MOTION

Upon recommendation of Navid Mehram, Chief Operating Officer - Wastewater Operating Services, the Board of Directors (Board) of the Great Lakes Water Authority (GLWA), authorizes the Chief Executive Officer (CEO) to **enter into Contract No. 1803025, "Job Order Contracting Services (JOC)" with various vendors, at a decreased cost of \$4,524,200.00 for a total cost not to exceed \$23,975,800.00, and an increased duration of 731 days for a total contract duration of 2,191 days;** and authorizes the CEO to take such other action as may be necessary to accomplish the intent of this vote.

BACKGROUND

GLWA Board of Directors, at its meeting on February 24, 2022, awarded a new set of vendors under the 2022 JOC contract. However, there are existing tasks on the original JOC contract that are in various stages of construction that need to be completed, commissioned, turned over, and closed out. The intent of this Amendment No. 3 is to extend the contract end date of all original JOC contractor's contracts to the same final end date that coincides with the date we expect the last project to be completed (closed out). As individual contractor's construction projects are complete, we will close those individual contracts earlier, if possible. No new tasks have been, or will be created under the original JOC contract (since July 2022). This amendment is only to finish existing tasks started prior to the contract execution of the 2022 JOC Contract start date (July 2022).

JUSTIFICATION

This Proposed Amendment will extend the contract period by 731 days to 06-30-2025 to facilitate proper completion of construction for active tasks. This date is anticipated far enough to support potential changes in construction contracts, supply chain delays, or unforeseen conditions such that we do not anticipate another amendment extending this contract longer to continue said support (construction) to see all tasks to final completion.

PROJECT MANAGEMENT STATUS
