Key Financial Metrics

The table below provides key report highlights and flags the financial risk of a budget shortfall or need for year-end budget amendments as follows: No Risk (green) - Potential (yellow) - Likely (red)

Variations are monitored by the Great Lakes Water Authority (GLWA) management. Operating and/or budget priorities are re-evaluated where appropriate. This report includes first quarter budget amendments as presented to the GLWA Board of Directors on January 28, 2026 and third quarter amendments approved on April 22, 2026 for the Capital Improvement Plan Summary section only.

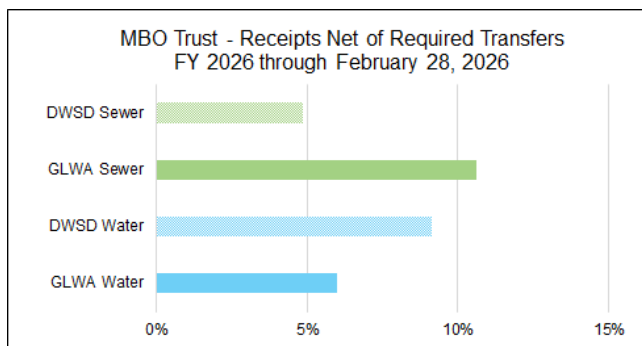

Investment earnings currently exceed the FY 2026 amended budget to date. Although interest rates are expected to continue to decline, this decline will not occur consistently throughout the year. In addition, current events may impact projections related to federal fund rate cuts. That driver behind positive news on investment earnings has a negative impact on commodity-based chemicals, supplies and materials. These scenarios will likely result in further budget amendments in FY 2026.

Water system variances for capital relates to delays in four projects as reported in a recent Key Performance Indicator Report (Legistar #2025-413). Sewer system capital spend is substantially above plan because of a recent increase in State Revolving Fund (SRF) loans awarded for projects that were approaching construction phase. In September 2025, GLWA was notified of 5 projects that received a total of \$232.7 million in funding which advanced the pace of those projects.

As of February 28, 2026					
Metric	FY 2026 Budget	FY 2026 Amended Budget	FY 2026 Actual	Variance from Financial Plan	Report Page Reference
Wholesale Water Revenue (\$M)	\$243.8	\$243.8	\$248.6	2%	5
Wholesale Water Billed Usage (mcf)	8,798,000	8,798,000	9,021,000	3%	52
Wholesale Sewer Revenue (\$M)	\$200.2	\$200.2	\$200.0	0%	6
Wholesale Water Investment Earnings (\$M)	\$8.5	\$8.5	\$10.3	21%	5
Wholesale Sewer Investment Earnings (\$M)	\$9.7	\$9.7	\$12.9	32%	6
Wholesale Water Operations & Maintenance (\$M)	\$121.6	\$122.6	\$123.7	1%	5
Wholesale Sewer Operations & Maintenance (\$M)	\$157.4	\$158.4	\$156.0	-1%	6
Water Prorated Capital Spend w/SRA* (\$M)	\$122.0	\$107.4	\$78.0	-27%	32
Sewer Prorated Capital Spend w/SRA* (\$M)	\$115.9	\$115.9	\$137.0	18%	33

*SRA refers to the capital spending ratio assumption which allows capital program delivery realities to align with the financial plan.

Master Bond Ordinance (MBO) Trust Net Receipts (page 56)

Net cash flow receipts remain positive for GLWA and DWSD Water and Sewer. This means that all legal commitments of the MBO trust and the lease payment are fully funded – and that positive cash flow is available for additional capital program funding in subsequent year(s). DWSD water reports a surplus of \$8.5 million and DWSD sewer reports a surplus of \$10.6 million of net receipts over disbursements through February 2026.

Budget to Actual Analysis (page 4)

- The total revenue requirements are on target through February 2026.
- The total overall Operations & Maintenance expenses are 66.4% of budget through February 2026 which is slightly under the pro-rata benchmark of 66.7% but within a reasonable range.

Basic Financial Statements (page 13)

- The basic financial statements are prepared on a full accrual basis and reflect preliminary, unaudited results.
- Operating income February 2026 is \$84.8 million for the Water fund (31.1% of total revenues) and \$102.2 million for the Sewage Disposal fund (28.9% of total revenues).
- Water net position increased by \$43.2 million, and sewage disposal net position increased by \$69.1 million for the year to date through February 2026.

Capital Improvement Plan Financial Summary (page 31)

- Water system costs incurred to date are below the 88% Capital Spend Ratio assumption.
- Sewer system costs incurred to date are above the 90% Capital Spend Ratio assumption.
- Capital spend rate assumptions were updated in this section to reflect the third quarter budget amendments approved at the April 22, 2026 GLWA Board of Directors meeting.

Master Bond Ordinance Transfers (page 34)

- For February 2026, transfers of \$16.0 million and \$20.7 million were completed for the GLWA Water and Sewer funds, respectively.
- Also, for February 2026, transfers of \$6.0 million and \$7.3 million were completed for the DWSD Water and Sewer funds, respectively.

Cash Balances & Investment Income (page 41)

- Total cash & investments are \$711 million for Water and \$676 million in the Sewer fund.
- Total, combined, cumulative, FY 2026 investment income through February 2026 is \$33.9 million.

DWSD Retail Revenues, Receivables & Collections (page 45)

- Water usage through February 28, 2026 is 102.35% and revenues are 101.41% of budget.
- Sewer usage through February 28, 2026 is 98.39% and revenues are 97.57% of budget.
- Combined accounts receivable balances for the Water and Sewer funds report an increase of \$46.8 million over the prior year.
- Past due balances over 180 days make up 76.0% of the total accounts receivable balance. The current bad debt allowance covers 99.9% of past dues over 60 days.

GLWA Wholesale Billing, Receivables & Collections (page 51)

- GLWA accounts receivable past due balance net of Dearborn is 0.45% of the total accounts receivable balance. This balance will be resolved when the terms of the new water contract are executed and escrowed funds are transferred to GLWA by June 30, 2026.
- Average wholesale water collections of \$29.6 million for the period of March 2025 through February 2026 are trending \$1.6 million above the prior year.
- Average wholesale sewer collections of \$25.1 million for the period of March 2025 through February 2026 are trending \$2.6 million above the prior year.

Questions? Contact the Office of the Chief Financial Officer & Treasurer at CFO@glwater.org.

Revenue Requirements Budget

The Monthly Budget to Actual Analysis report includes the following three sections.

1. Revenue Requirements Budget Basis Analysis
2. Operations & Maintenance Budget – Major Budget Categories
3. Alignment of Operations & Maintenance Budget Priorities – Expense Variance Analysis

Revenue Requirements Budget Basis Analysis

GLWA's annual revenue requirements represent the basis for calculating Member Partner charges and aligns with the Master Bond Ordinance flow of funds requirements. The budget basis is not the same as the full accrual basis used for financial reporting although the revenues and operations and maintenance expenses are largely reported on an accrual basis. The primary difference between the revenue requirements budget basis to the financial reporting basis is the treatment of debt service, legacy pension obligations, and lease related activities. The Revenue Requirements Basis is foundational to GLWA's daily operations, financial plan, and of most interest to many stakeholder groups.

Table 1A – Water Revenue Requirements Budget and **Table 1B – Sewer Revenue Requirements Budget** presents a year-over-year budget to actual performance report. The revenue requirements budget is accounted for in the operations and maintenance fund for each system. The tables in this analysis reflect actual amounts spent. If this analysis was on a master bond ordinance (MBO) basis, like that used for calculating debt service coverage, O&M "expense" would equal the pro-rata budget because 1/12 of the O&M budget is transferred monthly outside the MBO trust to an O&M bank account. This report is for February 2026 therefore the pro-rata benchmark is 66.7% (8 of 12 months of the fiscal year).

Wholesale charges presented in Table 1A differ from those presented in *Table 2 – Statement of Revenues, Expenses and Changes in Net Position* found in the *Basic Financial Statement* section of this report. Water Revenues presented in Table 1A for revenue requirement purposes are reduced by the monthly credit issued to the City of Flint for a license to raw water rights under the Flint Raw Water Contract as documented in Appendix A-2 of the [Flint Water Agreement](#). Through February 28, 2026, these payments total \$3.5 million for FY 2026.

Table 1A – Water Revenue Requirements Budget (year-over-year) – (\$000)

	FY 2025			FY 2026			
	Amended Budget	Activity Thru 2/28/2025	Percent of Amended Budget	Board Adopted Budget	Amended Budget	Activity Thru 2/28/2026	Percent of Amended Budget

Items highlighted in gold on Tables 1A (Water) and 1B (Sewer) are discussed below.

Revenues

1. **Total Revenues:** For the *water* system, total revenues for FY 2026 are above the pro-rata benchmark; the *water* system is at 68.4%. For the *sewer* system, total revenues for FY 2026 are above the pro-rata benchmark at 67.2%. Detailed schedules related to revenues are provided in the *Wholesale Billings, Collections, and Receivables* section of this financial report binder.
2. **Investment Earnings:** For the *water* system, investment earnings are above the pro-rata benchmark for FY 2026 at 80.5%. The *sewer* system is also above the pro-rata benchmark for FY 2026 at 88.3%. FY 2026 investment earnings are slightly lower than FY 2025 earnings due to the Federal Reserve monetary policy moving to a more neutral level. GLWA continues to refine cash flows and work with its investment advisor to identify strategies to maximize investment income while meeting the objectives of safety and liquidity. A pending item is calculation of arbitrage liabilities for FY 2026 which would offset investment earnings.

3. **Other Revenues:** These are one-time and unusual items that do not fit an established revenue category. Both the *water* and *sewer* systems' actual amount will vary from budget due to the nature of the items recorded in this category.

Revenue Requirements - The revenue requirements for *both* systems are funded on a 1/12th basis each month in accordance with the Master Bond Ordinance (MBO). An exception is the Extraordinary Repair & Replacement Fund deposit which is calculated based on minimum and maximum balance requirements set forth in the MBO and adjusted as needed to maintain compliance.

4. **Operations & Maintenance Expense:** Actual expenses for the *water* system are slightly above the pro-rata benchmark for FY 2026 at 67.2%, and the *sewer* system O&M is below the pro-rata benchmark for FY 2026 at 65.7%.
5. **Debt Service:** For FY 2026, the *water* system is below the pro-rate benchmark at 66.4% and *sewer* system is above the pro-rata benchmark at 66.9%. The activity is based on the debt payment schedules adjusted for the State Revolving Fund loans that are still being drawn down and may cause temporary variances pending realignment with budget.
6. **Working Capital Requirement / Net Difference:** The overall variance (net difference) reported represents the difference between revenues and revenue requirements. To the extent that there is a positive budget variance, staff perform a post-year end closing analysis. Based on this analysis and depending on working capital requirements, some or all of this variance may be transferred to the Improvement & Extension funds in the subsequent year.
7. **Improvement & Extension (I&E) Fund Transfer Pending:** The contribution to the I&E Fund is for improvements, enlargements, extensions, or betterment of the *water* and *sewer* systems.
8. **Total Revenue Requirements:** Total revenue requirements for the *water* system are in-line the pro-rata benchmark at 66.7%. Total revenue requirements for the *sewer* system are below the pro-rata benchmark at 66.3%.

