Vendor	Contact Name	Email Address	Explanation of No Bid Submittal
DDL Solutions LLC	Dale Legrone	ddlsolutions3@gmail.com	<p>We would have welcomed the chance to participate and submit a bid; however, after carefully reviewing the scope of work, we determined that certain aspects extended beyond our current staffing capacity and direct experience.</p> <p>As a small minority infrastructure business, our core capabilities include directional drilling, excavation and grading, and demolition services. While we were unable to submit a competitive proposal for this particular project, we remain eager to continue strengthening our knowledge base, expanding our workforce, and aligning with the requirements of future opportunities.</p>
Kokosing Industrial	Lloyd Lambrix	lloyd.lambrix@kokosing.biz	The project wasn't a good fit for us. We generally look at every thing GLWA advertises.
Inland Waters Pollution Control	Fred Schuessler	Fred.Schuessler@puriscorp.com	We simply took a look, it is not in our normal scope of work.
CDM Smith Michigan Inc.	Thomas B. McNulty	mcnultytb@cdmsmith.com	CDM Smith does not perform this type of service. We downloaded information on the project from Bonfire for informational purposes only.
M-K Construction	Kelly Saunders	kelly@m-kconstructionco.com	We decided to pass on this project due to a couple of facts: It's very difficult to get bid results when we submit a bid. This ties up our bidding and planning work phases on all other possible projects. It's hard to keep bidding to win other projects not knowing if we are getting a project with a deadline looming. If we pass up bidding on other projects, then we might fall victim to no work on the books.

Midwest Injection	Jamie Recker	Jamie@midwestinjection.com	After reviewing the plans, the job didn't appear to be a good fit for our upcoming schedule.
Royal Crane Service, Inc	Elisabeth Corona	ecorona@royalcrane.us	Royal Crane Service, Inc. did not submit a direct bid for the referenced project because we participated as a subcontractor under American Process Group, who submitted the primary proposal.
LGC Global	Jignesh Madhani	jignesh.madhani@lgccorp.com	LGC did not submit a bid on the referenced project because we received certain equipment pricing later than expected, which did not allow sufficient time to prepare and submit a complete and competitive proposal.  If the project is rebid, LGC Global, Inc. will plan to submit a response.
Denali Water Solutions LLC	Glen Knecht	glen.knecht@denaliwater.com	Denali did not respond with a proposal for this project because we were unable to get a representative to the pre bid meeting in order to properly evaluate the scope of work and conditions. Without that knowledge, we were unable to prepare a thorough and complete response.
Ethos Environmental Partners	Chris Lowman	chris@ethosep.com	It was above our bonding capacity. Would have loved to bid otherwise!
Synagro Central, LLC	Kathleen Wright	kwright@synagro.com	Synagro ultimately no bid REQ-0004156 because the operational parameters in the bid specifications for the project were prohibitive for us to provide a competitive bid.

Merrell Bros., Inc.	Kim Fuller	kim.fuller@merrellbros.com	The timing of the bid submittal and our schedule was the reason for our team not submitting a bid.
