's financial statements were already issued, the financial impact of the MOU will be reflected in the DWSD financial statements for the year ending June 30, 2018.

Item 9 of the executed MOU outlines requirements for the Reconciliation Committee—originally defined by the WSSA—to meet quarterly to "expand the level of communication between the two entities related to financial, operational, legal, capital planning, and other matters and opportunities for improved management and coordination of both entities and foster a positive partnership in the water services sector." Item 12 further describes a specific function of the Reconciliation Committee to address any "cumulative negative variance of more than two percent (2%) of the total budget for either Local System."

GREAT LAKES WATER AUTHORITY

Notes To Financial Statements

As of June 30, 2018, GLWA reports a net positive water fund balance for the DWSD balance of required trust receipts and disbursements under the MBO. GLWA reports a negative balance of \$47,768,427 for the DWSD sewer fund which exceeds the two percent variance threshold. The budget shortfall not cured by the end of the fiscal year following the year in which they arise shall be repaid in full, in installments over a period not to exceed three fiscal years. A surcharge based on the three-year U.S treasury note rate plus 150 basis points. The negative balance of \$27,514,000 from the prior year is recorded as a loan receivable (note 6). The Reconciliation Committee has met and discussed this variance as required. As of November 7, 2018, DWSD (as operator of the Local System) has discussed options to cure this shortfall with its Board of Water Commissioners and at a Reconciliation Committee meeting on October 19, 2018. A written agreement is presently under discussion to document the plan to cure.

Water Bond Refunding, Sewer Bond Refunding and Sewer New Money Bond Transaction

On October 3, 2018, the Authority issued a water bond refunding transaction and a bond refunding and new money sewage system transaction. The Authority issued \$155,595,000 of Water Supply System Revenue Bonds and \$257,465,000 of Sewage Disposal System Revenue Bonds (\$81,595,000 in new money and \$175,870,000 in refunding bonds). The net present value savings from the refunding transactions was a total of \$59.42 million with \$24.90 million for the water fund and \$34.52 million for the sewage disposal fund.

Rating Agency Upgrades

In September 2018, S&P Global Ratings upgraded the Authority's senior lien water system rating by three notches to AA- and its second lien water system rating by three notches to A+. It also upgraded the Authority's senior lien sewer system rating up by two notches to A+, and its second lien sewer system was increased by two notches to A. Both the senior and second sewer liens were assigned a positive outlook. Moody's Investors Service upgraded the Authority's water system and sewer system senior lien ratings one notch to A2, and its second lien ratings one notch to A3. All were assigned a stable outlook. Fitch affirmed the Authority's ratings for its water system and sewer system senior lien bonds at an A, and its second lien bonds at an A-, both with positive outlooks.

The Authority has increased its use of the State of Michigan's state revolving fund (SRF) loans as a lower cost of borrowing resource. Given the Authority's level of participation in the program, the Authority was asked by the State to seek a rating for the corresponding debt category (i.e. junior lien bonds). In November 2018, S&P Global Ratings assigned an A+ rating to the Authority's junior lien water system SRF bonds and an A rating to the Authority's junior lien sewer system SRF bonds.

Plan fiduciary net position as a percentage of total pension liability	67.6%	64.6%	69.9%

*As described in Notes 1 and 12 GLWA was established on January 1, 2016, and GLWA assumed a portion of the net position and liabilities of the City of Detroit Water and Sewerage Department. This reflects only the portion allocated to GLWA.

**The 2015 information is presented based on City of Detroit Water and Sewerage Department (DWSD) prior to the establishment of GLWA. The amounts shown represent GLWA's allocation, fiduciary net position and net pension liability. The actual employer contributions made by DWSD were \$24,448,667.

Note: This schedule is being built prospectively; ultimately, 10 years of data will be presented.

Schedule of Revenue Requirement

Budget to Actual - Consolidated Water System

For the Year Ended June 30, 2018

The schedule presents a consolidated calculation of revenue requirements for both the GLWA regional water system and the DWSD local water system based upon budgets adopted by both entities. The revenue requirement components are presented in a manner consistent with the Master Bond Ordinance flow of funds. Individual schedules for both entities (the GLWA Regional Water System and the DWSD Local Water System) follow. Amounts shaded in grey indicate local system components.

	2018 Budget	2018 Actual [2]	Variance
Revenues			
Regional system:			
Regional system wholesale revenues - suburban wholesale	\$ 310,019,800	\$ 323,117,344	\$ 13,097,544
Regional system wholesale revenues - Detroit customers	15,130,600	15,130,600	-
Total regional system revenues	325,150,400	338,247,944	13,097,544
Operating revenue:			
DWSD local system revenues - Detroit customers	73,860,600	80,542,437	6,681,837
Miscellaneous revenue (local system)	4,750,000	3,441,349	(1,308,651)
Other operating revenue	-	64,200	64,200
Total operating revenue	78,610,600	84,047,986	5,437,386
Nonoperating revenue:			
Nonoperating revenue (regional system)	2,968,900	4,489,397	1,520,497
Total revenues	\$ 406,729,900	\$ 426,785,327	\$ 20,055,427

Budget to Actual - GLWA Regional Sewer System
For the Year Ended June 30, 2018

This schedule presents a calculation of revenue requirements for the GLWA regional sewer system based upon the budget adopted by the GLWA Board of Directors. The revenue requirement components are presented in a manner consistent with the Master Bond Ordinance flow of funds. The Consolidated Sewer System Schedule of Revenue Requirements combines this schedule and the DWSD Local Sewer System Schedule of Revenue Requirements.

