

**Date:** June 24, 2020

**To:** Great Lakes Water Authority Audit Committee

From: Lisa L Mancini, Financial Planning & Analysis Manager

**Re:** FY 2020 Quarterly Budget Amendments through June 30, 2020 and Proposed

**Budget Amendment Resolution** 

**Background:** In accordance with the budget amendment policy, articles, and by-laws for the Great Lakes Water Authority, a quarterly budget amendment report is presented for review by the Audit Committee. If budget amendments are required at the appropriation level as defined by the corresponding fiscal year budget adoption resolution, the Audit Committee will review the proposed budget amendments and forward to the Board of Directors with a recommendation.

**Analysis:** The budget amendment report is organized in the following manner.

#### 1. Appropriation Level - Revenue Requirement - Water and Sewer Systems

- a. Supplemental Information Fund Level Water System and Sewer System
- b. Supplemental Information Enterprise-wide Core Groups
- c. Supplemental Information Enterprise-wide Operations & Maintenance Account Type
- d. Supplemental Information Enterprise-wide Operations & Maintenance Department and Account Level Amendments (see Addendum)

# 2. Appropriation Level - Improvement & Extension Fund - Water and Sewer Systems

#### 3. Appropriation Level - Construction Bond Fund - Water and Sewer Systems

A budget amendment resolution reflecting the budget amendments is also attached.

**Proposed Action:** The Audit Committee recommends that the Board of Directors for the Great Lakes Water Authority adopt the proposed budget resolution for the FY 2020 budget amendments.

|-----------------------------------|---|
| Revenues                          |   |
| Suburban Wholesale Customer       | As reported in the monthly Audit Committee binders, a negative demand variance from a)    |
| Charges                           | summer 2019 weather conditions and b) ongoing trend of reduced demand in off-peak         |
|                                   | months existed throughout most of the fiscal year. Recent demand in June has narrowed     |
|                                   | the potential shortfall. At this time, an amendment is proposed for the revenue shortfall |
|                                   | forecast of approximately \$4.6 million.  |
| Retail Services Charges           | No amendment is proposed.   |
| Investment Earnings               | Decrease in earnings due to market conditions since declaration of COVID-19 pandemic      |
|                                   | emergency.  |
| Other Revenues                    | Amendment proposed based on activity to date. This source of revenue fluctuates from      |
|                                   | year to year.   |
| Revenue Requirements (Expenditur  | es)   |
| Operations & Maintenance Expense  | Expenses were reduced to align with charge revenue reductions. Additional information     |
|                                   | related to the details of how this was accomplished is provided in this report.           |
| General Retirement System Legacy  | Budget and funding are on a fixed schedule. No budget amendment is required.              |
| Pension                           |   |
| Debt Service                      | Decrease largely due to May 2020 refunding transaction.                                   |
| General Retirement System Legacy  | Budget and funding are on a fixed schedule. No budget amendment is required.              |
| Pension – Accelerated Payment     |   |
| Extraordinary Repair &            | This is a formulaic requirement in the Master Bond Ordinance. Based on adopted and        |
| Replacement                       | amended budget, no adjustment is required.  |
| Water Residential Assistance      | Budget is fixed at time of budget adoption. No amendment is required.                     |
| Program Contribution              |   |

| Appropriation Level - Revenue Rec             | uirement - Water System General Operating Budget Amendment Explanation   |
|---|--|
| Lease Payment                                 | Lease payment is established in accordance with terms of the lease. No amendments are required for FY 2020.  |
| Operating Reserve Deposit                     | This is a formulaic requirement in the Master Bond Ordinance. Based on adopted and amended budget, no adjustment is required.  |
| DWSD Budget Shortfall Pending                 | Represents budget shortfall attributable to decline in collections since declaration of COVID-19 pandemic emergency. The 2018 Memorandum of Understanding provides guidance related to repayment to the extent that the shortfall is not cured by other means before June 30 <sup>th</sup> of the subsequent year. |
| Improvement & Extension Fund Transfer Pending | Represents annual funding for pay-as-you-go capital improvement program. Budget amendments to investment earnings, debt service, and DWSD budget shortfall affect this line item.  |