Operations & Maintenance Budget – Major Budget Categories

The benchmark ratio as of February 28, 2026, is 66.7% (eight months), with the total O&M budget just under the benchmark. When comparing FY 2026 to FY 2025 in **Table 2 – Operations & Maintenance Budget – Major Budget Categories**, the overall spending in FY 2026 is above FY 2025 for eight months of operations, but still near the benchmark ratio.

In addition to the four major budget categories, an internal charge cost center for employee benefits is shown on the table below. If the number is positive, it indicates that the internal cost allocation rate charges to other cost centers is not sufficient. A negative number indicates a surplus in the internal cost center. A moderate surplus is preferred as it provides a hedge for mid-year benefit program cost adjustments (premiums adjust on February 1 each year) as well as managing risk as the program is partially self-insured.

Table 2 – Operations & Maintenance Budget – Major Budget Categories – (\$000)

Service Area	FY 2025			FY 2026			
	Amended Budget	Activity Thru 2/28/2025	Percent of Amended Budget	Board Adopted Budget	Amended Budget	Activity Thru 2/28/2026	Percent of Amended Budget
A Water System Operations	\$ 94,398	\$ 61,524	65.2%	\$ 101,501	\$ 101,501	\$ 68,744	67.7%
B Wastewater System Operations	145,040	95,967	66.2%	156,573	156,573	105,767	67.6%
C Centralized Services	135,244	80,669	59.6%	117,388	120,248	75,691	62.9%
D Administrative & Other Services	42,737	25,836	60.5%	43,094	43,140	29,451	68.3%
Employee Benefits	-	1,024	100.0%	-	-	0	100.0%
Total O&M Budget	<u>\$ 417,419</u>	<u>\$ 265,020</u>	63.5%	<u>\$ 418,555</u>	<u>\$ 421,461</u>	<u>\$ 279,653</u>	66.4%

Totals may be off due to rounding

Alignment of Operations & Maintenance Budget Priorities – Expense Variance Analysis

The purpose of **Table 3 – Operations & Maintenance Expense Variance Analysis** is to evaluate whether the actual spend rate within an expense category is in alignment with the budget. Given the effort to develop an accurate budget, a variance is a red flag of a *potential* budget amendment or misalignment of priorities. This table includes both the water and sewage disposal funds.

Table 3 – Operations & Maintenance Expense Variance Analysis – (\$000)

Expense Categories	FY 2025					FY 2026				
	Amended Budget	Actual Thru 6/30/2025	Activity Thru 2/28/2025	Percent of Amended Budget	Percent of Actual 6/30/2025	Amended Budget	Prorated Amended Budget (8 Months)	Activity Thru 2/28/2026	Percent of Amended Budget	Variance (Over) Under Prorated Amended Budget

Totals may be off due to rounding

Total Expenses: In total, the overall O&M expenses are 66.4%, which is below the pro-rata benchmark of 66.7%. The Table 3 expense category commentary is provided below.

Personnel Costs: The year-to-date total personnel costs through February 2026 are at 70.5%, which is above the pro-rata benchmark of 66.7%. Unallocated reserves include budgeted funds for annual wage adjustments that take effect in July each year that are unknown at the time the budget is adopted. These were allocated to personnel costs with the first quarter budget amendment. The third quarter amendment includes an adjustment for the increase in healthcare claims net of anticipated rebates. Vacant positions are being filled, which is driving the increase in salary and wages. The fourth quarter budget amendment will include an adjustment for salary and wages if needed at that time.

Utilities: The overall category is below the pro-rata benchmark; coming in at 62.3% through February 2026. Variances within this category, when they occur, are not unexpected as usage varies throughout the year.

- **Electric** is below the pro-rata benchmark, coming in at 57.1%. When compared to the prior fiscal year the year-to-date value represents an approximate \$2.4 million reduction. This is primarily due to a reduction in the Power Supply Cost Recovery (PSCR) charge through February 28, 2026. Beginning March 1, 2026 the PSCR was increased to the maximum allowed by the Public Service Commission. This change will have a significant impact on electric cost after that date. The first three months of GLWA's fiscal year (July, August, and December) are typically peak months for the usage of electricity. June, the last month of GLWA's fiscal year, is typically a peak month as well.
- **Gas** comes in at 87.5%, which is above the benchmark of 66.7%. GLWA works with the State of Michigan to secure favorable rates of natural gas. A percentage of the annual forecast use is allowed to adjust with the current market. As reported by the U.S. Energy Administration the Henry Hub natural gas spot price 12-month average has increased, on average, 68.4% over the preceding 12-month period. Variances are primarily related to these fluctuating costs.
- **Sewage service** is higher than the benchmark, coming in at 71.2%. This is largely due to a change in the utility billing timing requiring a cost recognition methodology update. This methodology update was implemented during the first quarter.
- **Water service** is higher than the benchmark, coming in at 67.9%. Like sewage service, this is largely due to a change in the utility billing timing requiring a cost recognition methodology update. This methodology update was implemented during the first quarter.

Chemicals: This category is lower than the benchmark; coming in at 54.4% through February 2026. Usage volumes for chemicals related to lead and copper rule compliance (that is, orthophosphate and ferric chloride) were lower than original estimates. Additionally, the moderate drought in Southeast Michigan resulted in a decrease in chemicals used to handle wet weather events (sodium hypochlorite).

Supplies & Other: This category is above the pro-rata benchmark; coming in at 67.8% through February 2026. There are many different items in this expense category, some of which, such as certain maintenance activities, are subject to one-time expenses that do not occur evenly throughout the year. Variances are not unexpected.

Contractual Services: This category is above the pro-rata benchmark; coming in at 68.6% through February 2026. Variances in this category, when they occur, are not unexpected as the usage of contracts varies throughout the year (projects scheduled to begin during the latter half of the year as well as contracts that are on an as needed basis). Budget amendments are processed for those projects in which the actual start dates have been delayed.

Capital Program Allocation: This category is lower than the benchmark; coming in at 54.5% through February 2026. The amount in the Capital Program Allocation account is shown as negative as this is a "contra" account which represents an offset to the Personnel Costs category.

Shared Services: This category is higher than benchmark; coming in at 84.9% through February 2026. The shared services reimbursement comprises both labor and expenses, such as annual fees for software licensing. Staff from both GLWA and DWSD have been working together to evaluate and refine the budget for the shared services agreements. Based on these evaluations, adjustments have been made to both the billings and accounting accruals to reflect the forecasted activity more accurately for FY 2026. In addition, it is important to note that some of the shared services agreements are not billed at a monthly rate of 1/12 of the annual budgeted amount and activity includes true-up billings from prior years. The amount in this account is shown as negative as this is a “contra” account which represents an offset to both the Personnel Costs and the Contractual Services categories.

Intergovernmental Agreements: This category did not have any activity through February 2026 and usually is not budgeted for in advance. As activity is incurred, budget amendments will be made to match the activity. The amount in this account is shown as negative as this is a “contra” account which represents an offset to the Contractual Services category.

GAAP-Basis Financial Statements

The Basic Financial Statements report includes the following four tables.

1. Statement of Net Position - All Funds Combined
2. Statement of Revenues, Expenses and Changes in Net Position – All Funds Combined
3. Supplemental Schedule of Operations & Maintenance Expenses – All Funds Combined
4. Supplemental Schedule of Nonoperating Expenses – All Funds Combined

At a macro level GLWA has two primary funds for financial reporting purposes: *Water Fund* and *Sewage Disposal Fund*. These funds represent the combined total of four sub-funds for each system that are used internally to properly account for sources and uses of funds. Those sub-funds for each system are: *Operations & Maintenance Fund*, *Improvement & Extension Fund*, *Construction Fund*, and *Capital Asset Fund*.

The June 2025 comparative amounts shown in the tables below are presented based on final audited figures.

Statement of Net Position – All Funds Combined

Explanatory notes follow the Statement of Net Position shown in Table 1 below.

**Table 1 – Statement of Net Position - All Funds Combined
 As of February 28, 2026
 (\$000)**

	Water	Sewage Disposal	Total Business- type Activities	Comparative June 30, 2025
Assets				
Cash - unrestricted (a)	\$ 194,761	\$ 227,325	\$ 422,085	\$ 435,531
Cash - restricted (a)	100,057	132,846	232,904	631,066
Investments - unrestricted (a)	147,476	197,039	344,515	219,969
Investments - restricted (a)	243,193	139,469	382,662	259,388
Accounts Receivable	80,117	59,985	140,103	163,009
Due from (to) Other Funds (b)	4,669	(4,669)	-	-
Other Assets (c)	607,375	363,162	970,537	977,212
Capital Assets, net of Depreciation	1,156,468	1,746,972	2,903,440	3,048,416
Land	293,624	126,816	420,440	420,440
Construction Work in Process (e)	627,384	626,181	1,253,565	1,039,383
Total assets	3,455,125	3,615,126	7,070,251	7,194,414
Deferred Outflows (f)	23,055	45,182	68,238	71,631
Liabilities				
Liabilities - Liabilities-ST	224,600	260,587	485,188	538,933
Other Liabilities (h)	2,630	6,452	9,082	7,500
Cash Held FBO DWSD (d)	36,081	46,908	82,989	57,578
Liabilities - Long-Term (i)	3,168,280	3,175,477	6,343,757	6,546,932
Total liabilities	3,431,591	3,489,424	6,921,015	7,150,943
Deferred Inflows (f)	79,716	89,772	169,487	179,444
Total net position (j)	\$ (33,127)	\$ 81,112	\$ 47,986	\$ (64,342)

Totals may be off due to rounding

The Statement of Net Position reflects a maturing organization with an ongoing trend related to Net Position. The Authority's net position is a deficit but has been incrementally smaller each year. Please see note j below for further explanation.

