RE: Proposed Change Order No. 3
Contract No. GLWA-CON-158
Specialized Services Contract
Vendor: LGC Global, Inc.

MOTION

Upon recommendation of Cheryl Porter, Chief Operating Officer - Water and Field Services, the Board of Directors (Board) of the Great Lakes Water Authority (GLWA), authorizes the Chief Executive Officer (CEO) **to enter into Contract No. GLWA-CON-158 Proposed Change Order No. 3 “Specialized Services Contract” with LGC Global, Inc. at an increased cost of \$3,685,500.00, for a total cost not to exceed \$23,870,999.80 and an increased duration of 167 days for a total contract duration of four (4) years and 167 days;** and authorizes the CEO to take such other action as may be necessary to accomplish the intent of this vote.

BACKGROUND

The Specialized Services contracts have successfully been utilized to assist GLWA with urgent tasks to stay in compliance with state and federal regulations that require immediate attention. Specifically, GLWA’s major maintenance responsibilities include the performance of corrective (i.e., immediate/urgent/emergency), preventive (i.e., regularly scheduled intervals) and predictive (i.e., measured equipment operational intervals) maintenance on huge pumping units, motors, valves, and related support equipment at the water treatment plants (WTP), water booster stations (WBS), pressure regulating valves (PRV), remote sites, sewer lift stations, and current combined sewer outfalls (CSO).

JUSTIFICATION

GLWA-CON-158 Specialized Services Contract is needed to accomplish a number of urgent tasks throughout the water treatment plants, water booster stations and wastewater collection system to keep these systems in compliance. GLWA does not have sufficient equipment and staff necessary to perform crucial functions over and beyond regular maintenance work. GLWA-CON-158 is crucial for GLWA to augment its equipment and provide specialized services to maintain its facilities, in order to comply with state and federal regulations regarding water treatment, water transmission, sewage transport, collection, and discharge. This contract gives GLWA the flexibility to bring on additional specialized resources when an urgent need arises.