| Appropriation Level - Revenue Rec | quirement - Water System General Operating Budget Amendment Explanation                     |
|-----------------------------------|---|
| Revenues                          |   |
| Suburban Wholesale Customer       | No amendment is proposed.   |
| Charges                           |   |
| Retail Services Charges           | No amendment is proposed.   |
| Industrial Waste Control Charges  | Previously this line included pollutant surcharges. The budget amendment is to reclassify   |
|                                   | those charges to a new line. The net budget impact is zero.                                 |
| Pollutant Surcharges              | See explanation for Industrial Waste Control Charges.                                       |
| Investment Earnings               | Decrease in earnings due to market conditions since declaration of COVID-19 pandemic        |
|                                   | emergency.  |
| Other Revenues                    | Amendment proposed based on activity to date. This source of revenue fluctuates from        |
|                                   | year to year.   |
| Revenue Requirements (Expenditur  | es)   |
| Operations & Maintenance Expense  | Enterprise-wide centralized services and administrative expenses were reduced to achieve    |
|                                   | corresponding revenue charge revenue reductions for the water system. Additional            |
|                                   | information related to the details of how this was accomplished is provided in this report. |
| General Retirement System Legacy  | Budget and funding are on a fixed schedule. No budget amendment is required.                |
| Pension                           |   |
| Debt Service                      | Decrease largely due to forecast versus actual timing of state revolving fund loan draws,   |
|                                   | interest for a new money bond issue that was deferred, and an adjustment for a variable     |
|                                   | rate debt.  |
| General Retirement System Legacy  | Budget and funding are on a fixed schedule. No budget amendment is required.                |
| Pension – Accelerated Payment     |   |
| Extraordinary Repair &            | This is a formulaic requirement in the Master Bond Ordinance. Based on adopted and          |
| Replacement                       | amended budget, no adjustment is required.  |

| Appropriation Level - Revenue Rec             | quirement - Water System General Operating Budget Amendment Explanation  |
|---|--|
| Water Residential Assistance                  | Budget is fixed at time of budget adoption. No amendment is required.  |
| Program Contribution                          |  |
| Lease Payment                                 | Lease payment is established in accordance with terms of the lease. No amendments are required for FY 2020.  |
| Operating Reserve Deposit                     | This is a formulaic requirement in the Master Bond Ordinance. Based on adopted and amended budget, no adjustment is required.  |
| DWSD Budget Shortfall Pending                 | Represents budget shortfall attributable to decline in collections since declaration of COVID-19 pandemic emergency. The 2018 Memorandum of Understanding provides guidance related to repayment to the extent that the shortfall is not cured by other means before June 30 <sup>th</sup> of the subsequent year. |
| Improvement & Extension Fund Transfer Pending | Represents annual funding for pay-as-you-go capital improvement program. Budget amendments to investment earnings, debt service, and DWSD budget shortfall affect this line item.  |

| Wastewater System Operations | 187,057,200                           |      | -                        | -                                    | -                                    | (5,131,400)                          |    | (5,131,400)    | 181,925,800                  |     | 125,351,800                          |
| Total                        | \$<br>318,547,700                     | \$   | -                        | \$<br>-                              | \$<br>-                              | \$<br>(9,781,700)                    | \$ | (9,781,700)    | \$<br>308,766,000            | \$2 | 222,414,100                          |

As shown in the table above, there are no budget amendments for transfers of resources between the water and sewer funds. It is unforeseen that such an amendment would occur as each system is accounted for as a stand-alone entity. The purpose of this table is to transparently report that funds from one system do not provide budget support to the other system.

| Total   | \$ 318,547,700                        | <b>S</b> -                           | <b>S</b> -                           | <b>\$</b> -                          | \$ (9,781,700)                       | \$ (9,781,700) | \$ 308,766,000               | \$222,414,100                         |

A subset of the operating funds are core groups that account for A) direct cost of water operations, B) direct cost of sewer operations, C) centralized services (e.g. field services, security, information technology, facilities, and fleet), D) administrative services (e.g. finance, public affairs, general counsel, and organizational development). The costs of the latter two categories are allocated to the water and sewer systems based upon an internal cost allocation plan that is performed on an annual basis. Through the entire FY 2020, there are no amendments that cross the core groups. For more activity within these groups, see *Supplemental Information - Enterprise-wide Operations & Maintenance Department and Account Level Amendments (Addendum 1)*.

| Administrative & Other Services | 350,212                               | -                                    | (220,000)                            | -                                    | 545,025                              | 325,025        | 675,237                      |
| Total                           | \$ 6,965,246                          | <b>S</b> -                           | \$ 7,280,350                         | <b>S</b> -                           | \$ (1,514,647)                       | \$ 5,765,703   | \$ 12,730,949                |

An Unallocated Reserve account is established for each of the four core groups. Budget is assigned to these accounts to cover expenditures not known at the time the budget is developed (merit increases, fluctuations within maintenance contracts and usage of utilities and chemicals, projects and initiatives not planned at the time the initial budget was developed, etc.). It is GLWA's internal budget directive for each area, group, and team to manage their needs to an amount within the initial budget. If required, an amendment is made from the unallocated reserve. If an area does not require as much funding as was established in the original budget, that department's budgeted expenses are reduced, and the unallocated reserve is increased.

