

## Procurement Form (FOR)

**Effective Date:**  
5/1/2019

**Document #:**  
FSA\_PRO\_FOR\_0041

**Revision Date:**  
N/A

**Revision#:**  
0

**Document Title:**  
Vendor Response Follow-up

**Document Owner/Department:**  
Procurement Team

**Contract No./Title:** 2002655 Study and Design for Northwest Interceptor Relief Sewer to Oakwood CSO Facility  
**Date:** 9/29/2020

Vendor	Contact Name	Email Address	Explanation of No Bid Submittal
Anderson, Eckstein and Westrick, Inc.	Stephen Pangori	<a href="mailto:Spangori@aeWINC.com">Spangori@aeWINC.com</a>	We downloaded the subject RFP to find out the details of the project as a potential subconsultant__
WSP	James Rydquist	<a href="mailto:James.rydquist@wsp.com">James.rydquist@wsp.com</a>	WSP made a no-go decision for response to this RFP as it was determined that our competition had more insight into the needs of the project due to their prior work in development of the scope within the wastewater master plan. To mitigate this unbalance of knowledge we would normally desire to meet with GLWA staff prior to the RFP release to learn the needs and important issues first hand from the GLWA engineering staff. Without this knowledge pre-RFP release our firm determined that the effort and cost to submit would not be undertaken.
HDR Michigan, Inc.	Khaled Soubra, PHD, PE, LLD AP (Tamara Bishop)	<a href="mailto:Tamara.bishop@hdrinc.com">Tamara.bishop@hdrinc.com</a>	This RFP had a very short response time, with a complicated scope requiring alternative evaluations for site specific conditions. As a result, we did not feel we could provide as thorough a work plan that's needed for the required scope.
Greeley and Hansen	Tony Smurlo	<a href="mailto:Asmurlo@greeley-hansen.com">Asmurlo@greeley-hansen.com</a>	The amount of time between the solicitation and due dates did not allow us adequate time to respond.

**Date:** 9/29/2020

CDM Smith	David Vidikan	<a href="mailto:Vidikandc@cdmsmith.com">Vidikandc@cdmsmith.com</a>	CDM Smith did propose on the Study and Design of the Northwest Interceptor Relief Sewer to Oakwood CSO Facility project. We are part of the FK Engineering team that submitted a proposal. Please call or email me at <a href="mailto:vidikandc@cdmsmith.com">vidikandc@cdmsmith.com</a> if you have any questions, would like to discuss, or need anything else. Thank you.
Black & Veatch Ltd. Of Michigan	David Koch	<a href="mailto:Kochds@bv.com">Kochds@bv.com</a>	Because of the number of RFP's issued by GLWA, and the significant effort of time and cost needed to invest in preparing a potentially winning proposal, we need to be strategic in deciding which opportunities we believe we are a best fit in order to have best chance of being selected and being able to provide service to GLWA. We did not believe this to be a best fit. We did access the RFP documents in order to finalize that decision.
DCI	Nafe Khalaf	<a href="mailto:Nkhalaf@dceng.com">Nkhalaf@dceng.com</a>	We provide design services. We do not offer this product/service or the equivalent
Hazen and Sawyer	Jared Stewart	<a href="mailto:jstewart@hazenandsawyer.com">jstewart@hazenandsawyer.com</a>	At the time of the RFP release, we wanted to continue focusing our resources on other strategic pursuits and projects with GLWA
HESCO (Hamlett Engineering Sales Co.)	Heather Walker	<a href="mailto:Heather.walker@hesco-mi.com">Heather.walker@hesco-mi.com</a>	We are a manufacturer rep firm. We would bid equipment to the contractor and not bid the full RFB/RFP to GLWA
