www.glwater.org September 2025 - Volume 73

Welcome to the September edition of *The Procurement Pipeline*, a monthly newsletter designed to provide updates on doing business with the Great Lakes Water Authority (GLWA).

#### **GLWA Procurement Team Structure**

The GLWA Procurement Team manages activities involved in acquiring goods and services that support GLWA's mission and goals. The Procurement section is comprised of five key teams that work closely with each of the operating units within GLWA as well as the Vendor community.

- 1. *Strategic Sourcing*. This team is responsible for sourcing all the goods and services that GLWA requires and is strategically aligned by expertise to secure the best combination of cost, quality, and vendor qualifications in all procurements. Vendors actively pursuing open opportunities with GLWA interact directly with this team during the solicitation process as well as during the preparation and award of contracts and purchase orders.
- 2. **Contract Management**. This team administers contract changes and amendments as well as reviews certificate of insurance documents to ensure they are current and valid. This team also monitors the expiration of contracts and purchase orders to ensure continuity in the supply of goods and services.
- 3. *Administration*. This team is responsible for communicating procurement processes to help ensure both new and existing Vendors understand how to do business with GLWA. This includes vendor outreach, vendor performance assessments, reporting and system support.
- 4. *Business Inclusion and Diversity*. This team is responsible for managing GLWA's Business Inclusion and Diversity (B.I.D.) Program,

- which applies to all GLWA solicitations budgeted at \$1 million or more.
- 5. *Logistics & Materials*. This team is responsible for managing how goods received from Vendors are inspected, stored, and maintained in GLWA warehouses. This includes inventory control, the inspection of supplies, and salvage and disposal operations.