Footnotes to Statement of Net Position

- a. *Cash and Investments* are reported at book value. Investments at June 30, 2025 are reported at market value. The February 28, 2026 values differ from the Cash and Investment section of this Financial Report Binder due to timing of certain items recognized on a cash versus accrual basis.
- b. *Due from Other Funds* and *Due to Other Funds* are shown at gross for sub-fund activity.
- c. *Other Assets* primarily consists of the contractual obligation receivable from DWSD related to reimbursement of bonded indebtedness for local system improvements.
- d. *Cash Held FBO DWSD* represents the net difference between DWSD retail cash received from customers and net financial commitments as outlined in the Master Bond Ordinance.
- e. *Construction Work in Process* represents the beginning balance of CWIP plus any construction spending during the fiscal year. The balance will fluctuate based on the level of spend less any capitalizations or write-offs.
- f. *Deferred Inflow* and *Deferred Outflow* relate mainly to financing activity and GLWA's share of the legacy General Retirement System (GRS) pension obligation.
- g. *Liabilities - Short-term* include accounts payable, retainage payable, GASB 96 and certain accrued liabilities. Some items, such as compensated absences and worker's compensation, are reviewed periodically but only adjusted in the interim if there is a material change.
- h. *Other Liabilities* account for the cash receipts set aside for the Budget Stabilization Fund and the Water Residential Assistance Program.
- i. *Liabilities – Long-term* include bonds payable, lease payable, GASB 96 and legacy General Retirement System pension liabilities.
- j. *Net Position Deficit* is defined by accounting standards as the residual of all other elements presented in a statement of financial position. It is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. A net deficit occurs when the liabilities and deferred inflows exceed assets and deferred outflows. The Sewage Disposal fund has a positive net position as of June 30, 2025. The Water fund has a net deficit which is getting smaller each year. The net position deficit was largely driven by the deficit in the net investment in capital assets due to the valuation of the assets as of the operational effective date on January 1, 2016 resulting in high depreciation expense.

Statement of Revenues, Expenses and Changes in Net Position

– All Funds Combined

This statement, shown in Table 2, is presented in summary format. The accrual basis of revenues and operations and maintenance expense vary from the revenue requirement basis presented in the *Budget to Actual Analysis* and the *Wholesale Billings, Receivables & Collections* sections of the February 2026 Financial Report Binder. Prior year ending balances are provided in the June 30, 2025 column as a reference for comparative purposes. Explanatory notes follow this statement.

Water revenues presented below in Table 2 differ from those presented in *Table 1A – Water Revenue Requirement Budget* found in the *Budget to Actual Analysis* section of this report because water revenues presented in Table 1A for revenue requirement purposes are reduced by the monthly payment to the City of Flint for a license to raw water rights.

Table 2 – Statement of Revenues, Expenses and Changes in Net Position
– All Funds Combined
For the Eight Months ended February 28, 2026
(\$000)

	Water	Percent of Revenue	Sewage Disposal	Percent of Revenue	Total Business-Type Activities	Comparative June 30, 2025
Revenue						
Wholesale customer charges	\$ 252,079	92.4%	\$ 199,979	56.6%	\$ 452,057	\$ 636,667
Local system charges	20,019	7.3%	143,550	40.6%	163,569	233,020
Industrial waste charges	-	0.0%	6,219	1.8%	6,219	8,849
Pollutant surcharges	-	0.0%	3,170	0.9%	3,170	4,584
Other revenues	583	0.2%	233	0.1%	815	948
Total Revenues	272,680	100.0%	353,150	100.0%	625,830	884,068
Operating expenses						
Operations and Maintenance	123,174	45.2%	155,171	43.9%	278,345	402,118
Depreciation	61,258	22.5%	94,440	26.7%	155,698	242,487
Amortization of intangible assets	3,440	1.3%	1,355	0.4%	4,795	6,774
Total operating expenses	187,871	68.9%	250,966	71.1%	438,837	651,379
Operating Income	84,809	31.1%	102,184	28.9%	186,993	232,689
Total Nonoperating revenue (expense)	(41,612)	-15.3%	(33,053)	-9.4%	(74,665)	(106,607)
Increase/(Decrease) in Net Position	43,197	15.8%	69,131	19.6%	112,328	126,082
Net Position (deficit), beginning of year	(76,324)		11,981		(64,342)	(190,425)
Net position (deficit), end of year	\$ (33,127)		\$ 81,112		\$ 47,986	\$ (64,342)

Totals may be off due to rounding

Water Fund

- ✓ The increase in Water Fund Net Position is \$43.2 million.
- ✓ Wholesale water customer charges of \$252.1 million account for 92.4% of Water System revenues.
- ✓ Operating expenses of \$187.9 million represent 68.9% of total operating revenue. Depreciation is the largest operating expense at \$61.3 million or 32.6% of operating expense.
- ✓ Amortization of intangible assets represents activity for raw water rights and subscription-based information technology arrangements (SBITA).
- ✓ Operating income after operating expenses (including depreciation) equals \$84.8 million or 31.1% of operating revenue.
- ✓ The largest category within nonoperating activities is bonded debt interest expense of \$64.8 million (this equates to the bonded debt interest expense less the offset from DWSD contractual obligation income).

Sewage Disposal Fund

- ✓ The increase in the Sewage Disposal Fund Net Position is \$69.1 million.
- ✓ Wholesale customer charges of \$200.0 million account for 56.6% of Sewer System revenues. Wholesale customer charges are billed one-twelfth each month based on an agreed-upon historical average “share” of each customer’s historical flows which are formally revisited on a periodic basis. The result is no revenue shortfall or overestimation.
- ✓ Local system (DWSD) charges of \$143.5 million account for 40.6% of total operating revenues. These are also billed at one-twelfth of the annual revenue requirement.
- ✓ Operating expenses of \$251.0 million represent 71.1% of total operating revenue. Depreciation is the largest operating expense at \$94.4 million or 37.6% of total operating expense.
- ✓ Amortization of intangible assets represents activity for a warehouse lease and subscription-based information technology arrangements (SBITA).
- ✓ Operating income after operating expenses (including depreciation) equals \$102.2 million or 28.9% of operating revenue.
- ✓ The largest category within nonoperating activities is bonded debt interest expense of \$67.2 million (this equates to the bonded debt interest expense less the offset from DWSD contractual obligation income).

Supplemental Schedule of Operations & Maintenance Expenses – All Funds Combined

This Supplemental Schedule of Operations & Maintenance Expenses (O&M) schedule is shown below in Table 3. This accrual basis of operations and maintenance expense may vary from the revenue requirement basis presented in the *Budget to Actual Analysis* section of the February 2026 Financial Report Binder. Explanatory notes follow this schedule.

**Table 3 – Supplemental Schedule of Operations & Maintenance Expenses
– All Funds Combined
For the Eight Months ended February 28, 2026
(\$000)**

	Water	Percent of Total	Sewage Disposal	Percent of Total	Total Business- Type Activities	Percent of Total
Operating Expenses						
Personnel						
Salaries & Wages	23,553	19.1%	46,425	29.9%	69,978	25.1%
Overtime	4,486	3.6%	2,280	1.5%	6,767	2.4%
Employee Benefits	17,575	14.3%	7,287	4.7%	24,863	8.9%
Total Personnel	\$ 45,615	37.0%	\$ 55,993	36.1%	\$ 101,608	36.5%
Utilities						
Electric	19,229	15.6%	10,060	6.5%	29,289	10.5%
Gas	1,087	0.9%	5,140	3.3%	6,227	2.2%
Sewage	651	0.5%	1,098	0.7%	1,749	0.6%
Water	2	0.0%	8,288	5.3%	8,290	3.0%
Total Utilities	\$ 20,968	17.0%	\$ 24,586	15.8%	\$ 45,555	16.4%
Chemicals	8,712	7.1%	11,511	7.4%	20,223	7.3%
Supplies and other	10,246	8.3%	19,719	12.7%	29,965	10.8%
Contractual services	40,038	32.5%	44,748	28.8%	84,786	30.5%
Capital Program allocation	(1,176)	-1.0%	(693)	-0.4%	(1,869)	-0.7%
Intergovernmental Agreement	-	0.0%	(1)	0.0%	(1)	0.0%
Shared Services allocation	(1,230)	-1.0%	(692)	-0.4%	(1,922)	-0.7%
Operations and Maintenance Expenses	\$ 123,174	100.0%	\$ 155,171	100.0%	\$ 278,345	100.0%

Totals may be off due to rounding

- ✓ Core expenses for water and sewage disposal systems are utilities (16.4% of total O&M expenses) and chemicals (7.3% of total O&M expenses).
- ✓ Personnel costs (36.5% of total O&M expenses) include all salaries, wages, and benefits for employees as well as staff augmentation contracts that fill a vacant position (contractual transition services).
- ✓ Contractual services (30.5%) includes:
 - Water System costs of sludge removal and disposal services at the Northeast, Southwest and Springwells Water Treatment Plants (approximately \$4.9 million);
 - Sewage Disposal System costs for the operation and maintenance of the biosolids dryer facility (approximately \$12.2 million); and
 - Centralized and administrative contractual costs allocated to both systems for information technology, building maintenance, field, planning and other services.
- ✓ The Capital Program Allocation, Intergovernmental Agreement and Shared Services Allocation are shown as negative amounts because they are 'contra' expense accounts representing offsets to associated costs in other Operations and Maintenance expense categories.

Supplemental Schedule of Nonoperating Expenses – All Funds Combined

The Supplemental Schedule of Nonoperating Expenses – All Funds Combined is shown in Table 4. Explanatory notes follow this schedule.

**Table 4 – Supplemental Schedule of Nonoperating Expenses – All Funds Combined
For the Eight Months ended February 28, 2026**

	Water	Sewage Disposal	Total Business- type Activities	Comparative June 30, 2025
Nonoperating Revenue/(Expense)				
Interest income contractual obligation	\$ 14,839	\$ 9,596	\$ 24,436	\$ 38,291
Investment earnings	15,461	14,618	30,079	47,263
Net incr (decr) in fair value of invstmt	49	87	136	1,532
Other nonoperating revenue	(63)	11,485	11,422	18,212
Interest Expense				
Bonded debt	(79,632)	(76,794)	(156,426)	(230,256)
Lease obligation	(10,720)	(13,102)	(23,821)	(36,218)
Other obligations	(1,845)	(1,013)	(2,858)	(5,033)
	<u>(92,196)</u>	<u>(90,909)</u>	<u>(183,105)</u>	<u>(271,507)</u>
Capital Contribution	298	6,740	7,038	40,693
Amortization, issuance costs, debt	15,586	7,067	22,653	25,936
Gain (loss) on disposal of capital assets	23	13	36	(172)
Water Residential Assistance Program	(876)	(1,173)	(2,050)	(3,828)
Legacy pension expense	5,266	9,425	14,691	(3,026)
Total Nonoperating Revenue/(Expense)	\$ (41,612)	\$ (33,053)	\$ (74,665)	\$ (106,607)

Totals may be off due to rounding

- ✓ Interest income on contractual obligation relates to the portion of the total GLWA debt obligation attributable to DWSD. This interest income offsets the total debt interest expense paid by GLWA on behalf of both entities monthly.
- ✓ Investment earnings in this report are reflected at book value. Any differences between the Basic Financial report and Cash and Investment section of this Financial Report binder are due to accrued interest.
- ✓ Net (increase) decrease in fair value of investments consists of market value of investments and realized gain/loss on sale of investments. FY 2024 market value adjustments for Water and Sewer total \$621 thousand and \$1.0 million, respectively. FY 2025 market value adjustments for Water and Sewer total \$49 thousand and \$78 thousand, respectively. Any difference is due to realized gain or loss on investments.