As we look toward the FY 2020 fiscal year-end, of the four core groups, the budget for Water System Operations is the closest to actual. This group is being monitored closely. In running the activity report through June 21, 2020, the daily average *actual* expense is \$177, 000 while the daily average *budgeted* expense is \$180,000.

For additional information on the FY 2020 changes to the unallocated reserve, see *Supplemental Information - Enterprise-wide Operations & Maintenance Department and Account Level Amendments (Addendum 1).*

| Appropriation Level - Improvemen  | nt & Extension Fund - Water System Budget Amendment Explanation   |
|-----------------------------------|---|
| Revenues                          |   |
| Water System Revenue Transfers In | To match the amount available for transfer from FY 2020 revenue requirement based upon general operating fund performance.  |
| Earnings on Investments           | Has not been budgeted as there is a corresponding transfer of earnings back to general operating fund as allowed by the Master Bond Ordinance. The net effect on the I&E Fund is zero as the earnings are budgeted and accounted for in the operating fund to lower revenue requirement for charges. Amendment is for estimated amount. |
| Net Use (Source) of Reserves      | This amount represents the net amount of revenues less expenses. A negative amount represents an increase in reserves from current year activity rather than a use of reserves.   |

| Appropriation Level - Improvement & Extension Fund - Water System Budget Amendment Explanation |   |  |  |  |  |  |  |  |
|--|---|--|--|--|--|--|--|--|
| Expenditures   |   |  |  |  |  |  |  |  |
| Water System Revenue Transfers   | Has not been budgeted as there is a corresponding transfer of earnings back to general    |  |  |  |  |  |  |  |
| Out (Earnings on Investments)  | operating fund as allowed by the Master Bond Ordinance (so the net effect on the I&E Fund |  |  |  |  |  |  |  |
|  | is zero). Amendment is for estimated amount. Amount offsets Earnings on Investments.      |  |  |  |  |  |  |  |
|  | Any variance between the two line items represents a timing difference.                   |  |  |  |  |  |  |  |
| Capital Improvement Plan Projects –  | Represents projects in the Board adopted capital improvement plan (CIP) that do not meet  |  |  |  |  |  |  |  |
| I&E Funded   | the criteria for debt financing.  |  |  |  |  |  |  |  |
| Capital Outlay   | Overall decrease in spending than planned. Partially driven by shift in organizational    |  |  |  |  |  |  |  |
|  | priorities as a result of the COVID-19 pandemic.  |  |  |  |  |  |  |  |
| Revenue Financed Capital – Transfer  | Original budget presumed a certain level of capital spending which did not occur. No      |  |  |  |  |  |  |  |
| to Construction Fund   | transfer therefor necessary as sufficient bond funds exist and should be utilized first.  |  |  |  |  |  |  |  |

The net effect on the I&E Fund is zero as the earnings are budgeted and accounted for in the operating fund to lower revenue requirement for charges. Amendment is for estimated amount. |  |  |  |  |  |  |  |
| Net Use of Revenues               | This amount represents the net amount of revenues less expenditures. A negative amount represents an increase in reserves from current year activity rather than a use of reserves.   |  |  |  |  |  |  |  |

| Appropriation Level - Construction Bond Fund - Water System Budget Amendment Explanations |   |  |  |  |  |  |
|---|---|--|--|--|--|--|
| Revenues  |   |  |  |  |  |  |
| Transfers from Improvement  | The financial plan focuses on spending bond proceeds first for the capital improvement plan       |  |  |  |  |  |
| & Extension Fund  | (CIP) then I&E funds. The initial budget for FY 2020 anticipated a higher level of CIP spend than |  |  |  |  |  |
|   | what has occurred. Sufficient bond funds remain to pay for the actual expenditures; therefore     |  |  |  |  |  |
|   | no transfer will be needed for FY 2020.   |  |  |  |  |  |
| Bond Proceeds   | There were no water system bond proceeds for FY 2020.   |  |  |  |  |  |
| Grant Revenues  | State revolving fund loan disbursements are on a reimbursement basis. The amount and timing       |  |  |  |  |  |
| (State Revolving Fund Loans)  | of funds fluctuates with project expenditures incurred. Details related to the SRF projects are   |  |  |  |  |  |
|   | presented in the quarterly debt report. The most recent quarterly debt report is presented in the |  |  |  |  |  |
|   | May 2020 Audit Committee binder which provides details related to the SRF funding and             |  |  |  |  |  |
|   | associated projects.  |  |  |  |  |  |
| Earnings on Investments   | No amendment needed at this time.   |  |  |  |  |  |

