

Summary of 2025 Financing Results Presented to Board of Directors June 25, 2025

\$528,220,000 Water Supply System Revenue and Revenue Refunding Bonds, Series 2025

\$254,725,000 Water Supply System Revenue Refunding Senior Lien Bonds, Series 2025A

\$54,530,000 Water Supply System Revenue Refunding Second Lien Bonds, Series 2025B

\$109,830,000 Water Supply System Revenue Refunding Senior Lien Bonds, Series 2025C

\$109,135,000 Water Supply System Revenue Refunding Second Lien Bonds, Series 2025D

\$435,050,000 Sewage Disposal System Revenue and Revenue Refunding Bonds, Series 2025

\$104,280,000 Sewage Disposal System Revenue Refunding Senior Lien Bonds, Series 2025A

\$283,300,000 Sewage Disposal System Revenue Refunding Second Lien Bonds, Series 2025B

\$47,470,000 Sewage Disposal System Revenue Second Lien Bonds, Series 2025C

Executive Summary

Recent bond transactions for the Water System and Sewer System achieved favorable outcomes for GLWA

- Long-term funding procured at fixed interest rates for approximately \$230 million of regional Capital Improvement Program projects for the Water System and \$50 million for the Sewer system
- Achieved all-in cost of new money borrowing at favorable levels during a period of increasing interest rates and volatile market: 4.83% for the Water System and 4.88% the Sewer System
- No deposits to Reserve Funds because of achieving criteria to eliminate that mandatory requirement in 2024; translates to an estimated avoidance of additional borrowing by up to \$19 million for this 2025 transaction
- Rating agency upgrade achieved from Fitch (Sewer), continuing the Authority's positive rating trajectory and credit story
- Extensive outreach to investors was effective and included an electronic investor roadshow and 7 one-on-one investor calls between the Authority and major institutional investors
 - Strong GLWA name received orders from nearly 70 unique institutional investors, leading to GLWA's lowest ever credit spreads to municipal benchmark rates
 - Level of interest enabled GLWA to reduce yields on the date of the sale in oversubscribed maturities from preliminary morning levels, reducing total debt service by a net present value of approximately \$1.3 million
 - SWS supported the transaction by underwriting \$35.1 million of bonds to maintain the integrity of the order book
- Successful refinancing of \$337.0 million of Water System bonds and \$429.9 million of Sewer System bonds
 - Water System future cashflow savings of \$33.7 million (\$27.1 million net present value, or 8.0%)
 - Sewer System future cashflow savings of \$43.6 million (\$34.3 million net present value, or 8.0%)
 - Savings incorporates the exceptional tender participation results of 74% on tax-exempt bonds and 12% on taxable bonds
- Refinancing of \$7.5 million SAW loan at the request and with the support of Michigan Finance Authority (MFA) generates NPV savings of \$770,000 and assists MFA with closing out borrowing program that is no longer active, creating valuable administrative efficiencies
- New money structure on each of Water and Sewer systems smooths the impact of refunding savings on overall debt profile

Goals Set... Goals Met

The goals for the Series 2025 financings were achieved and provide the Authority with a strong base with which to weather the challenges of a growing capital plan while still achieving future financial goals.

Acquire Necessary Capital Funding At Favorable Levels

Capture Available Debt Service Savings

Positive Investor Feedback and High Level of Participation on Innovative Tender Refunding

Secure Continued Positive Ratings Trend

Expand the Investor Base for GLWA Credits and Streamline Disclosure Process

Streamlining the Bond Transaction Process

One of the goals for the Series 2025 bond transaction was to streamline the process to accommodate an annual bond transaction.

- Brought financial projections and presentation function for bond documents in-house, with external review by system consultant
 - Master Bond Ordinance requires review by external, subject matter expert “System Consultant”
- Refreshed format of disclosure documents to improve readability, enhance transparency, and create efficiencies in updating information in the future
 - Historical and projected financial information are presented in their own appendices
 - Appendix I includes historical tables that align information disclosed within Annual Comprehensive Financial Report
 - Appendix II includes projected financial information in tables that align what is disclosed in the biennial budget and financial plan
 - Appendix III provides the System Consultant letter
- GLWA received significant positive investor feedback on enhanced clarity and consistency of presentation achieved with new format of disclosure documents

History of Debt Service Savings Since GLWA Standup

Through the leadership of the Authority's management, the financing team has been able to achieve nearly \$1 billion in future cash flow debt service savings since the stand-up of GLWA