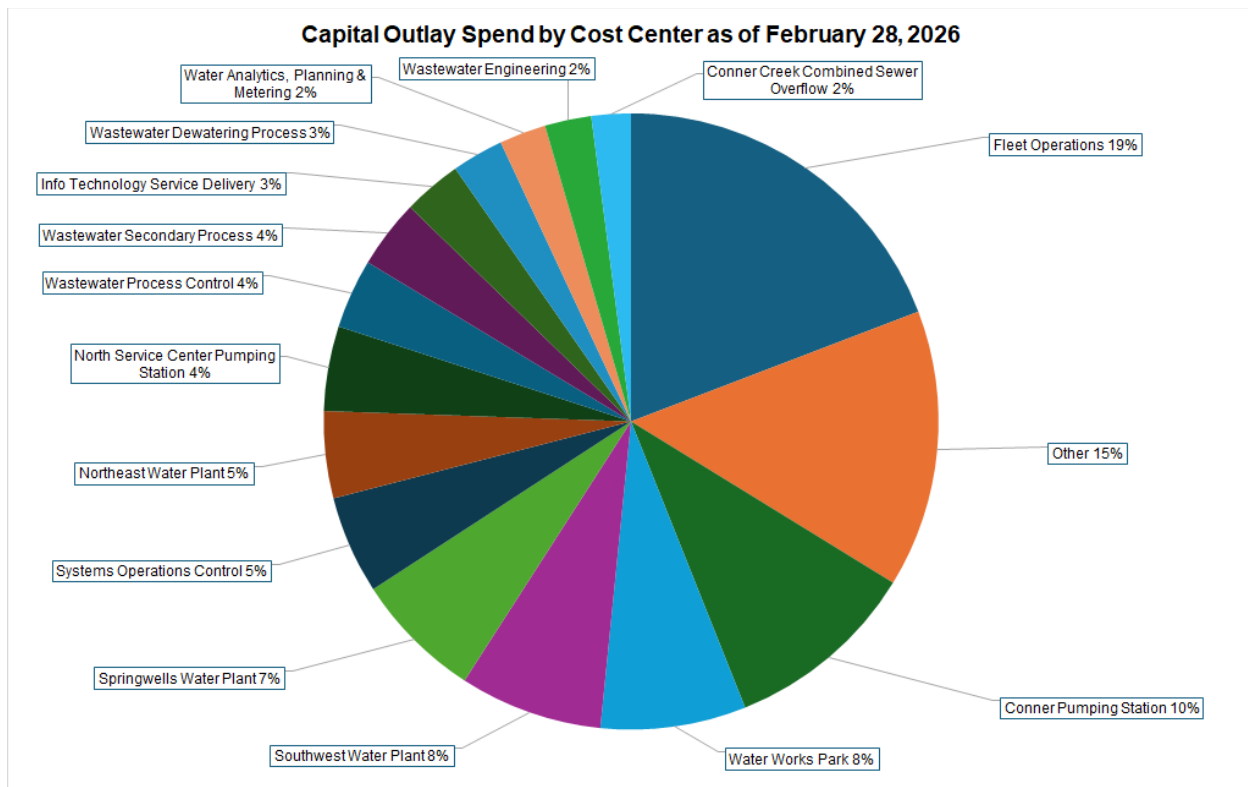

- ✓ Interest expense, the largest category of nonoperating expenses, is made up of three components:
 - Bonded debt;
 - Lease obligation for the regional assets from the City of Detroit; and
 - Other obligations such as an obligation payable to the City of Detroit for an allocation BC Notes related to assumed DWSD liabilities; acquisition of raw water rights related to the KWA Pipeline.
- ✓ FY 2025 other non-operating income includes debt forgiveness of \$18.4 million of State Revolving Fund (SRF) debt forgiveness for the Sewage Disposal system. FY 2026 other non-operating income primarily consists of \$12.3 million of SRF debt forgiveness for the Sewage Disposal system.
- ✓ The FY 2026 and FY 2025 amortization, issuance costs, debt, is related to the amortization of bond premiums and defeasance of debt.
- ✓ The FY 2025 capital contribution in Nonoperating (revenue) expense represents ARPA (\$2.8 million) grant revenue for the Water system and (\$15.2 million) grant revenue and (\$22.1 million) contribution from the Oakland Macomb Interceptor Drainage District (OMIDD) for the Sewage Disposal system. The FY 2026 capital contribution in Nonoperating (revenue) expense represents ARPA (\$298 thousand) grant revenue for the Water system and (\$6.7 million) grant revenue for the Sewage Disposal system.
- ✓ Legacy pension expense reflects a credit for FY 2026 due to the recognition of increased investment earnings on the part of GLWA and DWSD within the City of Detroit General Retirement System (GRS) for the period ending June 30, 2025.

Financial Activity Charts

Chart 1 – Capital Outlay – Water and Sewer System Combined

Capital Outlay represents purchases of equipment, software, and small facility improvement projects. It *excludes* any capital investment which is included in the monthly construction work-in-progress report related to the Capital Improvement Program. Some items span several months so the entire cost may not have been incurred yet. In addition, items are capitalized only if they meet GLWA’s capitalization policy.

Through February 28, 2026, total capital outlay spend is \$10.5 million. Following this chart is a sample list of projects and purchases from the total spend of \$10.5 million.

Note: Due to rounding totals may not equal 100%.

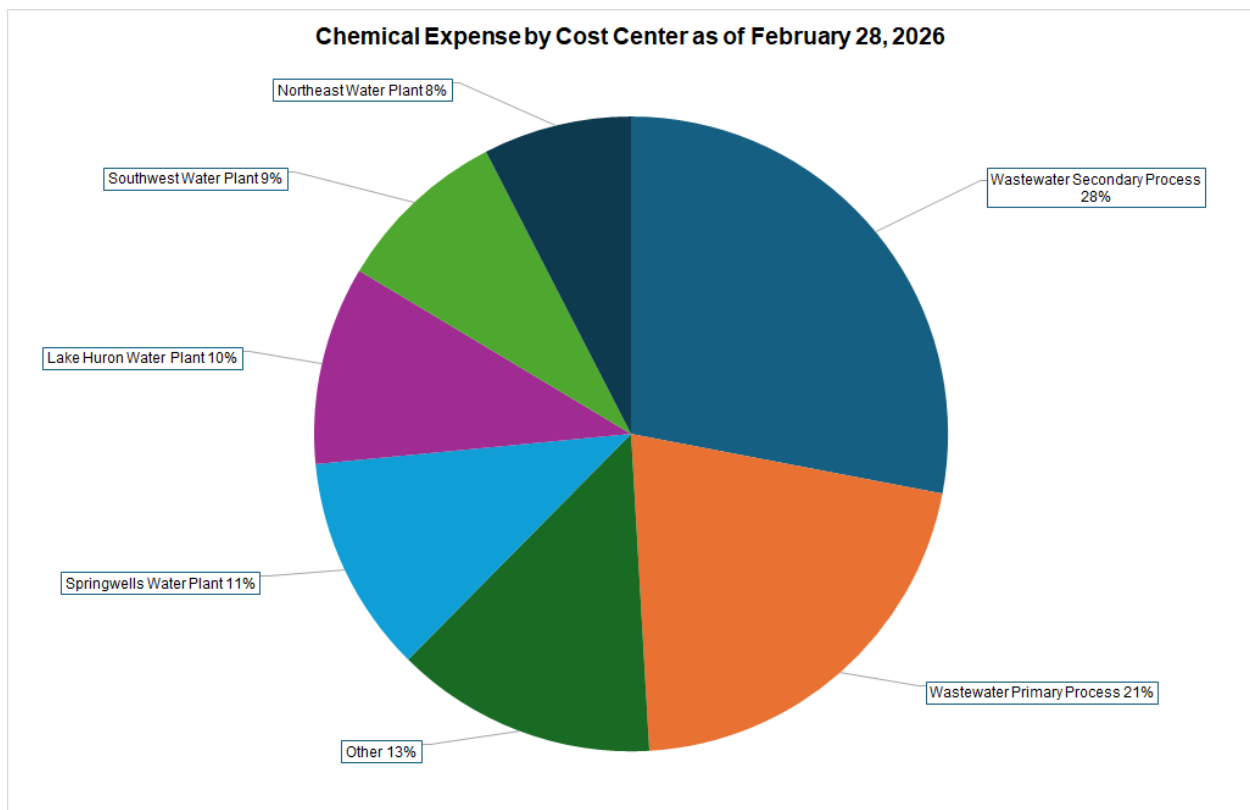

Water Operations: Steam generator replacement (\$529k); low lift elevator (\$372k); Springwells low lift modernization (\$327k); Water Works Park HVAC boiler (\$301k); North Service Center variable frequency drive (\$270k); North Service Center fire protection (\$197k); oventions power supply upgrade (\$133k); Adams road fire protection system (\$79k); Southwest water plant kitchen remodel (\$76k); Franklin road fire protection system (\$67k) and phosphate analyzer (\$49k).

Wastewater Operations: Ovation upgrade and cabinet replacement (\$915k); Conner Creek elevator maintenance (\$523k); WRRF fire detection system (\$422k); Conner Pumping Station priming level switch addition (\$385k); ferric chloride buffering pilot (\$321k); sludge feed pump (\$231k); WRRF incinerator freight elevator (\$214k); Conner Creek fire alarm system integration (\$160k); Hubble Southfield CSO proximity switches (\$122k); Connor Creek rotork gate actuator (99k); scum hopper pump (\$78k); process camera (\$74k); accusonic flowmeters (\$63k); gas detection (\$52k) and complete pump end (\$49k).

Centralized & Administrative Facilities: Trucks and vehicles (\$1.9m); computer hardware and software (\$466); sewer meter support (\$195k); Polaris UTV (\$112k); permanent easement (\$98k) and CSF furniture (\$51k).

