Subject: RE: Public Comment to GLWA Board Meeting on September 25, 2019
Date: Monday, October 28, 2019 1:29:06 PM

Mr. Vannilam,

Thank you for your email and willingness to answer any questions I may have for you. As the EGLE compliance staff for the GLWA Water Resource Recovery Facility, I will be reviewing the GLWA's standard operating procedure for compliance with the NPDES Permit and 40 CFR 136. I will also inspect the laboratory procedures against the standard operating procedures to verify if the analysis procedure provides reliable data. I intend for this inspection to be unannounced; since all of our communications are FOIA'able, I am not specifying a date or deadline in this email. I will provide the documentation to you of my inspection once it has been completed. We can discuss further at that time.

Thank you,
Steven Eick, PE