GLWA Credit Spreads Have Declined Since Standup

- As GLWA's credit profile has strengthened, GLWA's credit spreads to the benchmark have narrowed
 - Narrowing of GLWA credit spreads translates directly to reduced debt service costs and increased availability of refinancing savings, resulting in tangible benefits for member partners that comes from GLWA's stronger credit profile
 - GLWA's tax-exempt borrowing costs are measured as the sum of municipal benchmark rates (which are common to the market and track borrowing costs for a AAA-rated municipal borrower) plus credit spreads that are specific to GLWA
- The following charts show GLWA credit spreads in the 9 and 10-year part of the yield curve since GLWA's inaugural financing in 2016 (there were no 10-year sewer bonds in 2024)
 - Credit spreads are also impacted by market conditions at the time of the sale; GLWA's credit spreads in 2018 reflected very favorable market conditions and overall low rates

Changing Market Fundamentals and Volatility

Comprehensive Marketing Outreach

Order Book & Marketing Process:

- An extensive premarketing effort led by Siebert Williams Shank & Co., LLC in the days leading up to the sale generated demand from a wide variety of institutional accounts
 - Marketing outreach efforts included 7 one-on-one investor calls, 67 unique investor views of the POS, and 42 unique investor views of the investor roadshow
 - Of the roadshow viewers, 23 unique investors followed through with orders on either the water or sewer credits
 - 6 of 7 investors requesting one-on-one calls with GLWA management followed through with orders
- **Institutional Orders:**
 - **The Water System** transaction received \$1.51 billion in priority orders
 - 67 unique investors participated, including 44 institutional investors that did not participate in GLWA's 2024 water transaction
 - **The Sewer System** transaction received \$1.17 billion in priority orders
 - 40 unique investors participated, including 29 institutional investors that did not participate in GLWA's 2024 sewer transaction
- **Subscriptions:**
 - Orders were received from a mix of investors including insurance companies, bond funds, separately managed accounts ("SMA"), and bank portfolios
 - **Water System:** Subscription levels (excluding stock) ranged from 0.0x to a high of 10.5x
 - **Sewer System:** Subscription levels (excluding stock) ranged from 0.0x to a high of 5.6x

Tender Refunding Results

GLWA's 2025 tender offer represents one of the largest and most successful liability management transactions in the municipal market this year and allowed GLWA to generate \$43 million of cashflow savings (\$32 million NPV)

- This FY 2025 tender transaction follows a successful tender in FY 2024 demonstrating GLWA's commitment to actively manage its debt portfolio to keep charges affordable
- As part of overall liability management strategy, GLWA invited the holders of \$1.37 billion of bonds to sell their bonds back to the Authority, funded with the proceeds of Series 2025 bonds
 - \$753.3 million of tax-exempt bonds (Water 2016C/D and Sewer 2016B/C)
 - \$617.9 million of taxable bonds, which were offered previously in 2023 (Water 2020C and Sewer 2020A/B)
- Holders of \$625.3 million of bonds accepted GLWA's offer, representing an overall *aggregate* participation rate of approximately 45.6%
 - Higher tender participation translates to additional debt service savings
- *Tax-exempt tender level of 73.5%* was the highest participation rate by a municipal issuer this year
 - GLWA accepted the tendered tax-exempt bonds with maximum benefit and maintains a valuable option to refund the remaining bonds in a future current refunding in 2026
 - Investor participation in the tender was aided by order priority on the new Series 2025 bonds for tendering investors who sought to retain exposure to GLWA credit
 - Successful tax-exempt tender response is sufficient to manage interest rate exposure concentrated in 2026
- *Taxable tender level of 11.6%* met expectations
 - Lower participation expected because of unfavorable accounting treatment for taxable bonds repurchased below face value and GLWA previously tendered for these same bonds

Water System – Transaction Overview

- GLWA issued \$528.2 million in Water System Bonds to fund \$230 million for capital improvements, refund bonds for savings, and fund the purchase of tendered bonds for savings
- Tender, refunding, and new money components were structured together to optimize transaction cashflows
 - Tender refunding and current refunding were structured to create level savings through the term of the refunded debt, to the extent possible
 - New money amortization used to smooth out cashflow impact from savings structure; 30-year final maturity; Principal beginning in 2027
- Tender & refunding components generated \$33.7m of cashflow savings, or \$27.1m of present value savings (8.0% of refunded / tendered par)
 - Tender: \$21.7m cashflow; \$17.2m present value (7.4%)
 - Refunding: \$11.9m cashflow; \$9.9m present value (9.3%)