Chart 2 – Chemical Expenses – Water and Sewer System Combined

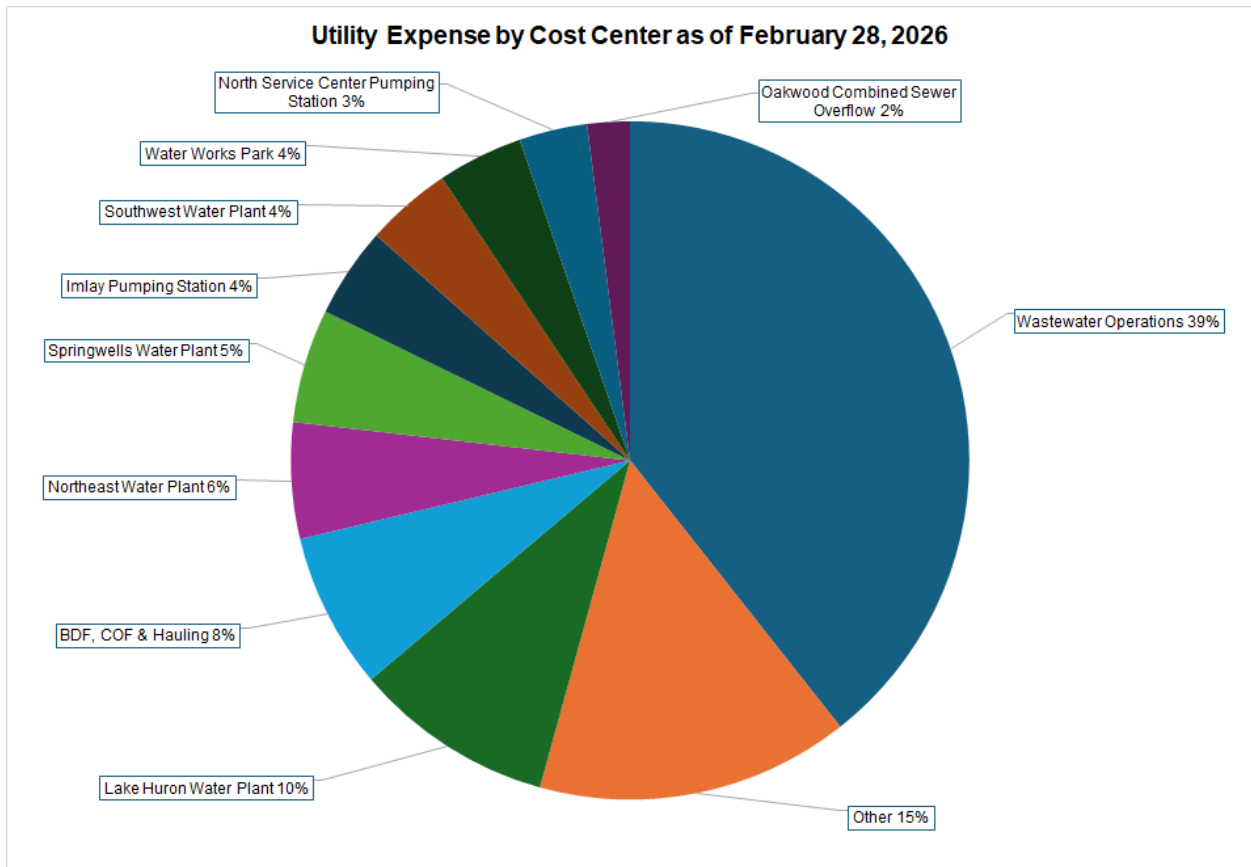

Chemical expenses are \$20.2 million through February 28, 2026. The allocation is shown in the chart below and remains consistent with prior periods.

Note: Due to rounding totals may not equal 100%.

Chart 3 – Utility Expenses – Water and Sewer System Combined

Utility expenses are \$45.6 million through February 28, 2026. The allocation is shown in the chart below and consistent with prior periods.

Note: Due to rounding totals may not equal 100%.

The monthly Budget to Financial Statements Crosswalk includes the following.

1. Crosswalk Budget Basis to Financial Reporting Basis
2. Explanatory Notes for Crosswalk

Purpose for Crosswalk: The Great Lakes Water Authority establishes a “Revenue Requirements” budget for the purposes of establishing charges for services. The financial report is prepared in accordance with Generally Accepted Accounting Policies for enterprise funds of a local government. Because the budget and the financial statements are prepared using different basis of accounting, the crosswalk reconciles the “Net Difference” to the “Increase/(Decrease) in Net Position” in Table 2 of the Basic Financial Statements in the monthly Financial Report.

The Authority has a Water Master Bond Ordinance and a Sewer Master Bond Ordinance (MBO). The Ordinances provide additional security for payment of the bonds. All revenues of the system are deposited into Revenue Receipts Funds which are held in trust by a trustee. The cash is moved to multiple bank accounts monthly based on 1/12th of the budget as defined in the MBO (“the flow of funds”) for all revenue requirements except for the Debt Service monthly transfer. The Debt Service monthly requirement is computed by the trustee, U.S. Bank. The cash transfer for debt is net of investment earnings that remain in the debt service accounts to be used for debt service.

The budget is prepared on a modified cash basis. The revenue requirements are determined based upon the cash needed to meet the financial commitments as required by the Master Bond Ordinance.

- Operation & Maintenance (O&M) expenses are reported on an accrual basis
- B&C notes obligation is reported on a cash basis
- Debt Service Allocation is reported on a cash set aside basis to provide the cash for the debt payments on the due dates
- Lease payments are reported on a cash basis
- Water Residential Assistance Program are based on a percentage of budgeted revenue
- Regional System Improvement & Extension Fund Allocation are reported on a cash basis

Budget: In Table 1A and Table 1B of the Budget to Actual Analysis the ‘Revenues’ section is the accrual basis revenues that are available to meet the ‘Revenue Requirements’. The ‘Revenue Requirements’ section budget column indicates the annual cash transfers to be made.

Financial Reporting: The Authority’s financial statements are prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Authority maintains its records on the accrual basis of accounting to conform to GAAP. Revenues from operations, investments and other sources are recorded when earned. Expenses (including depreciation) are recorded when incurred.

Table 1 – Crosswalk Budget Basis to Financial Reporting Basis provides a reconciliation of the “Net Difference” in Table 1A and Table 1B in the Budget to Actual Analysis report to the “Increase/(Decrease) in Net Position” in Table 2 of the Basic Financial Statements in this monthly Financial Report. Explanatory notes follow the Crosswalk shown in Table 1 below.

**Table 1 – Crosswalk Budget Basis to Financial Reporting Basis (\$000)
For the Eight Months Ended February 28, 2026**

	Water	Sewer	Total
Net Revenue Requirement Budget Variance (a)	\$ 6,649	4,582	\$ 11,231

Table 2 - Explanatory Notes for Crosswalk

- (a) Source: Budget to Actual Table 1A and Table 1B in Monthly Financial Report
- (b) Source: Basic Financial Statements Table 2 in Monthly Financial Report
- (c) Current year pension payments are an expense for budget purposes but not for financial reporting purposes.
- (d) Prior year pension payments are accounted for in the current year financial statements.
- (e) The administrative fee is part of the O&M Legacy Pension shown as an expense for budget purposes. For financial reporting purposes part of the administrative fee is considered prepaid based on the prior year General Retirement System audit information and therefore not an expense for the current year financial reporting. During fiscal year 2025, it was agreed-upon that the remaining prepaid administrative amount be transferred from the general division reserve at the System to the DWSD Division.
- (f) Debt service (principal and interest payments) are shown as an expense for budget purposes. Most of the adjustment relates to principal payments which are not an expense for financial reporting purposes. A portion of the adjustment relates to interest expense variances on state revolving fund debt due to the timing of payment draws. The cash set aside basis for interest expense generally is the same as the accrual basis for financial reporting.
- (g) This adjustment relates to the B&C note obligation payments. The principal and interest cash basis payments are treated as an expense for budget purposes. The principal portion is not an expense for financial reporting purposes. For financial reporting purposes interest is expensed on an accrual basis which is different from the cash basis.
- (h) Payments for the warehouse lease and subscription-based information technology arrangements (SBITA) are expensed for budget purposes. For financial reporting purposes, the warehouse lease is recorded under GASB 87 and payments are treated as a reduction in the lease liability and interest expense (which is a nonoperating expense). The SBITA payments are recorded under GASB 96 and are treated as a prepaid subscription asset as the software is currently in the implemented phase.

- (i) WRAP is shown as an expense for budget purposes. For financial reporting purposes the expense is not recognized until the funds have been transferred to the WRAP administrator. The adjustment shown is the amount of current year transfers that have not been transferred to the WRAP administrator. Note that there are funds from the prior year that have not been transferred to the WRAP administrator.
- (j) The Extraordinary Repair & Replacement Fund and Improvement & Extension Fund transfers are shown as an expense for budget purposes but not for financial reporting purposes.
- (k) Certain nonoperating income and expenses are reported in financial statements only.
- (l) The water service contract with Flint includes a license for raw water rights which has been recorded as an asset and liability by the Authority. The contract provides for a credit to Flint as Flint satisfies its monthly bond payment obligation to KWA. This KWA credit is treated as a noncash payment of principal and interest on the liability recorded for the raw water rights. For budget, wholesale customer charges are net of the anticipated KWA credits to Flint as that is the cash that will be received and available to meet the budgeted revenue requirements. For financial reporting purposes the Flint wholesale charges are recorded as the total amount billed. When the KWA credit is issued, the receivable from Flint is reduced and the principal and interest payments on the liability for the raw water rights are recorded as a noncash transaction. Most of the adjustment shown relates to the principal reduction made for the credits applied which are not an expense for financial reporting basis.
- (m) Investment earnings from the construction fund are not shown as revenue in the budget and are shown as revenue in the financial statements. Construction fund investment earnings are excluded from the definition of revenue for budget purposes as they are used for construction costs and are not used to meet the revenue requirements in the budget.
- (n) Unrealized gains and losses are recorded annually as required for financial reporting purposes but do not reflect actual investment earnings and are not included in cash basis reporting.

- (o) The Water Improvement and Extension fund and the Sewer Improvement and Extension fund reflect certain expenses relating to repairs paid for through the Water and Sewer Improvement and Extension funds, respectively. These are consolidated expenses for financial reporting purposes but are not reflected in the current Operations and Maintenance budget expenses.

- (p) The FY 2026 capital contribution in Nonoperating (revenue) expense represents ARPA (\$0.3 million) grant revenue for the Water system and (\$6.7 million) for the Sewage Disposal system. This nonoperating revenue is reported only in the GAAP-basis financial statements.

Financial Operations KPI

This key performance indicator shown in **Chart 1 – Bank Reconciliation Completion Status** below provides a measure of the progress made in the month-end close process which includes bank reconciliations with a completed status at month end. Through February 28, 2026, all bank accounts are reconciled.

Chart 1 – Bank Reconciliation Completion Status

The Monthly Capital Improvement Plan Financial Summary includes the following.

1. Water System Capital Improvement Plan Spend Incurred to date
2. Sewer System Capital Improvement Plan Spend Incurred to date

Capital Improvement Plan Financial Summary

Great Lakes Water Authority (GLWA) capital improvement projects generally span two or more years due to size and complexity. Therefore, the GLWA Board of Directors (Board) has adopted a five-year capital improvement plan (CIP). The CIP is a five-year, rolling plan which is updated annually and formally adopted by the GLWA Board of Directors. In addition, the Board of Directors adopts a capital spending ratio assumption (SRA) which allows the realities of capital program delivery to align with the financial plan. The SRA is an analytical approach to bridge the total dollar amount of projects in the CIP with what can realistically be spent due to limitations beyond GLWA's control and/or delayed for nonbudgetary reasons. Those limitations, whether financial or non-financial, necessitate the SRA for budgetary purposes, despite the prioritization established.