	2018 Budget	2018 Actual	Variance
Revenues			
Regional system:			
Regional System Wholesale Revenues - Suburban Wholesale	\$ 267,033,800	\$ 268,978,831	\$ 1,945,031
Regional System Wholesale Revenues - Detroit Customers	178,969,200	178,969,200	-
Industrial Waste Control Charges-Suburban Customers	14,457,700	14,334,979	(122,721)
Industrial Surcharges	5,099,000	6,908,404	1,809,404
Total regional system revenues	465,559,700	469,191,414	3,631,714
Operating revenue -			
Other operating revenue	-	4,391,145	4,391,145
Nonoperating revenue -			
Nonoperating revenue (regional system)	2,751,000	4,022,582	1,271,582
Total revenues	\$ 468,310,700	\$ 477,605,141	\$ 9,294,441
Revenue requirements			
Operations and maintenance:			
Regional system wholesale expenses	\$ 191,079,400	\$ 191,079,400	\$ -
GRS pension allocable to regional system	10,824,000	10,809,600	(14,400)
Total operations and maintenance	201,903,400	201,889,000	(14,400)
Net revenues after operations and maintenance	266,407,300	275,716,141	9,308,841
Nonoperating activities:			
Debt service allocable to regional system	207,615,500	202,965,506	(4,649,994)
GRS accelerated pension from regional system	11,620,700	12,118,599	497,899
WRAP contribution from regional system	2,391,800	2,391,800	-
ER&R fund contribution from regional system	813,600	813,600	-
Contribution to operating reserves	1,733,000	1,733,000	-
Total nonoperating activities	224,174,600	220,022,505	(4,152,095)
Amount available for revenue financed capital	42,232,700	55,693,636	13,460,936
Reserve for revenue financed capital from net revenues			
Lease payment to local system I&E account [1]	\$ 27,500,000	\$ 27,500,000	\$ -
Net revenues available for revenue financing capital and operating reserves regional system [2]	14,732,700	28,193,636	13,460,936
Reserve for revenue financed capital both systems	42,232,700	55,693,636	13,460,936
Total revenue requirements	\$ 468,310,700	\$ 477,605,141	\$ 9,294,441

[1] These items are disbursements for establishing revenue requirements for customer charges and are not representative of full accrual basis accounting. Actual amounts are cash transfers in accordance with the MBO.

[2] Transfers are typically made in the subsequent year following the final analysis of yearend results.

Schedule of Revenue Requirement

Budget to Actual - DWSD Local Sewer System
For the Year Ended June 30, 2018

This schedule presents a calculation of revenue requirements for the DWSD local sewer system based upon the budget adopted by the DWSD Board of Water Commissioners. The revenue requirement components are presented in a manner consistent with the Master Bond Ordinance flow of funds. The Consolidated Sewer System Schedule of Revenue Requirements combines this schedule and the GLWA regional Sewer System Schedule of Revenue Requirements. Amounts shaded in grey indicate local system components.

	2018 Budget [1]	2018 Actual [2]	Variance
Revenues			
Operating revenue:			
DWSD local system revenues - Detroit customers [3]	\$ 77,922,900	\$ 71,030,775	\$ (6,892,125)
Miscellaneous revenue (local system)	5,000,000	5,089,230	89,230
Total revenues	<u>\$ 82,922,900</u>	<u>\$ 76,120,005</u>	<u>\$ (6,802,895)</u>
Revenue requirements [4]			
Operations and maintenance:			
Local system expenses	\$ 60,402,000	\$ 60,517,992	\$ 115,992
GRS pension allocable to local system	2,856,000	2,844,200	(11,800)
Total operations and maintenance	<u>63,258,000</u>	<u>63,362,192</u>	<u>104,192</u>
Net revenues as defined by the MBO	<u>19,664,900</u>	<u>12,757,813</u>	<u>(6,907,087)</u>
Nonoperating activities:			
Debt service allocable to local system	27,392,500	26,767,599	(624,901)
GRS accelerated pension from local system	3,066,800	3,197,100	130,300
WRAP contribution from local system	369,000	369,000	-
Lease payment directed to debt service [5]	(11,163,400)	(9,166,667)	1,996,733
Revenue requirement variance	-	(8,409,219)	(8,409,219)
Total nonoperating activities	<u>19,664,900</u>	<u>12,757,813</u>	<u>(6,907,087)</u>
Total Revenue Requirements (Local System)	<u>\$ 82,922,900</u>	<u>\$ 76,120,005</u>	<u>\$ (6,802,895)</u>

[1] Reflects budget presented in the Series 2018 Bond Official Statement. Adjustments are attributable to reallocation of certain non-operating revenue requirements.