| Appropriation Level - Cons                  | Appropriation Level - Construction Bond Fund - Water System Budget Amendment Explanations   |  |  |  |  |  |  |  |
|---|---|--|--|--|--|--|--|--|
| Net Use of Revenues                         | This amount represents the net amount of revenues less expenditures. A "use of reserves" indicates a spend down of prior year reserves. The amount has been amended to reflect eliminated need for I&E funds for FY 2020 (sufficient bond funds are available based upon a revised spend rate).   |  |  |  |  |  |  |  |
| Expenditures                                | Teviseu spenu rutej.  |  |  |  |  |  |  |  |
| Capital Improvement Plan                    | After contracts are awarded at amounts variant from the CIP plan and more reliable anticipated spend data becomes available, the am ended budget for the current fiscal year nincrease or decrease by way of "Capital Reserve" budget amendments.   |  |  |  |  |  |  |  |
| Capital Spend Rate<br>Assumption Adjustment | The Board of Directors adopts a capital spending ratio assumption (SRA) which allows the realities of capital program delivery to align with the financial plan. The SRA is an analytical approach to bridge the total dollar amount of projects in the CIP with what can realistically be spent due to limitations beyond GLWA's control and/or delayed for nonbudgetary reasons. Those limitations, whether financial or non-financial, necessitate the SRA for budgetary purposes, despite the prioritization established. Amendments to the spend rate assumption are made to align the projected financial use of resources with revised capital improvement plan spending forecasts. The most recent quarterly construction work-in-progress report is presented in the June 2020 Audit Committee binder. |  |  |  |  |  |  |  |

| Appropriation Level - Construction Bond Fund - Sewer System Budget Amendment Explanations |  |  |  |  |  |  |  |
|---|--|--|--|--|--|--|--|
| Revenues  |  |  |  |  |  |  |  |
| Transfers from Improvement &  | The financial plan focuses on spending bond proceeds first for the capital improvement |  |  |  |  |  |  |
| Extension Fund  | plan (CIP) then I&E funds. Sufficient bond funds remain to pay for the actual          |  |  |  |  |  |  |
|   | expenditures; therefore no transfer will be needed for FY 2020.                        |  |  |  |  |  |  |
| Bond Proceeds   | Based upon a) reduction in forecasted capital improvement program spend and b)         |  |  |  |  |  |  |
|   | increased availability of lower cost state revolving fund loans, the need for new bond |  |  |  |  |  |  |
|   | proceeds for FY 2020 was eliminated.   |  |  |  |  |  |  |
| Grant Revenues  | GLWA was able to utilize more of lower cost state revolving fund loans rather than     |  |  |  |  |  |  |
| (State Revolving Fund Loans)  | requiring a new money bond transaction. The most recent quarterly debt report is       |  |  |  |  |  |  |
|   | presented in the May 2020 Audit Committee binder which provides details related to the |  |  |  |  |  |  |
|   | SRF funding and associated projects.   |  |  |  |  |  |  |
| Earnings on Investments   | Amount increased based upon higher investable balances available.                      |  |  |  |  |  |  |

