BACKGROUND

On February 26, 2019, Fiat Chrysler Automobiles NV (FCA) and the City of Detroit announced FCA's intent to invest approximately \$4.5 billion in five automobile plants located in the State of Michigan. Included amongst the proposed investments is approximately \$1.6 billion to be invested in the Jefferson North and Mack Avenue Engine Plants located within the City of Detroit. On February 26, 2019, the Detroit News reported that: "Under terms of a Memorandum of Understanding between the Detroit and FCA, city officials must assemble land, craft a community benefits agreement and finalize tax incentives." GLWA staff has been advised this Memorandum of Understanding requires the City to assemble the land for this project within 60 days or by April 25, 2019.

GLWA owns property located at 11900 Freud and 11900 E. Jefferson, south of FCA's Jefferson North Assembly Plant. This property was acquired to be available for potential future system improvements. The Detroit Brownfield Redevelopment Authority (DBRA) has indicated its desire to acquire the property for the FCA project at a price of One Million Dollars (\$1,000,000) pursuant to the attached Real Property Purchase Agreement and has asked GLWA to respond by March 13, 2019 to its proposed purchase of the property.

Subsequent to the Board's prior approval of this transaction, the DBRA has indicated that it no longer needs a permanent access easement and desires to purchase less acreage than previously anticipated. For these reasons, the purchase price has been reduced to \$655,286.00.

JUSTIFICATION

The justification for this action is subject to an attorney-client privileged communication to the Board.

BUDGET IMPACT

The sale of this property would not directly impact GLWA's proposed budget.