This report presents quarterly and monthly CIP spending against the prorated CIP in total and the CIP adjusted for the SRA. The prorated CIP is calculated by dividing the total fiscal year 2026 board-approved CIP plan by twelve equal months. It should be noted that for operational purposes, GLWA utilizes Contruent Software for refined monthly projections for cash management and project management.

Capital spend reflects a noticeable variance from budgeted CIP for both the water and sewer funds. For the purposes of this metric, we compare actual spend with the Board-approved budget. For the purposes of managing the financial plan, budget amendments are made to align spending with resources available. Capital spend rate assumptions were proactively updated in this section to reflect the third quarter budget amendments approved at the April 22, 2026 GLWA Board of Directors meeting. The capital spend rate adjustment is 88% of the Board approved CIP planned spend for the water fund and 90% of the Board approved CIP planned spend for the sewer fund.

The State Revolving Fund (SRF) activity reported in Charts 1 and 2 is revised as needed to reflect ongoing changes in approved GLWA SRF funding.

Chart 1 – Water System Capital Improvement Plan Spend Incurred to Date

As of February 2026, the water system incurred \$78 million of construction costs to date. This spend represents 64% of the original, Board-approved CIP, and 73% of the Board-reviewed spend rate adjustment.

Economic factors affecting the CIP spend are considered by the Board quarterly at which time the Board may amend the planned spend rate adjustment.

Several projects were delayed early in the fiscal year which have resulted in actual expenses falling below original budget estimates. We expect a FY 2026 underspend that will be carried forward into FY 2027.

Chart 1 – Water System Capital Improvement Plan Spend Incurred to Date – Spend Rate Adjusted

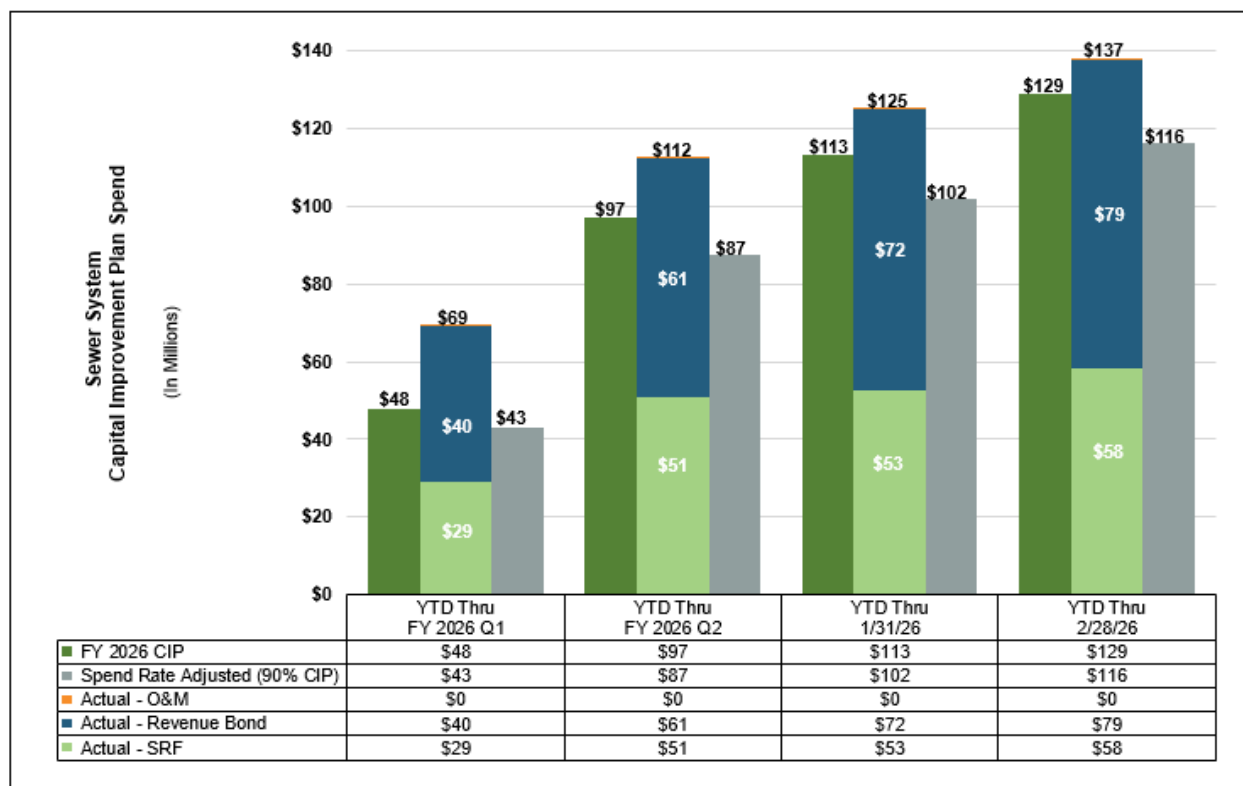

*SRF spend in the chart above reflects total costs associated with active SRF projects and may include some costs not reimbursed through the SRF program.

Chart 2 – Sewer System Capital Improvement Plan Spend Incurred to Date

As of February 2026, the Sewer system incurred \$137 million of construction costs to date. This spend represents 106% of the original, Board-approved CIP, and 118% of the Board-reviewed spend rate adjustment.

Sewer spending is significantly above plan due to a substantial increase in SRF funding for FY 2026, which has enabled the acceleration of several projects originally scheduled for later years in the CIP and ten-year plan.

Chart 2 – Sewer System Capital Improvement Plan Spend Incurred to Date – Spend Rate Adjusted

*SRF spend in the chart above reflects total costs associated with active SRF projects and may include some costs not reimbursed through the SRF program.

This report includes the following.

1. Master Bond Ordinance (MBO) Required Transfers to Accounts Held by GLWA
2. Master Bond Ordinance (MBO) Required Transfers to Accounts Held by DWSD

MBO Transfers to Accounts Held by GLWA

GLWA Transfers: The Treasury team completes required MBO transfers on the first business day of each month. These transfers are completed in accordance with the Great Lakes Water Authority (GLWA) and Detroit Water & Sewerage Department (DWSD) budgets as approved and adopted by the GLWA Board of Directors and DWSD Board of Water Commissioners annually.

Monthly transfers for Operations & Maintenance (O&M), Pension, and Water Residential Assistance Program (WRAP) are one-twelfth of the annual, budgeted amount. Budget stabilization should not require additional funding due to new, baseline funding levels established as part of the June 2018 Memorandum of Understanding but is included to reflect historical activity. If there are transfers to the Extraordinary Repair & Replacement (ER&R) fund they are completed annually based on budget and year-end fund status.

Table 1 – GLWA FY 2026 Water MBO Transfers reflects the required transfers for FY 2026 completed through February 2026. MBO transfers for water totaling \$127.7 million have been transferred to GLWA accounts.

Table 2 – GLWA FY 2026 Sewer MBO Transfers reflects the required transfers for FY 2026 completed through February 2026. MBO transfers for sewer totaling \$165.8 million have been transferred to GLWA accounts.

Table 3 – GLWA MBO Transfer History reflects historical transfers for FY 2016 through FY 2026 to date.

MBO Required and Lease Payment Transfers to DWSD

DWSD Transfers: The GLWA Treasury team completes the required MBO transfers on the first business day of each month. These transfers are completed in accordance with the GLWA and DWSD budgets as approved and adopted by the GLWA Board of Directors and DWSD Board of Water Commissioners annually. Transfers are coordinated with other areas of GLWA Financial Services in advance of the first business day of each month. GLWA Treasury sends confirmation of transfers made to DWSD Treasury.

Monthly transfers for O&M and O&M Pension are one-twelfth of the annual, budgeted amount. The annual lease payment, as stated in the Water and Sewer Lease Agreements, is \$22,500,000 for Water and \$27,500,000 for Sewer. The monthly lease transfer is one-twelfth of the amount as stated in the Lease agreements unless otherwise designated by DWSD. Per Section 3.5 of the Lease, the Lease payment may be used for (a) bond principal and interest for Local System Improvements, (b) bond principal and interest for the City's share of common-to-all System Improvements, and (c) Local System improvements.

Table 4 – DWSD FY 2026 Water MBO Transfers reflects the required transfers for FY 2026 completed through February 2026. MBO transfers for Water totaling \$48.1 million have been transferred to accounts held by DWSD.

Table 5 – DWSD FY 2026 Sewer MBO Transfers reflects the required transfers for FY 2026 completed through February 2026. MBO transfers for Sewer totaling \$58.4 million have been transferred to accounts held by DWSD.

Table 6 – DWSD Water MBO and Lease Payment Transfer History reflects historical transfers for FY 2016 through FY 2026 to date.

This report includes the following:

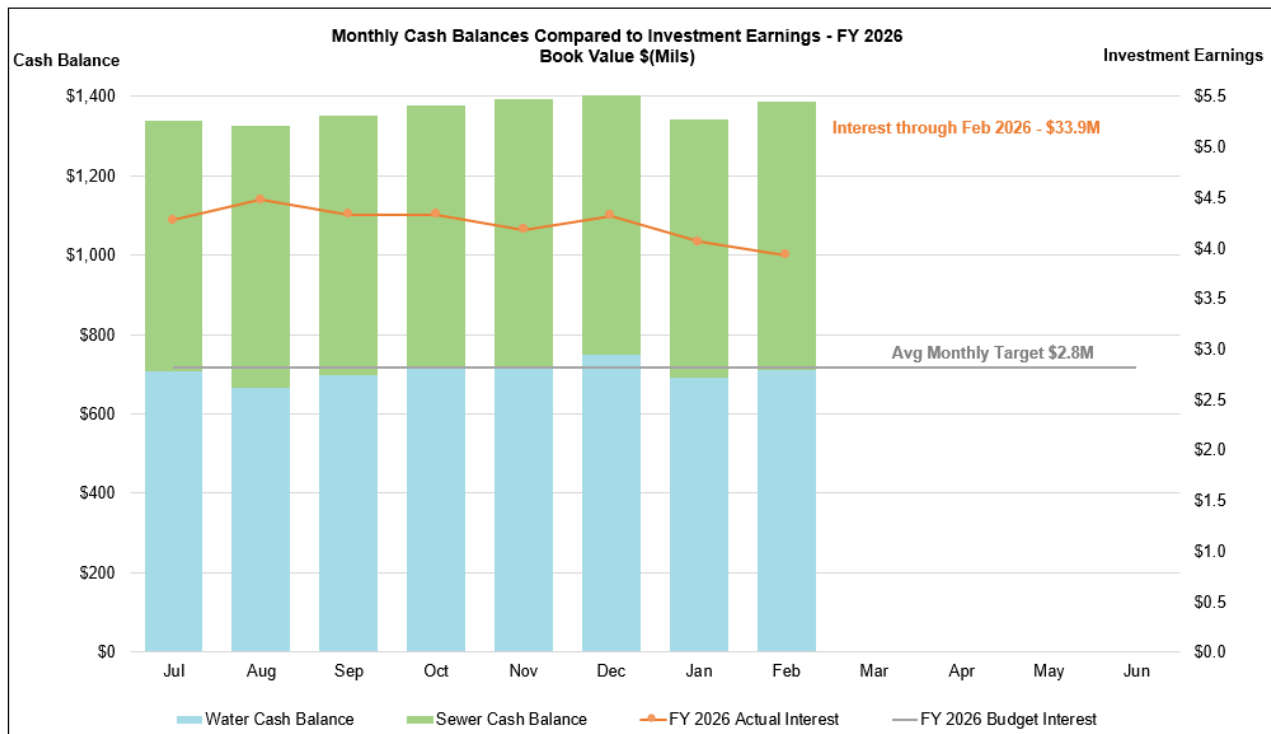

1. Monthly Cash Balances Compared to Investment Income
2. Cash Balance Detail

Monthly Cash Balances Compared to Investment Income

GLWA's investment holdings comply with the requirements of Public Act 20 of 1948, as amended and the GLWA Investment Policy. The cash balances shown in this report include bank deposits, money market funds, a local government investment pool, U.S. Treasuries, Federal Agencies, and commercial paper.

