Grand Rising All,

On June 28, 2023 at the Great Lakes Water Authority Board of Directors meeting, during the public comments portion of the agenda we, the Highland Park Water Advocates, expressed our concerns regarding the ongoing water disputes between our city and GLWA. The HPWA appreciates the openness with which the GLWA Board received our concerns. We are especially encouraged by the promise made that, within thirty days of the June 28 meeting, GLWA Board will visit Highland Park and address our citizens in a town hall meeting.

Here in Highland Park our situation is urgent.

We would like to ask Freeman Hendrix to contact HPWA member Charlene Turner Johnson at 313-252-1060 to discuss possible dates and venues for the town hall. We are able to facilitate various times and meeting locations in Highland Park.

Your rapid reply is appreciated.

Respectfully submitted,
