Construction services as proposed are not within their scope of service. The Project documents did not require identification of suppliers and manufacturers as intended resources.   |
| PICA Corp                        | Dave Russell  | <a href="mailto:drussell@russeltech.com">drussell@russeltech.com</a>                     | They had signed a Teaming Agreement with HDR for a GLWA project, found out it was for a different project. The RFQ seems to have been written with Pure Technologies Tools in mind. Their tools require that the pipes which are larger than 36" are shut down and drained. Their experience has only been on bar-wrapped PCCP. |