Cash and investment balances change each month based on Master Bond Ordinance (MBO) funding requirements, operational needs, capital spending pace, and mandatory debt payments. Investment income fluctuates monthly based on cash and investment balances as well as market conditions and investment strategy. For the month of February 2026, GLWA earned investment income of \$3.9 million and cumulative FY 2026 earnings through February 2026 of \$33.9 million. Total investment income reported includes earnings from revenue requirement funds as well as construction bond funds.

Chart 1 – Monthly Cash Balances Compared to Investment Income – Through February 2026

\$(Mils)	July	August	September	October	November	December	January	February
Water	707	667	697	719	716	748	690	711
Sewer	633	659	655	659	676	681	653	676
Total	1,340	1,326	1,352	1,377	1,392	1,428	1,344	1,387
Investment Income	4.3	4.5	4.3	4.3	4.2	4.3	4.1	3.9

GLWA continues to refine cash flows and work with its investment advisor to identify strategies to maximize future investment income while meeting the objectives of safety and liquidity.

Cash Balance Detail

Funds Held By GLWA: GLWA cash balances are held in accounts as defined by the Master Bond Ordinance. The accounts are funded by monthly transfers, as stipulated in the MBO, on the first business day of each month. The “operations and maintenance” (O&M) fund transfer amounts are based upon the annual O&M budget approved by the GLWA Board of Directors for the regional systems and by the Board of Water Commissioners for the Detroit Water & Sewerage Department (DWSD) local system budgets. The water and sewer funds held by GLWA and their purpose, as defined by the MBO, are listed below.

Funds Held Within Trust:

- Receiving – all retail and wholesale revenues collected which are distributed in subsequent month(s)
- Debt Service – funds set aside for debt service and debt reserve requirements
- Pension Obligation – funds set aside to meet GLWA’s annual funding requirements for the legacy General Retirement System Pension Plan
- Water Residential Assistance Program (WRAP) – funds set aside to be used to provide financial assistance to qualified residents throughout the local and regional water system as directed by program guidelines
- Budget Stabilization – funds held by GLWA on behalf of DWSD that can be applied against shortfalls in retail revenues
- Emergency Repair & Replacement (ER&R) – funds set aside to pay the costs for major unanticipated repairs and replacements of the local and regional systems
- Improvement & Extension (I&E) – funds set aside to be used for the improvements, enlargements, and extensions of the regional system

Funds Held Outside Trust:

- Bond Proceeds – funds raised from debt issuance used for costs of repairs, construction, and improvements of the regional system
- Operations & Maintenance (O&M) – funds used to meet the operational and maintenance requirements of the regional system

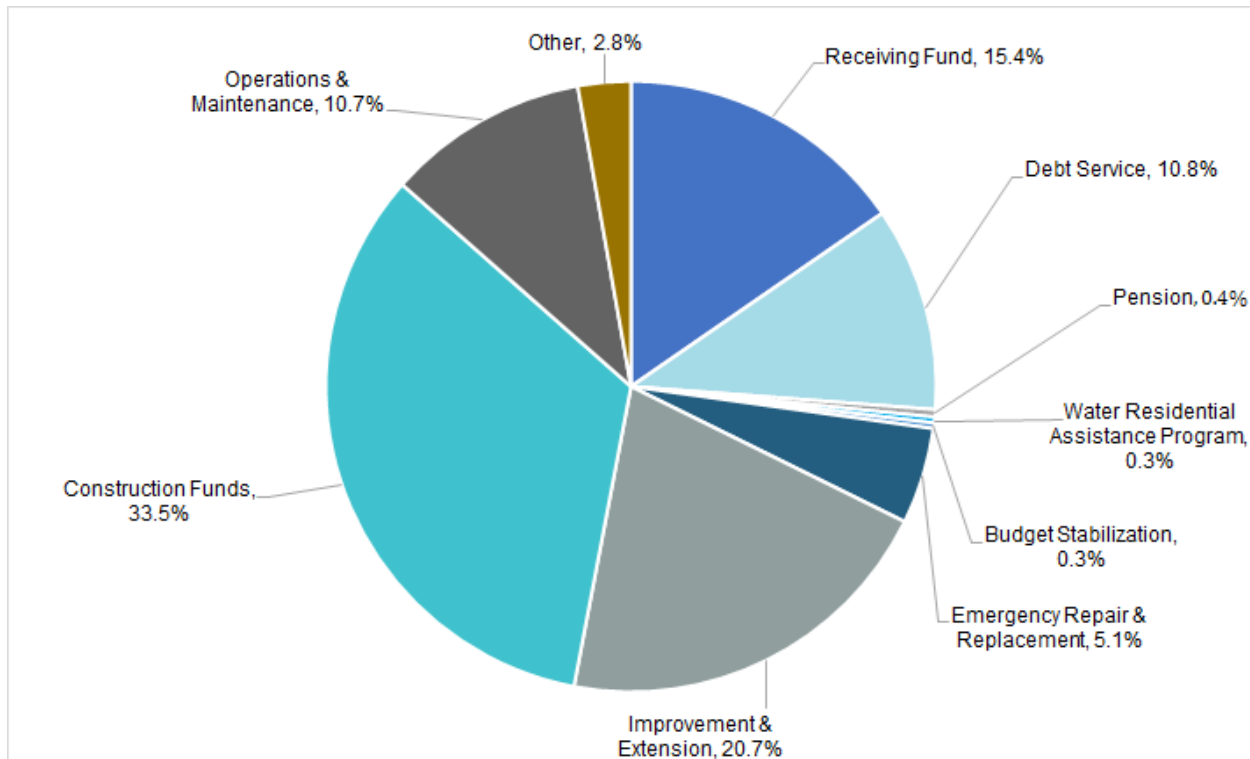

- Other – retainage funds held on behalf of contractors and security deposit funds held on behalf of the City of Flint, and capital contribution funds provided by the Evergreen Farmington Sewer District recognized as related project work is completed

A [chart](#) depicting the follow of funds is online at glwater.org as well as the [MBO](#) documents.

Chart 2 – Cash Balances - Water Funds as of February 2026 - Shows the allocation of the balance among the different categories defined in the section above. The total cash balance for Water Funds as of February 2026 is \$711 million. The allocation of balances among the I&E, bond proceeds, and debt service reserve funds reflects GLWA's commitment to funding capital improvements and meeting debt reserve requirements while simultaneously increasing I&E resources to fund pay-as-you-go capital funding to reduce long-term debt in the future.

GLWA completed a bond transaction of \$231.8 million in June 2025 to support water system improvements. Those proceeds, along with I&E and SRF low-interest loans, will fund the capital program going forward.

Chart 2 – Cash Balances - Water Funds as of February 2026

Note: Due to rounding totals may not equal 100%.

Chart 3 – Cash Balances - Sewer Funds as of February 2026 - Shows the allocation of the balance among the different funds defined in the section above. The total cash balance for Sewer Funds as of February 2026 is \$676 million. Like the Water Funds, the allocation of balances among the I&E, bond proceeds, and debt service reserve funds reflects GLWA's commitment to funding capital improvements and meeting debt reserve requirements while simultaneously increasing I&E resources to fund pay-as-you-go capital funding to reduce long-term debt in the future.

In conjunction with the Water Fund transaction, GLWA completed a bond transaction of \$51.7 million in June 2025 to support sewage disposal system improvements. Those proceeds, along with I&E and SRF low-interest loans, will fund the capital program going forward.

Chart 3 – Cash Balances - Sewer Funds as of February 2026

Note: Due to rounding totals may not equal 100%.

Retail Revenues, Receivables, and Collections: Pursuant to the terms of the lease agreement between the City of Detroit and the Great Lakes Water Authority (GLWA), the Detroit Water & Sewerage Department (DWSD) serves as GLWA's agent for billing activities for the City of Detroit retail customer class. All water and sewer service collections from DWSD customers are deposited in a trust account and are administered in accordance with the GLWA Master Bond Ordinance.

The Monthly Retail Revenues, Receivables, & Collections Report includes the following.

1. DWSD Retail Water Revenue Billings and Collections
2. DWSD Retail Sewer Revenue Billings and Collections
3. DWSD Retail Water and Sewer System Accounts Receivable Aging Report

Note: Wholesale customer revenues are billed by the Great Lakes Water Authority.

DWSD Retail Water Billings and Collections

Retail Billing Basis: DWSD bills retail customers monthly. Customers are billed throughout the month in cycles based on a meter reading schedule beginning with residential accounts and ending with commercial and industrial customers.

Table 1 - DWSD Retail Billings shows the FY 2026 water usage and billed revenue which are provided by DWSD staff. As of February 28, 2026, the DWSD usage was 102.35% of the budget and billed revenue was 101.41% of budget.

DWSD Retail Water Collections: The collections represent payments made by DWSD retail customers. These receipts are deposited directly into a lockbox with a trustee for administration of the flow of funds defined by GLWA's Master Bond Ordinance.

Table 2 - Retail Water Collections shows collections by month for the past 12 months compared to collections for the prior year as well as the calculated difference between the periods.

DWSD Retail Water and Sewer Accounts Receivable Aging Report

The DWSD detailed accounts receivable aging are categorized by customer category.

Table 5 is a summary of the monthly sales, total receivables, bad debt allowance and net water and sewer receivables as of February 28, 2026, with comparative totals from June 30, 2025, June 30, 2024, and June 30, 2023. This table does not include past due accounts that have been transferred to the City of Detroit for collection as tax liens.