[2] At the time of the issuance of the GLWA CAFR, DWSD's audited June 30, 2018 financial report had not been released. The amounts above reflect DWSD's management representation of preliminary financial results for the year ended June 30, 2018.

[3] Net of bad debt expense.

[4] Item is not considered an expense for accounting purposes but is for revenue requirement basis in establishing customer charges. Actual amounts are based on cash transfers made to the MBO bank accounts that must be funded by revenue.

[5] Lease Payment Allocation:

Total Lease Payment	27,500,000	27,500,000	-
Amount Directed to Debt Service	(11,163,400)	(9,166,667)	1,996,733
Balance to be Deposited to Local System I&E Account for Revenue Financed Capital	16,336,600	18,333,333	1,996,733

GREAT LAKES WATER AUTHORITY

Statistical Section Table of Contents

The objective of the statistical section is to provide financial statement users with additional historical perspective, context and detail to assist in using the information in the financial statements, notes to financial statements and required supplementary information to understand and assess the Authority's economic condition.

The statistical section information is presented in the following categories:

		<u>Page</u>
Financial Trends Schedules 1 through 3	Financial trends information is intended to show how the Authority's financial position has changed over time.	109
Revenue Capacity Schedule 4	Revenue capacity information is intended to show the factors affecting the Authority's ability to generate its own-source revenue.	119
Debt Capacity Information Schedules 5 through 9	Debt capacity information is intended to show the Authority's debt burden and its ability to issue additional debt.	120
Demographic and Economic Schedules 10 through 14	Demographic and economic information is intended to show the socioeconomic environment within which the Authority operates.	131
Operating Information Schedule 15 through 17	Operating information is intended to show contextual information about operations and resources to provide understanding and assessing the Authority's economic condition.	139

[1] Reflects fiscal period in which actual payments are due.

[2] For bonds issued through the Michigan Finance Authority (MFA) in 2014 and 2015, the Authority is required to make payment on these obligations to the MFA depository accounts five business days prior to the due date of the bond principal and interest payments. Therefore, the payments for the principal and interest due on July 1, 2018, are not included in the debt service requirement amounts above as they were paid June 25, 2018.

[1] Flint contract terminated April 2013, but service provided through April 2014 and re-established in November 2015 on a temporary basis until a long-term contract took effect on December 1, 2017. Non-contract service has been provided to Genesee County Drain Commission (GCDC) from May 2014 through mid-December 2017. GCDC changed service providers in December 2017 and has contracted with GLWA for as needed emergency water service.

*GLWA assumed operations on January 1, 2016. The information in this table from 2009-2015 is based on operations under DWSD. Data for 2016 includes six months of operation under DWSD and 6 months of operation under GLWA.

[1] Represents, in part, estimated volumes based on pump curves and engineering analysis. GLWA engineering studies in 2017 concluded that total water production values for calendar year 2016 were over-reported by 5.8%.

[2] Represents metered wholesale amounts for all customers other than Detroit, Dearborn, and Highland Park. Water sales to those customers reflect, in part, estimated retail water sales during this period. GLWA is modifying this approach, which will result in larger reported water sales figures in future years.

[3] As noted in [1] and [2], these values are likely overestimated. GLWA expects recently modified flow measuring methods to result in lower values in future years.

*GLWA assumed operations on January 1, 2016. The information in this table from 2009-2015 is based on operations under DWSD. Data from 2016 includes six months of operation under DWSD and 6 months of operation under GLWA.

Pledges of Revenue and Debt Service Coverage - Water Fund
as of June 30, 2018

The Authority has pledged specific revenue streams to secure the repayment of the revenue bonds and State of Michigan revolving fund loans. The bonds and loans are paid solely from the net revenues of the Water System including the retail revenues from the Retail Customers who are serviced under the Water and Sewer Services Agreement with the City of Detroit. The pledged revenues for the fiscal year ending June 30, 2018 were reported by two entities because of the lease agreement between the City of Detroit and Great Lakes Water Authority which became effective on January 1, 2016. The pledged revenue definition in the Great Lakes Water Authority Master Bond Ordinance includes the retail revenues of the City of Detroit Water and Sewerage Department as this revenue is pledged for payment of the bonded debt owed by the Great Lakes Water Authority. A summary of the pledged revenue and the applicable debt as of June 30, 2018 is as follows:

[1] Total GLWA Regional System Wholesale Revenue

[2] Computed consistent with rate Covenant basis for rate determination purposes. Not applicable for purposes of additional bond test calculations.

[3] The purpose of this information is to show a combined reference of the regional system revenue requirements as approved by the GLWA and the local revenue requirements adopted and amended by DWSD included here for review of budget-to-actual performance in alignment with the Master Bond Ordinance. The DWSD budget reflects budget presented in the Series 2018 Bond Official Statement. Adjustments are attributable to reallocation of certain non-operating revenue requirements.

[4] At the of the issuance of the GLWA CAFR, DWSD's audited financial report had not been released. The local system amounts above reflect DWSD's management representation of preliminary financial results for the year ended June 30, 2018.
