**Contract No. Req-0003399 – Oakwood Sewer District PFAS/PFOS Compounds Assessment and Remediation Opportunities**  
**Date: 11/5/2025**

<b>Vendor</b>	<b>Contact Name</b>	<b>Email Address</b>	<b>Explanation of No Bid Submittal</b>
Environmental Sales, Inc.	Eric Schiebold	<a href="mailto:eschiebold@aol.com">eschiebold@aol.com</a>	I'm an equipment rep and was interested in the project to see if my equipment would be appropriate for this project.
Drummond Carpenter, PLLC	Cathy Foerster	<a href="mailto:cfoerster@drummondcarpenter.com">cfoerster@drummondcarpenter.com</a>	Drummond Carpenter was a subconsultant on the LimnoTech team.
WSP of Michigan	James Rydquist	<a href="mailto:James.rydquist@wsp.com">James.rydquist@wsp.com</a>	It was determined WSP could have a conflict of interest with some private clients in the service area and we decided to not bid.
Kennedy Industries	Spencer Hasbrouck	<a href="mailto:shasbrouck@kennedyind.com">shasbrouck@kennedyind.com</a>	Kennedy Industries does not offer this specific service or products at this time.
NTH Consultants, Ltd.	John Kosnak, P.E.	<a href="mailto:jkosnak@nthconsultants.com">jkosnak@nthconsultants.com</a>	The reason for NTH not submitting on this is because we were on the LimnoTech team.
FK Engineering	Fritz Klingler	<a href="mailto:fklingler@fkengineering.com">fklingler@fkengineering.com</a>	We do not have the minimum qualifications for the scope required.
DDL Solutions	Dale Legrone	<a href="mailto:ddlolutions3@gmail.com">ddlolutions3@gmail.com</a>	<p>DDL Solutions LLC chose not to submit a proposal at this time primarily due to limited internal capacity. We currently operate with a small 6-man field crew, and after reviewing the scope of the PFAS/PFOS Assessment &amp; Remediation opportunities, I felt that our staffing and technical depth were not at the level needed to execute this contract fully on our own at this time.</p> <p>However, this RFP is exactly the type of project we eventually want to grow into. We are actively building our capabilities in underground infrastructure work, and we are very interested in learning more about PFAS/PFOS remediation, engineering requirements, testing methodology, and best practices within this space.</p> <p>If possible, I would be open to any future opportunities around:</p> <p>receiving technical guidance or mentorship from engineers or prime contractors already experienced with PFAS/PFOS projects</p>

			<p>participating as a subcontractor on future phases or similar programs to gain exposure and experience</p> <p>being considered for smaller work packages or portions of scope that align with our current capacity as we continue scaling our team</p> <p>My goal is to eventually be able to take on work of this size and complexity responsibly — and we are committed to building the knowledge, partnerships, and workforce to do so.</p> <p>Thank you again for considering us, and I appreciate the opportunity to provide this feedback. I look forward to future opportunities and collaboration. Also if there are any opportunities to talk or get information from engineers of how to better understand the projects that is at hand.</p>
Fishbeck	Maria Sedki	<a href="mailto:mesedki@fishbeck.com">mesedki@fishbeck.com</a>	Fishbeck would have been interested to submit as a subconsultant only. However, no firms contacted were planning to submit as prime.
Larson Design Group	Ethan Coffin	<a href="mailto:ecoffin@larsondesigngroup.com">ecoffin@larsondesigngroup.com</a>	I assisted another team on their submission informally.
Kermon	David Nelson	David.nelson@kemron.com	Did not have a Michigan licensed PE and those that were contacted were unable to provide competitive pricing for the SOW.
Corvias Infrastructure Solutions, LLC	Christine Nichols	Christine.nichols@cisolutions.com	Not pursuing PFOA/PFOS-related opportunities currently.
Hazen and Sawyer	Jared Stewart	jstewart@hazenandsawyer.com	We had to make a strategic decision related to bandwidth given the timing the project had hit the street. We had two other major pursuits our team was working on at the same time.
Applied Science, Inc.	John Michalski	jmichalski@asi-eng.com	We joined a team as a subconsultant and at the last minute the prime firm decided to pull the submission.
Arcadis of Michigan, LLC.	Mike Halwani	Mike.Halwani@arcadis.com	After reviewing the RFP documents for the “Oakwood Sewer District PFAS/PFOS Compound Assessment and Remediation Opportunities”,