The table provides a comparison of days in accounts receivable calculated as net receivables divided by daily sales and confirms that over time, days in AR is held in check overall due to a consistent practice of adjusting the allowance for doubtful accounts monthly. To the extent this allowance is adjusted, and bad debt expense is recognized in the DWSD budget, it does not impact GLWA.

Table 6 is a summary of the total, current and non-current Water and Sewer receivables by category as of February 28, 2026, with comparative totals February 28, 2025. This table does not include past due accounts that have been transferred to the City of Detroit for collection as tax liens.

The Total Balance and Total Bad Debt Allowance as of February 28, 2026, are reflective of the values in both the Table 5 Summary and Table 6 breakdown.

Table 5 – DWSD Retail Accounts Receivable Aging Report – Summary

Summary					
Period Ending	Monthly Sales	Receivables			Days in AR (1)
		Total	Allowance	Net	
June 30, 2023	39,443,000	327,023,000	(272,012,000)	55,011,000	42
June 30, 2024 (2)	39,029,000	324,867,000	(249,922,000)	74,944,000	58
June 30, 2025 (3)	40,227,000	381,752,000	(310,878,000)	70,873,000	53
Feb 28, 2026 (4)	41,300,000	407,239,000	(354,869,000)	52,369,000	38

Totals may be off due to rounding

(1) Days in AR is calculated as net receivables divided by daily sales (monthly sales/30 days).

(2) The June 30, 2024 monthly sales amount was updated in April 2025 reporting to include an increase of approximately \$675,000 that was made subsequent to the original reporting.

(3) The June 30, 2025 year-end allowance amount was updated in July 2025 reporting to include an increase of approximately \$153,000 that was made subsequent to the original reporting.

(4) The annual AR Tax Roll Transfer totaling \$16,150,000 was made in December 2025.

The Monthly Wholesale Billings, Receivables, and Collections Report include the following.

1. Wholesale Water Billings and Collections
2. Wholesale Sewer Billings and Collections
3. Wholesale Water & Sewer Accounts Receivable Aging Summary

Wholesale Water Billings and Collections

Wholesale Water Contracts: The Great Lakes Water Authority (GLWA) provides wholesale water service to 87 member-partners through a variety of service arrangements.

Service Arrangement Type

Model Contract	85
Emergency	0
Older Contracts	<u>2</u>
Total	<u><u>87</u></u>

***Note:** Services are provided to the Detroit Water & Sewerage Department (DWSD) via a Water and Sewer Services Agreement (WSSA). See the “Retail Revenues, Receivables, and Collections Report” section of this monthly report.*

Wholesale Water Billing Basis: Beginning with FY 2016, wholesale water charges were restructured to create a more stable revenue stream by using a historical rolling average to project customer volumes which accounts for 40% of the monthly charges and 60% of the annual customer revenue requirement as a monthly fixed charge.

***Table 1 - Wholesale Water Billings** shows the FY 2026 water billed usage and revenues. As of February 28, 2026, the billed usage was at 102.54% of the original plan and billed revenue at 101.30% of the original plan. Billings and usage from the City of Flint are included as they were assumed in the FY 2026 Budget.*

Wholesale Water Collections: The collections represent payments made by wholesale customers. These receipts are deposited directly into a lockbox with a trustee for administration of the flow of funds defined by GLWA’s Master Bond Ordinance.

***Table 2 - Wholesale Water Collections** shows collections by month for the past 12 months compared to collections for the prior year as well as the calculated difference between the periods. Current year collections are trending above the prior year for the twelve-month period ending February 28, 2026.*

Achievement of Original Plan 102.54% 101.30%

(1) Figures are stated as "Service Months;" that is, July figures represent bills issued in August, etc.

(2) Charges are based on the approved FY 2026 water supply system charge schedule.

(3) Water Revenues differ from Table 1A within the budget to actual analysis section because amounts are reduced by the monthly payment to the City of Flint for a license to raw water rights under the Flint Raw Water Contract in Table 1A.

Table 2 - Wholesale Water Collections

Water				
Month	Current Year	Prior Year	Variance	Ratio
March	26,649,141	24,740,554	1,908,587	7.71%

Rolling 12-Month Total	355,173,132	335,980,044		
Rolling, 12-Month Average	29,597,761	27,998,337		

Wholesale Sewer Billings and Collections

Wholesale Sewer Contracts: GLWA provides wholesale sewer service to 18 member-partners via multiple service arrangements.

Service Arrangement Type	
Model Contract	14
Emergency	0
Older Contracts	<u>4</u>
Total	<u><u>18</u></u>

Note: Services are provided to the Detroit Water & Sewerage Department via a Water and Sewer Services Agreement (WSSA). See the “Retail Revenues, Receivables, and Collections Report” section of the monthly report.

Wholesale Sewer Billing Basis: Beginning in FY 2015, the “sewer rate simplification” initiative was applied which provides for a stable revenue stream and predictability for our member partners. Wholesale sewer customers are billed a fixed monthly fee based upon the annual revenue requirement.

Table 3 - Wholesale Sewer Billings shows the FY 2026 sewer billed revenue. As of February 28, 2026, the billed revenue reflects 100.00% of the original plan.

Wholesale Sewer Collections: The collections represent payments made by wholesale customers. These receipts are deposited directly into a lockbox with a trustee for administration of the flow of funds defined by GLWA’s Master Bond Ordinance.

Table 4 - Wholesale Sewer Collections shows collections by month for the past 12 months compared to collections for the prior year as well as the calculated difference between the periods.

The shift in wholesale sewer collection patterns is largely attributable to the timing of payments received. There are several large accounts whose payments swing between the end of the current month and the beginning of the next month. Current year collections are trending above the twelve-month period ending February 28, 2026.

Wholesale Water & Sewer Accounts Receivable Aging Summary

GLWA operational invoices reflect 45-day payment terms. This allows Member Partners the ability to collect payment for services rendered under typical 30-day payment terms with an additional 15-day window to make payment to GLWA for wholesale services provided during that service period.

Table 5 - Wholesale Accounts Receivable Aging Summary is a summary of the total, current and non-current receivables by category as of February 28, 2026.

Table 6 - Wholesale Accounts Receivable Aging Summary, Net Dearborn is the same summary *without* the past due balances for Dearborn. Five water accounts comprise the total past due balance of \$461,726 reported of which \$349,333 was paid in March. The Billing Team continues to work with member partners on the remaining \$112,393 unpaid balance.

All sewer accounts are current in February. The IWC past due balance reflects four accounts totaling \$30,567 of which \$24,215 was paid in March and \$6,085 in April. The Billing Team continues to work with the member partner on the remaining \$267 unpaid balance. The Pollutant Surcharge past due balance consists of smaller account holders that GLWA staff continue to communicate with. The credit balance of \$5,335 relates to a usage adjustment reported that will be applied to the customer's next invoice.

The Monthly Trust Receipts & Disbursements Report includes the following.

1. GLWA Trust Receipts & Disbursements – Net Cash Flows and Receipts
2. DWSD Trust Receipts & Disbursements – Net Cash Flows and Receipts
3. Combined System Trust Receipts & Disbursements – Net Cash Flows

GLWA Trust Receipts & Disbursements

Net Cash Flows and Receipts Basis: The trusts established pursuant to the Master Bond Ordinance (MBO) outline a flow of funds that governs the priority of the application of cash receipts from both the regional wholesale (i.e., Great Lakes Water Authority or GLWA) and local retail (i.e., Detroit Water & Sewerage Department or DWSD) activities which are further separated by the water system and the sewage disposal system.

This report provides an ongoing status of the net cash flows of both organizations (GLWA and DWSD) to fund their allocated share of Master Bond Ordinance requirements in accordance with the leases for the regional systems.

Table 1 – GLWA Net Cash Flows from Trust Receipts & Disbursements provides a summary of cash receipt collections and required MBO transfers by fiscal year. Fiscal year 2026 reflects eight months of activity to date.

Water fund receipts exceeded required disbursements by 6% through February 28, 2026 compared to the four-year historical average ratio of required receipts exceeding disbursements by 5% since July 1, 2021.

Sewer fund receipts exceeded required disbursements by 12% through February 28, 2026 compared to the four-year historical average ratio of required receipts exceeding disbursements by 7% since July 1, 2021.

Chart 1 – GLWA 12-Month Net Receipts – Water outlines monthly cash receipt trends across two points of reference for the regional water system—current year and prior years. The black line at zero highlights the minimum goal for net receipts.

Chart 2 – GLWA 12-Month Net Receipts – Sewer outlines monthly cash receipt trends across two points of reference for the regional sewer system—current year and prior years. The black line at zero highlights the minimum goal for net receipts.

DWSD Trust Receipts & Disbursements

Net Cash Flows and Receipts Basis: The trusts established pursuant to the Master Bond Ordinance (MBO) outline a flow of funds that governs the priority of the application of cash receipts from both the regional wholesale (i.e. Great Lakes Water Authority or GLWA) and local retail (i.e. Detroit Water & Sewerage Department or DWSD) activities which are further separated by the water system and the sewage disposal system.

This report provides an ongoing status of the net cash flows of both organizations (GLWA and DWSD) to fund their allocated share of Master Bond Ordinance requirements in accordance with the leases for the regional systems.

Table 2 – DWSD Net Cash Flows from Trust Receipts & Disbursements provides a summary of cash receipt collections and required MBO transfers by fiscal year. Fiscal year 2026 reflects eight months of activity to date.

Water fund receipts exceeded required disbursements by 10% through February 28, 2026 compared to the four-year historical average ratio of required receipts exceeding disbursements by 7% since July 1, 2021.

Sewer fund receipts exceeded required disbursements by 5% through February 28, 2026 compared to the four-year historical average of required receipts exceeding disbursements by 3% since July 1, 2021.

Financial Operations KPI - Liquidity

This key performance indicator shown in **Chart 1 – Historical Schedule of Days Cash on Hand – Liquidity – Regional System** and **Table 1 – Schedule of Days Cash on Hand – Liquidity – Regional System** below provides a measure of a utility’s ability to meet expenses, cope with emergencies and navigate business interruptions. Liquidity is one of several key metrics monitored by bond rating agencies reflecting an organization’s financial strength. The Authority’s current goal is to maintain cash on hand above 500 days moving up to 600 days. Having a strong days cash has been instrumental in reaching our current bond credit rating.

Both GLWA Water and Sewer funds continue to exceed this target with Water at 666 and Sewer at 652 days cash on hand as of February 28, 2026. These balances remain strong for the regional system but did decrease in FY 2022 as I&E funds were used as planned to fund capital improvement projects. December 2023 and June 2025 revenue bond transactions replenished the construction bond funds reducing the emphasis on I&E funding. The FY 2026 projection is calculated based on values from the GLWA FY 2026 – 2030 Budget & Five-Year Plan.

Chart 1 – Historical Schedule of Days Cash on Hand – Liquidity – Regional System

Note: The GLWA Annual Comprehensive Financial Reports are the source of all historic data referenced. Refer to these reports for detailed calculations by fiscal year.
