RE: Proposed Amendment No. 1
Contract No. 1803978
Human Resources Information Systems (HRIS) Software as a Service
Vendor: Ceridian HCM, Inc.

MOTION

Upon recommendation of Jeffrey E. Small, Chief Information Officer, the Board of Directors (Board) of the Great Lakes Water Authority (GLWA), authorizes the Interim Chief Executive Officer (ICEO) to **enter into Contract No. 1803978, Proposed Amendment No. 1 “Human Resources Information Systems (HRIS) Software as a Service” with Ceridian HCM, Inc., at an increased cost of \$1,494,838.00 for a total cost not to exceed \$3,603,091.00, and an increased duration of three years for a total duration of six years;** and authorizes the ICEO to take such other action as may be necessary to accomplish the intent of this vote.

BACKGROUND

Ceridian is GLWA's current provider for payroll, timekeeping, and human resource information system services. Ceridian has been providing these services under multiple contracts for almost six years. The original contract No. DWSD-CS-1729, assumed by GLWA on January 1, 2016, for the Dayforce HRIS Software as a Service (SaaS) with Ceridian HCM was approved by the Board of Water Commissioners for the Detroit Water and Sewerage Department on May 13, 2015. In November 2018, GLWA Board of Directors approved Contract No. 1803978 to continue these services for three years.

GLWA issued an RFP for a new ERP system to replace both Ceridian's Dayforce HRIS and GLWA's financial software system, BS&A. We are currently in negotiations with the selected vendor. GLWA needs to continue the use of the Ceridian HRIS products until the new ERP is implemented.

JUSTIFICATION

Ceridian's Dayforce Human Resource Information System (HRIS) for the Great Lakes Water Authority facilitates the organization's ability to manage the entire employee life cycle. System components include payroll administration and processing, benefits administration and processing, workforce management, and talent management (recruitment). Dayforce HRIS is a cloud-based Software as a Service (SaaS) subscription offering from Ceridian which means it is accessible to all team members anytime, anywhere from any device via the Internet.

This amendment will enable GLWA to continue to use Ceridian's Dayforce as its HRIS until after go-live of GLWA's future ERP system. Because the new system is not expected to be live until at least January 1, 2024, this amendment is for a three-year term.