| Appropriation Level - Constructi | on Bond Fund - Sewer System Budget Amendment Explanations                                 |  |  |  |  |  |
|----------------------------------|---|--|--|--|--|--|
| Net Use of Revenues              | This amount represents the net amount of revenues less expenditures. A "use of reserves"  |  |  |  |  |  |
|                                  | indicates a spend down of prior year reserves. The amount has been amended to reflect     |  |  |  |  |  |
|                                  | eliminated need for bond funds for FY 2020 (sufficient bond funds are available based     |  |  |  |  |  |
|                                  | upon a revised spend rate).   |  |  |  |  |  |
| Expenditures                     |   |  |  |  |  |  |
| Capital Improvement Plan         | After contracts are awarded at amounts variant from the CIP plan and more reliable        |  |  |  |  |  |
|                                  | anticipated spend data becomes available, the am ended budget for the current fiscal year |  |  |  |  |  |
|                                  | may increase or decrease by way of "Capital Reserve" budget amendments.                   |  |  |  |  |  |
| Capital Spend Rate Adjustment    | The Board of Directors adopts a capital spending ratio assumption (SRA) which allows      |  |  |  |  |  |
|                                  | the realities of capital program delivery to align with the financial plan. The SRA is an |  |  |  |  |  |
|                                  | analytical approach to bridge the total dollar amount of projects in the CIP with what    |  |  |  |  |  |
|                                  | can realistically be spent due to limitations beyond GLWA's control and/or delayed for    |  |  |  |  |  |
|                                  | nonbudgetary reasons. Those limitations, whether financial or non-financial, necessitate  |  |  |  |  |  |
|                                  | the SRA for budgetary purposes, despite the prioritization established. Amendments to     |  |  |  |  |  |
|                                  | the spend rate assumption are made to align the projected financial use of resources with |  |  |  |  |  |
|                                  | revised capital improvement plan spending forecasts. The most recent quarterly            |  |  |  |  |  |
|                                  | construction work-in-progress report is presented in the <u>June 2020 Audit Committee</u> |  |  |  |  |  |
|                                  | <u>binder</u> .   |  |  |  |  |  |

#### **ADDENDUM 1**

Supplemental Information –

Enterprise-wide Operations & Maintenance Department and Account Level Amendments

The summary of budget amendments for operations & maintenance department and account level amendments are organized by the four core groups. The FY 2020 budget amendments for categories A - Water System Operations and B - Sewer System Operations net to zero. The net budget amendments result in a reduction to categories C – Centralized Services (\$9.2 million) and D – Administrative & Other Services (\$600,000). GLWA's internal budget directive is for each area, group, and team to manage their needs to an amount within the initial budget. To the extent that is not possible, an amendment is made from the unallocated reserve. If savings are incurred, or an area appears to not require as much funding as established in the original budget, that department's budgeted expenses are reduced, and the unallocated reserve is increased. In administering the budget, there are several refinements to departments and account categories. An explanation of larger items (greater than \$500,000) is included in the table in Addendum 1.

| Departmental and Account Level Amendments | FY 2020<br>Amendments | Explanation for Items GreaterThan \$500,000  |
|---|-----------------------|--|
| A Water System Operations                 | -                     | Note "Category A" Water System budget amendments nets to zero.                     |
| Adams Road Pumping Station                | 75,000                |  |

| Unallocated Reserve - Wastewater System Operations | 7,755,128   |  |

|   | FY 2020     |  |
|---|-------------|--|
| Departmental and Account Level Amendments | Amendments  | Explanation for Items GreaterThan \$500,000  |
| Unallocated Reserve                       | 7,755,128   | Wastewater Operations has a large number of contracts that vary in utilization from year-to-year (maintainance, 'as needed', etc.). Utilities and Chemicals usage varies as well. The budgets for these line items are determined based on spend history as well as projected utilization for that fiscal year. Fluctuations are managed through transfers to and from the Unallocated Reserves. |

| C Centralized Services                    |             | Note "Category C" Centralized Services budget amendments net to a decrease of (9,181,700)  |
| Asset Management                          | (2,658,000) |  |

|   | FY 2020     |   |
|---|-------------|---|
| Departmental and Account Level Amendments | Amendments  | Explanation for Items GreaterThan \$500,000   |
| Contractual Services                      | (2,200,000) | Water Transmission System Pipe Integrity Program (TSIP) - The start date of this program was delayed due to   |
|   |             | COVID-19. This program will begin during the later part of FY 2021.   |
| Personnel Costs                           | (338,000)   |   |
| Supplies & Other                          | (120,000)   |   |
| Capital Improvement Planning              | 4,378,700   |   |
| Capital Program Allocation                |             | AECOM Capital Program Management services - The portion of this contract that can be capitalized has been moved to the Capital Improvement Program (CIP). This eliminates the need to record time worked on capital projects in the Operations & Maintenance (O&M) section of the budget. Capital Program Allocation is a "contra" account which represents an offset to the Personnel Costs and Contractual Services for expenses incurred in the O&M account that can be capitalized. |
| Contractual Services                      | 2,700,000   | AECOM - FY 2020 project costs projected to come in higher than what was included in the approved budget.  Overall spend on project is still on target. FY 2020 utilization of contract greater than planned.  |
| Personnel Costs                           | (97,500)    |   |
